

WEBVTT

1

00:00:02.580 --> 00:00:05.009

Guilford Host1: Alright, we are recording

2

00:00:14.009 --> 00:00:14.490

Guilford Host1: Okay.

3

00:00:16.830 --> 00:00:19.170

Guilford Host1: We don't have Judy, but since we're recording

4

00:00:20.550 --> 00:00:27.510

Guilford Host1: We don't meet her in the meeting right way so I will call needing to order at 805

5

00:00:30.150 --> 00:00:32.820

Guilford Host1: First item on our agenda is

6

00:00:34.620 --> 00:00:36.390

Guilford Host1: Communications and Public forum.

7

00:00:37.980 --> 00:00:39.120

Guilford Host1: Public so

8

00:00:40.890 --> 00:00:43.140

Guilford Host1: Yes, speakers. We don't have one.

9

00:00:45.030 --> 00:00:50.430

Guilford Host1: So we went to Google of the previous meetings minutes

10

00:00:51.960 --> 00:00:57.330

Guilford Host1: Which will receive the copy. I know Brian, you had a couple of changes that were already submitted.

11

00:00:59.550 --> 00:01:04.980

Guilford Host1: So does anybody have any other changes or just mentions

12

00:01:09.930 --> 00:01:13.800

Guilford Host1: Any Hearing none, I'll need a motion to approve the minutes from the previous

13

00:01:14.460 --> 00:01:15.720
Theodore Sands: Approval of Minutes.

14
00:01:18.060 --> 00:01:18.630
iPhone: And second,

15
00:01:21.720 --> 00:01:27.990
Guilford Host1: Will take the approval from 10 and the second from one day, sorry, JP

16
00:01:30.030 --> 00:01:31.170
Guilford Host1: All those in favor,

17
00:01:35.610 --> 00:01:37.050
Guilford Host1: That passes.

18
00:01:38.220 --> 00:01:38.610
Guilford Host1: All right.

19
00:01:49.140 --> 00:01:49.740
Guilford Host1: What do you got

20
00:01:50.460 --> 00:01:58.320
Brian: Yeah, I realized I'm still out of sync. Here I could have written some bullets, but I didn't. So I gotta get back to that.

21
00:02:00.900 --> 00:02:02.490
Guilford Host1: For everybody knows the highlights.

22
00:02:03.870 --> 00:02:04.290
Brian: Well,

23
00:02:05.370 --> 00:02:14.940
Brian: A lot is occurred, we'll see what you want to cover, but after about 10 weeks from working from home. I did return to the office last week a couple days a week and

24
00:02:15.750 --> 00:02:22.980
Brian: I'm probably going to work a couple days in the office and a couple days out. It just depends on what kinds of things are going on.

25
00:02:24.390 --> 00:02:28.290

Brian: You know, over the last month, lots of continued zoom calls like this.

26

00:02:29.370 --> 00:02:38.010

Brian: Still, although it's trending off now. But there's been a lot with the SBA the PDP unemployment and things like that. But now that

27

00:02:38.790 --> 00:02:53.910

Brian: For the most part, people are understanding or using getting to those kinds of calls are are coming down. But, you know, working with our Rex group balloon man Jeannie has been on to talk about federal programs.

28

00:02:56.310 --> 00:03:16.770

Brian: Chambers had different ones. So showing Arts Alliance. So keeping busy with those kinds of things. I was also involved the gopher legs golf course opened on May 2 thing that had me working with them to help them on the reopen plans and following some guidelines and things like that.

29

00:03:18.780 --> 00:03:23.040

Brian: From a town perspective, there was a virtual shopping night and maybe

30

00:03:23.820 --> 00:03:26.010

Brian: Tracy might want to comment on this later, but

31

00:03:26.760 --> 00:03:32.310

Brian: May 7 from six to eight, there was a virtual shopping and people were using zoom

32

00:03:33.570 --> 00:03:34.620

Brian: Excuse me, and or

33

00:03:34.680 --> 00:03:35.490

Facebook.

34

00:03:36.810 --> 00:03:43.800

Brian: Walk through their shops and demonstrate what they had for sale trying to give people starting to think about the chops again.

35

00:03:45.030 --> 00:03:48.360

Brian: Program running around town called Downtown rebound.

36

00:03:49.950 --> 00:04:02.100

Brian: It's a Facebook program Jim cone Erica Darien and Catherine Karen again stopping at various stores and going brief interviews and highlighting of the stores.

37

00:04:02.760 --> 00:04:11.280

Brian: I know I know pages has been covered. I don't know. Tracy, if they've been to your location yet, but they are you know trying to get around town.

38

00:04:11.820 --> 00:04:21.000

Brian: But it just a way, again, to give visibility and one of their focus to is on the activities going on within the store so consumers can feel

39

00:04:21.600 --> 00:04:31.380

Brian: Confident that they're going to be safe in their respective stores and then New Haven Register was there on the green on May 20 the opening reopening day

40

00:04:32.160 --> 00:04:40.590

Brian: And Matt myself and a few others were involved in me. It was part of a bigger story, the whole shoreline. The New Haven Register was doing

41

00:04:42.900 --> 00:04:57.030

Brian: We've been involved in in the town has worked with the state and distributing masks and thermometers and may 6 Mark and I with Sherry distributed mass

42

00:04:59.130 --> 00:05:06.870

Brian: On May 28 we did masks and thermometers and another shipment of masking thermometers came in.

43

00:05:08.160 --> 00:05:08.580

This week,

44

00:05:09.960 --> 00:05:22.590

Brian: Probably going to do that Thursday. So if anybody wants to get involved in that it's relatively simply you know we advise the businesses that we're going to be at the community center from 11 to one.

45

00:05:23.760 --> 00:05:28.380

Brian: They can drive around the back and they come and pick it up. We have a checklist.

46

00:05:29.880 --> 00:05:39.030

Brian: Of the people that are expected to get masks and thermometers. And then we have a few show up that aren't on the list. And as long as we have a week vital common thing.

47

00:05:40.830 --> 00:05:48.090

Guilford Host1: I'm before you move on. That just one for the record, JP was there on the eighth to help us out. As well,

48

00:05:48.210 --> 00:05:49.380

Brian: Or 266

49

00:05:49.560 --> 00:05:50.280

Guilford Host1: Yes, sorry.

50

00:05:50.610 --> 00:05:51.150

And

51

00:05:53.160 --> 00:05:58.320

Guilford Host1: Have we gotten word from I believe it was mike on

52

00:06:00.090 --> 00:06:06.480

Guilford Host1: anything going on with the lists where people have registered, but not showing up on the list.

53

00:06:08.310 --> 00:06:08.910

Brian: He doesn't know.

54

00:06:10.020 --> 00:06:11.820

Brian: He doesn't know why it doesn't happen.

55

00:06:12.570 --> 00:06:13.020

Guilford Host1: Okay.

56

00:06:13.380 --> 00:06:13.740

I mean,

57

00:06:15.300 --> 00:06:15.900

tracy: I know I

58

00:06:15.960 --> 00:06:23.940

tracy: Registered but I don't never heard that I that it was in or it was getting anything and I don't know if that how that happens.

59

00:06:24.510 --> 00:06:33.210

Guilford Host1: You're not alone. I had also registered my business and I have not shown up on any list. And I know of at least two other people who registered

60

00:06:34.680 --> 00:06:46.110

Guilford Host1: And have not shown up on the list. So Brian, the question to Mike is do we have extras. Is that something and also to replace the broken units. We've had at least two broken

61

00:06:46.110 --> 00:06:47.400

Guilford Host1: units that I know of.

62

00:06:49.830 --> 00:06:53.940

Guilford Host1: Do we have I don't know 25 extras of the thermometers.

63

00:06:54.000 --> 00:06:54.240

That

64

00:06:59.670 --> 00:07:10.410

Brian: I'm going to say yes and no. You know that week this shipment that we got for this week has 25 thermometers 360 60 masks.

65

00:07:11.340 --> 00:07:18.270

Brian: Have some that we left at the community center last week that even people with advised didn't come and pick up

66

00:07:19.440 --> 00:07:28.980

Brian: So there's about 20 thermometers. They told me at the end day yesterday, so it appears, you know, we'll have some extras to give us this week.

67

00:07:31.320 --> 00:07:34.140

Guilford Host1: From my knowledge, the ones that have died.

68

00:07:35.370 --> 00:07:38.820

Guilford Host1: Have all been newer the flat unit.

69

00:07:44.190 --> 00:07:45.000

Guilford Host1: This

70

00:07:49.980 --> 00:07:52.980

Brian: Ask, Mike, what we can do to try to get some extras.

71

00:07:53.670 --> 00:07:55.260

Brian: Yeah, that's the one that didn't work.

72

00:07:55.710 --> 00:07:56.580

Guilford Host1: Right when

73

00:07:56.760 --> 00:08:00.330

Guilford Host1: To the best of my knowledge over the ones that haven't worked have been this unit.

74

00:08:01.230 --> 00:08:09.450

Brian: I mean, we got two reports and, I mean, I say, I hope it's the thermometer and not the way they put the batteries in or at bed.

75

00:08:10.800 --> 00:08:11.310

Brian: I don't know.

76

00:08:11.670 --> 00:08:13.080

Guilford Host1: This was the one that

77

00:08:14.880 --> 00:08:17.340

Guilford Host1: What's his name from Guilford Texaco brought back

78

00:08:18.360 --> 00:08:34.860

Guilford Host1: And I tested it and troubleshooting with it, just to confirm that it was a bad unit and it is indeed not working. It does come up with error. I tried following the instructions to reset it, it came up with their again so it's it's actually

79

00:08:36.270 --> 00:08:36.690

Brian: OK.

80

00:08:39.210 --> 00:08:48.540

Brian: OK, and I'll see about getting some extras. I mean, frankly, I hope this almost winds down

81

00:08:49.110 --> 00:08:55.560

Brian: This wasn't something that I even knew was coming every week when we first did it. I thought it was gonna be like a

82

00:08:56.160 --> 00:09:08.940

Brian: A one and done, but I guess you know the state had acquired or gotten X number of these, and as long as they have some IN STOCK, YOU KNOW, PEOPLE CAN APPLY FOR THEM. I mean, the funny thing is

83

00:09:09.510 --> 00:09:28.200

Brian: TBA is the group that really the you order from them. I've the first shipment or the first orders, we, we, as the town. Never did a blast anybody but people found the CBI website themselves and board of them. So we've done email blast since then.

84

00:09:28.890 --> 00:09:31.230

Brian: With with the links to the same order forms.

85

00:09:34.500 --> 00:09:56.490

Brian: I don't know if all of you have looked at the Lamont guidelines that boarded reopening on May 20 but you know he had sector retail and restaurants before only offices museums and hair salons. And then the hair salons got postponed until yesterday, so they technically are open.

86

00:09:57.900 --> 00:09:59.640

Brian: But particularly with the restaurant.

87

00:09:59.670 --> 00:10:00.780

outdoor seating.

88

00:10:02.070 --> 00:10:18.420

Brian: It only outdoor seating. So we internally in the town came up with a a short form application that if a restaurant wanted to do outdoor seating and they hadn't had it in the past, they had to submit a brief application.

89

00:10:19.800 --> 00:10:23.100

Brian: And frankly just about every restaurant in town.

90

00:10:23.700 --> 00:10:25.800

Brian: Has out right now.

91

00:10:28.230 --> 00:10:31.680

Brian: I drove around Friday night, and Saturday night for the heck of it.

92

00:10:32.070 --> 00:10:33.270

Brian: Around seven o'clock.

93

00:10:34.260 --> 00:10:53.580

Brian: And I was amazed at how many you know how the outdoor restaurants they all seem to be very busy. So I think people are chomping at the bit to get outside and socialize a little bit from a safe distance and enjoy maybe dining in it, maybe in like vacation or to

94

00:10:55.800 --> 00:10:59.190

Robert Trobe: Doing that with tense or is it just out in the parking lot.

95

00:11:00.720 --> 00:11:03.300

Brian: For the most part they're still on sidewalks.

96

00:11:04.110 --> 00:11:07.560

Brian: See a CS is in a parking lot of

97

00:11:08.580 --> 00:11:15.600

Brian: Guilford beach Joe has some parking lot. The only one that applied for using a tent and I actually haven't seen it yet is

98

00:11:16.710 --> 00:11:22.620

Brian: Quattrone they want to put a 10 be in their back part of their parking lot, they've been using their front.

99

00:11:23.700 --> 00:11:27.090

Brian: Areas so far, but they did.

100

00:11:27.270 --> 00:11:28.830

Brian: That the only one at apply for

101

00:11:28.860 --> 00:11:29.700

Brian: Using attend

102

00:11:33.450 --> 00:11:39.060

Brian: The next thing that something I'm working on right now and you know maybe try to get your input.

103

00:11:41.160 --> 00:11:42.810

Brian: Under under Lamont

104

00:11:44.400 --> 00:11:51.150

Brian: Executive order than allowed the outdoor seating. He also made comments about retail and

105

00:11:53.970 --> 00:12:11.190

Brian: I had submitted a draft of some things that I was trying to encourage and not not as much, of course, not so much to sell outside. Although, Amy. You've got materials outside that I get, you can take orders and sell

106

00:12:11.280 --> 00:12:22.410

Brian: Their most of the retailers of what I've seen have only wanted to display stuff to, you know, just to reinforce and confirm their open

107

00:12:23.460 --> 00:12:32.310

Brian: But the other thing I was trying to encourage is was a little more liberal use of our signage to try to promote businesses are open.

108

00:12:35.400 --> 00:12:39.090

Brian: And and I'm in conversation because

109

00:12:40.920 --> 00:12:49.740

Brian: The zoning department is still kind of referring to the regulations that we have and the sign application that we have

110

00:12:50.370 --> 00:13:12.150

Brian: You know, whether it's temporary sign a frames and things like that, that she thinks we should continue to use the formal process, we have in place and I felt the executive guideline from the governor gave us a little more latitude there and she feels that is latitude was more tied to

111

00:13:13.380 --> 00:13:25.710

Brian: If you was a coven sign directional signs more again seated to the restaurant where you might direct traffic via arrows people traffic via arrows, so

112

00:13:27.180 --> 00:13:33.240

Brian: I guess the bottom line is right now that I'm in dialogue with her on is, you know,

113

00:13:34.380 --> 00:13:38.220

Brian: If you, if you drive up and down road one you see a lot of people have used

114

00:13:38.220 --> 00:13:38.850

Brian: More than

115

00:13:39.450 --> 00:13:47.580

Brian: A frames. They've used. I call it the little airplane wing, you know, welcome open kind of a sign.

116

00:13:50.550 --> 00:13:55.590

Brian: Other. Other than that, I'm not sure I've seen much else. We haven't seen

117

00:13:56.700 --> 00:14:08.700

Brian: major use of balloons. We haven't seen major use of other you know those mobile or blow up people, you know, blowing in the wind. We haven't kind of seen that, but

118

00:14:12.540 --> 00:14:17.190

Brian: She is she's a little concerned even about what I'm calling the airplane wing

119

00:14:18.300 --> 00:14:24.180

Brian: Type of assign but quite a few stores have taken the liberty to put those up.

120

00:14:25.410 --> 00:14:27.570

Brian: So I don't know. Thoughts on

121

00:14:29.700 --> 00:14:30.750

Brian: Thoughts on this.

122

00:14:33.270 --> 00:14:41.520

tracy: I know. I think it's very important to to allow some latitude right now you the town allows latitude right now.

123

00:14:42.960 --> 00:15:01.740

tracy: It's very difficult to get customers in. I can't believe the number who come in and say, oh, I didn't know you were open. And we've done everything in terms of social media and our advertising to indicate that we are open and we continue to get that response.

124

00:15:02.970 --> 00:15:04.590
tracy: And I'm not really sure why.

125

00:15:05.640 --> 00:15:15.420
tracy: That is, but anything that we can do to attract attention to the stories and indicate that they're open may give us some kind of help because it's pretty dire our

126

00:15:16.770 --> 00:15:22.740
tracy: Essential businesses, I think, you know, anytime I go out to any place that's essential kindness on that pages.

127

00:15:25.290 --> 00:15:43.860
tracy: are busy and it's wonderful. It's nice to see people sitting on the sidewalks. But I'll tell you. Certainly clothing and I understand it is what it is that industry and but many others are not being visited frequently enough to sustain us

128

00:15:44.880 --> 00:15:49.890
tracy: So any help we can get. And if they're going to require some kind of

129

00:15:53.970 --> 00:15:59.250
tracy: Form requests it put signage outside, then I think it should be without any

130

00:16:00.840 --> 00:16:09.360
tracy: Any additional fee. Maybe they can just put a limitation on you know your boat 30 days at a time, perhaps

131

00:16:10.800 --> 00:16:12.330
tracy: And see how things are going.

132

00:16:14.580 --> 00:16:19.020
tracy: Maybe with some restrictions, maybe we don't get the floaty guy out on the sidewalk, but

133

00:16:21.810 --> 00:16:29.550
tracy: I think it would be very beneficial and we definitely don't need another extra fee attached to anything right now.

134

00:16:30.930 --> 00:16:43.050

Theodore Sands: Our group completely with Tracy, and I think that a lot of people are not aware of what businesses are but what businesses are not especially ones in

135

00:16:45.450 --> 00:16:48.960

Theodore Sands: Small shopping centers along one

136

00:16:50.340 --> 00:16:55.020

Theodore Sands: That they don't have the same kind of visibility that the green merchants do

137

00:16:56.670 --> 00:16:58.560

Theodore Sands: I would think that

138

00:17:00.930 --> 00:17:08.940

Theodore Sands: Nat and the selectmen think about some sort of a major easing of the sign inch rules.

139

00:17:10.860 --> 00:17:24.630

Theodore Sands: As I think Tracy suggestion. Doing it kind of 30 days at a time is probably a good idea, but you got to get people to understand that the businesses have still there and that they're open

140

00:17:26.910 --> 00:17:29.430

Theodore Sands: Or they're not going to be there and they're not going to be

141

00:17:35.520 --> 00:17:44.880

Brian: In when I put my initial thoughts together. I actually recommended we liberalize the signage through the end of September.

142

00:17:46.380 --> 00:17:59.850

Brian: As opposed to, because I just felt that the executive order that Lamont put out on the restaurant outdoor seating carried through through the end of September. So I was trying to parallel the

143

00:18:00.030 --> 00:18:14.670

Brian: Signing with the same kind of thinking and if we get any tourists, you know, are out of towners or even less familiar with our businesses. I was trying to do. We could encourage them.

144

00:18:15.240 --> 00:18:27.000

Brian: You know we we don't have any other events. The historical events that we normally had to bring people to town have essentially been canceled. I'm not aware of any that are going on.

145

00:18:28.080 --> 00:18:30.630

Brian: And so, I mean, we might not have

146

00:18:31.710 --> 00:18:46.680

Brian: The tourists type traffic. Anyhow, but we, you know, I'm saying if we do we want to capture as many of those are any seasonal people that come back. I mean, I was trying to make it as easy and as visible as we could.

147

00:18:47.220 --> 00:18:54.870

tracy: I mean that's ideal. Nobody wants to go through the extra exercise on a monthly basis. That's sort of the minimal situation but

148

00:18:55.170 --> 00:18:59.370

Brian: Yeah, now you know the end

149

00:18:59.430 --> 00:19:21.630

Theodore Sands: Why, I think. But, but Brian, I mean, I think that, you know, it shouldn't be between you and the enforcement officer. I think you should go and talk to Matt about this and mad and the selectmen oughta just decide okay through September this rule has been modified to allow the following

150

00:19:23.400 --> 00:19:33.210

Theodore Sands: And then go once that's decide if you take that to the enforcement officer and say, okay, here are the new rules. Now the deal.

151

00:19:33.810 --> 00:19:53.610

Brian: Well, it's a good point, Ted. And let me just, let me just say we did you know we did this program together and Matt was involved on the route the restaurant outdoor rules as was George crawl. And so we did it. And also the legal folks got involved as well.

152

00:19:54.870 --> 00:20:08.580

Brian: And then, and then there was kind of a statement. Hey, and we'll get back to the retail. So about a week or so went by and nothing was happening. So I, I say took an initiative or write something and I took the

153

00:20:09.600 --> 00:20:15.030

Brian: Rules that came out from Lamont, and I took the outdoor merchandising example.

154

00:20:16.230 --> 00:20:35.040

Brian: And said, you know, here we are to modify this this and this and then I got a reply back and I did copy them. So it's not. I say I involve Matt he involved legal folks I got George. This is just again done last week. This was

155

00:20:36.630 --> 00:20:48.180

Brian: facing some resistance on some of the signing. So I am going to go back to Matt and get him involved and not keep going back and forth in an email, you know, back and forth.

156

00:20:50.580 --> 00:20:59.520

Brian: Is there anything you know anybody, any other creative ways. Now, I mean like the chamber, for example, they're promoting

157

00:21:00.780 --> 00:21:06.090

Brian: Open for Business, and they it's on their website or on their social media.

158

00:21:07.800 --> 00:21:12.360

Brian: They're doing that, of course, again, on their website when

159

00:21:13.560 --> 00:21:25.650

Brian: Way back when I when when we first went into the pandemic. We were on the town website I listed retailers and restaurants, who were open. But I mean,

160

00:21:25.680 --> 00:21:27.210

Brian: Truthfully, trying to keep that up.

161

00:21:27.240 --> 00:21:36.780

Brian: To date, you need the restaurant or retailers to really provide the input and I found that I was inconsistent inaccurate on that.

162

00:21:38.880 --> 00:21:49.560

Brian: And I'm not so sure. How many people are searching the town website looking for businesses that are open so i i'm not i'm not sure that's the most effective pool.

163

00:21:50.220 --> 00:22:04.710

Brian: But you know the the challenge, if you would, was what else could we be doing as the EDC. What else could we be doing to help support the businesses and what creative ways that we think we could help them.

164

00:22:06.330 --> 00:22:08.820

Brian: You know, demonstrate their open for business.

165

00:22:09.660 --> 00:22:17.700

Robert Trobe: I'm could we do a large postcard. I mean, a lot of people don't go online to look to see what's open

166

00:22:18.600 --> 00:22:28.560

Robert Trobe: I'm a large postcard that says Guilford is open for business and explains that the town hall is open, but then also says, you know, non as

167

00:22:29.400 --> 00:22:39.990

Robert Trobe: non essential services such as reach you know your favorite retailers are open your hardware stores, you know, we can't promote a particular business, but we could let people know um

168

00:22:41.220 --> 00:23:00.600

Robert Trobe: I didn't know Tracy was open. I didn't. Um, and I don't go downtown that much because every, every piece of information, I get says, because I'm over 65 not to go anywhere. So I'm, you know, maybe we could something that come in the mail. Very simple Guilford is open for

169

00:23:04.590 --> 00:23:05.730

Robert Trobe: You, my suggestion.

170

00:23:07.800 --> 00:23:13.650

tracy: Is there's at this point, there are fewer business says closed than open

171

00:23:13.830 --> 00:23:31.800

tracy: Right. So I think the concept of, you know, getting it out there that most of your businesses are open, there may be limitations. I know a lot of people have cut their hours back and even the number of days back. We haven't done a little bit of that but

172

00:23:34.110 --> 00:23:48.210

tracy: I don't know, essentially, everyone's open, there may be modifications to medical schedules. It might be modifications to to some of the other businesses by appointment. But basically we're open

173

00:23:48.840 --> 00:23:58.050

Damian Gunningsmith: And read most of mass, mass notifications. Is that something that he could just throw a plug in and you know nonspecific mentioned in one of those mass notification messages.

174

00:23:58.680 --> 00:24:01.860

Brian: He has he has. He has done that a few times.

175

00:24:02.280 --> 00:24:12.090

Brian: I don't think he does it every time he does one but probably every other every third one. He has made comments about being open and Tracy, to your point.

176

00:24:13.140 --> 00:24:22.440

Brian: Almost everybody is open. It's almost like you have to like, where do I want to go and I should be checking that person's website or calling them.

177

00:24:22.920 --> 00:24:39.180

Brian: To find out what hours what days by appointment or not because I mean like I say even balloons balloons are opening next week, but he's one of the few businesses that hasn't reopened yet, but some degree.

178

00:24:41.400 --> 00:24:44.430

Brian: So I mean that's almost been my mentality is

179

00:24:45.360 --> 00:24:56.610

Brian: So, you know, almost everybody and we've even I mean I'm mad or the town's Facebook page, we've posted a couple times about being open and we can try that again.

180

00:25:00.480 --> 00:25:06.750

tracy: Yeah, I think the good just getting the message out that girlfriends open for business. And then, you know, with the byline of

181

00:25:07.890 --> 00:25:11.130

tracy: You know, check for adjusted hours or

182

00:25:12.780 --> 00:25:17.040

tracy: You know, or special or by appointment, something of that nature.

183

00:25:20.010 --> 00:25:23.670

tracy: I don't know how I don't know how it's missed

184

00:25:26.460 --> 00:25:28.770

tracy: That stores aren't open

185

00:25:30.420 --> 00:25:35.820

tracy: If everybody got excited about rush restaurants and about getting their hair cut.

186

00:25:37.890 --> 00:25:50.790

tracy: So I think maybe that was the focus. I know initially they were saying, you know, you can't try clothes on and then that was modified so there were people still coming in and asking, you know, Oh, I guess I can't try clothes on the initial message.

187

00:25:51.330 --> 00:25:54.930

tracy: Is out there. And unfortunately, the wrong things stuck.

188

00:25:58.290 --> 00:26:00.810

tracy: But, you know, that was easy to overcome.

189

00:26:01.950 --> 00:26:09.840

tracy: Personally, we're going through extra precautions when people try things on but steaming and putting things aside, but

190

00:26:12.810 --> 00:26:16.620

tracy: But you know every business has its unique situation that they've got to deal with any

191

00:26:18.300 --> 00:26:21.180

Robert Trobe: Clothes my feeling I have nowhere to go.

192

00:26:21.870 --> 00:26:23.400

tracy: No, I am

193

00:26:23.850 --> 00:26:35.670

Robert Trobe: I can't, I wouldn't be buying clothes. I'm not, you know, to the extent I do all my work at home. I can't go to my friend's house. I'm always wearing a mask. Nothing matches the mask. Why am I buying clothes.

194

00:26:35.820 --> 00:26:42.030

tracy: You know and believe me, you don't have to explain to me the challenges of my business.

195

00:26:43.050 --> 00:26:46.470

Robert Trobe: Yes, thank you. You're not getting even if people know people think

196

00:26:46.620 --> 00:26:48.420

Robert Trobe: Where am I going nowhere.

197

00:26:48.930 --> 00:27:01.020

tracy: I'm getting people coming in buying jeans shorts and T shirts. I mean, that's not exclusively, that there's certainly a percentage. That's not that, but there's definitely the now i'm not

198

00:27:01.470 --> 00:27:10.680

tracy: I'm working from home. Those who used to go to business. Now they're looking for their casual clothing for not out of business. We're just not, it's not going to be

199

00:27:11.910 --> 00:27:14.880

tracy: Careful, the state three clothing stores in town.

200

00:27:16.380 --> 00:27:19.350

tracy: If it continues like this. And who knows how long. That'll happen.

201

00:27:20.340 --> 00:27:38.250

Guilford Host1: I see. I understand completely what you're going through and you have a very specific type of business that is that people have a misnomer about going to a wall. It's not safe is it say what do I do, it's indoor I can't do this outdoor

202

00:27:39.810 --> 00:27:45.180

Guilford Host1: So you definitely have a lot of challenges from the town's perspective, I think.

203

00:27:46.290 --> 00:27:54.630

Guilford Host1: We need to promote that filters open our businesses are working on our Facebook page. Brian, can do a blessed

204

00:27:56.040 --> 00:27:59.040

Guilford Host1: Just to let people know that we're open

205

00:27:59.610 --> 00:28:03.060

Guilford Host1: I think relaxation of the signage rules.

206

00:28:04.980 --> 00:28:10.230

Guilford Host1: I think we are all set with outdoor displays on things that needs to change.

207

00:28:11.580 --> 00:28:22.350

Guilford Host1: That's also a good way to let people know that you're open and that regulation that we went through put a small table outside. I know racks are not included, but

208

00:28:23.490 --> 00:28:24.360

tracy: It should be

209

00:28:24.810 --> 00:28:29.520

Guilford Host1: But I, I understand that. And that's one of the things that we are looking to

210

00:28:31.080 --> 00:28:37.560

Guilford Host1: Overcome but as I've told other people who are doing clothing. There's a difference between a clothing rack and a coat rack.

211

00:28:39.540 --> 00:28:44.670

Guilford Host1: Okay, so you can still hang things on a coat rack outside the door let people know that you're open

212

00:28:46.380 --> 00:28:55.050

Guilford Host1: So there are you get creative. Read between the lines. It was there are some things you can you can do in there.

213

00:28:55.950 --> 00:29:00.180

tracy: I have to say, nobody's bothered us for anything that we've put outside so

214

00:29:02.040 --> 00:29:04.830

tracy: Unfortunately it's survival right now.

215

00:29:06.510 --> 00:29:15.480

Guilford Host1: But, to a certain extent, I have to say that it's not going to be the town's responsibility to promote every individual business.

216

00:29:15.480 --> 00:29:16.230

tracy: Course at

217

00:29:16.260 --> 00:29:21.120

Guilford Host1: Some point you have to take it upon yourselves to get the word out and

218

00:29:22.620 --> 00:29:33.720

Guilford Host1: Working with the the Mercian association that that you're a part of downtown. Maybe it's something where you can come up with a sign.

219

00:29:34.170 --> 00:29:53.940

Guilford Host1: You know, a big green sign says Guilford open and work with a local printer and put those in your windows so people know that when they drive by or walk by and they see that green Guilford open the sign in the window. They know that that businesses open

220

00:29:58.200 --> 00:29:59.250

Guilford Host1: They say, I'm going to meet you.

221

00:30:00.000 --> 00:30:00.240

There.

222

00:30:03.330 --> 00:30:09.510

Brian: All right, well, if, if, if you have any other thoughts on this please let me know.

223

00:30:11.010 --> 00:30:12.060

Brian: I will

224

00:30:13.530 --> 00:30:21.390

Brian: At a minimum, Mark. I'll have you and Ted looped in on my next correspondence with this. I mean, I want to try to

225

00:30:22.500 --> 00:30:35.220

Brian: The way we handled restaurant. We did a zoom meeting like this and I want to encourage we do that again because you need, you know, you need to hear it and feel it, not just go back and forth and emails.

226

00:30:38.490 --> 00:30:41.370

Brian: But I so well.

227

00:30:42.540 --> 00:30:42.840

Theodore Sands: Okay.

228

00:30:45.450 --> 00:31:04.980

Theodore Sands: What Mark and I are happy to, to help you in any way we can here. But we, I think we do need to do something. I mean, I'm when I talked to the merchants, the ones that are open. They're open, but they're not doing enough business to stay alive.

229

00:31:05.340 --> 00:31:06.390

Brian: And we

230

00:31:06.450 --> 00:31:06.900

Theodore Sands: Gotta

231

00:31:06.960 --> 00:31:12.780

Theodore Sands: We gotta find a way to help here or we're going to have a lot of vacant storefronts

232

00:31:13.290 --> 00:31:16.890

tracy: Have you heard of anybody closing, other than details. Yeah.

233

00:31:20.340 --> 00:31:20.700

tracy: No.

234

00:31:21.060 --> 00:31:22.620

Brian: No, I

235

00:31:22.650 --> 00:31:28.470

tracy: Mean it's early and we still have PPP but mine runs out on the 18th, we

236

00:31:29.490 --> 00:31:33.240

tracy: I mean, it gave me a month of staff. That's it, but

237

00:31:35.760 --> 00:31:41.820

Brian: Ironically, in Branford, I just saw last night. La cuisine is closing

238

00:31:42.570 --> 00:31:55.950

Brian: Really yeah I don't know if it's all tied to what's been going on. But that's certainly been a piece of it. So they're going to close, but I have not heard of other guilt. Guilt for businesses yet and like details.

239

00:31:56.850 --> 00:31:57.570
tracy: It says retire.

240
00:31:58.110 --> 00:32:00.480
Brian: Retire you know 22 years and

241
00:32:01.110 --> 00:32:09.480
Brian: And Mary ends, you know, probably in her mid 60s or so. So, God bless. Or it's time to enjoy life.

242
00:32:10.560 --> 00:32:12.120
Brian: Okay, um,

243
00:32:13.350 --> 00:32:18.510
Brian: Let me add get another input from yet another thing that I had recommended it honestly

244
00:32:19.710 --> 00:32:24.420
Brian: It may be less important. Now, but before the outdoor dining became available.

245
00:32:25.560 --> 00:32:31.260
Brian: For restaurant seating. I made a recommendation to put some picnic tables on the green

246
00:32:32.460 --> 00:32:33.720
Brian: I wanted to just

247
00:32:36.450 --> 00:32:42.600
Brian: Encourage people to come to the green again with all the events that are canceled.

248
00:32:43.710 --> 00:32:54.420
Brian: If there was a more jovial feeling positive feeling come to the green, you know, people were again promoting takeout and

249
00:32:55.440 --> 00:33:04.020
Brian: And this wasn't the only support the restaurants around the green. It was just the idea that we would have some people you see it.

250
00:33:04.380 --> 00:33:17.400

Brian: There sit on the picnic, or the the benches and they'll eat a sandwich or something, though. I've seen people bring in blankets to the green and having meals. So I thought about adding a few picnic tables.

251

00:33:19.500 --> 00:33:30.600

Brian: Good, bad, or and let me just say it was met with some resistance. So it's like, how much do I want to argue this or should I just give up and

252

00:33:31.830 --> 00:33:32.580

Brian: Move on.

253

00:33:33.510 --> 00:33:34.650

tracy: I think it's a great idea.

254

00:33:35.550 --> 00:33:40.680

Robert Trobe: How would you keep it sanitized. Now, I wouldn't want to eat on a table that I didn't know had been cleaned

255

00:33:41.610 --> 00:33:56.100

tracy: You know, these days, I think you have to walk around with your sanitizer and go nowhere without gloves sanitizer wipes, if you have them. But you know, I don't trust it. Anybody sanitizing something before I use it.

256

00:33:58.110 --> 00:34:01.650

tracy: I mean, I have not case of iced water.

257

00:34:03.870 --> 00:34:10.920

Brian: Well, I mean, Tracy, to your point, and initially when I even suggested this I was suggesting, maybe

258

00:34:11.520 --> 00:34:22.140

Brian: Park and rec because they're not hiring nearly the part time staff that they were the Parks and Rec could have a couple people. And then I backed off a little bit. I mean, because after talking with

259

00:34:23.760 --> 00:34:32.850

Brian: Dennis Johnson and commenting about the use of benches, we don't we don't sanitize the benches and we know people go and sit on those

260

00:34:33.330 --> 00:34:43.950

Brian: And so the general feeling, to your point, the most people sanitized themselves. So, so the question. One of the concerns still was if now the

261

00:34:44.850 --> 00:34:56.970

Brian: Green town property we put benches out there. Or I mean the tables are we encouraging more liability and you know. Should we, should we do something there.

262

00:34:59.580 --> 00:35:01.710

Guilford Host1: So is that

263

00:35:01.740 --> 00:35:08.700

Theodore Sands: Is that really ours or does it. I thought the green belong to some sort of an organization.

264

00:35:09.870 --> 00:35:10.200

Brian: No.

265

00:35:11.370 --> 00:35:16.440

Brian: No, the Madison green is owned by a church, but that property is down property.

266

00:35:17.610 --> 00:35:21.150

ampearl: There is a green committee, but it's not. It's a town committee.

267

00:35:22.260 --> 00:35:23.010

Theodore Sands: Oh, okay.

268

00:35:23.550 --> 00:35:25.950

Guilford Host1: Right response would be know it.

269

00:35:27.090 --> 00:35:42.810

Guilford Host1: I think it opens up for liability I because it's town on property and I hate to say it, but there's people out there just looking for an excuse. At this point, I mean, I've already seen ads for Carter Mario

270

00:35:44.550 --> 00:35:52.410

Guilford Host1: Wanting to sue nursing homes and encouraging people to do that. And I just see this as another avenue for them to make their revenue.

271

00:35:53.250 --> 00:35:56.190

tracy: What's the difference between this and any other town Park.

272

00:35:58.080 --> 00:36:01.890

Guilford Host1: I don't think we have tables in any town parks, do we find

273

00:36:03.780 --> 00:36:04.170

Brian: We have

274

00:36:05.790 --> 00:36:07.050

tracy: chaffinch island.

275

00:36:07.620 --> 00:36:08.610

Brian: Tom Marina

276

00:36:09.210 --> 00:36:09.480

tracy: Yeah.

277

00:36:09.960 --> 00:36:18.270

Brian: That was part of my argument to that we have tables in other own facilities. So I was this any different.

278

00:36:20.430 --> 00:36:24.090

Theodore Sands: Well, I think it's a good idea. I mean we should do.

279

00:36:26.820 --> 00:36:29.820

tracy: It's also good community spirit. Just saying. Here we're

280

00:36:29.820 --> 00:36:35.160

tracy: Trying to do something that for as a town to do something positive to create

281

00:36:35.430 --> 00:36:36.780

Theodore Sands: New people downtown

282

00:36:37.770 --> 00:36:39.870

ampearl: They don't have any permanent either they're, they're not

283

00:36:40.560 --> 00:36:48.750

helenamullett: Right, Brian, how many tables, would you be talking about. You have any idea. And do we have these tables available.

284

00:36:51.030 --> 00:37:03.150

Brian: Yes. Initially I suggested 10 and yes we have them at Jacobs beach as one. One example like quanta Park has some as well. And they're not going to be open at all.

285

00:37:04.080 --> 00:37:15.720

Brian: But even I went down and looked at the ones that Jacobs beach and if you even look at a couple pavilions to keep the tables socially distance we could easily get 10 tables out of Jake

286

00:37:15.990 --> 00:37:22.320

Brian: Be fresh and bring them up so we wouldn't be acquiring new new tables, we would use those.

287

00:37:24.570 --> 00:37:28.200

Brian: Rick had some concerns because grass cutting and

288

00:37:29.160 --> 00:37:29.970

tracy: The biggest issue.

289

00:37:30.300 --> 00:37:48.180

Brian: He would have to stop and you know the guy would have to get off the tractors and or, you know, maybe a second person would have to be there with a weed whacker to do it under the tables. I mean, I mean, personally, I just kind of like, okay, it might be a little bit of an inconvenience for

290

00:37:49.350 --> 00:37:59.250

Brian: A few months ago when I when I made the recommendation I carried it the September with the the thoughts in mind. I mean, there

291

00:37:59.790 --> 00:38:13.260

Brian: There may be less of a need because of the so many of the restaurants have come out with outdoor dining outdoor seating, but there's still you know people that are buying takeout because they're not ready to go to a restaurant.

292

00:38:14.460 --> 00:38:17.880

Brian: And I just thought they could have a nice place to go sit on the green

293

00:38:22.440 --> 00:38:26.880

tracy: I agree. I think the biggest issue is the inconvenience of cutting the grass.

294

00:38:27.570 --> 00:38:27.930

Well,

295

00:38:29.790 --> 00:38:30.480

Brian: Okay, well,

296

00:38:30.780 --> 00:38:32.430

tracy: That's life. That's life.

297

00:38:33.030 --> 00:38:34.110

tracy: Yeah, except

298

00:38:35.730 --> 00:38:37.260

tracy: Other things that aren't happening, your

299

00:38:37.710 --> 00:38:42.180

tracy: Other places that are open that they're not having to maintain at the same level. This is just a

300

00:38:43.410 --> 00:38:46.530

Theodore Sands: Rick Scott plenty of people. Yeah, yeah.

301

00:38:46.680 --> 00:38:56.730

Brian: Well, he claims he's down a few but and and they are still taking care of the fields, although they're not lining them every day, you know, because they're not playing

302

00:38:56.910 --> 00:38:57.390

Theodore Sands: Right.

303

00:38:57.450 --> 00:39:00.840

Brian: They have to cut the ball fields and but they're not going

304

00:39:01.260 --> 00:39:03.060

tracy: There's lots of things, they're not doing and that

305

00:39:03.060 --> 00:39:06.000

Brian: Was part of my argument that they weren't doing as much

306

00:39:08.010 --> 00:39:11.370

Brian: Okay. All right. Hey, I'll wrap up here. Any

307

00:39:11.850 --> 00:39:13.020

Brian: Last comments.

308

00:39:13.320 --> 00:39:14.310

Brian: That I will make

309

00:39:15.360 --> 00:39:30.540

Brian: I don't know who's. I don't know if anybody's driven by U Haul lately, but if you have, I mean the retail center itself. You know, it's really looks like a retail store painting the outside, they've paid for a lot and strike the lot.

310

00:39:31.710 --> 00:39:45.360

Brian: They although I haven't been there in a few days, they may have started doing their landscaping and plan things. But, you know, they haven't started building the new building yet but all the things that they claim there's new light fixtures. You know, it's

311

00:39:46.620 --> 00:39:54.600

Brian: To me, it's really coming together and then I was out at the New Haven Middlesex realtor office out on Route one on the west side.

312

00:39:55.380 --> 00:40:03.030

Brian: And they, too, they've done a lot of shaping they've paid their lot and they're doing a lot of the shaping for landscaping. So they'll probably get

313

00:40:03.660 --> 00:40:11.520

Brian: Landscaping in signage in pretty, pretty soon there i mean i had i was out there. A couple months ago. And of course they were waiting for the spring.

314

00:40:11.850 --> 00:40:19.740

Brian: And then I think they got hit with code like everybody else. And, you know, being able to get their people in. And then the last one that

315

00:40:20.520 --> 00:40:34.020

Brian: We're working on right now is the metro pooch over on soundview if you've driven by that building beautiful building being built for doggie daycare and overnight and we're working with them in our

316

00:40:35.850 --> 00:40:37.890

Brian: Planning and Zoning on a couple of

317

00:40:42.270 --> 00:40:52.890

Brian: The bottom line. They made some changes in process and not they've got to go back and try to get the plans approve that match what they've done in some of the construction

318

00:40:54.060 --> 00:40:57.420

Brian: And there are some concern about the back of the property.

319

00:40:58.470 --> 00:41:08.280

Brian: That goes down to the wetlands and some some feel that there might be infringement on the within the hundred foot wetlands. So we're

320

00:41:09.420 --> 00:41:12.030

Brian: In a little bit of dialogue right there, but the

321

00:41:13.380 --> 00:41:30.420

Brian: The applicant is trying to keep the project as is and hopefully that will get approved tomorrow night. There'll be a public hearing tomorrow night at PNC to go over this and hopefully P AMP z will support the changes that have been made.

322

00:41:31.470 --> 00:41:45.000

Robert Trobe: Brian. I'm concerned, they're going to have a real hard time to operate. I dropped my dog at Larkins run and large construction typically houses over 100 every night they had three

323

00:41:46.560 --> 00:41:51.510

Robert Trobe: Fire, you know that all their staff, no one's traveling, I guess in

324

00:41:53.010 --> 00:41:56.940

Brian: Her bed her businesses off 60%. Yes. Yeah.

325

00:41:57.930 --> 00:42:00.690

Brian: You know she needs to finish this project as well.

326

00:42:03.480 --> 00:42:07.110

Robert Trobe: You know what's going to happen in the first few months, um,

327

00:42:08.640 --> 00:42:08.970

Brian: So,

328

00:42:09.060 --> 00:42:12.150

Brian: So is she, but she needs to get the project done

329

00:42:12.420 --> 00:42:16.560

Brian: Right. Any, any further delays in getting it done.

330

00:42:16.650 --> 00:42:17.340

Brian: So we're in

331

00:42:17.730 --> 00:42:23.730

Brian: Further impact her that much more. So she needs. She needs to get the project done

332

00:42:24.150 --> 00:42:39.150

ampearl: Right. That also reminds me, there is another business that closed nutmeg twisters the gymnastics place that was right. Beyond Metro. They have moved to Clinton because their landlord wouldn't work with them with rent issues or their lease was often they couldn't renegotiate so

333

00:42:41.370 --> 00:42:50.490

Brian: All right, good point. I am I did, I did hear that space was open, but I didn't realize they had moved on. Yeah, okay.

334

00:42:53.160 --> 00:42:59.280

tracy: Quick question. Sorry. Going back to the green. What are the chances of getting those garbage cans.

335

00:43:02.010 --> 00:43:05.550

tracy: On the sidewalks on the green. Is that still happening.

336

00:43:07.410 --> 00:43:07.620

Guilford Host1: Your

337

00:43:07.650 --> 00:43:09.360

tracy: trash compactor once

338

00:43:09.750 --> 00:43:16.710

Brian: It actually is on the green the trash compactor is john the green over on the corner.

339

00:43:18.630 --> 00:43:20.670

ampearl: The Boston street corner where

340

00:43:20.940 --> 00:43:22.620

tracy: We're not putting it on the sidewalk.

341

00:43:22.800 --> 00:43:23.760

Brian: No, no.

342

00:43:25.350 --> 00:43:27.030

tracy: We still have trouble with

343

00:43:27.060 --> 00:43:43.470

Brian: There, there was there was a certain amount of resistance to put it there. So we said, okay, we'll put it over here and see what kind of a problem that brings you know I mean is it inconvenient for people to walk across the street and use that or not.

344

00:43:49.110 --> 00:43:49.560

Brian: Okay.

345

00:43:49.710 --> 00:43:50.310

Guilford Host1: Thank you, Brian.

346

00:43:50.670 --> 00:43:53.310

Brian: Mark I've taken a lot longer than we needed but

347

00:43:55.770 --> 00:43:57.060

Guilford Host1: You wouldn't be you. If you didn't

348

00:43:57.540 --> 00:43:57.900

Yeah.

349

00:44:01.020 --> 00:44:02.190

Brian: Well, there's very little.

350

00:44:04.320 --> 00:44:15.810

Guilford Host1: Well, thank you, you, you definitely know a lot more of what's going on and we appreciate that by more than you know.

351

00:44:17.670 --> 00:44:20.190
Guilford Host1: There's only I so

352
00:44:21.240 --> 00:44:24.750
Guilford Host1: Sherry is not on the call with us. So we don't have a chamber report.

353
00:44:26.670 --> 00:44:30.960
Guilford Host1: Me, other than working with Brian hanging out with pee pee equipment.

354
00:44:32.400 --> 00:44:37.710
Guilford Host1: I've done very little to go out and page a few times been to

355
00:44:41.070 --> 00:44:48.120
Guilford Host1: Fresh market on you know my usual things, but I did find out that

356
00:44:50.670 --> 00:45:01.950
Guilford Host1: I I've said for a while that this is going to have a long term impact on the availability of business space for lease and that we're going to see a lot more of it.

357
00:45:02.970 --> 00:45:07.890
Guilford Host1: And that that market is going to have some severe problem coming up.

358
00:45:09.000 --> 00:45:10.110
Guilford Host1: Bone and Bradstreet

359
00:45:12.180 --> 00:45:25.350
Guilford Host1: Is not going to renew their lease in their current facility when it expires in, I believe, October, November, and they are transitioning their workforce to work from home.

360
00:45:27.660 --> 00:45:38.460
Guilford Host1: So I kind of saw this comment. I think we're going to have. We're going to start to see a lot more of that with either the least reduction, if not elimination of

361
00:45:40.020 --> 00:45:42.060
Guilford Host1: Corporate type office space.

362

00:45:45.990 --> 00:45:46.830

Guilford Host1: Other than that.

363

00:45:48.120 --> 00:45:52.890

Guilford Host1: You know we got our beach past speech passes are available if you if you haven't done that yet.

364

00:45:53.940 --> 00:45:56.460

Guilford Host1: You want to go ahead and get that. So you have that

365

00:45:57.750 --> 00:46:00.570

Guilford Host1: Other than that, that's all I all I have.

366

00:46:01.590 --> 00:46:06.120

Guilford Host1: Now, Brian, you said Thursday this Thursday. We're gonna have a second round.

367

00:46:07.200 --> 00:46:08.700

Brian: Yeah. Did you do that.

368

00:46:11.850 --> 00:46:19.860

Guilford Host1: No. Yes, I can do that. That's not a problem. So let me double check because we are starting to resume our

369

00:46:24.510 --> 00:46:28.830

Guilford Host1: office visits and you said that's from 11 till one

370

00:46:29.430 --> 00:46:33.420

Guilford Host1: Yeah, okay. I do have a conference call at 10

371

00:46:37.560 --> 00:46:48.240

Guilford Host1: But as soon as I get off that I'll head over it is, it's not like we need 100 people there, especially if if you know we only have 25

372

00:46:48.960 --> 00:46:49.440

Brian: X.

373

00:46:49.680 --> 00:46:52.230

Brian: Axis smaller crowd than we even had last week.

374

00:46:52.800 --> 00:46:59.250

Guilford Host1: I mean, we can talk offline to see maybe there's a better way to do that and

375

00:47:01.080 --> 00:47:04.290

Guilford Host1: You know, drive by my house and pick up everything.

376

00:47:07.980 --> 00:47:08.400

Brian: Okay.

377

00:47:11.430 --> 00:47:13.620

Guilford Host1: Okay, so

378

00:47:16.980 --> 00:47:18.060

Guilford Host1: People losing window.

379

00:47:19.680 --> 00:47:20.100

Guilford Host1: Okay.

380

00:47:21.540 --> 00:47:24.030

Guilford Host1: subcommittees. I'm just going to

381

00:47:25.350 --> 00:47:30.030

Guilford Host1: I know nothing has happened with signage. So I'm going to

382

00:47:31.620 --> 00:47:32.730

Guilford Host1: skip that one.

383

00:47:34.680 --> 00:47:39.540

Robert Trobe: You say, Mark, I just want to know Mark Mike myself had a hip replacement surgery yesterday.

384

00:47:39.840 --> 00:47:40.560

Yes.

385

00:47:44.040 --> 00:47:47.340

Guilford Host1: I knew that, but I don't know that everybody else knew that

386

00:47:47.640 --> 00:47:48.150

Okay.

387

00:47:50.340 --> 00:47:53.520

Brian: He did send me an email saying all the surgery went well.

388

00:47:55.140 --> 00:47:55.530

Brian: Yeah.

389

00:47:57.450 --> 00:48:04.200

Brian: His next door neighbor had a knee replacement last week. So I told him, I said, like bed section of the neighborhood. I'm not

390

00:48:05.280 --> 00:48:06.180

Brian: Don't make don't

391

00:48:06.210 --> 00:48:07.890

Brian: Make this stuff contagious.

392

00:48:15.300 --> 00:48:24.840

Guilford Host1: I don't think any progress has been made with key development incentive. I think we have other incentives that we've been working with

393

00:48:25.950 --> 00:48:28.830

Guilford Host1: But, Amy, do you have anything to add to that.

394

00:48:29.040 --> 00:48:31.260

ampearl: Now you gave me till July. So I've still got a month.

395

00:48:31.710 --> 00:48:32.130

Okay.

396

00:48:33.150 --> 00:48:34.170

Guilford Host1: And we can push

397

00:48:34.170 --> 00:48:34.800

Guilford Host1: That back

398

00:48:35.250 --> 00:48:35.700

tracy: A little bit.

399

00:48:38.130 --> 00:48:39.510

Guilford Host1: Yes, no doubt.

400

00:48:39.690 --> 00:48:41.070

ampearl: have not forgotten about it. Certainly.

401

00:48:41.970 --> 00:48:44.700

Guilford Host1: I mean, we can certainly push that back. We need to. Yeah.

402

00:48:44.880 --> 00:48:45.600

ampearl: We'll see how it goes.

403

00:48:46.230 --> 00:48:47.490

Guilford Host1: You you let me know.

404

00:48:51.150 --> 00:48:51.840

Guilford Host1: So,

405

00:48:51.900 --> 00:48:56.250

Brian: This is a Sidecar me, I would like to start getting back into these things.

406

00:48:56.760 --> 00:49:08.010

Brian: Once I'm back in the office with a little more frequency. I mean, these are some things that I just, I mean, just because other priorities. I didn't even think about myself. So hopefully

407

00:49:08.970 --> 00:49:20.610

Brian: Things are going to settle down a little bit. I mean, it's going to be interesting, not to go back. But, you know, the next opening or the next is geared for June 20. So it'll be interesting to see.

408

00:49:21.690 --> 00:49:34.980

Brian: How that changes things. If it changes things. Or if there's any other government programs rolling out that might influence any of that as well. Hopefully, hopefully will won't be distracted.

409

00:49:40.410 --> 00:49:40.950

Okay.

410

00:49:43.050 --> 00:49:45.120

Guilford Host1: Do we have any new business.

411

00:49:49.980 --> 00:49:51.360
Guilford Host1: Any old business.

412
00:49:59.310 --> 00:50:00.750
Guilford Host1: Okay, we have one

413
00:50:02.550 --> 00:50:03.150
Guilford Host1: Bill

414
00:50:04.620 --> 00:50:15.660
Guilford Host1: For \$61 and 25 cents for recording services for the may 5 meeting, I need a motion to approve.

415
00:50:17.220 --> 00:50:18.000
tracy: And interpret

416
00:50:18.990 --> 00:50:19.920
Guilford Host1: I need a second

417
00:50:21.060 --> 00:50:21.540
Robert Trobe: Second,

418
00:50:22.380 --> 00:50:24.540
Guilford Host1: Okay, all those in favor

419
00:50:30.090 --> 00:50:32.010
Guilford Host1: Its duty pain. Okay.

420
00:50:33.630 --> 00:50:36.450
Guilford Host1: That's all you guys. Nobody has anything else in in Motion to adjourn.

421
00:50:38.370 --> 00:50:38.940
Theodore Sands: So move

422
00:50:38.970 --> 00:50:39.240
To the

423
00:50:41.670 --> 00:50:42.360
tracy: Second,

424

00:50:42.930 --> 00:50:44.910
Guilford Host1: Right was a favor.

425
00:50:46.950 --> 00:50:53.040
Guilford Host1: Okay, thank you everyone be well be safe, be healthy. If you need anything, give me a call, let me know.

426
00:50:54.240 --> 00:50:55.050
iPhone: Thank you.

427
00:50:55.080 --> 00:50:56.370
tracy: Thank you. Bye, everyone.

428
00:50:56.640 --> 00:50:57.060
iPhone: Have a good day.

429
00:50:57.630 --> 00:50:58.350
Brian: Thanks, guys.

430
00:51:15.210 --> 00:51:17.070
Judy: Thank you, Mark. I just wanted to say.
