

WEBVTT

1

00:00:00.900 --> 00:00:09.389

Laura: I will take notes and Judy when you can get line and connect with us, just let us know. Judy is our recording Secretary

2

00:00:09.809 --> 00:00:11.250

PDL: Low every Bobby

3

00:00:11.700 --> 00:00:12.900

Janet Ainsworth: Application, we are

4

00:00:14.190 --> 00:00:14.910

Laura: Going to know

5

00:00:15.809 --> 00:00:19.890

PDL: Or Boba Fett I this case by yeah who's counting. Yes, yes.

6

00:00:20.040 --> 00:00:21.270

Laura: Okay, yeah. All right.

7

00:00:22.410 --> 00:00:29.340

Laura: All right. Okay, so, um, so let's take a roll call roll call. So calling the meeting to order 706

8

00:00:30.540 --> 00:00:35.040

Laura: So I am here. Kevin is here.

9

00:00:36.210 --> 00:00:38.340

Laura: Alan, Janet.

10

00:00:39.480 --> 00:00:40.470

Laura: And Doug

11

00:00:41.490 --> 00:00:42.300

Laura: Scott

12

00:00:43.560 --> 00:00:44.310

Laura: I'm

13

00:00:46.620 --> 00:00:48.480

Laura: Missing so

14

00:00:50.310 --> 00:00:54.780

Laura: Um, and so we know judy is around there somewhere.

15

00:00:54.810 --> 00:00:56.100

Janet Ainsworth: Yeah, we could see her.

16

00:01:00.660 --> 00:01:20.460

Laura: And so, so I'm so we have a full we have a full quorum, so that's good to know and and then we have two guests who will be joining us as I believe part of the act of presentation in the active portion of the meeting, not the public comments. Is that right, Kevin.

17

00:01:21.810 --> 00:01:23.970

Kevin Magee: I'm they can provide

18

00:01:25.560 --> 00:01:28.890

Kevin Magee: Dwayne's here listening as part of the

19

00:01:29.910 --> 00:01:34.320

Kevin Magee: Like quite a pod friends like one upon so

20

00:01:35.430 --> 00:01:39.330

Kevin Magee: Jeff chilis on so it's waiting wants to speak, he can speak in public forum.

21

00:01:40.380 --> 00:01:47.490

Kevin Magee: And if I'm Terry wants to give a heads up on something else she can talk in public forum before her. I'm also

22

00:01:47.670 --> 00:01:48.540

Laura: Okay, great.

23

00:01:48.630 --> 00:01:49.950

Kevin Magee: And we also have from

24

00:01:50.220 --> 00:01:55.200

Kevin Magee: Listening is windy from the yellow ones Commission this kind of during the meeting there. Okay.

25

00:01:56.280 --> 00:01:57.780

Laura: And what is Wendy's last name.

26

00:01:58.890 --> 00:01:59.610

Kevin Magee: For us.

27

00:02:00.690 --> 00:02:01.680

Laura: When it's spelled it for me.

28

00:02:02.370 --> 00:02:07.830

Wendy's iPad: Yeah, I'll spell it. If you are and I access. Thanks, Kevin.

29

00:02:09.630 --> 00:02:16.770

Laura: And TERRY, YOU'RE DOING. You are spelled o r SK II, is that correct

30

00:02:18.840 --> 00:02:21.120

Laura: Or is key.

31

00:02:21.240 --> 00:02:22.680

Kevin Magee: Or lol

32

00:02:23.340 --> 00:02:30.150

Laura: Right. And I'm just in case. Judaism watching this, I want to capture it and Terry. Your last name is spelled

33

00:02:30.570 --> 00:02:32.250

Terri Cain: Ch i n

34

00:02:32.730 --> 00:02:35.070

Laura: G H I m with an e.

35

00:02:35.520 --> 00:02:38.730

Laura: No. Okay. All right. Oh, like the Bible King

36

00:02:38.940 --> 00:02:40.230

Terri Cain: That's like like Kane.

37

00:02:40.320 --> 00:02:40.890

Right, okay.

38

00:02:42.780 --> 00:02:44.310  
Laura: And I'm sure you will enable

39  
00:02:45.630 --> 00:02:45.750  
Terri Cain: You

40  
00:02:50.730 --> 00:02:53.010  
Laura: Just have water. I want you to know. It just, why are you

41  
00:02:53.040 --> 00:02:54.750  
Janet Ainsworth: Are you enjoying your last meeting.

42  
00:02:56.580 --> 00:03:00.270  
Laura: I did actually think about bringing a glass of wine to it. But no, I thought better

43  
00:03:01.110 --> 00:03:04.170  
PDL: Because we're not on Tom property every weekend.

44  
00:03:06.510 --> 00:03:11.010  
Laura: Okay, so, um, so let's so looking at the agenda.

45  
00:03:12.480 --> 00:03:21.030  
Laura: So we have captured Members present and then approval of it. You said the only one missing is Patricia Keegan at this point. Right. Okay.

46  
00:03:21.240 --> 00:03:21.540  
Janet Ainsworth: Right.

47  
00:03:21.630 --> 00:03:32.190  
Laura: So some and then approval of agenda. So what we do have a lot to cover. So let's take a hard look at this agenda and

48  
00:03:33.030 --> 00:03:40.740  
Laura: Decide what things could be pushed to the front. I mean, obviously, public forum will happen first. Certainly, um,

49  
00:03:41.340 --> 00:03:57.450  
Laura: And then I think we could make quick work of the operations portion of the meeting, so we can maybe go through that there are a few letters, we have to go over and then should we, at that point, go to the portions of the meeting where our guests would be involved.

50

00:03:58.170 --> 00:03:58.890

Janet Ainsworth: That makes us

51

00:03:58.950 --> 00:03:59.970

Laura: Here in Duane

52

00:04:01.140 --> 00:04:02.160

Terri Cain: I'd appreciate that.

53

00:04:02.340 --> 00:04:04.740

Laura: Okay, I know you would just love to see everything a

54

00:04:04.740 --> 00:04:06.030

Janet Ainsworth: Major line 30

55

00:04:08.460 --> 00:04:18.090

Laura: So we will be happy to do that for you. So that means the lake want to plug subcommittee will be something that will go

56

00:04:18.810 --> 00:04:25.590

Kevin Magee: Actually the quantified as its own I actually made them also under Demuth under conservation, so that one's pretty high up on there.

57

00:04:25.980 --> 00:04:34.680

Kevin Magee: Okay, just looking at moving up sustainable Task Force. If you want to move that up after operations.

58

00:04:35.070 --> 00:04:48.900

Laura: Okay, sustainable task forces now under f two, so why don't we move that which do you want to do first, Kevin, the sustainable task force or the liquid upon which do you

59

00:04:50.640 --> 00:04:51.690

Kevin Magee: Prefer. Either way works.

60

00:04:52.500 --> 00:05:02.730

Laura: All right. Okay, so what we'll do quanta POG first and then we'll do sustainable girlfriend Task Force, and then we'll go back to the normal structure. Is there anything

61

00:05:03.840 --> 00:05:06.570

Laura: Given keeping in mind that we do have election of offices.

62

00:05:08.040 --> 00:05:11.850

Laura: Except, we'll do that in Executive Session. Is that correct, Kevin and Judy.

63

00:05:12.750 --> 00:05:13.980

Kevin Magee: How that's regular session.

64

00:05:14.310 --> 00:05:15.240

Laura: Is right okay

65

00:05:15.390 --> 00:05:16.950

Kevin Magee: Yeah. What do you do behind the scenes on that.

66

00:05:17.250 --> 00:05:18.300

Duane Orloske: Okay, great.

67

00:05:19.380 --> 00:05:26.610

Laura: Um, I would propose, maybe we move election of officers to the last thing. Does that make sense. Yep. Get through everything else first

68

00:05:27.750 --> 00:05:31.680

Laura: Okay. Anything to add anything that anyone want to

69

00:05:32.910 --> 00:05:36.240

Laura: To put on the agenda that isn't on any commission members for alternate

70

00:05:39.660 --> 00:05:44.850

Doug Clark: Any updates on the weather there will be funding available for the Timberlands management plan.

71

00:05:45.960 --> 00:05:48.720

Laura: Yes, we want to make sure that we get to that.

72

00:05:50.190 --> 00:05:51.330

Janet Ainsworth: Where are we adding that

73

00:05:52.380 --> 00:05:54.690

Doug Clark: I would put that under old business. Okay.

74

00:05:57.450 --> 00:06:13.800

Laura: Right Timberlands is not anywhere. I mean, I'm so used to seeing it here. You're right. It's not here to old business Timberlands. Okay. All right. Good. Okay, so let. So, do I have a motion to approve them the agenda, as amended.

75

00:06:15.030 --> 00:06:15.660

Janet Ainsworth: So most

76

00:06:16.110 --> 00:06:16.890

Laura: Were here. Second,

77

00:06:19.980 --> 00:06:20.370

Joseph Nugent: Second,

78

00:06:22.560 --> 00:06:23.370

Laura: Second did it.

79

00:06:23.730 --> 00:06:24.150

Go.

80

00:06:25.200 --> 00:06:28.560

Laura: Okay, Joe, you are a second. All in favor.

81

00:06:29.310 --> 00:06:34.770

Laura: Aye. Okay, great. Okay. So with that, let's go to public forum.

82

00:06:35.790 --> 00:06:38.910

Laura: So Dwayne, would you like to go first.

83

00:06:40.920 --> 00:06:46.320

Duane Orloske: I don't have anything in particular to say other than I think the subcommittee has really made

84

00:06:47.550 --> 00:06:57.240

Duane Orloske: A real advanced what we're up to in this last meeting and really recognize that we kind of bring a lot more structure to the subcommittee.

85

00:06:59.070 --> 00:07:00.360

Duane Orloske: And be more regularly.

86

00:07:00.810 --> 00:07:02.610

Duane Orloske: And really put an emphasis on the

87

00:07:04.890 --> 00:07:13.410

Duane Orloske: Lake made the development of a lake management plan because all the discussions we had some some interesting conversations about what to do at the south end of the lake.

88

00:07:14.130 --> 00:07:26.760

Duane Orloske: And it really came down to two opposing viewpoints of what what that out to become and although I presented the proposal to remove the MCC islands I ultimately voted against it.

89

00:07:27.810 --> 00:07:28.920

Duane Orloske: being convinced that

90

00:07:30.720 --> 00:07:38.940

Duane Orloske: More public input is needed from the community before we make that type of move invest that kind of money in the south end

91

00:07:40.170 --> 00:07:41.040

Duane Orloske: So I'm still

92

00:07:42.600 --> 00:07:51.240

Duane Orloske: In favor of doing something with the south end. But I'm more committed to the democratic process and getting more people involved. I think that really helped the

93

00:07:52.110 --> 00:07:59.430

Duane Orloske: Subcommittee. See that we need to be prioritizing the development of this like management plan because it would provide the

94

00:07:59.910 --> 00:08:17.520

Duane Orloske: Mechanism to get all the stakeholders together and really develop a community vision for what we want to like to be for us both is a natural resource and recreational area. So although is a little contentious last night. I'm pleased with where we're heading and

95

00:08:18.540 --> 00:08:20.610

Duane Orloske: Look forward to our upcoming meetings.

96

00:08:21.660 --> 00:08:31.530

Laura: Well, good for you for for being willing to take on the contentiousness that can happen. I mean, it's a time when that's last thing in the world that you want in your life.

97

00:08:31.560 --> 00:08:32.670

Duane Orloske: Yeah, tell me about it.

98

00:08:33.690 --> 00:08:42.480

Laura: Today you from all sides. So anyway, if you have the town. Thank you very much, certainly in the community and the lake. So that's various

99

00:08:43.140 --> 00:08:47.520

Scott's iPad: HIS CABINET Kevin Clark is on the Commission is, you know, are on the subcommittee.

100

00:08:48.000 --> 00:08:49.050

Duane Orloske: Yes, yeah.

101

00:08:50.520 --> 00:08:51.420

Duane Orloske: They had the contention.

102

00:08:53.490 --> 00:08:53.790

Scott's iPad: Okay.

103

00:08:55.170 --> 00:09:00.810

Scott's iPad: Well, I'll just because Eddie, Eddie. Obviously, any activity that does ultimately across go before welds Commission.

104

00:09:01.230 --> 00:09:01.410

Yeah.

105

00:09:03.840 --> 00:09:09.180

12034444706: I see somebody on the phone that yes it is Patricia Keegan  
oh

106

00:09:10.440 --> 00:09:12.330

12034444706: I couldn't zoom in, I

107

00:09:13.590 --> 00:09:21.060

12034444706: I'm not sure why, but then I ultimately dial in by phone.  
Great. Okay. Great.

108

00:09:22.800 --> 00:09:24.390

Laura: So did we have a full form that's

109

00:09:24.390 --> 00:09:25.380

12034444706: Great. That's great.

110

00:09:25.530 --> 00:09:30.450

Laura: Thank you. Okay. And then our second guest Terry Kane.

111

00:09:31.440 --> 00:09:32.850

12034444706: You want to say a few things, Terry.

112

00:09:34.080 --> 00:09:48.330

Terri Cain: I don't have anything really to say now until I present my PowerPoint to you. So let me save my comments for them, but I'm just should say that I'm very happy to be here and thank you for the opportunity to get to know you.

113

00:09:48.840 --> 00:09:54.270

Laura: And Terry, you are representing the sustainable Connecticut sustainable.

114

00:09:54.660 --> 00:09:57.600

Terri Cain: Yes, I'm chairing the sustainable Guilford task force.

115

00:09:58.350 --> 00:09:58.710

Okay.

116

00:10:02.220 --> 00:10:07.530

Laura: So as I can. I'll be really happy when God says she's on she's on

117

00:10:08.910 --> 00:10:09.450

Kevin Magee: She's on

118

00:10:10.050 --> 00:10:12.060

Judy Castellano: I you can hear me, but I'm on

119

00:10:12.330 --> 00:10:13.170

Judy Castellano: Can you hear me now I

120

00:10:14.130 --> 00:10:14.490

Laura: Can hear you.

121

00:10:15.030 --> 00:10:15.900

Oh, there you are.

122

00:10:19.230 --> 00:10:20.760

Judy Castellano: All time I've been taking notes.

123

00:10:20.880 --> 00:10:21.840

Laura: Excellent. Okay.

124

00:10:22.350 --> 00:10:23.520

Janet Ainsworth: Okay, just waving.

125

00:10:23.910 --> 00:10:25.110

Laura: The pressure is laughing

126

00:10:26.760 --> 00:10:37.110

Laura: Thank you. Okay, Terry. Thanks a lot. So we will pick up on your any further comments, you want to make me actually get to the sustainable Connecticut portion of the agenda. So thank you very much.

127

00:10:38.160 --> 00:10:45.690

Laura: All right, operations so minutes from previous meeting, Judy. Thank you for getting those to us and congratulations on getting a new computer

128

00:10:47.520 --> 00:10:48.330

12034444706: Make life.

129

00:10:48.360 --> 00:10:50.400

Laura: easier and more difficult than guessing.

130

00:10:51.450 --> 00:10:51.960

Judy Castellano: Yes.

131

00:10:53.670 --> 00:11:03.000

Laura: I understand. All right. Um, so does anyone have any changes to the final version that Judy sent out

132

00:11:06.360 --> 00:11:06.570

PDL: The

133

00:11:06.600 --> 00:11:13.440

Laura: Only thing I noticed. And I think this was the final version. And it's a really teeny tiny thing the very, very last item.

134

00:11:13.770 --> 00:11:18.660

Laura: Says there will be no July meeting the next online regular meeting will be august 29

135

00:11:19.410 --> 00:11:21.570

Laura: And it's actually august 26

136

00:11:21.990 --> 00:11:22.980

Judy Castellano: I'll correct it.

137

00:11:23.220 --> 00:11:26.070

Laura: Yeah, and it's just a teeny tiny but it just caught my eye.

138

00:11:27.300 --> 00:11:30.750

Laura: But, but I read this. When you first sent it out and it looked good to me.

139

00:11:31.770 --> 00:11:37.110

Laura: So do I hear a motion to approve the minutes as presented with that one correction.

140

00:11:38.610 --> 00:11:38.970

12034444706: Oh,

141

00:11:40.200 --> 00:11:42.990

Laura: That was Patricia. Thank you. And I met her a second

142

00:11:44.520 --> 00:11:44.940

Janet Ainsworth: Second,

143

00:11:45.540 --> 00:11:47.640

Laura: Janet. No. Okay, thank you very much. All in favor.

144

00:11:49.350 --> 00:11:50.640

Laura: Okay, great.

145

00:11:51.720 --> 00:11:56.340

Laura: Bills. So Kevin, have you been spending money like like a wild man.

146

00:11:57.000 --> 00:11:57.660

Kevin Magee: Well, we did

147

00:11:58.260 --> 00:12:00.630

Kevin Magee: Pretty good. Last year was spending on

148

00:12:01.980 --> 00:12:08.520

Kevin Magee: Last year we for the fiscal year ending on June 30 2020

149

00:12:09.690 --> 00:12:14.910

Kevin Magee: I believe the total that we expended was \$2,815

150

00:12:18.840 --> 00:12:28.350

Kevin Magee: And good portion that a good half of that is the new signings that we purchased which came in, when I need to get the Stewart's out to put up

151

00:12:30.540 --> 00:12:38.610

Laura: Okay. Great. Great. And I'm very interested to hearing your, your update on the stewards. I hear, I heard you say you know

152

00:12:39.000 --> 00:12:41.310

Laura: Plural so that I consider a good sign.

153

00:12:41.700 --> 00:12:44.160

Laura: We place our team that's good, that's great.

154

00:12:45.360 --> 00:12:52.410

12034444706: So was there any yet was signed to the big thing right there any equipment or

155

00:12:54.330 --> 00:12:55.740

Kevin Magee: Science where the big thing. No.

156

00:12:56.580 --> 00:12:56.880

Bigger

157

00:13:00.120 --> 00:13:01.170

Laura: And you do not

158

00:13:01.950 --> 00:13:02.580

Recommend

159

00:13:03.600 --> 00:13:06.720

12034444706: People are speaking, probably to put themselves on. Yeah.

160

00:13:07.590 --> 00:13:07.950

12034444706: Yeah.

161

00:13:08.040 --> 00:13:09.180

Janet Ainsworth: There's background noise.

162

00:13:11.070 --> 00:13:11.880

12034444706: Right, so that

163

00:13:12.210 --> 00:13:14.790

Laura: That fixed it in the past. So thank you. Thank you.

164

00:13:16.020 --> 00:13:16.920

12034444706: Okay.

165

00:13:16.980 --> 00:13:17.790

I'm

166

00:13:19.710 --> 00:13:22.260

Laura: Judy, what about your bill, are we up to

167

00:13:23.070 --> 00:13:24.360

Speed and paying you

168

00:13:25.860 --> 00:13:29.370

Judy Castellano: Yeah, I, I thought I sent it a month ago by

169

00:13:29.520 --> 00:13:30.780

12034444706: Maybe I didn't

170

00:13:30.810 --> 00:13:31.800

12034444706: You didn't get. Oh.

171

00:13:31.860 --> 00:13:34.470

Judy Castellano: I don't know. I must have said this was, it was

172

00:13:34.470 --> 00:13:36.840

12034444706: Jill would be June. Yeah, I could have

173

00:13:37.560 --> 00:13:39.810

Laura: Kevin, do you recall. Yeah.

174

00:13:40.950 --> 00:13:41.670

Kevin Magee: I

175

00:13:43.140 --> 00:13:45.450

Kevin Magee: Think I said I'll double check to see

176

00:13:46.470 --> 00:13:48.000

Judy Castellano: Yeah, I think it was

177

00:13:48.600 --> 00:13:49.860

Laura: I feel like we saw it.

178

00:13:50.490 --> 00:13:50.820

12034444706: You know,

179

00:13:50.850 --> 00:13:52.500

Laura: Losing the month of July in there.

180

00:13:52.560 --> 00:13:55.050

Laura: You know right frame of references a little off.

181

00:13:55.350 --> 00:13:59.130

Judy Castellano: I can send it again. I don't happen to know what it is, though, so we'll have to

182

00:14:00.450 --> 00:14:05.850

Laura: Wait, okay, um, and do we have to approve pain. I can't ever remember

183

00:14:06.030 --> 00:14:07.980

Laura: Do we have to approve it. We pay you Trudy

184

00:14:08.670 --> 00:14:11.760

Judy Castellano: And several years ago you voted for

185

00:14:11.820 --> 00:14:18.030

Judy Castellano: That Kevin could sign for it. And it was just the blanket. Well, you can if you want to, because that's what you do.

186

00:14:18.030 --> 00:14:19.890

Laura: Sometimes, yeah, let's not

187

00:14:20.040 --> 00:14:22.650

12034444706: NO NEED TO DO IT. Kevin, you will pay her

188

00:14:22.920 --> 00:14:25.530

Laura: And we pay you. You deserve a

189

00:14:26.940 --> 00:14:30.090

Joseph Nugent: reoccurring expense. You shouldn't have to vote on every time.

190

00:14:30.330 --> 00:14:31.650

Judy Castellano: Right, right.

191

00:14:32.910 --> 00:14:35.760

Kevin Magee: Okay, perfect. And salary type thing too, so we

192

00:14:35.760 --> 00:14:37.140

Kevin Magee: Can't shouldn't have a salary.

193

00:14:37.680 --> 00:14:39.390

Laura: Right. I agree. Okay.

194

00:14:40.320 --> 00:14:48.000

Laura: All right, so, um, so what about the budget for the new year. Do you have a new pool of funds to work with.

195

00:14:48.240 --> 00:14:49.980

Kevin Magee: Kevin, do I started back with

196

00:14:51.180 --> 00:14:51.570

Kevin Magee: The

197

00:14:52.710 --> 00:14:57.660

Kevin Magee: Same budget stayed the same. So at \$5,000 in line Stewart's line item to

198

00:14:59.070 --> 00:14:59.850

Kevin Magee: Start using

199

00:15:01.710 --> 00:15:05.280

Laura: Okay, great. Do you have your eye on anything particular

200

00:15:06.420 --> 00:15:07.620

Kevin Magee: We need to get some new

201

00:15:08.850 --> 00:15:15.090

Kevin Magee: Posters and stuff within the kiosk trail signs and stuff. So that'll take up some expenses their

202

00:15:16.350 --> 00:15:19.680

Kevin Magee: Equipment wise. I'm not sure if I have anything that's

203

00:15:21.990 --> 00:15:29.280

Kevin Magee: By the work by new Stewart to see what they think they may need for your equipment as I get right quieted what things there. Okay.

204

00:15:29.550 --> 00:15:30.210

All right, good.

205

00:15:31.590 --> 00:15:34.830

Laura: Okay so doesn't sound like anything. We have to vote on there right

206

00:15:36.000 --> 00:15:42.630

Laura: Right. And so now announcements in correspondence. So I do have a few letters here and

207

00:15:43.530 --> 00:15:51.660

Laura: One came in July six from Matt Hoy, and on behalf of the selectmen it's to Scott Williams saying

208

00:15:52.170 --> 00:16:04.350

Laura: A unanimous unanimously voted to appoint Scott to the land Stewart acquisition Commission, as the land steward representative. So that's

been approved. Have they had any meetings. Have you gone to any meeting, Scott.

209

00:16:06.870 --> 00:16:16.950

Scott's iPad: Know all the all the one that I've been I was cancelled, wouldn't we were out of power. So as an as a bit anything since I've been appointed there.

210

00:16:17.280 --> 00:16:21.660

Laura: Okay. All right, good. All right, another letter.

211

00:16:22.680 --> 00:16:24.450

Laura: To me from Matt hoy

212

00:16:26.130 --> 00:16:36.360

Laura: Your Laura by way of this letter. I'm requesting and Conservation Commission appoint sustainable task force member Robin Campos that spelled R O B i n

213

00:16:36.900 --> 00:16:49.470

Laura: Last Name see a M as in Mother P ot as liaison to the lake quanta pugs subcommittee of the Conservation Commission. Thank you for your consideration.

214

00:16:50.580 --> 00:16:52.860

Laura: So Robin is on the sustainable.

215

00:16:52.860 --> 00:16:56.280

Laura: Guilford Task Force and, I guess, Terry. Maybe you can

216

00:16:56.550 --> 00:17:01.380

Laura: Tell us more about her when you speak. Does that make sense. Okay, perfect. Then

217

00:17:02.460 --> 00:17:10.170

Laura: And the last letter is Kevin, do you have any any email that came in.

218

00:17:11.490 --> 00:17:12.510

Kevin Magee: Um,

219

00:17:13.920 --> 00:17:20.670

Kevin Magee: No, we don't have power. He came in was one of those on magazines. Nature magazine type things, I think,

220

00:17:21.000 --> 00:17:22.920

Laura: Okay, and you would put that at Town Hall.

221

00:17:23.490 --> 00:17:24.810

Kevin Magee: Yes, in my office for

222

00:17:25.320 --> 00:17:26.070

Kevin Magee: The ability

223

00:17:26.130 --> 00:17:34.530

Kevin Magee: Right, great. Um, the other one I have is from came in on July 2 from Jerry Turk regarding

224

00:17:36.300 --> 00:17:42.330

Kevin Magee: See if they can do the nimbler gamblers bluff race we have that down below to discuss

225

00:17:42.420 --> 00:17:43.560

Laura: Okay. All right, good.

226

00:17:44.640 --> 00:17:59.010

Laura: And and then there's a letter from me. So one of my my one and only task from the last meeting was to to submit my letter of resignation. And so what I what I did just before the meeting, Kevin. I sent this to both you and Judy a

227

00:17:59.010 --> 00:18:05.490

Laura: PDF of this, but I'd like to read it since it's copied all the Commissioners are copied on it. So I thought,

228

00:18:05.550 --> 00:18:21.420

Laura: You said here, and this was to Matt Hoy, and I have copied Kevin, Judy. The all of the Commissioners democratic town committee national nomination committee and the Republican town committee nomination committee.

229

00:18:23.310 --> 00:18:30.000

Laura: So this is your mat. This is to notify you of my resignation from guildford's Conservation Commission.

230

00:18:30.450 --> 00:18:38.760

Laura: It's been a privilege and a pleasure to work with so many committed and talented fellow Commissioners over the years on furthering the mission of this Commission.

231

00:18:39.210 --> 00:18:46.350

Laura: Which is quotes working toward the conservation of natural resources in such a way, they will be available for future generations to enjoy.

232

00:18:46.950 --> 00:19:00.660

Laura: The current makeup of the Commission is an outstanding mix of people with the talent experience positive energy and passion essential for continuing this work. I can't think of a better time to move aside and let them do exactly that. And I truly mean it.

233

00:19:01.920 --> 00:19:09.930

Laura: In particular, I would like to thank Kevin McGee for his support and guidance. Ever since I took over his chair from my

234

00:19:10.500 --> 00:19:23.580

Laura: Far more qualified predecessors, Jeff green I wish also to thank Judy Castillo know our erstwhile recording secretary. You can tell I'm an English major. Right. I love that word erstwhile and that's you, Judy.

235

00:19:25.080 --> 00:19:32.550

Laura: For who has kept us on the straight and narrow regarding process and procedure as a town condition, maintaining her grace and patience throughout

236

00:19:34.950 --> 00:19:43.560

Laura: My resignation opens a regular Commission democrat spot we currently have two excellent and committed alternate Douglas Clark and Scott Williams.

237

00:19:43.860 --> 00:19:57.750

Laura: Both contribute significantly to the thoughtful discussions and decisions of this Commission, given their relevant experience as Doug has served longer in this capacity, I strongly recommend and encourage that he'd be nominated to fill the opening I've created

238

00:19:58.920 --> 00:20:00.810

12034444706: Matt, thank you and the other selectmen

239

00:20:00.840 --> 00:20:08.010

Laura: For the opportunity to work these past years with the Commission on behalf of our wonderful town, it truly has been a privilege.

240

00:20:11.760 --> 00:20:12.930

Laura: So there we go.

241

00:20:14.910 --> 00:20:16.590

Judy Castellano: Thank you. I'll give you a

242

00:20:17.340 --> 00:20:17.730

Very

243

00:20:21.600 --> 00:20:22.440

Laura: So,

244

00:20:25.230 --> 00:20:38.670

Laura: So, so since, you know, it's so is that wording sufficient Judy and Kevin regarding, you know, my recommendation to the nominating committee is is that known does it do what it needs to do.

245

00:20:38.910 --> 00:20:39.330

Yes.

246

00:20:41.250 --> 00:20:41.970

Laura: Yeah, excellent.

247

00:20:42.660 --> 00:20:45.930

Kevin Magee: You just need to resend that you sent the email but didn't put the attachment on

248

00:20:46.320 --> 00:20:49.650

Laura: No, really. Yeah. OK. I will do that after the meeting.

249

00:20:49.770 --> 00:20:51.270

Kevin Magee: Yes, that's fine discipline.

250

00:20:52.890 --> 00:20:57.240

Laura: Okay, so that's the end of announcements in correspondence

251

00:20:58.590 --> 00:20:59.670

Laura: And now we will

252

00:20:59.700 --> 00:21:06.390

Laura: Go under subject D conservation. Shall we start right away with like one a pug update

253

00:21:10.140 --> 00:21:12.030

Kevin Magee: You know, we can jump right into that one there.

254

00:21:12.360 --> 00:21:12.810

All right.

255

00:21:14.670 --> 00:21:15.720

Kevin Magee: So,

256

00:21:16.050 --> 00:21:19.200

Laura: Yeah, so will be, you will be Jeff who will give us an update.

257

00:21:19.350 --> 00:21:24.930

Kevin Magee: Um, I'll start with where we are with this and then they can jump forward.

258

00:21:26.490 --> 00:21:29.130

Kevin Magee: We started, we did the early treatment.

259

00:21:31.110 --> 00:21:38.520

Kevin Magee: Took a little bit DL permitting together, but with their help of our legislative people were able to push the permit through the

260

00:21:39.780 --> 00:21:42.900

Kevin Magee: The DP within I call it record time.

261

00:21:44.670 --> 00:21:48.450

Kevin Magee: To get approval to our Sun star treatment. It took a while for us to get

262

00:21:50.310 --> 00:21:54.900

Kevin Magee: A letter from the state, allowing us to put in the permit to DP.

263

00:21:56.820 --> 00:22:15.090

Kevin Magee: For for any DB, which is a national wildlife review with the area and the lake. But once we got that we got the permitting and we said

it was fast track with the help of our legislative partners, the lake was treated by all habitat services on August 12

264

00:22:17.580 --> 00:22:25.920

Kevin Magee: There was some controversy started from conversation started. The board selectmen meeting regarding the application of glass of fate within like

265

00:22:27.780 --> 00:22:29.220

12034444706: Which we were able to provide

266

00:22:29.220 --> 00:22:34.050

Kevin Magee: SOME GUIDANCE information to those people concerned about the use of that chemical

267

00:22:36.660 --> 00:22:39.420

Kevin Magee: We then last night had a

268

00:22:41.220 --> 00:22:44.880

Kevin Magee: Subcommittee meeting of the lake quantified committee there.

269

00:22:46.380 --> 00:22:50.700

Kevin Magee: And discussion in there, discuss the need to

270

00:22:51.780 --> 00:23:03.960

Kevin Magee: Was based around discussed around the need to remove the muck islands that are developed in the south into Lake from the root structures of the policies that floated to the surface from previous treatments.

271

00:23:06.240 --> 00:23:19.440

Kevin Magee: Talked about the need to have a lake manager to help with the oversight of the lake. I'm not kind of mentioned favor that and that would be a state second position.

272

00:23:20.280 --> 00:23:27.210

Kevin Magee: I'll provide you for the next everybody for the next meeting. Since this came up pretty quick. A copy of the job descriptions of

273

00:23:27.210 --> 00:23:28.170

Kevin Magee: Everybody kind of

274

00:23:28.680 --> 00:23:30.090  
Review that for the next meeting.

275

00:23:31.890 --> 00:23:34.050  
Laura: So Kevin, would this be a paid position.

276

00:23:34.350 --> 00:23:35.850  
Kevin Magee: Yeah, be a paid I'm

277

00:23:37.080 --> 00:23:40.830  
Kevin Magee: Stepping sort of part time type position there.

278

00:23:41.100 --> 00:23:42.990  
Laura: And it would be for the Tim

279

00:23:43.500 --> 00:23:44.670  
Kevin Magee: Yeah, hired by the town.

280

00:23:44.820 --> 00:23:45.690  
Laura: Okay, okay.

281

00:23:46.620 --> 00:24:00.300  
Kevin Magee: We had one years ago. And then that kind of dissolve over the time. I'm not sure if they thought they compliments compliments accomplish the duties are they like manager just kind of was busy and and the town never moved forward with it.

282

00:24:01.320 --> 00:24:08.310  
Kevin Magee: But I do see some history there were, I think, part of his duties were paid by state grants on that. Sure. That dissolved up

283

00:24:10.410 --> 00:24:17.190  
Kevin Magee: For him his position there at that time, the one of the other discussions, there was the

284

00:24:18.810 --> 00:24:28.410  
Kevin Magee: There's a plot of land which is for sale in the south end of the lake there and the community finds that that is a valuable piece.

285

00:24:28.980 --> 00:24:38.250  
Kevin Magee: For the town, either for protection of the lake. So houses and get built on it, which has all the negative effects of housing and septic and everything close to a lake.

286

00:24:38.910 --> 00:24:47.760

Kevin Magee: Or and or the position and also the property would provide for potential long term access to, like, on the south side for any

287

00:24:49.410 --> 00:24:55.590

Kevin Magee: Work, we would have to do in the lake in terms of if we look at dredging the center channel or how to do any

288

00:24:56.700 --> 00:24:59.670

Kevin Magee: We harvesting or anything like that. We provide a

289

00:25:01.230 --> 00:25:08.460

Kevin Magee: Set down or a location where we can stage equipment and stuff, their materials being dug out and stuff there. So,

290

00:25:09.840 --> 00:25:12.120

Kevin Magee: The group by consensus their

291

00:25:13.560 --> 00:25:15.570

12034444706: Ass asked that. This gets mentioned to

292

00:25:15.570 --> 00:25:24.360

Kevin Magee: This group here and possibly recommendation from this group to land acquisition to follow up with that property.

293

00:25:26.910 --> 00:25:28.830

Kevin Magee: Jeff. Anything you want to add to that.

294

00:25:30.270 --> 00:25:32.220

jeffspooner: Um, geez, you're pretty thorough, I don't know.

295

00:25:34.170 --> 00:25:35.820

jeffspooner: I will just say in regards to the

296

00:25:36.900 --> 00:25:40.110

jeffspooner: The need for the democratic process.

297

00:25:41.190 --> 00:25:53.670

jeffspooner: I know this this week this Saturday the neighborhood and the lake community is going to meet have kind of like a meet and greet and see attach faces, you know, with names and

298

00:25:54.570 --> 00:25:56.250

12034444706: get input from anybody, everybody.

299

00:25:56.820 --> 00:25:57.570

jeffspooner: In terms of

300

00:25:58.860 --> 00:26:06.900

jeffspooner: You know things they think should move forward for the lake management plan and that sort of thing. So I will be attending that on Saturday.

301

00:26:08.700 --> 00:26:09.600

jeffspooner: So that's a good thing.

302

00:26:10.800 --> 00:26:10.950

Joseph Nugent: I

303

00:26:11.160 --> 00:26:11.610

Was

304

00:26:13.200 --> 00:26:13.770

jeffspooner: What's up,

305

00:26:14.250 --> 00:26:16.290

Joseph Nugent: I have a question. Jeff, the

306

00:26:17.880 --> 00:26:18.510

Joseph Nugent: Hills.

307

00:26:19.560 --> 00:26:23.190

Joseph Nugent: Are there is the HOA involved in this project.

308

00:26:24.300 --> 00:26:29.250

Joseph Nugent: To any degree that you know because they have to represent a lot of voices out there.

309

00:26:30.000 --> 00:26:33.990

jeffspooner: Yeah, that's a good question. What I don't know the answer section.

310

00:26:34.290 --> 00:26:43.890

Joseph Nugent: Okay, because the based upon how much support you get from them. They determine what happens. That's why I bring it up.

311

00:26:44.340 --> 00:26:44.820

Okay.

312

00:26:48.390 --> 00:26:50.730

Laura: Ah, what does that stand for Jim

313

00:26:50.880 --> 00:26:52.260

Joseph Nugent: Homeowners Association.

314

00:26:52.530 --> 00:26:55.800

Joseph Nugent: It's a condominium so they have to require to have someone

315

00:26:56.010 --> 00:27:01.110

Joseph Nugent: Manage the properties, etc, etc. And usually it's a board of some type. Okay.

316

00:27:02.190 --> 00:27:02.610

Thank you.

317

00:27:06.960 --> 00:27:07.470

Laura: Okay.

318

00:27:08.310 --> 00:27:12.810

Kevin Magee: And as Dwayne indicator. The biggest thing that came out last night meeting was the need to

319

00:27:13.710 --> 00:27:33.900

Kevin Magee: Come up with a long term management plan and there's discussion about um hopefully beyond code here of having a public meeting with all the stakeholders to come up with a solid plan for the management of the whole day, not just the South theory there, but the whole like itself.

320

00:27:35.190 --> 00:27:35.880

Kevin Magee: Inviting

321

00:27:38.220 --> 00:27:41.880

Kevin Magee: The neighbors Trout Unlimited boaters

322

00:27:43.470 --> 00:27:46.770

Kevin Magee: The peace representatives, anybody that may have

323

00:27:48.210 --> 00:27:51.120

Kevin Magee: An interest in in the lake here.

324

00:27:52.800 --> 00:27:55.800

Laura: Isn't there recruiting on the lake that goes on the lake as well.

325

00:27:55.920 --> 00:27:57.930

Kevin Magee: Yeah. Joe would be definitely be a

326

00:27:59.070 --> 00:28:05.940

Kevin Magee: Involved in high school crew team also involved Parks and Rec would be a stakeholder within that discussion there.

327

00:28:07.260 --> 00:28:08.280

Kevin Magee: Also with the treatment of

328

00:28:08.280 --> 00:28:08.610

12034444706: Lake

329

00:28:08.640 --> 00:28:09.810

Kevin Magee: As part of the requirement of the

330

00:28:09.810 --> 00:28:11.760

Kevin Magee: Permit we are hiring a

331

00:28:12.870 --> 00:28:18.570

Kevin Magee: Third party review of the lake on the station we contracted to do a whole big survey which there

332

00:28:20.220 --> 00:28:25.980

Kevin Magee: Did in June. They did a special species. Look for two species are concerned.

333

00:28:27.600 --> 00:28:35.520

Kevin Magee: Towards the end of July, and we're hiring a third, and I'll say party also to evaluate for this two species are concerned, which

334

00:28:36.150 --> 00:28:36.930

Kevin Magee: Is the

335

00:28:37.830 --> 00:28:43.950

Kevin Magee: Holds up a lot of the activities. We've been looking to do in the lake there. So we're trying to get in third party review.

336

00:28:45.660 --> 00:28:49.020

Kevin Magee: Looking for these two species of concern with Emily.

337

00:28:49.410 --> 00:28:51.690

Laura: So are they protected species.

338

00:28:51.840 --> 00:28:57.210

Kevin Magee: The other protected species was threatened and won the state species are concerned. Okay. All right.

339

00:28:58.410 --> 00:29:00.030

Laura: Yeah, remember, you've mentioned that before.

340

00:29:00.540 --> 00:29:04.320

Kevin Magee: Yes, the bend that they haven't been seen for quite a few years.

341

00:29:05.910 --> 00:29:07.740

Kevin Magee: But the State wants, like I said, the

342

00:29:09.360 --> 00:29:15.900

Kevin Magee: fresh set of eyes on outside of the ag station. Unfortunately, taxation, that's great surveys, but some reason they

343

00:29:17.190 --> 00:29:20.640

Kevin Magee: My fresh set of eyes outside of the station looking for. Okay.

344

00:29:22.530 --> 00:29:24.930

Laura: Okay. Dwayne, do you have anything that you would like to add just

345

00:29:28.020 --> 00:29:28.680

Laura: Muted

346

00:29:32.040 --> 00:29:37.110

Duane Orloske: I think Kevin represent what happened to me and quite well and Jeff. So, okay.

347

00:29:38.970 --> 00:29:41.880

Laura: All right, well thank you again. Hang in there.

348

00:29:42.420 --> 00:29:44.640

Duane Orloske: Oh, I'm looking, I'm enjoying this.

349

00:29:45.150 --> 00:29:49.860

Laura: Excellent. It's good. And thank you, Jeff as well and Kevin always

350

00:29:51.420 --> 00:29:57.570

Laura: Okay, so shall we move forward. Now with the sustainable Guilford task force.

351

00:30:04.860 --> 00:30:07.380

Laura: So who's going to take the lead on this Kevin you want

352

00:30:07.560 --> 00:30:08.130

Kevin Magee: To be

353

00:30:10.770 --> 00:30:12.840

Kevin Magee: Like Terry's here to kind of give a

354

00:30:14.790 --> 00:30:17.490

Kevin Magee: overview of what the task forces.

355

00:30:18.630 --> 00:30:30.900

Kevin Magee: Doing, and I believe also providing information for what they're looking for goals and the coffee cup of coffee minutes for the next for the for the future.

356

00:30:32.460 --> 00:30:33.510

Kevin Magee: So Terry

357

00:30:34.020 --> 00:30:41.550

Terri Cain: Yes. Thank you, Kevin, how many of you are familiar with sustainable Guilford or sustainable Connecticut.

358

00:30:43.110 --> 00:30:43.770

Terri Cain: A little bit.

359

00:30:43.800 --> 00:30:44.100

Yeah.

360

00:30:45.270 --> 00:30:47.490

Terri Cain: Okay, good. So

361

00:30:47.820 --> 00:30:51.060

Terri Cain: We have this PowerPoint that we put together that we're going to take

362

00:30:51.090 --> 00:30:59.880

Terri Cain: Around to the various committees and commissions, so that we can let people know what this is all about. So I'd like to just go through my

363

00:30:59.880 --> 00:31:03.030

Terri Cain: PowerPoint here giving you an overview

364

00:31:03.090 --> 00:31:15.450

Terri Cain: Of who we are, how we reformed, it's about 10 minutes and what sustainable Connecticut is and then I'll go on to share with you how we attained silver certification.

365

00:31:16.650 --> 00:31:17.910

Terri Cain: Which is pretty cool.

366

00:31:19.830 --> 00:31:21.660

Terri Cain: So okay, so here we go.

367

00:31:25.830 --> 00:31:31.590

Terri Cain: So the sustainable Guilford, whoops. Can I control that Kevin, or are you

368

00:31:32.760 --> 00:31:33.090

Terri Cain: I can't

369

00:31:33.840 --> 00:31:36.150

Kevin Magee: Don't think you can control it, Tom, I

370

00:31:37.500 --> 00:31:44.310

Terri Cain: Know it's on your okay that's going to be awkward. Okay, so, um, I guess I'll just let you know when I'm ready to change slides.

371

00:31:44.670 --> 00:31:59.640

Terri Cain: Okay, so, so the task force was was formed by the town of Guilford in September of 2018 we had we have seven members on our team at that time and included one student from different high school

372

00:32:00.720 --> 00:32:09.570

Terri Cain: So our mission. Okay, we can go ahead and change the slide. Now we we had a two missions to start with.

373

00:32:10.890 --> 00:32:22.680

Terri Cain: One was to research and make a recommendation ABOUT THE PROPOSED ORDINANCE to ban single use plastic bags. That was one of the first things that we were asked to do not not quite ready yet, Kevin.

374

00:32:22.950 --> 00:32:25.320

Kevin Magee: Now moving on me for some reasons.

375

00:32:26.040 --> 00:32:35.100

Terri Cain: Okay, so the second one was to pursue the certification in the sustainable Connecticut program. It may seem a little backward brown get to

376

00:32:36.210 --> 00:32:37.110

12034444706: A little bit. Okay.

377

00:32:37.170 --> 00:32:38.430

Terri Cain: Now we're ready to go on.

378

00:32:38.520 --> 00:32:39.060

Thank you.

379

00:32:40.350 --> 00:32:52.440

Terri Cain: So we, we reviewed the ordinance and the research. It was a citizen group called the bio Guilford because they completed two years worth of work and research on this, this ordinance.

380

00:32:53.670 --> 00:32:55.170

Terri Cain: And then we

381

00:32:58.050 --> 00:33:07.950

Terri Cain: And we kind of joined forces and that equity and inclusion principles for all the public events, which is one of the most important things of sustainable Connecticut.

382

00:33:08.490 --> 00:33:16.350

Terri Cain: We had a public information meeting we had a public hearing. Both of them were highly inclusive and and as you can see

383

00:33:16.950 --> 00:33:31.140

Terri Cain: From our flyer here involved all age groups and anyone who wants to comment on this and be part of it, the ordinance was passed unanimously in June of 2019 and went into effect in January of 2020

384

00:33:32.820 --> 00:33:39.780

Terri Cain: And then we at the same time set to work, which was a huge amount of work, as you can imagine to be awarded

385

00:33:41.430 --> 00:33:58.860

Terri Cain: Innovation and equity credits by sustainable Connecticut for the manner in which an environmental ordinance was reviewed and passed in town. So our work was was recognized by by this sustainable Connecticut. So let's move on.

386

00:34:03.240 --> 00:34:05.130

Terri Cain: So the

387

00:34:06.660 --> 00:34:17.400

Terri Cain: Mat hoy signed the resolution to support our participation for the town to to be participants in sustainable CT. We met twice a month we met with

388

00:34:17.520 --> 00:34:19.860

12034444706: Almost every single staff member

389

00:34:20.460 --> 00:34:22.440

Terri Cain: If I may, we were able to

390

00:34:22.800 --> 00:34:24.900

Terri Cain: Draft submit our draft.

391

00:34:25.470 --> 00:34:27.960

Terri Cain: In June, we met with equity coaches.

392

00:34:28.380 --> 00:34:30.810  
12034444706: We held a community resilience workshop

393  
00:34:31.050 --> 00:34:31.980  
Terri Cain: And solicited

394  
00:34:32.010 --> 00:34:43.650  
Terri Cain: Feedback. The whole process that goes into this is is pretty intense. We gave a final submitted submitted in August of 2019 and then we had too much to revise

395  
00:34:44.340 --> 00:34:59.370  
Terri Cain: And we were awarded silver in November of 2019 our certification expires in November of 2022 so our work is not done each town has to continue the work in sustainability and resiliency.

396  
00:35:01.380 --> 00:35:07.560  
Terri Cain: In order to stay certified. So that's our next charge. Okay. And so, next slide.

397  
00:35:09.180 --> 00:35:12.090  
Terri Cain: So just talking a minute for what is sustainable, Connecticut.

398  
00:35:14.130 --> 00:35:17.670  
Terri Cain: It's a volunteer or certification program.

399  
00:35:17.880 --> 00:35:21.090  
12034444706: So, it recognizes thriving and resilient.

400  
00:35:21.330 --> 00:35:23.040  
12034444706: Connecticut municipalities.

401  
00:35:24.930 --> 00:35:26.700  
Terri Cain: And it's independently funded

402  
00:35:26.760 --> 00:35:27.930  
Terri Cain: It's grassroots

403  
00:35:27.960 --> 00:35:29.250  
12034444706: It's a municipal effort.

404

00:35:29.460 --> 00:35:44.460

Terri Cain: And it was the whole program was developed with partition with participation from all 169 Connecticut towns, which is which is amazing at the headquarters of sustainable CT is eastern Connecticut State University.

405

00:35:45.990 --> 00:36:04.020

Terri Cain: The appeal of this program. Is that what this program is is a menu of actions and these actions have been developed as best practices for towns to follow and then each one is organized each action is is organized into

406

00:36:05.100 --> 00:36:07.950

Terri Cain: I mean each categories in organized into different

407

00:36:07.950 --> 00:36:10.350

Terri Cain: Actions and those are are

408

00:36:10.800 --> 00:36:29.250

Terri Cain: Ones that are achievable. So as each town meets these actions, then we're not only upgrading our own operations in our own towns, but we're also contributing to the sustainability of our state of Connecticut as a whole.

409

00:36:30.720 --> 00:36:51.180

Terri Cain: So what does sustainability mean for our purposes it's communities that are able to achieve shifting landscapes changing times and then resilient means that not only can we adapt and survive changes.

410

00:36:52.650 --> 00:36:57.780

Terri Cain: But we can also thrive across changes and any challenges that come up

411

00:36:59.010 --> 00:37:03.990

Terri Cain: OK, so we also have access to technical support we

412

00:37:03.990 --> 00:37:06.480

Terri Cain: Have community match funding our project can be

413

00:37:06.510 --> 00:37:08.100

Up to \$15,000

414

00:37:10.830 --> 00:37:11.790

Terri Cain: Well, our slides already

415

00:37:11.820 --> 00:37:15.300

Terri Cain: out of date. It's now 110 registered municipalities.

416

00:37:16.140 --> 00:37:19.140

Terri Cain: 47 certified and of those

417

00:37:19.230 --> 00:37:36.720

Terri Cain: Only 14 are silver. So we pat ourselves on the back end Guilford because our town was already well on the way to being sustainable and you all as the Conservation Commission have a big part to do with that. So, next slide.

418

00:37:39.390 --> 00:37:45.120

Terri Cain: Okay, so there's here are the nine categories.

419

00:37:46.200 --> 00:37:55.860

Terri Cain: We earned 410 points there were a possibility of 1920 points. So you can see there's a lot that we can still be doing

420

00:37:56.550 --> 00:38:09.390

Terri Cain: You have to achieve something in each category and that for silver included three equity efforts. So you can go online and I've sent Kevin handouts that will allow you to dive into this a little deeper.

421

00:38:10.950 --> 00:38:23.130

Terri Cain: So you can see on the screen, what those are. I know the last few you're blocked out at least for me, but as you can see it's it's it's not just you know land and

422

00:38:24.360 --> 00:38:46.230

Terri Cain: Conservation of environment, but it's across everything because through being sustainable, it's also, you know, it can cost the town less. It can make the town more desirable, so it has a lot of economic benefits to be sustainable and resilient going forward.

423

00:38:47.280 --> 00:38:50.040

Terri Cain: So let's go on to the next slide.

424

00:38:52.860 --> 00:39:07.290

Terri Cain: So I just wanted to give you a couple of examples to illustrate this, we earned 45 points in the category of thriving local economies. So supporting our local businesses local jobs.

425

00:39:09.120 --> 00:39:09.960

Terri Cain: And

426

00:39:13.230 --> 00:39:13.800

Terri Cain: Just

427

00:39:15.150 --> 00:39:16.950

Terri Cain: Fostering renewable energy.

428

00:39:18.390 --> 00:39:25.320

Terri Cain: So one of the things that we are. We got points for and we're working on right now is implementing sustainable purchasing

429

00:39:25.920 --> 00:39:38.610

Terri Cain: So we wrote and the BLS adopted a sustainable purchasing policy. So the goal is to increase the use of environmentally friendly products and services, services.

430

00:39:39.030 --> 00:39:50.100

Terri Cain: And the policy was passed, as I said by the bo as and it's been shared with department heads and then we will be doing some education around and some research around what

431

00:39:50.490 --> 00:39:59.640

Terri Cain: Kind of products that we can change to in the town that would be more environmentally friendly and then from there, we will also share that with the Community should

432

00:40:00.990 --> 00:40:03.450

Terri Cain: The community be looking for that kind of information.

433

00:40:04.800 --> 00:40:05.730

Terri Cain: Okay, next.

434

00:40:08.460 --> 00:40:22.320

Terri Cain: So well, Stuart. Stuart and Land and Natural Resources and the key phrase here is recognizing our finite resources and the finite nature. And so we want to balance that out.

435

00:40:24.060 --> 00:40:32.430

Terri Cain: So we want to balance the users with preserving and increasing ecosystem health we earned 55 points in this category.

436

00:40:34.230 --> 00:40:50.460

Terri Cain: So one of those was 2.4 the numbers just tell you what what the action is under the category so 2.4 was developing the open space plan that was 25 points for us. That's the plan for cancer.

437

00:40:52.350 --> 00:40:53.880

Terri Cain: Oh, sorry about the dogs.

438

00:40:55.020 --> 00:41:14.880

Terri Cain: We were acknowledged because it had built on planning efforts documentation included priority strategies we have a plan of development and conservation. That is actually admired around the state. I found out from this work. So I was really pleased to hear that.

439

00:41:16.530 --> 00:41:27.990

Terri Cain: And also we were acknowledged for the acquisition and protection of the gas property and 2009 we just squeaked into the 10 year look back period. Okay, next.

440

00:41:31.350 --> 00:41:48.180

Terri Cain: Up run to vibrant and creative cultural ecosystems. So let me just go through a couple of the others. If you can go back one slide please. Kevin on the well Stuart Atlanta natural resources. Let me just fill you in on some of the others that

441

00:41:49.440 --> 00:41:54.180

Terri Cain: That we did obtain points for one was providing

442

00:41:56.160 --> 00:41:57.570

Terri Cain: Watershed education.

443

00:41:59.460 --> 00:42:17.580

Terri Cain: Creating a natural resource and wildlife inventory and managing woodlands and for us. So all of that work of much of which you were involved with, you know, we had to research and find out what exactly it was that you had done.

444

00:42:18.990 --> 00:42:22.350

Terri Cain: And with that research, we found that that all of

445

00:42:23.520 --> 00:42:37.650

Terri Cain: These actions were well regarded within the state and gained us points towards our certification. So we were very pleased about that. So let me just go the next

446

00:42:38.790 --> 00:42:39.840

Terri Cain: Slide please

447

00:42:47.130 --> 00:42:53.280

Terri Cain: Can we can we get their capital. There we go. So cultural ecosystems. These are the arts.

448

00:42:54.240 --> 00:43:12.750

Terri Cain: And we earn 25 points for the arts. We got a lot, as you know, a lot of cultural offerings in town a library or parts of rank advance our poet laureate program our partnership with the Guilford Art Center for the Arts Festival all gave us a total of 40 points.

449

00:43:12.840 --> 00:43:13.830

12034444706: And next

450

00:43:15.900 --> 00:43:16.320

12034444706: So,

451

00:43:16.350 --> 00:43:28.590

Terri Cain: Dynamic and a resilient planning bouncing human development and resource use with a range of livability economic opportunity, biodiversity and natural systems.

452

00:43:29.700 --> 00:43:34.530

Terri Cain: This was our highest earning category we earn 65 points in this category.

453

00:43:35.820 --> 00:43:46.500

Terri Cain: And 20 of those points were for our efforts to understand and address climate vulnerability, including within the P OCD our coastal resilience plan.

454

00:43:47.010 --> 00:43:59.520

Terri Cain: With the Nature Conservancy happened in 2013 and 2014 and then most recently we organize our Task Force organize a community resiliency workshop held in the summer of

455

00:44:01.860 --> 00:44:03.810

Terri Cain: That was really excellent.

456

00:44:11.190 --> 00:44:11.550

Rose.

457

00:44:27.060 --> 00:44:29.580

Laura: Tara You're frozen. Are you aware, can you hear me.

458

00:44:35.460 --> 00:44:35.970

Kevin Magee: Let me

459

00:44:38.100 --> 00:44:39.930

Kevin Magee: advance the slide here we can see it then.

460

00:44:42.930 --> 00:44:47.460

Kevin Magee: I think she's, she's lost connection or something or froze.

461

00:44:55.530 --> 00:44:56.970

Laura: Yeah, I think she's asked, he's gonna

462

00:44:56.970 --> 00:44:57.930

Kevin Magee: They just dropped out.

463

00:44:59.850 --> 00:45:00.120

Kevin Magee: Yeah.

464

00:45:03.840 --> 00:45:04.320

Laura: Kevin

465

00:45:04.830 --> 00:45:06.390

Joseph Nugent: The dog he pulled the plug.

466

00:45:11.940 --> 00:45:16.200

Laura: This to serve will talk us through the slides, would we have to wait for Terry

467

00:45:24.120 --> 00:45:25.710

Judy Castellano: Looks like Kevin's frozen now.

468

00:45:25.770 --> 00:45:26.670

Laura: Yeah, it does.

469

00:45:27.810 --> 00:45:34.770

Judy Castellano: Maybe Duane maybe doing who's, you know, part of that too, or or Wendy when

470

00:45:36.000 --> 00:45:36.690

Kevin Magee: I'm

471

00:45:38.070 --> 00:45:40.110

Kevin Magee: Implement complete streets.

472

00:45:43.500 --> 00:45:51.810

Kevin Magee: You know, the first got 35 points for the mobility Task Force attending regional training and topics and passing us a street mobility plan.

473

00:45:52.470 --> 00:46:04.890

Kevin Magee: Guilford was also acknowledged for implementing projects in the past two years, definitely improvements and pedestrian safety along the town green roofs only seven from Adam school has an ad. I need to find interchange

474

00:46:06.570 --> 00:46:10.440

Kevin Magee: So you can see are charging stations in town hall parking lot, they're

475

00:46:12.480 --> 00:46:14.820

Kevin Magee: Efficient physical

476

00:46:16.560 --> 00:46:25.890

Kevin Magee: Transportation operations, including accessibility missile buildings efficient operation and maintenance of energy systems they got 30 points from from that item.

477

00:46:27.450 --> 00:46:38.250

Kevin Magee: They tracked down energy use ENERGY STAR portfolio decrease user renewable energy and municipal buildings install efficient exterior lighting.

478

00:46:39.300 --> 00:46:51.810

Kevin Magee: They earned a 30 points across the three action areas as part of the energy performance contract implemented by the town, which included retrofits of streetlights installation of solar PV

479

00:46:54.540 --> 00:47:00.780

Kevin Magee: Rays and school buildings and reporting annual energy use and energy start portfolio manager.

480

00:47:02.220 --> 00:47:08.760

Kevin Magee: He's trying to see if she's trying to come back on here but I don't see anything for people looking to

481

00:47:10.440 --> 00:47:11.490

Kevin Magee: corral the waiting room. Yeah.

482

00:47:15.570 --> 00:47:16.260

Kevin Magee: So,

483

00:47:16.320 --> 00:47:25.770

Laura: The thing that's interesting is these are things that Alan had certainly identified that we needed to be looking into. So it seems like we

484

00:47:26.040 --> 00:47:27.240

Laura: Already

485

00:47:27.300 --> 00:47:34.770

Laura: As a condition, we're starting to look at these very things relative to sustainable Connecticut and points earning so

486

00:47:34.860 --> 00:47:37.860

Kevin Magee: All right, I think she was trying to come back and we'll see if it got her here.

487

00:47:38.130 --> 00:47:38.460

Okay.

488

00:47:47.370 --> 00:47:49.920

PDL: Did you guys only have the bell rang. That's kinda cute.

489

00:47:50.610 --> 00:47:51.150

Yeah.

490

00:47:56.910 --> 00:47:59.550

Terri Cain: I unmuted. Okay. Can you all hear me now.

491

00:47:59.730 --> 00:48:01.410

Kevin Magee: Yes, you're gone.

492

00:48:02.100 --> 00:48:06.030

Terri Cain: Out, many, many apologies, as you know, zoom zooms out

493

00:48:07.500 --> 00:48:09.270

Laura: It's okay. No apology needed

494

00:48:10.890 --> 00:48:14.520

Laura: To see so Kevin moved it forward a couple slides. If you want to pick it up from here.

495

00:48:14.970 --> 00:48:18.510

Terri Cain: Where are we and inclusive public services, I'm

496

00:48:19.650 --> 00:48:25.980

Terri Cain: Sorry, so I'm not really able to see this very well because I'm still giving me weird stuff.

497

00:48:27.630 --> 00:48:35.280

Terri Cain: So we want to skip down to recycling additional materials and compost organics something that I'm particularly

498

00:48:36.420 --> 00:48:42.960

Terri Cain: Active with, especially the composting part of this. And so because we recycle mattresses and electronics

499

00:48:44.460 --> 00:48:51.270

Terri Cain: You can see that we recycled the England to mattresses for 37,300 pounds. So that was

500

00:48:52.380 --> 00:48:59.940

Terri Cain: That was acknowledged and we got points for that and we're going to continue with with various especially with the

501

00:49:01.530 --> 00:49:02.850

Terri Cain: With the composting.

502

00:49:04.680 --> 00:49:18.120

Terri Cain: So up there. I'm back again. Okay, so we're going to be working in fact I've started working on composting encouraging home composting, and trying to get as as much of the

503

00:49:19.470 --> 00:49:26.880

Terri Cain: Out of the waste stream as we possibly can. So we're working on that right now. Okay, let's move forward.

504

00:49:28.980 --> 00:49:30.240

Terri Cain: Next slide.

505

00:49:32.310 --> 00:49:50.610

Terri Cain: housing needs assessment, we really only gain 10 points for our housing, most of its because we are behind and affordable housing and I think that we're working, working, that a little deeper going forward.

506

00:49:51.780 --> 00:49:53.460

Terri Cain: Okay. And then next

507

00:49:56.010 --> 00:50:04.980

Terri Cain: Now, this, this is, this is the undercurrent of all of all of what we do in sustainable Connecticut and that is being inclusive and equitable

508

00:50:05.610 --> 00:50:16.350

Terri Cain: I think it was doing that talked about a couple times mentioned about, you know, the democratic process. And this is a main action for all of the towns.

509

00:50:17.940 --> 00:50:27.870

Terri Cain: We earned 30 points. This was big, we were able to gain theory equity actions for our for how we are inclusive.

510

00:50:28.920 --> 00:50:34.710

Terri Cain: Within our government with our town government within how how we

511

00:50:36.060 --> 00:50:37.410

Terri Cain: Put meetings together.

512

00:50:38.550 --> 00:50:50.040

Terri Cain: So one was, as I mentioned before passing the ordinance to ban single use past plastic bags. The second we gained points for was innovative parking solutions on the town green

513

00:50:50.940 --> 00:51:01.080

Terri Cain: And the third one was providing potable water access to the moderate point community and it's the point is not that the town did this to

514

00:51:01.830 --> 00:51:10.290

Terri Cain: The community or did this to the residents, the point of being equitable and inclusive as that we include the community in the discussion to start with.

515

00:51:10.650 --> 00:51:21.510

Terri Cain: Which is also to Dwayne's point we we can't make decisions without seeing all of the interested parties. Who are the stakeholders and what are, what are their needs. What are their opinions.

516

00:51:21.930 --> 00:51:29.430

Terri Cain: And that's something that we've proved that we can do very well in Guilford, so we're, we're going to continue that. Okay, next.

517

00:51:31.800 --> 00:51:35.310

Terri Cain: So lots to do moving forward.

518

00:51:36.600 --> 00:51:45.240

Terri Cain: Meeting with the board selectmen about lessons learned outreach other commissions, which we are doing now and we're going to each and every Commission.

519

00:51:46.590 --> 00:52:02.640

Terri Cain: Looking for more community resilience initiatives and, of course, one of our big things that that we do is educational initiatives, so we will be working on that. And I apologize again for talking fast, but I'm trying to get through this before. I'm cut off again.

520

00:52:04.050 --> 00:52:17.490

Terri Cain: So then, between 2021 and August of 2022 we will be actively working and documenting all of these actions for this next certification. So this is where that

521

00:52:18.390 --> 00:52:29.130

Terri Cain: We really want to connect with you all, and other commissions, because it's much more efficient for us to know what's happening as it's happening and documented at the time.

522

00:52:30.180 --> 00:52:41.730

Terri Cain: And perhaps make suggestions from sustainable Connecticut that will that will help the process of whatever action that is

523

00:52:42.840 --> 00:52:48.780

Terri Cain: More efficient and more sustainable. So if we document at the time. We don't have to then

524

00:52:49.560 --> 00:53:07.350

Terri Cain: Go back and try to dig up all the research what happened, how it happened and try to recreate that and, you know, do all the writing and research around that. So, so it's very important. You know, for reporting this to to the town to the Board of selectmen

525

00:53:08.460 --> 00:53:18.810

Terri Cain: To stay organized. That's basically what we're trying to do in in the task forces to stay organized around the topic of sustainability and resiliency across the entire town.

526

00:53:20.100 --> 00:53:33.120

Terri Cain: So with that, I would like to mention some of the items that we did not receive points for that are possibilities for us going forward.

527

00:53:34.830 --> 00:53:45.930

Terri Cain: To keep our certification. So let me read through some of those again I included this in the handout, so you'll see all of these on the back.

528

00:53:49.830 --> 00:53:52.590

Terri Cain: So let me just go through a couple of those

529

00:53:53.760 --> 00:53:59.370

Terri Cain: For example, engage in watershed protection and restoration

530

00:54:00.570 --> 00:54:06.600

Terri Cain: Manage for drought and municipal water use. That's kind of

531

00:54:07.770 --> 00:54:14.580

Terri Cain: coming into play. Right now, we were kind of an address the situation without enough rain up for part of the summer.

532

00:54:16.830 --> 00:54:21.030

Terri Cain: Provide education to the community on water conservation.

533

00:54:22.050 --> 00:54:24.570

Terri Cain: Implement low impact development.

534

00:54:26.910 --> 00:54:32.220

Terri Cain: Facilitate invasive species education and management.

535

00:54:33.600 --> 00:54:41.820

Terri Cain: And implement green grounds and maintenance program. So those are just some of those are, I guess the bulk of

536

00:54:42.900 --> 00:55:01.530

Terri Cain: Some of the actions that I that we plan to pursue and that we will hope to talk to the Conservation Commission about and see what your plans are and see where we meet on those plans and how we can document what you are doing.

537

00:55:02.700 --> 00:55:08.400

Terri Cain: So I will answer questions, the best that I can, if there are any

538

00:55:13.230 --> 00:55:28.920

Laura: I just have a question. So Robin will be how do you envision the liaison between the Conservation Commission and, and the sustainable Connecticut sustainable.

539

00:55:29.070 --> 00:55:36.210

Terri Cain: Connecticut Commission work. Well, I think those are two things that I understand from from Kevin your email.

540

00:55:37.320 --> 00:55:40.890

Terri Cain: Robin is was appointed

541

00:55:42.030 --> 00:55:47.850

Terri Cain: To sit on your subcommittee. So that's not the liaison that was subcommittee. I

542

00:55:48.180 --> 00:55:48.990

Think is actually

543

00:55:50.010 --> 00:55:51.810

Kevin Magee: Yes, is recommended for the subcommittee.

544

00:55:52.170 --> 00:55:52.800

Kevin Magee: Yeah, man.

545

00:55:52.890 --> 00:55:57.180

Kevin Magee: I'm today, will the Commission officially add that position and voter in

546

00:55:57.630 --> 00:56:00.300

R Campot: Okay, joined. So,

547

00:56:00.390 --> 00:56:03.540

Terri Cain: Robin. Robin lives on like quantify.

548

00:56:06.150 --> 00:56:21.390

Terri Cain: It made sense. It made sense for her to be part of the subcommittee that Matt mentioned and and Kevin Matt had a discussion on, I believe, along with us. So, and, and so she is

549

00:56:22.680 --> 00:56:31.620

Terri Cain: Has been a real really active an extremely valuable member of our team in the past couple of years. She's a very hard worker.

550

00:56:33.090 --> 00:56:36.510

Terri Cain: And I, I, of course, highly recommend her to you.

551

00:56:37.650 --> 00:56:38.760

Terri Cain: For that position.

552

00:56:39.420 --> 00:56:45.840

Laura: So I'm Ellen and Patricia you're on that subcommittee with me to either of you have any questions.

553

00:56:46.590 --> 00:56:47.910

12034444706: No, not right now.

554

00:56:48.930 --> 00:56:59.910

12034444706: Is that I am having computer issues. I couldn't zoom into the meeting. That's why I called in. So I'm going to have an aside with Alan when he's available.

555

00:57:00.390 --> 00:57:01.380

12034444706: Okay. All right.

556

00:57:02.850 --> 00:57:04.530

Laura: Anybody else. Anyone else have questions.

557

00:57:09.720 --> 00:57:15.510

Kevin Magee: Comments with processes that they are looking man trying to look to see if there's somehow they can get a

558

00:57:16.740 --> 00:57:21.690

Kevin Magee: Person from sustainable Guilford sitting on the Conservation Commission. And what that's going to

559

00:57:21.750 --> 00:57:24.030

Kevin Magee: Take in terms of creating a liaison position.

560

00:57:25.560 --> 00:57:26.670

Kevin Magee: May be looking at

561

00:57:26.790 --> 00:57:28.560

Kevin Magee: Money existing seats.

562

00:57:29.010 --> 00:57:30.570

being assigned for

563

00:57:32.250 --> 00:57:39.570

Kevin Magee: Believe that liaison from simply Guilford, but that's still being worked out and trying to be like that out through

564

00:57:40.380 --> 00:57:42.300

Kevin Magee: I guess town councillor see if there's any

565

00:57:43.050 --> 00:57:48.360

Kevin Magee: Ordinance restrictions or what we need to do change ordinances to our town charter to allow

566

00:57:48.360 --> 00:57:48.750

That

567

00:57:51.000 --> 00:57:52.830

Kevin Magee: Fully happen correctly, but

568

00:57:54.630 --> 00:58:03.750

Kevin Magee: With an opening potentially coming up, especially, even as a authentic position would be good to least have that filled while they're working out the

569

00:58:04.380 --> 00:58:24.300

Kevin Magee: Details by sustainable Guilford person because there is a lot of interconnection between the Conservation Commission and sustainable Guilford in terms of the goals there as Terry indicated the goal of invasive species management and eradication, that's something that

570

00:58:25.620 --> 00:58:35.340

Kevin Magee: We have speaker on and are committed with our land Stewart's and stuff and trying to deal with invasive. Listen, Tom property.

571

00:58:36.030 --> 00:58:53.430

Kevin Magee: And then we had a conversation about education on that one. Also, another topic which of interest, which we've been talking about. Similarly, is the composting, especially the group was looking to have a speaker or even trying to do a presentation at the

572

00:58:58.530 --> 00:58:59.730

Kevin Magee: Program in April.

573

00:59:01.260 --> 00:59:10.140

Kevin Magee: Earth Day but unfortunate that was canceled. But there's a lot of interconnection would be great. Having somebody going between the two boards there.

574

00:59:10.350 --> 00:59:16.350

Terri Cain: Yeah, it certainly would be, and we've been really looking forward to getting to know you speaking about the compost.

575

00:59:17.490 --> 00:59:26.730

Terri Cain: The compost issue I am actually putting my compost. I'm Master composter through UConn so I give presentations on composting.

576

00:59:27.150 --> 00:59:40.680

Terri Cain: I've given a couple of the library and other organization. So one of our first steps for the task force is I will be putting my PowerPoint on composting online through the town website and then

577

00:59:41.400 --> 00:59:49.410

Terri Cain: encouraging people to backyard compost and so we're on the task force. We're very, very involved with the composting.

578

00:59:50.760 --> 00:59:55.470

Terri Cain: And so that that would be great if a great thing for us to work together on

579

00:59:56.340 --> 01:00:09.090

Laura: Alright, so, so next steps. I just, you know, recognize, we've got a number of things on the agenda and you don't need to keep you here any longer than necessary, Terry. I mean for you. You need to feed the dog.

580

01:00:11.610 --> 01:00:13.800

Laura: Apparently I do, yes.

581

01:00:13.830 --> 01:00:15.030

12034444706: It does anyone else.

582

01:00:15.480 --> 01:00:16.170

Laura: Have any

583

01:00:16.200 --> 01:00:24.600

Laura: Any quick questions. And I would say, what is the next step that we need to do, Kevin. I mean, what, what's our action step. At this point, do you think as a Commission.

584

01:00:25.230 --> 01:00:30.270

Kevin Magee: Um, I think our next step really is trying to

585

01:00:31.770 --> 01:00:52.620

Kevin Magee: Stay in communications until I really get a formalized lays on position in. I mean, we as a Commission to like move officially move a person onto our board or your board there of having a availability on our agenda for them to come monthly or bimonthly to

586

01:00:53.790 --> 01:01:06.150

Kevin Magee: Provide updates to us and we can provide updates to them or where we stand with a different projects like to see that as a short term thing until full see person gets several in

587

01:01:06.690 --> 01:01:17.430

Laura: So, so are you saying there, there would need to be a change to our charter regarding number of Commissioners, that's why the, the attorney was involved or

588

01:01:17.520 --> 01:01:27.360

Kevin Magee: I'm trying to figure out the basically taking probably taking one of the existing seats, which comes open and making that one designated for that.

589

01:01:28.620 --> 01:01:30.480

Kevin Magee: Commission, Member from that of the board.

590

01:01:31.680 --> 01:01:37.440

Kevin Magee: It's similar type of thing done with the weapons Commission where we send a person from conservation to wetlands.

591

01:01:38.160 --> 01:01:39.810

12034444706: So looking at doing the opposite.

592

01:01:40.140 --> 01:01:45.570

Kevin Magee: To us creating a seat designated for sustainable Guilford person.

593

01:01:49.320 --> 01:02:04.260

Laura: All right, well, you know, just, just a quick about, you know, I don't want to really take any more time on this. We've got so many other things to get to. But so I might, might the first next step be sharing contact information between

594

01:02:06.600 --> 01:02:18.540

Laura: Our sustainable subcommittee, you know, Alan Patricia and and and Terry and Robin. Does that make sense. Just, just to get lines of communication open

595

01:02:18.840 --> 01:02:19.200

12034444706: Yeah.

596

01:02:19.860 --> 01:02:20.670

12034444706: A lot of sense.

597

01:02:20.970 --> 01:02:21.450

Laura: Okay.

598

01:02:21.660 --> 01:02:27.750

Laura: All right. We'll start there. We'll worry about the Commission appointments later. But let's not let that stall thing so

599

01:02:28.140 --> 01:02:38.430

Laura: So we'll do that we'll, we'll share this Kevin. Maybe you could take the lead on giving you know email addresses of everybody and and then then we can take it forward from there.

600

01:02:40.230 --> 01:02:40.650

Kevin Magee: Everybody

601

01:02:40.920 --> 01:02:41.340

Terri Cain: Yeah.

602

01:02:41.460 --> 01:02:45.900

Laura: So I just thought, right, Kari, you've done a tremendous job and

603

01:02:46.650 --> 01:02:54.750

Laura: While you were while you were offline. I was pointing out that some of the initiatives that that our subcommittee have worked on.

604

01:02:54.930 --> 01:03:01.470

Laura: Have have been looking at the very things. That's why we were familiar at all with sustainable Connecticut because we were looking for those links.

605

01:03:02.010 --> 01:03:13.860

Laura: Well, and, in addition, the Conservation Commission has a commitment to the resilient, the plan of conservation and growth and also the coastal resiliency plan, which is, as you know, merged in

606

01:03:14.460 --> 01:03:27.360

Laura: So we have some goals and objectives ourselves that completely directly linked to what you're doing as well. So there's a very good synergy. So it's pretty exciting. And you've done a great job so far. Bravo. Great.

607

01:03:28.080 --> 01:03:34.860

Terri Cain: Thank you so much. Thank you for your time and I'm really looking forward to continuing the conversation with you.

608

01:03:35.160 --> 01:03:36.330

Laura: Excellent. Right.

609

01:03:37.980 --> 01:03:38.880

Terri Cain: Good night, everyone.

610

01:03:39.330 --> 01:03:39.720

Good night.

611

01:03:42.720 --> 01:03:43.170

Laura: Okay.

612

01:03:43.230 --> 01:03:43.650

Laura: Enjoy.

613

01:03:43.830 --> 01:03:46.530

Laura: Dwayne, you can stay on or get off you.

614

01:03:46.530 --> 01:03:47.880

Laura: Can do anything you want.

615

01:03:50.880 --> 01:03:51.840

Duane Orloske: I'll stay on.

616

01:03:51.960 --> 01:03:53.850

Duane Orloske: Until much more about what you do.

617

01:03:54.180 --> 01:04:08.880

Laura: Okay, excellent. Happy to have you. All right, so now looking back at the agenda, it's moving up back to where we were under the conservation education outreach so presentations civic events and

618

01:04:10.140 --> 01:04:26.190

Laura: I still am very interested. Whenever we can do it to be able to to get the speaker in on recycling. I think that's the more I've been thinking about it and I was so eager to hear the speaker and the woman from the town sort of collaborating on a presentation.

619

01:04:27.930 --> 01:04:33.960

Laura: Is the library doing any virtual presentations. Does anyone have a sense of how successful they might be

620

01:04:34.320 --> 01:04:46.500

Janet Ainsworth: Not heard that they are, but I can tell you that terms of people in the building. There are 50% and anybody age 65 and overs recommended not to go to libraries. So that's like most of the people.

621

01:04:46.500 --> 01:04:48.150

Laura: That come to our presentation.

622

01:04:49.080 --> 01:04:52.950

Janet Ainsworth: So I know I don't see it happening this year, to be perfectly honest with you.

623

01:04:53.040 --> 01:04:53.940

Laura: Okay. All right.

624

01:04:54.090 --> 01:04:57.870

Janet Ainsworth: We're still in phase two, we're on indefinite hold for Phase three

625

01:04:58.290 --> 01:05:13.920

Laura: Okay. All right. Okay. And is there any other general communication things that the Conservation Commission could think of. So rather than library presentation. Are there any things that we eat, you know, articles in the paper that we could put

626

01:05:13.920 --> 01:05:14.910

Janet Ainsworth: Into God

627

01:05:15.060 --> 01:05:26.190

Laura: And it just something to think about. We don't have to make any decisions now on it. But, but, you know, finding written written venues or websites or blogs or something.

628

01:05:27.270 --> 01:05:31.470

Laura: On topics that are important to us near and dear our properties and

629

01:05:32.220 --> 01:05:35.730

Kevin Magee: There is a magazine that comes out four times a year.

630

01:05:36.540 --> 01:05:36.960

Laura: It's really

631

01:05:37.350 --> 01:05:42.600

Kevin Magee: If you want to kind of create for that we can submit stuff.

632

01:05:42.930 --> 01:05:43.830

Janet Ainsworth: Sure, I'll say

633

01:05:44.130 --> 01:05:46.650

Kevin Magee: Find out from Tracy from our

634

01:05:47.760 --> 01:05:51.030

Kevin Magee: Public Relations. They are the deadline dates.

635

01:05:51.900 --> 01:05:56.940

Laura: That's, that's a great idea it would it would be something you know something. Keep moving things forward.

636

01:05:57.390 --> 01:05:59.760

Janet Ainsworth: And we can also write things for the guild for career.

637

01:06:00.900 --> 01:06:01.950

Janet Ainsworth: as they come up.

638

01:06:02.010 --> 01:06:14.490

Laura: I think a beautiful preceptor will be the new signs that go up that will then Kevin is going to be posting maybe something about. That's why do we have these signs, what do they mean what's the

639

01:06:14.490 --> 01:06:14.820

Janet Ainsworth: Thought

640

01:06:14.910 --> 01:06:24.630

Laura: Behind it, what's the, what's our philosophy. What's the mission of the Conservation Commission right to preserve land for future generations as opposed to, you know,

641

01:06:24.870 --> 01:06:25.500

Janet Ainsworth: Use it up.

642

01:06:27.510 --> 01:06:40.110

Janet Ainsworth: I have a question about East River preserve. I was in there. A couple of times recently and I noticed the new fence the new gate is there, but they're locking the old one at 330 so anybody who wants to go hiking.

643

01:06:42.450 --> 01:06:47.460

Janet Ainsworth: Beyond those hours for that gate is open. You can't use any of those new parking spaces.

644

01:06:48.210 --> 01:06:50.940

Kevin Magee: That you want to go into that afterwards.

645

01:06:51.510 --> 01:06:54.960

Kevin Magee: Okay, you have what that's on the agenda, no business there.

646

01:06:55.110 --> 01:06:56.130

Janet Ainsworth: Okay, good.

647

01:06:56.820 --> 01:06:59.100

Janet Ainsworth: Cuz that would be something we could write about when we

648

01:06:59.100 --> 01:07:00.690

Janet Ainsworth: Finally get to the point that

649

01:07:00.810 --> 01:07:06.630

Laura: It's open. Exactly, yep. Good plan legislative updates Janet anything

650

01:07:07.140 --> 01:07:22.350

Janet Ainsworth: There's the legislature closed on March 10 had a special session for the sole purpose of police accountability and a couple of health related bills and I have not heard serious talk of another one yet.

651

01:07:24.690 --> 01:07:27.690

Janet Ainsworth: The new session will be beginning of next year.

652

01:07:29.130 --> 01:07:30.480

Laura: Okay, that

653

01:07:31.260 --> 01:07:41.940

Janet Ainsworth: Factory or power plant out and out east is caught up now litigation. So they're not going to be doing any construction anytime soon.

654

01:07:43.110 --> 01:07:43.410

Okay.

655

01:07:44.490 --> 01:07:46.560

Laura: All right, thanks, keep us posted

656

01:07:46.890 --> 01:07:48.360

Laura: Sure range new world.

657

01:07:50.250 --> 01:07:55.020

Laura: I'm okay. East River preserved deer management, right. So we had a deadline. Right.

658

01:08:00.570 --> 01:08:01.170

Laura: Kevin

659

01:08:01.950 --> 01:08:02.880

Kevin Magee: unmute myself here.

660

01:08:03.660 --> 01:08:05.100

PDL: Yesterday, apparently.

661

01:08:05.220 --> 01:08:07.860

Laura: Yeah yeah by me.

662

01:08:09.090 --> 01:08:15.330

Kevin Magee: That we have received I'm night applicants for the deer management program.

663

01:08:16.560 --> 01:08:20.070

Kevin Magee: Central below the 20 number we all these

664

01:08:21.390 --> 01:08:23.220

Kevin Magee: Would be admitted into the program.

665

01:08:25.200 --> 01:08:26.910

Kevin Magee: We'd offer who we have here.

666

01:08:28.440 --> 01:08:53.550

Kevin Magee: We have john been from Madison Jason to Costa Gordon hunting, we invite you guys we I'm Bill why today's the second Charles failing john failing, Sam. Sam, your wall suck and Dan Daniel is zero. I'm all but two of these are repeats from before, Samuel and Daniel are two new

667

01:08:54.780 --> 01:08:56.250

Kevin Magee: applicants to the program there.

668

01:09:00.210 --> 01:09:11.670

Kevin Magee: We have set up a proficiency test coming up for them in beginning of mid September, followed by an online zoom safety.

669

01:09:14.340 --> 01:09:14.820

Kevin Magee: Meeting.

670

01:09:17.460 --> 01:09:24.390

Laura: treats. Yeah. Did your contact make their way. Did they hit the deadline, by any chance, I know there was like very short notice.

671

01:09:26.070 --> 01:09:28.710

PDL: If the left guy right Kevin is a Daniel

672

01:09:28.860 --> 01:09:36.000

Kevin Magee: Daniel yeah he up email me actually got like email like a week or so ago from him. So he might have

673

01:09:38.010 --> 01:09:39.210

PDL: Oh, okay.

674

01:09:40.470 --> 01:09:46.230

PDL: The only reason why I got involved with. And I wasn't even here. I was working my searches.

675

01:09:47.760 --> 01:09:49.350

PDL: This guy came to buy

676

01:09:50.580 --> 01:09:52.680

PDL: From us from Craigslist.

677

01:09:54.570 --> 01:10:02.910

PDL: And then he got talking to my husband, Dave. And next thing you know, blah, blah, blah. They talk about how bow hunting around the house.

678

01:10:04.890 --> 01:10:06.870

PDL: And then he mention you know

679

01:10:06.960 --> 01:10:15.240

PDL: Our preserve and and my work on the Commission and this and that. And the guy said, Yeah, sure. I'll send me the link or whatever.

680

01:10:16.650 --> 01:10:19.320

PDL: And then when you told me that their life is like today, you

681

01:10:22.320 --> 01:10:22.530

12034444706: Know,

682

01:10:25.020 --> 01:10:26.790

Laura: You need it. All right, that's good.

683

01:10:27.120 --> 01:10:36.960

Kevin Magee: So he sees on there. So in this is actually a good number. I found a good number to be mental last year. So I think it's either we have a full number there, but I think it's, um,

684

01:10:38.850 --> 01:10:49.350

Kevin Magee: We got the good, the people which are gonna be out there, all these all these repeated really been on the property and haven't wasted their, their permit. Yeah.

685

01:10:49.380 --> 01:10:50.970

Laura: That's good, that's good, Kevin.

686

01:10:51.990 --> 01:11:08.820

Laura: All right, so you're on top of that. So I'm just, you know, keep us posted with the dates of like the tests and just, you know, if you could drop us an email just keep us posted so that it's in our line of sight. By the time we hit the September meeting that would be helpful.

687

01:11:09.450 --> 01:11:11.310

Kevin Magee: Yeah, I don't have the

688

01:11:16.920 --> 01:11:18.450

Kevin Magee: Time people here with me or not.

689

01:11:28.710 --> 01:11:29.220

12034444706: That's okay.

690

01:11:29.670 --> 01:11:30.840

Kevin Magee: The timetable, the paperwork in

691

01:11:30.840 --> 01:11:31.740

Kevin Magee: Front of me here today.

692

01:11:34.470 --> 01:11:34.800  
12034444706: That's good.

693

01:11:35.400 --> 01:11:36.150  
For that out.

694

01:11:37.950 --> 01:11:41.580  
Laura: All right. Um, alright, so I think that

695

01:11:41.610 --> 01:11:45.780  
Laura: There are no supercuts events going on. So we don't worry about that at this moment.

696

01:11:46.560 --> 01:11:47.910  
Laura: Old business.

697

01:11:47.970 --> 01:11:48.930  
Laura: East River preserved.

698

01:11:48.960 --> 01:11:49.980  
Laura: Parking so Kevin

699

01:11:50.010 --> 01:11:53.490  
Kevin Magee: Take it away. So the parking area is

700

01:11:54.720 --> 01:11:59.160  
Kevin Magee: Pretty well completed. I need to have them actually they put sand on top of some of the stone, the earth.

701

01:11:59.790 --> 01:12:14.760  
Kevin Magee: And have standards actually becoming an erosion issue. It's actually washing down towards our weapons. I put up some fencing to kind of hold it in place. But I need to have them. They thought it was a nice theme to it wasn't all stone their terms of neatness, I guess, but

702

01:12:16.710 --> 01:12:28.050  
Kevin Magee: I have to have them pull that back, put some three quarter inch stone unturned quarter stolen or something like that and its place to grade on to get rid of the sand, which

703

01:12:28.410 --> 01:12:29.670  
12034444706: Creates creating issues.

704

01:12:30.060 --> 01:12:32.130

Kevin Magee: And the issue of the gate is that they

705

01:12:34.050 --> 01:12:36.480

Kevin Magee: One of the posts told him the gates sunk.

706

01:12:37.560 --> 01:12:40.680

Kevin Magee: So the gate. The inner gate can't be close right now.

707

01:12:42.090 --> 01:12:48.060

Kevin Magee: Until a young Get back in there within the big machine to reset it. Okay.

708

01:12:48.780 --> 01:12:49.530

Laura: Well, there you go.

709

01:12:49.890 --> 01:12:53.790

Kevin Magee: Um, yeah, it's been very busy there. I've been actually out there quite a bit in the property.

710

01:12:55.050 --> 01:13:01.410

Kevin Magee: Weekend and sometimes evenings, there is that parking area down below is definitely getting over full

711

01:13:01.680 --> 01:13:02.430

Laura: Yeah yeah

712

01:13:02.670 --> 01:13:09.150

Kevin Magee: So I'll follow up a public works on when they think they can get back down there. I mean, there was three weeks with storm cleanups

713

01:13:09.660 --> 01:13:15.240

Laura: Well, and of course this dump dump has been open seven days a week for what, three weeks now.

714

01:13:15.570 --> 01:13:15.930

Kevin Magee: Yeah.

715

01:13:16.230 --> 01:13:25.800

Laura: So that hilarious getting a lot more utilization just traffic. I mean, I've been there myself several times. So yeah, you get getting to be very good friends with Bob

716

01:13:25.920 --> 01:13:28.590

12034444706: Haha yeah I

717

01:13:29.280 --> 01:13:31.080

Laura: Get a lot of checks to Bob.

718

01:13:32.910 --> 01:13:34.110

12034444706: Curb stops that

719

01:13:34.170 --> 01:13:39.090

Joseph Nugent: That they have at the new parking lot. They come on your budget or out of public works.

720

01:13:40.110 --> 01:13:44.040

Kevin Magee: On those were fumbling around so those didn't cost us anything.

721

01:13:44.130 --> 01:13:47.970

Joseph Nugent: Good, because it's totally not necessary, but they're there.

722

01:13:49.980 --> 01:13:50.490

Laura: Terrific.

723

01:13:51.000 --> 01:13:54.120

Kevin Magee: Helps me help please guide the cars to

724

01:13:55.560 --> 01:14:02.670

Kevin Magee: Park in a certain manner. So you're not too far too close to somebody there, so hopefully it helps set the the parking spacing.

725

01:14:05.640 --> 01:14:10.110

Laura: OK, so the next item plan of conservation development so

726

01:14:11.670 --> 01:14:27.960

Laura: So Alan or Patricia Ellen. I think you and Kevin. We're going to try to connect over the summer. I know if you got a chance to basically it ties directly into the sustainable Connecticut list of items. I'm pretty sure Alan, are you, can you hear

727

01:14:28.980 --> 01:14:29.850

Laura: Me still on.

728

01:14:35.160 --> 01:14:36.990

Laura: Okay, I wasn't sure he was going to be

729

01:14:38.880 --> 01:14:42.210

Alan Fairbank: But you know, I can't hear everything but I heard my name.

730

01:14:42.390 --> 01:14:42.720

Yeah.

731

01:14:44.850 --> 01:14:52.350

Laura: So if any work. Did you do any work on the plan of conservation updates yet.

732

01:14:52.860 --> 01:14:54.060

Alan Fairbank: No, we haven't done that yet.

733

01:14:54.210 --> 01:14:59.340

Laura: Yeah, I think this I think right now the sustainable Connecticut is going to be the perfect time, I think.

734

01:14:59.460 --> 01:15:00.000

Alan Fairbank: Right now.

735

01:15:01.110 --> 01:15:02.040

Alan Fairbank: I'd be glad to work on that.

736

01:15:02.220 --> 01:15:04.140

Laura: Yeah, kind of move it forward.

737

01:15:04.920 --> 01:15:12.780

Kevin Magee: I think it fellas without I've been having problems connecting in terms of phone but if he can send me small group of questions I can try to

738

01:15:14.010 --> 01:15:15.570

Kevin Magee: Get to those by email.

739

01:15:16.170 --> 01:15:18.750

Laura: All right, good. All right. That would be good.

740

01:15:20.790 --> 01:15:28.860

12034444706: Alan, this is Patricia I I like to speak with you tomorrow if you're available at any point. Okay. Okay.

741

01:15:31.410 --> 01:15:33.000

Laura: And land stewards.

742

01:15:35.250 --> 01:15:37.170

Kevin Magee: Land Stewart's we

743

01:15:38.520 --> 01:15:42.690

Kevin Magee: Recently rehired to land Stewart on

744

01:15:44.220 --> 01:15:44.670

Kevin Magee: And

745

01:15:45.030 --> 01:15:46.170

Kevin Magee: Same Stewart.

746

01:15:46.650 --> 01:15:47.550

Kevin Magee: There is not as

747

01:15:49.860 --> 01:15:51.840

12034444706: After interviewing the two candidates.

748

01:15:53.550 --> 01:15:55.830

Kevin Magee: Are personnel director actually blew it not

749

01:15:56.910 --> 01:15:57.720

Kevin Magee: Recommended

750

01:15:57.750 --> 01:16:09.630

Kevin Magee: Instead of hiring an assistant and a steward position. He asked me how I felt about having to Stewart's and I had indicated that that would be a great thing. Um,

751

01:16:11.220 --> 01:16:12.480

Kevin Magee: They are both

752

01:16:13.950 --> 01:16:21.840

Kevin Magee: well qualified I'm both have college degrees. So having one as an assistant with a college degree.

753

01:16:23.760 --> 01:16:24.810

Kevin Magee: The pay scale their

754

01:16:25.440 --> 01:16:31.770

Kevin Magee: System, be a lot less money than the regular one. And they're both pretty much doing this similar type of work. I'm

755

01:16:33.000 --> 01:16:36.090

Kevin Magee: Sending one's not really going to be higher rank than the other one.

756

01:16:37.080 --> 01:16:39.060

12034444706: So we've hired Austin.

757

01:16:39.510 --> 01:16:42.030

Kevin Magee: The telly. He's from Branford

758

01:16:45.960 --> 01:16:46.710

Kevin Magee: Austin.

759

01:16:50.100 --> 01:16:59.580

Kevin Magee: Is a graduate of the University of Connecticut College of Agriculture health and natural resources. He graduated back in 2016

760

01:17:00.960 --> 01:17:02.940

Kevin Magee: He's been actually doing.

761

01:17:04.050 --> 01:17:10.200

Kevin Magee: The past several years, been doing work with the American corpse organization.

762

01:17:12.240 --> 01:17:17.490

Kevin Magee: And traveling to several different locations with them and was doing

763

01:17:18.930 --> 01:17:20.220

Kevin Magee: Work with nature works.

764

01:17:20.610 --> 01:17:22.740

Kevin Magee: horticultural services and North for

765

01:17:27.300 --> 01:17:29.130

Kevin Magee: The other application.

766

01:17:30.780 --> 01:17:32.190

Kevin Magee: That we had was

767

01:17:33.540 --> 01:17:36.180

Kevin Magee: Brian Higgins. He's actually a recent

768

01:17:37.620 --> 01:17:38.040

Kevin Magee: College.

769

01:17:38.070 --> 01:17:38.940

Graduate

770

01:17:42.090 --> 01:17:44.280

Kevin Magee: From the University of Connecticut.

771

01:17:46.410 --> 01:17:47.550

Kevin Magee: He's done

772

01:17:49.260 --> 01:17:55.140

Kevin Magee: Part time or somewhere work with them DP in the different several different parks.

773

01:17:57.540 --> 01:18:01.470

Kevin Magee: And then did an intern with the lower Connecticut River Council of Governments

774

01:18:03.390 --> 01:18:05.850

Kevin Magee: Doing some research.

775

01:18:06.960 --> 01:18:09.570

Kevin Magee: On invasive plants species is actually was

776

01:18:10.950 --> 01:18:15.450

Kevin Magee: What he's doing is actually Frank 90s research.

777

01:18:16.800 --> 01:18:19.530

Kevin Magee: He also worked at a tree farm in

778

01:18:20.550 --> 01:18:21.420

Kevin Magee: North Burt's

779

01:18:23.040 --> 01:18:23.820

Kevin Magee: Very both

780

01:18:25.740 --> 01:18:42.030

Kevin Magee: Good candidates. They both been working out well. The they're working out to vote and they're working together on Monday and Tuesday and then independently on Wednesday and Thursday. So there somebody on the properties for about four days a week.

781

01:18:44.190 --> 01:18:54.720

Kevin Magee: Fortunately these poor guys got thrown right into the middle of work here because they started the Monday after the storm hit and I couldn't do too much with orientation with them.

782

01:18:55.740 --> 01:19:00.120

Kevin Magee: Basically gave them a map of these for reserved told them the entrance there and

783

01:19:02.160 --> 01:19:04.830

Kevin Magee: First, the handsaw was and told them.

784

01:19:06.540 --> 01:19:15.630

Kevin Magee: Follow this follows trailing clear anything that's in the way and then they've been they actually been through pretty much easier preserve

785

01:19:18.090 --> 01:19:22.470

Kevin Magee: Sections of Timberlands and recently completed.

786

01:19:23.700 --> 01:19:27.600

Kevin Magee: The brain more property and the

787

01:19:30.360 --> 01:19:31.110

Kevin Magee: My Huber

788

01:19:32.640 --> 01:19:37.710

Kevin Magee: Trail from ad from 77 towards the

789

01:19:39.630 --> 01:19:53.880

Kevin Magee: Dirt driveway in there. They're only working with hand tools right now. I'm hoping to get together with him on Monday to see if I can qualify them with them. Chance operations. I think seven a timetable oversee that I wanted to make sure they're comfortable with the saw before I

790

01:19:55.020 --> 01:20:11.370

Kevin Magee: Let them loose with it there. So yeah, it's good. So they got a quite a few miles of trails and least I know in so properties they have bring more and also Timberlands I know that and other volunteers been in there but I figured it gives them an opportunity also to

791

01:20:12.930 --> 01:20:20.460

Kevin Magee: See the trail that works and be familiar with it, even if somebody were to section of it there. So they've been kind of getting familiar with all the

792

01:20:20.760 --> 01:20:21.870

12034444706: Trials in town right now.

793

01:20:22.470 --> 01:20:31.020

Laura: graduations, it sounds like you got two people who are qualified and and you're paying them appropriately or as as much as you can.

794

01:20:31.770 --> 01:20:33.990

Kevin Magee: Up and they finally said they also

795

01:20:35.610 --> 01:20:37.350

Kevin Magee: Started beginning of July, there

796

01:20:38.940 --> 01:20:41.460

Kevin Magee: When they able to come in, they actually got the

797

01:20:43.470 --> 01:20:46.920

Kevin Magee: Pay bumps that were contracted them for that level of

798

01:20:46.920 --> 01:20:49.230

Kevin Magee: Employee that was also

799

01:20:49.890 --> 01:20:52.080

Kevin Magee: Helps with our compensation with these

800

01:20:52.080 --> 01:20:52.710

12034444706: Guys here.

801

01:20:53.310 --> 01:20:53.940

12034444706: That's good.

802

01:20:54.120 --> 01:20:55.920

Laura: Good luck. You keep them.

803

01:20:57.330 --> 01:20:59.220

Kevin Magee: To see, like you said, they're both college

804

01:21:00.870 --> 01:21:12.480

Kevin Magee: Graduates there one's looking at potentially doing some graduate work. So I might be able to hold on to him while he's definitely doing some online college work and stuff. And hopefully, hold on to both of them sounds

805

01:21:12.540 --> 01:21:13.470

Kevin Magee: For the season. If not,

806

01:21:13.530 --> 01:21:20.730

Kevin Magee: Two years it's it's a tough having part timers in there because they eventually went full time work and benefits.

807

01:21:21.180 --> 01:21:21.540

Laura: Yeah.

808

01:21:22.440 --> 01:21:26.880

Doug Clark: But they sound very well qualified. So I'm happy to hear that. Yeah, right.

809

01:21:28.590 --> 01:21:31.200

Laura: Okay and so

810

01:21:32.910 --> 01:21:45.990

Laura: So the next thing on the so we're doing the election of officers last so that brings us to request for Jerry Turkle bumlbers left trail race on our properties.

811

01:21:47.790 --> 01:21:57.510

Kevin Magee: So we have the request letter from him regarding this trying to do this event, indicating he tried to some socially distance things there. I talked with

812

01:21:58.500 --> 01:22:08.820

Kevin Magee: Dennis Johnson, the Director of Health, he is not in favor of this event being held, he's asked, and they canceled all the other road races in town.

813

01:22:09.510 --> 01:22:19.530

Kevin Magee: And feel that there's issues with social distancing. I'm not really during the race but prior to and after the event, all the runners one, I kind of

814

01:22:20.160 --> 01:22:21.630

Kevin Magee: Get a long

815

01:22:21.750 --> 01:22:27.930

Kevin Magee: And stuff after the event they are just trying to set it so they're staggered start times there but

816

01:22:28.440 --> 01:22:29.880

12034444706: You know everybody's going to get there.

817

01:22:30.660 --> 01:22:38.700

Kevin Magee: Want to get there early so they're not late for the start time. So they're going to be congregating anyways. They're also talked with Sarah Williams and

818

01:22:39.900 --> 01:22:42.960

Kevin Magee: receive an email from Dave Grimsby who is the

819

01:22:44.460 --> 01:22:46.050

Kevin Magee: President of the

820

01:22:46.440 --> 01:22:52.530

Kevin Magee: College trust and they are this race is supposed to go through their property they haven't had any request.

821

01:22:52.530 --> 01:22:56.580

Kevin Magee: From this organization yet and they

822

01:22:57.900 --> 01:23:00.060  
Kevin Magee: Are not allowing any organized events.

823  
01:23:00.150 --> 01:23:01.230  
Kevin Magee: On their properties.

824  
01:23:01.680 --> 01:23:03.690  
Kevin Magee: During this covert situation.

825  
01:23:05.190 --> 01:23:06.240  
Kevin Magee: Hardly as

826  
01:23:06.330 --> 01:23:09.150  
Kevin Magee: Everybody's been out on the trails knows the trails have been having a lot

827  
01:23:09.150 --> 01:23:10.350  
Kevin Magee: Of activity with

828  
01:23:10.740 --> 01:23:11.340  
People

829  
01:23:13.200 --> 01:23:23.520  
Kevin Magee: Getting out and doing activities locally versus traveling to other locations there. So we actually have been fairly active on normal all locations there.

830  
01:23:24.600 --> 01:23:26.190  
12034444706: So my recommendations would

831  
01:23:26.820 --> 01:23:29.640  
Kevin Magee: passed on from Genesis is that the

832  
01:23:30.900 --> 01:23:34.980  
Kevin Magee: This event be held not allowed for this this year.

833  
01:23:36.240 --> 01:23:45.750  
Janet Ainsworth: I can weigh in on that I agree with it. I've been on the trails when that events being held, and they just come running by you and I don't see how that's gonna work.

834  
01:23:46.410 --> 01:24:01.890

Janet Ainsworth: Even away from the gathering points where you've got this large number of people and they don't have to be masked to run because I check that with the state rules and you have people hiking, who may be masked and may not be too happy to have people running by them.

835

01:24:02.670 --> 01:24:05.040

Janet Ainsworth: You know, breathing heavily with no asks on

836

01:24:08.400 --> 01:24:18.120

Joseph Nugent: Kevin, I agree with you. I only comment is that when you send them the letter that you reference the comments from Dennis Johnson and also from

837

01:24:18.120 --> 01:24:19.050

12034444706: Sarah Williams.

838

01:24:19.830 --> 01:24:20.820

As reinforcement.

839

01:24:22.800 --> 01:24:23.610

Yep, definitely.

840

01:24:25.500 --> 01:24:26.370

12034444706: Any, any

841

01:24:26.430 --> 01:24:29.910

Laura: Counter opinions. Anybody feel otherwise.

842

01:24:32.670 --> 01:24:39.060

Laura: I think it's completely consistent with the other decisions that town has been making. So I wouldn't think it makes sense.

843

01:24:40.290 --> 01:24:41.040

Laura: They're safe.

844

01:24:42.540 --> 01:24:55.200

Kevin Magee: And the other thing, Dennis told me is that even though it's they're running you're running event, the town still responsible for overseeing the compliance with the social distancing things and we don't have the staff to

845

01:24:56.370 --> 01:24:57.060

Kevin Magee: Cover that

846

01:24:59.490 --> 01:25:00.060

Kevin Magee: Multi

847

01:25:00.150 --> 01:25:04.500

Kevin Magee: Locations where rest areas and stuff maybe break areas and stuff would be

848

01:25:05.100 --> 01:25:10.140

Laura: Alright, so why don't we formalize this in a row. Do I hear a motion to

849

01:25:11.310 --> 01:25:14.130

Laura: To tell Jerry Turk that

850

01:25:15.570 --> 01:25:20.070

Laura: being consistent with the, the town health officer is that what what

851

01:25:20.340 --> 01:25:21.630

Kevin Magee: Dental director. Yeah.

852

01:25:21.810 --> 01:25:28.380

Laura: Health Director and recommendation as well as the conservation Land Trust that we respectfully.

853

01:25:29.520 --> 01:25:37.410

Laura: Decline and say that we cannot support them being on the trails this year and we look forward to seeing them on the other side of the pandemic.

854

01:25:38.430 --> 01:25:39.960

Laura: Do I hear emotions. Good.

855

01:25:42.000 --> 01:25:43.290

Laura: Okay. Do I hear a second

856

01:25:45.780 --> 01:25:47.670

12034444706: Second. Okay. Patricia

857

01:25:47.730 --> 01:25:48.480

Laura: All in favor.

858

01:25:49.110 --> 01:25:50.010

12034444706: I buy

859

01:25:50.460 --> 01:25:51.060

Laura: A great

860

01:25:52.740 --> 01:25:53.160

Laura: Dad.

861

01:25:54.900 --> 01:25:55.890

Janet Ainsworth: Always next year.

862

01:25:56.220 --> 01:25:57.120

Laura: Yeah yeah

863

01:25:58.200 --> 01:26:02.700

Laura: I'm okay report some lazy man's land stewardship dead.

864

01:26:03.780 --> 01:26:08.760

Doug Clark: I was a little remiss I only sent out my report late this afternoon.

865

01:26:09.390 --> 01:26:11.130

Doug Clark: I don't know if any of you saw it.

866

01:26:11.340 --> 01:26:11.910

Janet Ainsworth: I read

867

01:26:12.300 --> 01:26:13.890

Doug Clark: I read it. Okay, cool.

868

01:26:15.690 --> 01:26:23.280

Doug Clark: Yeah, so it's coming along. I'm glad that we have a new volunteer and the person that Bob lions and getting to know him and

869

01:26:24.330 --> 01:26:25.560

Laura: I think you're pondering

870

01:26:26.070 --> 01:26:26.400

Doug Clark: Yeah.

871

01:26:26.490 --> 01:26:26.910

That's me.

872

01:26:28.560 --> 01:26:40.770

Doug Clark: That was the most complicated one. We had to deal with and we were we were successful at that, Bob does not have a helmet and so I have strongly encouraged him to get one. Any plans to get one before. Our next outing.

873

01:26:41.640 --> 01:26:46.320

Doug Clark: Because I think you know you can't be too safe when you're in the woods with a chainsaw.

874

01:26:47.580 --> 01:27:02.670

Doug Clark: So the helmet is pretty important. And when I went out with Garrett tell and Braemar he's got the helmet with a face shield and hearing protection and so on. So I just want to be consistent with anyone who's using a chain saw that we that we all have a

875

01:27:04.140 --> 01:27:04.530

Doug Clark: Helmet.

876

01:27:05.130 --> 01:27:14.370

Laura: Yeah, I think you're covering two is so important. Yeah. Don't repented you repent that 30 years from now, so

877

01:27:15.000 --> 01:27:18.960

Kevin Magee: It should be how many taps, but they're on their own liability there.

878

01:27:20.220 --> 01:27:25.200

Kevin Magee: I'll send you a form to send out the rest of them for volunteer work on the trails there.

879

01:27:25.260 --> 01:27:25.530

Okay.

880

01:27:26.760 --> 01:27:27.810

Doug Clark: Thanks. Yeah.

881

01:27:30.660 --> 01:27:31.980

Doug Clark: And I'm I'm

882

01:27:32.070 --> 01:27:33.660

Doug Clark: Very safety conscious so

883

01:27:34.800 --> 01:27:42.450

Laura: Just yeah just get a high level from the storms, you know, generally, a lot of damage a little damage any significant

884

01:27:43.500 --> 01:27:45.120

Laura: Damage to the trails in general.

885

01:27:47.280 --> 01:27:50.910

Doug Clark: I guess my sense is that there's been some

886

01:27:52.020 --> 01:27:56.940

Doug Clark: Damage in terms of downed limbs are down trees blocking the trails.

887

01:27:58.770 --> 01:28:06.540

Doug Clark: But nothing really hugely serious. I mean, again, the picture of me pondering. That was the most serious one. We've had to deal with. There was, you know,

888

01:28:06.900 --> 01:28:20.520

Doug Clark: Some big stuff and it was kind of complicated or complex to figure out, you know, where the stresses are and you know make sure something doesn't jump out at you when you cut it. Mom, I guess, you know, having

889

01:28:21.330 --> 01:28:23.310

12034444706: The worst damage was right out in front of

890

01:28:23.310 --> 01:28:27.870

Doug Clark: Our house on, you know, North Madison road that made us lose power for six days so

891

01:28:27.960 --> 01:28:28.140

Janet Ainsworth: I

892

01:28:28.440 --> 01:28:34.680

Doug Clark: Think the the woods. The woods did pretty well because you know the reason that would sort of protect each other.

893

01:28:34.860 --> 01:28:36.210

Janet Ainsworth: Right, but not the roads.

894

01:28:36.900 --> 01:28:37.620

Doug Clark: The roads new

895

01:28:39.090 --> 01:28:43.080

Laura: Yeah, it's interesting. A friend of mine actually took down a large tree, about six weeks.

896

01:28:43.080 --> 01:28:57.120

Laura: Ago and his property to allow light to hit other trees and he could absolutely see that by removing that one tree other trees were damaged, which in the past they hadn't been damaged.

897

01:28:58.740 --> 01:28:59.070

12034444706: That

898

01:28:59.100 --> 01:29:00.270

Laura: That big tree.

899

01:29:00.420 --> 01:29:04.200

Laura: Had been protecting some of the other smaller ones that were coming up.

900

01:29:04.230 --> 01:29:05.490

Laura: A willow that was coming up.

901

01:29:05.490 --> 01:29:05.820

So,

902

01:29:06.870 --> 01:29:09.210

Laura: Your point is excellent. I mean, they protect each other.

903

01:29:10.350 --> 01:29:10.560

Laura: Yeah.

904

01:29:10.620 --> 01:29:15.210

Doug Clark: The only place that surprised me was the inner loop and Braemar there was there was one section where there were

905

01:29:15.900 --> 01:29:29.400

Doug Clark: I don't know, four or five snags within just, you know, a couple hundred feet of each other. And I think the lamps do is must have cleaned up one of them with hand tools and I'm glad that they left the big ones for me and Gary with a chainsaw.

906

01:29:30.870 --> 01:29:33.180

Kevin Magee: There's leafing through the properties, there were

907

01:29:34.590 --> 01:29:41.400

Kevin Magee: Several dozen different each property there of damages. I know he's heard preserve itself. All blocking trails and stuff. And there's

908

01:29:43.080 --> 01:29:53.970

Kevin Magee: A volunteer must be the heights of property which actually cut up a bunch of stuff in there because I think my guys haven't been in there were sort by knows there's been some of the blockages work then caught up so

909

01:29:55.020 --> 01:29:55.800

Doug Clark: I think, same as

910

01:29:56.370 --> 01:29:57.780

Kevin Magee: Helping us out. Also, yeah.

911

01:29:57.810 --> 01:30:02.220

Doug Clark: Same as to internalize that they've been on the red trail. The rich trail and pray more

912

01:30:02.970 --> 01:30:16.440

Kevin Magee: Yeah, they were on the rich trail, they are. And actually, we're going to be, um, they're confused with that too. They actually took some green marketing will be changing the map there and make that a green color. So it's not a red spur there.

913

01:30:17.280 --> 01:30:18.990

12034444706: Oh, okay, going up to the view.

914

01:30:19.020 --> 01:30:19.380

Doug Clark: You mean

915

01:30:19.470 --> 01:30:20.820

Kevin Magee: Going up to the view. Yeah.

916

01:30:20.910 --> 01:30:21.750

Doug Clark: He's few yeah

917

01:30:22.200 --> 01:30:27.330

Doug Clark: There any any trees that needs chain saws snags any changes on the red trail.

918

01:30:27.750 --> 01:30:29.910

Kevin Magee: I'll take a look at the map, they have in the office. They're all

919

01:30:30.000 --> 01:30:30.300

Doug Clark: Okay.

920

01:30:30.600 --> 01:30:37.170

Kevin Magee: THEY'VE BEEN MARKING hard lines on the maps of where the heavier stuff is that they can take care

921

01:30:37.530 --> 01:30:38.220

Doug Clark: Was I could

922

01:30:38.400 --> 01:30:40.530

Doug Clark: Probably make Garrett there and we could take care of those

923

01:30:41.580 --> 01:30:43.320

Kevin Magee: I've got a copy to you there. Okay.

924

01:30:43.350 --> 01:30:43.620

Thanks.

925

01:30:45.030 --> 01:30:46.260

Laura: Alright, thank you.

926

01:30:47.910 --> 01:30:54.750

Laura: Les quanta punk subcommittee. We've covered everything there. Anything else on Jeff that you would want to add or have we covered everything

927

01:30:56.700 --> 01:30:57.540

Laura: On the quanta puck.

928

01:31:00.690 --> 01:31:01.290

Janet Ainsworth: Is muted.

929

01:31:02.190 --> 01:31:06.330

jeffspooner: Yeah, I think, I think we covered everything for all right.

930

01:31:06.600 --> 01:31:10.230

Laura: Okay, thanks. I'm Scott in the wetlands.

931

01:31:12.990 --> 01:31:14.430

Laura: You already reported. Didn't you

932

01:31:15.600 --> 01:31:16.080

Laura: You said

933

01:31:20.130 --> 01:31:21.930

Scott's iPad: That that was like the acquisition but well

934

01:31:21.930 --> 01:31:23.190

Laura: It's not

935

01:31:24.300 --> 01:31:24.600

Scott's iPad: That's

936

01:31:25.770 --> 01:31:28.530

Scott's iPad: Not nothing to report that too much. Okay.

937

01:31:28.710 --> 01:31:29.040

All right.

938

01:31:30.510 --> 01:31:31.740

Scott's iPad: Or not wet or dry.

939

01:31:31.950 --> 01:31:33.720

Janet Ainsworth: Yeah, that's true.

940

01:31:34.200 --> 01:31:34.590

Laura: I got

941

01:31:36.120 --> 01:31:36.600

12034444706: To route.

942

01:31:37.110 --> 01:31:38.850

Laura: This net orchard anything, Kevin.

943

01:31:39.540 --> 01:31:45.030

Kevin Magee: Know, I have to get hold of nurse. Plus, we've come down and look at the area and haven't heard anything from them out the bug them again.

944

01:31:45.840 --> 01:31:48.600

Kevin Magee: Okay prodding yeah okay

945

01:31:49.410 --> 01:31:50.970

Laura: All right, tree advisory board.

946

01:31:51.870 --> 01:31:52.500

They

947

01:31:54.240 --> 01:31:58.890

Kevin Magee: End of June, we did a tree planting in the center of town.

948

01:32:00.030 --> 01:32:01.770

Kevin Magee: Like it's seven trees on state.

949

01:32:01.770 --> 01:32:02.370

Street.

950

01:32:03.750 --> 01:32:07.530

Kevin Magee: One tree in front of the stores and an empty planter area there.

951

01:32:09.150 --> 01:32:17.100

Kevin Magee: Put two trees on the green and pink chests horse chestnut on the upper northwest corner and a sweet calm across town hall.

952

01:32:17.580 --> 01:32:19.860

Kevin Magee: And then planted a cherry Street, Don.

953

01:32:19.890 --> 01:32:27.660

Kevin Magee: Cherry Tree on the Woodrow property down the corner of old, which is treat and stonehouse laying there.

954

01:32:29.760 --> 01:32:36.030

Kevin Magee: And they met the other last weekend are looking at potential planting areas for upcoming year.

955

01:32:36.630 --> 01:32:39.090

Laura: Any damage to the new trees from the in the storm.

956

01:32:39.600 --> 01:32:47.340

Kevin Magee: Um, one day get hit. Um, but it's straightening up. I need to talk with public works to see if we can

957

01:32:48.690 --> 01:32:52.110

Kevin Magee: Tie it back a little bit to train and has a slight bend to it.

958

01:32:53.850 --> 01:32:55.530

Laura: Right. And it just

959

01:32:56.010 --> 01:32:58.230

Kevin Magee: Got a pretty good kid. It was like flat for a while.

960

01:32:58.680 --> 01:32:59.610

Laura: And move

961

01:33:02.370 --> 01:33:03.810

Kevin Magee: Happy to see it's up right

962

01:33:04.140 --> 01:33:17.970

Laura: Yeah, kudos to the work done and the trees across from my house at Calvin lead school and they had, they had needed some attention and the storm sort of precipitated and now it's all cleaned up. It looks good so I

963

01:33:18.030 --> 01:33:20.790

Kevin Magee: Do have that one on which split. I'm not sharing stand

964

01:33:20.790 --> 01:33:22.920

Kevin Magee: By their late to see if they took the whole tree out yet.

965

01:33:23.070 --> 01:33:27.720

Laura: Yeah, they did, they took it all down. I mean, it just, it was just in torment. If

966

01:33:27.750 --> 01:33:34.920

Laura: Yeah, it could be screaming I would not be sleeping at night. It was so glad they put it out of its misery.

967

01:33:36.750 --> 01:33:39.420

Laura: And planning, Janet. I'm planning.

968

01:33:39.450 --> 01:33:42.900

Janet Ainsworth: Know meetings, since I can't remember. While

969

01:33:43.890 --> 01:33:45.300

Laura: We're not doing a lot of planning or

970

01:33:45.810 --> 01:33:48.000

Janet Ainsworth: No flailing going on, though.

971

01:33:49.680 --> 01:33:50.280

12034444706: So,

972

01:33:50.310 --> 01:33:59.190

Laura: I did I miss anything other business. Oh turbulence, right, Tim Allen's were interested in money available for our forest management plans.

973

01:33:59.490 --> 01:34:02.850

Kevin Magee: I'll need to check with finance to see if they're leasing the

974

01:34:04.260 --> 01:34:06.540

Kevin Magee: capital budget monies for this yet.

975

01:34:07.020 --> 01:34:13.320

Laura: Uh, what about time of year. So assuming the money is available, what is there a time of year when it would be

976

01:34:14.520 --> 01:34:18.540

Kevin Magee: It would basically starting in the spring, most likely would be

977

01:34:19.680 --> 01:34:24.270

Kevin Magee: A good time. I mean, part of the things also have being able to hold a public hearing also so

978

01:34:25.830 --> 01:34:26.880

Janet Ainsworth: It can zoom it

979

01:34:26.940 --> 01:34:27.900

Everything else has been

980

01:34:29.520 --> 01:34:34.590

Kevin Magee: Somebody said, we didn't get more participation lately and zoom, then they have a regular in person meetings.

981

01:34:34.770 --> 01:34:35.040

Laura: Yeah.

982

01:34:35.190 --> 01:34:39.330

Janet Ainsworth: I can see why it's easier. I mean, you could have a drink.

983

01:34:39.630 --> 01:34:40.320

Laura: You know, right.

984

01:34:40.620 --> 01:34:40.890

On your

985

01:34:42.780 --> 01:34:44.130

12034444706: Your computer is working.

986

01:34:48.930 --> 01:34:49.350

Laura: Right.

987

01:34:49.410 --> 01:34:49.740

Yeah.

988

01:34:51.510 --> 01:34:54.300

Laura: Many commercial on TV, where a guy came into a room.

989

01:34:54.660 --> 01:35:03.840

Laura: And he had on a t shirt. And I guess it was going to be like a like a happy hour zoom. He thought it was a zoom happier. We walked into the room and he's just in his job shorts.

990

01:35:04.110 --> 01:35:04.410  
12034444706: And he's

991

01:35:05.040 --> 01:35:05.940  
Laura: Got this was itself.

992

01:35:09.060 --> 01:35:09.600  
Janet Ainsworth: Oops.

993

01:35:11.850 --> 01:35:14.100  
Laura: So I guess pleased. You're pretty quickly.

994

01:35:14.520 --> 01:35:21.750  
Laura: Okay, any other business anybody would want to add on at the mix, or are we ready to move on to our election officers.

995

01:35:21.810 --> 01:35:26.190  
Kevin Magee: We need to add to the agenda there the metric quest to have

996

01:35:27.480 --> 01:35:29.550  
Kevin Magee: One that this sustainable.

997

01:35:29.640 --> 01:35:32.310  
Kevin Magee: Or that the late quantified subcommittee.

998

01:35:33.660 --> 01:35:35.220  
Kevin Magee: Is expanded to hold a

999

01:35:35.250 --> 01:35:38.700  
Kevin Magee: Representative from simply golfer or from sustainable Guilford

1000

01:35:39.210 --> 01:35:40.140  
12034444706: And then

1001

01:35:40.410 --> 01:35:44.070  
Kevin Magee: Also also vote on Robin being the

1002

01:35:45.180 --> 01:35:47.460  
12034444706: designated person but

1003

01:35:47.700 --> 01:35:50.790  
Laura: What can we do that. I thought you said that you needed to check with

1004

01:35:51.240 --> 01:35:54.060  
Kevin Magee: Now this is this is a subcommittee person we can't do that.

1005

01:35:54.510 --> 01:35:56.130  
Janet Ainsworth: He's that by two thirds vote.

1006

01:35:57.150 --> 01:35:58.590  
Kevin Magee: And having a person on our

1007

01:36:00.570 --> 01:36:17.220  
Kevin Magee: On our board itself would be like the liaison, we have for what lens and like one apart and stuff with cinnamon sustainable Guilford community we the subcommittee year group. So you can choose membership on that one there without the

1008

01:36:17.400 --> 01:36:18.300  
Kevin Magee: concern of the Charter.

1009

01:36:18.390 --> 01:36:21.060  
Laura: Okay, I'm sorry. I was, I think I was confused. So

1010

01:36:21.060 --> 01:36:22.050  
Kevin Magee: Yours two different issues.

1011

01:36:22.140 --> 01:36:32.040  
Laura: Going on. Alright, so, so, issue number one, what we would be needing to vote on would be creating another liaison position.

1012

01:36:33.360 --> 01:36:36.330  
Kevin Magee: On the, on the, the Quantified subcommittee. Correct.

1013

01:36:38.280 --> 01:36:39.780  
Laura: Well, we've already got

1014

01:36:40.920 --> 01:36:45.300

Laura: We've already got to lay isn't on the lake quite a pug subcommittee. We have Jeff.

1015

01:36:45.810 --> 01:36:55.170

Kevin Magee: Now, this would be from trauma sustainable Guilford group to sit on the board. So it's not conservation it's sustainable golfer rep on the board there.

1016

01:36:55.650 --> 01:36:58.620

Laura: And on the board of the Lake Winnipeg.

1017

01:36:58.680 --> 01:36:59.730

Kevin Magee: Cracked cracked

1018

01:36:59.760 --> 01:37:00.510

Kevin Magee: Cracked. Yep.

1019

01:37:01.170 --> 01:37:09.660

Kevin Magee: Okay, because we right now we have like we have friends like corner paga as as a member Conservation Commission person has a member

1020

01:37:11.010 --> 01:37:17.130

Kevin Magee: In a while and says, a member and the X station as a member. So this would be a fifth organization.

1021

01:37:18.180 --> 01:37:18.780

Kevin Magee: That were

1022

01:37:19.830 --> 01:37:21.930

Kevin Magee: Designating for that group there. Okay.

1023

01:37:22.020 --> 01:37:28.560

Laura: All right, so, um, so help me with the wording, so we need a motion to create. Oh.

1024

01:37:29.160 --> 01:37:36.330

Kevin Magee: I and I had a position for sustainable Guilford on the subcommittee.

1025

01:37:37.740 --> 01:37:40.770

Laura: And add a position for

1026

01:37:42.780 --> 01:37:43.980

Laura: Sustainable

1027

01:37:45.360 --> 01:37:46.020

Kevin Magee: Guilford

1028

01:37:46.290 --> 01:37:47.190

Laura: You'll for

1029

01:37:47.730 --> 01:37:50.400

Kevin Magee: The tsunami like quite a pops up sub committee.

1030

01:37:50.670 --> 01:37:54.210

Laura: Lake wanna pod subcommittee.

1031

01:37:57.330 --> 01:37:59.610

Laura: This is a moment. I'm glad this is my last meeting.

1032

01:38:00.900 --> 01:38:01.590

Janet Ainsworth: She fix

1033

01:38:03.690 --> 01:38:05.310

Laura: Your lawyer, he will be great at

1034

01:38:06.750 --> 01:38:16.740

Laura: So I do I have a motion to add a position for sustainable Guilford on the Lake Winnipeg subcommittee.

1035

01:38:17.040 --> 01:38:17.700

Janet Ainsworth: So most

1036

01:38:18.570 --> 01:38:19.650

Laura: Do I hear a second

1037

01:38:22.260 --> 01:38:22.950

Laura: Who is that

1038

01:38:23.370 --> 01:38:24.870

Joseph Nugent: Drone. Okay, one second.

1039

01:38:25.380 --> 01:38:26.160  
Laura: All in favor.

1040  
01:38:26.670 --> 01:38:27.690  
12034444706: Aye. Aye.

1041  
01:38:28.410 --> 01:38:29.940  
Laura: Judy. Did you get that wording.

1042  
01:38:32.370 --> 01:38:33.330  
Laura: I'm sure you did.

1043  
01:38:33.420 --> 01:38:33.990  
Judy Castellano: Yes.

1044  
01:38:34.080 --> 01:38:35.100  
Judy Castellano: I haven't I

1045  
01:38:35.520 --> 01:38:43.470  
Judy Castellano: So this, to be clear, this is the Conservation  
Commission Lake quanta pug subcommittee.

1046  
01:38:44.190 --> 01:38:45.420  
Janet Ainsworth: Correct, yes.

1047  
01:38:45.840 --> 01:38:48.120  
Laura: That's the piece that I was missing.

1048  
01:38:48.510 --> 01:38:49.320  
Judy Castellano: The positive

1049  
01:38:50.340 --> 01:38:50.670  
Janet Ainsworth: Okay.

1050  
01:38:50.760 --> 01:38:51.840  
Laura: Thank you. Thank you, Judy.

1051  
01:38:52.350 --> 01:38:52.770  
Laura: OK.

1052  
01:38:52.800 --> 01:39:16.950

Laura: So now we need a second motion and AND WE SO DO I HEAR emotion to following up on the request of for selectman Holly to appoint Robin can pot see am p o d to be to to fill that position. Is that correct, no.

1053

01:39:16.980 --> 01:39:18.630

Doug Clark: Okay, perfect.

1054

01:39:20.490 --> 01:39:22.050

Laura: Okay. Do I hear emotion.

1055

01:39:25.020 --> 01:39:25.530

Laura: Somebody

1056

01:39:25.950 --> 01:39:26.490

Janet Ainsworth: About something

1057

01:39:26.850 --> 01:39:27.300

Laura: Yes, me.

1058

01:39:31.140 --> 01:39:35.010

Laura: A second. Okay. Jeff first and Jan. The second. All in favor.

1059

01:39:35.520 --> 01:39:36.330

Janet Ainsworth: Aye. Aye.

1060

01:39:36.420 --> 01:39:38.760

12034444706: Aye. Great. Great. Okay.

1061

01:39:38.790 --> 01:39:43.440

Kevin Magee: Just let you know she we invited to the meeting last night, and she was participating in that meeting.

1062

01:39:44.430 --> 01:39:46.680

Janet Ainsworth: I saw her run this meeting for a little bit.

1063

01:39:47.160 --> 01:39:48.960

Laura: Yeah. Oh, good, good. That's good.

1064

01:39:49.590 --> 01:39:55.830

Janet Ainsworth: So let me ask the chair does not make motions other people do. Right.

1065

01:39:56.250 --> 01:39:59.370

Janet Ainsworth: Right. Okay. So that's the end of my

1066

01:40:01.140 --> 01:40:03.420

Janet Ainsworth: Career is the ocean and maker.

1067

01:40:03.630 --> 01:40:04.710

Laura: Struggle like a ball.

1068

01:40:05.040 --> 01:40:05.610

Street.

1069

01:40:08.040 --> 01:40:08.550

Laura: All right.

1070

01:40:08.850 --> 01:40:13.080

Laura: Okay, so, um, so now we have the election of officers.

1071

01:40:13.290 --> 01:40:24.750

Laura: So the, the positions. We have our chair. Vice Chair secretary and I do and and do we do, we have secretary treasurer combined

1072

01:40:25.050 --> 01:40:26.820

Kevin Magee: I think we combined a secretary treasurer.

1073

01:40:26.820 --> 01:40:42.990

Laura: Correct. Okay. All right, great. So, so the candidates are and to as Chair, I'm proposing, Janet. Does someone have to propose Janet, or do we just sort of state the slate.

1074

01:40:43.260 --> 01:40:45.330

Kevin Magee: Judy, you can

1075

01:40:45.570 --> 01:40:50.610

Kevin Magee: If we don't have a full slate and do nominations off of a basically off of the quote the floor there.

1076

01:40:51.000 --> 01:40:51.330

Okay.

1077

01:40:54.030 --> 01:41:00.870

Laura: But, but from the so does someone self nominate or does someone nominate the person you know it's just these conventions, I want to just make sure

1078

01:41:02.280 --> 01:41:03.360

Janet Ainsworth: We don't want to do it again.

1079

01:41:06.570 --> 01:41:07.020

Laura: Okay.

1080

01:41:07.350 --> 01:41:12.150

Laura: So, so anyway, um, so I will just list out this late Janet as chair.

1081

01:41:14.490 --> 01:41:16.020

Laura: Vice President.

1082

01:41:16.650 --> 01:41:17.190

Ratio.

1083

01:41:18.960 --> 01:41:19.200

Judy Castellano: Yeah.

1084

01:41:19.230 --> 01:41:20.130

Last year,

1085

01:41:21.300 --> 01:41:23.100

12034444706: But he's president listen me I

1086

01:41:23.100 --> 01:41:24.120

Laura: Am thinking convention.

1087

01:41:25.230 --> 01:41:26.400

Laura: Vice Chair.

1088

01:41:28.110 --> 01:41:36.000

Laura: And and and then put truth Patricia you have been serving secretary treasurer. Right.

1089

01:41:37.890 --> 01:41:38.430

Laura: Data

1090

01:41:40.620 --> 01:41:41.640

Judy Castellano: Sheets, you're muted.

1091

01:41:42.510 --> 01:41:44.520

Janet Ainsworth: We say to continue doing it.

1092

01:41:45.000 --> 01:41:46.050

PDL: I will love to

1093

01:41:46.410 --> 01:41:47.010

Janet Ainsworth: Thank you.

1094

01:41:47.430 --> 01:41:48.510

Laura: Okay, um,

1095

01:41:48.540 --> 01:41:50.370

Janet Ainsworth: So it was gonna be my vice chair.

1096

01:41:51.270 --> 01:41:51.570

PDL: At all.

1097

01:41:53.400 --> 01:41:56.040

Laura: So let me give you a little bit of history here for what it's worth.

1098

01:41:56.430 --> 01:41:57.540

12034444706: So used to not be a

1099

01:41:57.540 --> 01:41:58.260

12034444706: Vice Chair.

1100

01:41:58.620 --> 01:42:12.870

Laura: Really the vice chair was created when Shelly green was chair to be her second times when she had miss a meeting or coming late or, you know, it's basically interested in ministry native backup. Would you agree with that, Kevin.

1101

01:42:13.080 --> 01:42:17.100

Kevin Magee: Is that bomb know I believe there's always been a vice chair. Here we have in a

1102

01:42:18.480 --> 01:42:18.990  
Laura: Okay.

1103  
01:42:19.170 --> 01:42:20.160  
Kevin Magee: Our regulate our

1104  
01:42:20.940 --> 01:42:23.190  
Kevin Magee: Rules rules by laws there.

1105  
01:42:23.640 --> 01:42:27.870  
Laura: Okay, so, so I I guess we hadn't had one for a while and then

1106  
01:42:28.230 --> 01:42:29.490  
Janet Ainsworth: That I was the vice chair.

1107  
01:42:30.300 --> 01:42:47.970  
Laura: Yeah, there was one would be for an artist. I can't think of her name right now. And so, so does anyone have an interest in stepping in it. It's not critical. I mean, we can can happen later, I suppose, but would anyone have an interest in serving as vice chair.

1108  
01:42:51.870 --> 01:42:53.760  
12034444706: I'm not sure if that one has to be a full

1109  
01:42:53.760 --> 01:42:56.190  
Kevin Magee: Position or not. If you want to hold off and see

1110  
01:42:57.210 --> 01:42:59.790  
Kevin Magee: What they now many from the same

1111  
01:43:04.020 --> 01:43:04.410  
PDL: One.

1112  
01:43:04.500 --> 01:43:05.010  
Okay.

1113  
01:43:06.210 --> 01:43:07.860  
No, I saw a hand raised.

1114  
01:43:09.570 --> 01:43:09.870  
12034444706: I

1115

01:43:10.290 --> 01:43:12.180

PDL: Just wanted to say that because of this.

1116

01:43:12.210 --> 01:43:16.440

PDL: New job and everything. I definitely cannot be the vice

1117

01:43:16.980 --> 01:43:19.140

Janet Ainsworth: Years, I saw another hand raised.

1118

01:43:19.320 --> 01:43:24.960

PDL: Because I just at the left to mean that I might be able not to make it and I don't want to be

1119

01:43:25.350 --> 01:43:26.640

Janet Ainsworth: In the situation, you know,

1120

01:43:27.270 --> 01:43:28.470

Laura: Well country to you.

1121

01:43:29.790 --> 01:43:35.280

Laura: So invaluable picking up on the points. Following up on things in the Minutes, you know, side.

1122

01:43:35.670 --> 01:43:37.290

Janet Ainsworth: By nagging

1123

01:43:37.740 --> 01:43:38.580

Janet Ainsworth: Against good

1124

01:43:39.030 --> 01:43:42.960

Laura: I love it was always good. Somebody, somebody on top of this.

1125

01:43:43.290 --> 01:43:44.910

PDL: And really have leg leg.

1126

01:43:45.300 --> 01:43:49.890

Laura: Did anyone else. I don't have everyone's view on my screen so

1127

01:43:49.980 --> 01:43:51.510

Janet Ainsworth: I saw Doug's hand.

1128

01:43:52.260 --> 01:43:53.610

PDL: I didn't say that exam.

1129

01:43:54.720 --> 01:43:57.600

Laura: Problem is, Doug is currently an alternate

1130

01:43:58.200 --> 01:44:00.750

Janet Ainsworth: Uh huh. Does that mean he can't do

1131

01:44:01.200 --> 01:44:01.800

Laura: Hi, I'm

1132

01:44:01.860 --> 01:44:02.700

Laura: Almost. Sure.

1133

01:44:03.810 --> 01:44:04.560

Laura: What

1134

01:44:04.620 --> 01:44:06.390

PDL: I say to the nothing

1135

01:44:07.980 --> 01:44:08.400

Doug Clark: Guess that

1136

01:44:09.960 --> 01:44:11.880

Doug Clark: Leaves and I become a full member

1137

01:44:12.030 --> 01:44:13.350

Janet Ainsworth: Yeah, yeah, we can

1138

01:44:14.580 --> 01:44:16.740

Kevin Magee: Yeah, we can hold the blank until that point.

1139

01:44:17.160 --> 01:44:17.940

Janet Ainsworth: Okay, yeah.

1140

01:44:18.030 --> 01:44:36.480

Laura: Let's do that. Okay, so, so we will have a vote. And so I guess we need to have our screens, so that we can give everyone a chance to vote.

So I'll just kind of call out your maybe Judy, do you want to call out people's names. So if I were to say

1141

01:44:38.190 --> 01:44:43.230

Laura: People wishing to vote for Janet as chair. How many people say yes.

1142

01:44:44.250 --> 01:44:46.200

12034444706: Or do I want to do the slate.

1143

01:44:46.590 --> 01:44:50.220

Judy Castellano: Why don't you do, why don't you do a slate because you only have two people.

1144

01:44:50.430 --> 01:44:51.690

Judy Castellano: And make

1145

01:44:51.810 --> 01:44:57.360

Judy Castellano: Nomination and nomination and about you can do it all at once. You can do it separately. People do different things.

1146

01:44:58.020 --> 01:44:58.380

And just

1147

01:44:59.640 --> 01:45:00.960

Judy Castellano: Like two people.

1148

01:45:01.530 --> 01:45:10.080

Laura: But let's make it fast and easy. So I suppose I propose the slate Janet is chair Patricia as secretary treasurer.

1149

01:45:12.510 --> 01:45:13.170

Laura: And

1150

01:45:15.660 --> 01:45:18.150

Laura: How many people vote yes. How's that

1151

01:45:19.410 --> 01:45:19.980

Joseph Nugent: Yes.

1152

01:45:20.190 --> 01:45:21.090

Janet Ainsworth: Yes, yeah.

1153

01:45:21.150 --> 01:45:21.780  
Yes.

1154  
01:45:22.830 --> 01:45:26.580  
Laura: Yeah, yeah, I think I can still vote. So I'll say yes.

1155  
01:45:29.310 --> 01:45:30.120  
Laura: Janet urine.

1156  
01:45:30.330 --> 01:45:30.900  
Janet Ainsworth: Thank you.

1157  
01:45:33.660 --> 01:45:36.300  
Laura: Thank you very much, guys, Jen. So Judy,

1158  
01:45:36.420 --> 01:45:37.830  
Laura: Are we, are we good

1159  
01:45:38.730 --> 01:45:40.500  
Judy Castellano: Yes, I will. I'll write it up.

1160  
01:45:40.860 --> 01:45:42.840  
Laura: Okay, so look good.

1161  
01:45:43.710 --> 01:45:44.640  
Kevin Magee: Creative Writing

1162  
01:45:45.000 --> 01:45:47.430  
PDL: And make it look good. The writing

1163  
01:45:47.910 --> 01:45:48.270  
Laura: Okay.

1164  
01:45:48.300 --> 01:45:53.460  
Janet Ainsworth: Ben should should my first act to be asked for a motion to adjourn.

1165  
01:45:55.350 --> 01:45:56.130  
No, not yet.

1166  
01:45:57.930 --> 01:46:00.900

PDL: Yes, cuz I'm missing then Chris thinking

1167

01:46:02.760 --> 01:46:06.060

Janet Ainsworth: I'm missing the Weather Channel, which is what I'm watching

1168

01:46:06.630 --> 01:46:08.070

Laura: I just want to honestly I just want to

1169

01:46:08.070 --> 01:46:10.530

Laura: thank everybody at this this Commission has been

1170

01:46:10.530 --> 01:46:12.630

Laura: Delightful because of the people who are on it.

1171

01:46:13.050 --> 01:46:16.560

Laura: And I've always loved the, the nature of

1172

01:46:16.770 --> 01:46:25.440

Laura: It's very collaborative. It's not formal I see some of these conditions on on public TV and I think oh my god doesn't

1173

01:46:25.770 --> 01:46:26.430

Janet Ainsworth: Mean now.

1174

01:46:28.050 --> 01:46:39.960

Laura: But you all have made this a wonderful experience. And I just want to thank you and I'm happy to step aside and I'm going to do everything in my power to make sure that Doug. Doug is the guy that fills my spot.

1175

01:46:41.070 --> 01:46:44.280

Laura: I'll reach out, you know, quietly, it just

1176

01:46:44.580 --> 01:46:53.520

Laura: It just is it. You've, you've earned it. You deserve it. Doug and the condition is better with you on it and you should you should be full function.

1177

01:46:55.110 --> 01:46:55.530

Janet Ainsworth: I want to

1178

01:46:55.740 --> 01:47:04.200

Doug Clark: I really appreciate the way in which you have led the Commission and also the interest you have shown and actually being out on the properties as a Member of the Commission.

1179

01:47:04.290 --> 01:47:04.560  
12034444706: You know,

1180

01:47:04.590 --> 01:47:06.960  
Doug Clark: Coming to some of the hikes and so on. I think that's

1181

01:47:07.410 --> 01:47:14.190  
Doug Clark: That's been a really good example set as a member and chair of the Commission, I

1182

01:47:14.220 --> 01:47:26.490  
Janet Ainsworth: Want a second that. And I also been particularly impressed that have definitely you run these meetings and how you're able to just make some fun.

1183

01:47:28.170 --> 01:47:29.850  
Laura: Thanks. Well, thank you.

1184

01:47:30.450 --> 01:47:31.800  
PDL: But I will be very good.

1185

01:47:34.650 --> 01:47:34.890  
Laura: Yeah.

1186

01:47:34.980 --> 01:47:36.540  
Janet Ainsworth: That's good. We like fun.

1187

01:47:38.070 --> 01:47:42.930  
Laura: Alright guys, okay. So thanks a lot, and keep in touch and I'm always here.

1188

01:47:43.110 --> 01:47:48.390  
Laura: Keep me posted on what you're all doing if I hey I am forever one with you.

1189

01:47:49.350 --> 01:47:50.760  
Janet Ainsworth: Facebook or something.

1190

01:47:53.880 --> 01:47:55.410

Joseph Nugent: Where you close the meeting.

1191

01:47:57.570 --> 01:47:58.050

12034444706: Go ahead.

1192

01:47:58.440 --> 01:47:59.160

Judy Castellano: Say that again.

1193

01:47:59.940 --> 01:48:05.550

Joseph Nugent: I do hope that Alan does not show up at the exit driveway, the Walmart shopping

1194

01:48:05.550 --> 01:48:05.880

Center.

1195

01:48:11.520 --> 01:48:12.150

Janet Ainsworth: Oh, no.

1196

01:48:12.420 --> 01:48:13.410

Alan Fairbank: I heard some of that.

1197

01:48:21.090 --> 01:48:24.150

Joseph Nugent: Walmart shopping center with a cardboard sign at the exit.

1198

01:48:24.150 --> 01:48:25.350

Joseph Nugent: Driveway, that's all.

1199

01:48:27.090 --> 01:48:27.990

Laura: Will work for

1200

01:48:30.300 --> 01:48:31.440

Laura: All right. Okay.

1201

01:48:33.090 --> 01:48:35.310

Laura: Yeah okay, Janet, take it away.

1202

01:48:35.400 --> 01:48:39.390

Janet Ainsworth: Okay. And with that, can I have a motion to adjourn.

1203

01:48:41.640 --> 01:48:42.300

Janet Ainsworth: Second,

1204

01:48:43.260 --> 01:48:43.800  
Second,

1205

01:48:45.000 --> 01:48:45.930  
12034444706: All in favor.

1206

01:48:47.340 --> 01:48:47.850  
Janet Ainsworth: Hi.

1207

01:48:48.300 --> 01:48:48.930  
12034444706: Guys.

1208

01:48:49.260 --> 01:48:49.650  
Thank you.

1209

01:48:55.140 --> 01:48:56.040  
Janet Ainsworth: See you next time.
