Re: 1249 Great Hill Road Map 121 Lot 11-4, Guilford CT 06437 (accessory apartment)

The application for an accessory apartment on the above referenced property will increase the design flow from the building. The Health Department is working with the applicant to complete the installation of the septic systems. Approval is contingent on the enlargement of the leaching system as designed by a licensed septic installer. A code-complying has also been determined on the property therefore meets the requirement for 19-13-B100a.
