00:01:18.000 --> 00:01:19.860

Kevin Magee: She doesn't have a microphone yet.

22

00:01:34.200 --> 00:01:35.370

Carrie Clark: Are you live yet EVA.

23

00:01:38.520 --> 00:01:39.720

Carrie Clark: No, I won't

00:01:39.810 --> 00:01:41.190

Carrie Clark: See her until I hear from her.

25

00:01:45.060 --> 00:01:57.090

Carrie Clark: In the meantime, under be applications. Number one, South Central Connecticut regional Water Authority you've ever had road sugar low map 112 and 113 lot five and one

26

00:01:57.570 --> 00:02:06.540

Carrie Clark: Really activity and boundary clarification storm water drainage improvements with an honor put upland review area or just want to check, Jennifer, are you live.

27

00:02:08.850 --> 00:02:09.900

Jennifer Newton Blackwell: Yes, I can hear you.

28

00:02:09.990 --> 00:02:11.400

Carrie Clark: Alright, just want to check, Jeff.

29

00:02:15.570 --> 00:02:15.900

Carrie Clark: Yeah.

30

00:02:18.060 --> 00:02:19.560

Carrie Clark: Alright, so he's not live yet either.

31

00:02:19.800 --> 00:02:20.610

Scott's iPad: No, just hear

32

00:02:24.360 --> 00:02:27.000

Kevin Magee: What he has a phone number, but that's

33

00:02:27.360 --> 00:02:28.380

Kevin Magee: Muted I think

34

00:02:31.260 --> 00:02:32.640

18608103679: You guys, I'm here. Okay.

35

00:02:36.060 --> 00:02:41.550

18608103679: But I'm logged in on my workstation, too. So I can. That's, that's where my name is ok but the phone numbers mine.

36

00:02:42.300 --> 00:02:42.720

Okay.

37

00:02:43.740 --> 00:02:45.660

Carrie Clark: Just wanted to make sure you are with us good here.

38

00:02:49.200 --> 00:02:49.710

Carrie Clark: Eva.

39

00:02:50.940 --> 00:02:51.420

Carrie Clark: You learn

40

00:02:55.230 --> 00:03:02.880

Carrie Clark: Right. So, okay. So number one is Ben read. It's open and Mike is not here, so I

41

00:03:04.020 --> 00:03:05.250

Carrie Clark: Assume we're going to table this

42

00:03:06.120 --> 00:03:06.870

Kevin Magee: Correct. Yep.

43

00:03:07.650 --> 00:03:11.850

Carrie Clark: Okay. He saw how we do in time wise. With that, we got one more month

44

00:03:12.750 --> 00:03:18.450

Kevin Magee: Well, they're lucky cuz they had the regular 65 days plus then

45

00:03:19.710 --> 00:03:22.050

Kevin Magee: 90 additional days killing because of the

46

00:03:23.220 --> 00:03:26.460

Kevin Magee: Executive order. So they're they're doing good.

47

00:03:26.640 --> 00:03:30.810

Carrie Clark: Okay so motion to table. So next month.

48

00:03:31.560 --> 00:03:33.000

Wendy's iPad: When do you move to table.

49

00:03:33.690 --> 00:03:35.580

Scott's iPad: Thank you, Scott seconds.

50

00:03:35.910 --> 00:03:37.680

Carrie Clark: Thank you. All in favor.

51

00:03:38.340 --> 00:03:38.850

Aye.

52

00:03:40.020 --> 00:03:40.380

Carrie Clark: Aye.

53

00:03:40.920 --> 00:03:41.490

18608103679: Aye.

54

00:03:42.090 --> 00:03:56.460

Carrie Clark: Thank you. Number 213 40 Boston post road LLC, your privilege West Boston post road map 78 lat 139 41 and 79 lat 39 modification request for approval modification

55

00:03:58.020 --> 00:04:02.550

Carrie Clark: Permit with 100 foot upland review area Table, table as well, Kevin.

56

00:04:03.180 --> 00:04:15.030

Kevin Magee: As well. I talked to them like this afternoon. They said, I guess they finally got their pricing back between metal covert to concrete covert so there needs to just finish the plans with what they decide

57

00:04:15.600 --> 00:04:16.050

Okay.

58

00:04:17.910 --> 00:04:18.960

Wendy's iPad: Move to table.

59

00:04:20.610 --> 00:04:21.480

Scott's iPad: Scott seconds.

60

00:04:22.590 --> 00:04:23.610

Carrie Clark: All those in favor,

61

00:04:27.090 --> 00:04:27.540

Carrie Clark: Okay.

62

00:04:28.230 --> 00:04:46.590

Carrie Clark: We went on. Number three bigley Arctic instruction long hill states East long Hill Road Map 57 lot two or five real activity lot 19 construction, residential three bedroom home and septic system install utilities and driveway with 100 foot upland review area.

63

00:04:49.830 --> 00:04:55.470

Chuck Mandel: Good evening, everyone. Chuck Mandela agent for the applicant bigley it construction.

64

00:04:56.550 --> 00:04:56.970

Chuck Mandel: I'm

65

00:04:58.080 --> 00:04:58.800

Carrie Clark: Doing Chuck

66

00:04:58.950 --> 00:05:00.030

Chuck Mandel: Good yourself.

67

00:05:00.150 --> 00:05:00.870

Carrie Clark: Good, thank you.

68

00:05:01.260 --> 00:05:05.430

Chuck Mandel: Good ahead. I put the turkeys way early today because it's seven o'clock. They usually routes.

69

00:05:05.460 --> 00:05:09.510

Carrie Clark: Around 736. Is that a green screen behind you. Is that your backyard.

70

00:05:10.470 --> 00:05:13.050

Chuck Mandel: Is a shot of my backyard, but it is a green screen.

71

00:05:13.470 --> 00:05:14.010

Carrie Clark: All right, well,

72

00:05:15.000 --> 00:05:20.970

Chuck Mandel: Okay, yeah. So, um, I guess, Kevin, can you can open that drawing up. I imagine the one we sent you today.

73

00:05:23.670 --> 00:05:24.720

Kevin Magee: Yep. Is it there.

74

00:05:25.710 --> 00:05:26.790

Chuck Mandel: Yeah, it is.

75

00:05:27.300 --> 00:05:39.540

Chuck Mandel: Thanks. Yeah, so this is essentially the same plan, you've seen from day one. This La, la, it had been problematic during the original discussions, um,

76

00:05:40.050 --> 00:05:46.650

Chuck Mandel: I did send Kevin the foundation plan today, which shows it is a slab on grade with no footing drains.

77

00:05:47.520 --> 00:05:54.300

Chuck Mandel: Septic is going to be 52.6 feet away from the edge of the wetlands, which was flagged by Bob Russo.

78

00:05:55.020 --> 00:06:09.420

Chuck Mandel: The silt fence is actually the same as the edge of clearing. So, you have, you see the 33.8 plus or minus is the closest part where there will be any clearing and that's for grading for the septic system.

79

00:06:11.970 --> 00:06:16.980

Chuck Mandel: And essentially, that's it. If you have any questions, I will be more than happy to answer them.

80

00:06:18.120 --> 00:06:20.250

Carrie Clark: So not much has changed in from the watch rock.

81

00:06:20.520 --> 00:06:26.760

Chuck Mandel: Know this is an identical plan. I think we added the stock file area to the top left there. That was really it

82

00:06:27.450 --> 00:06:29.430

Carrie Clark: Was pretty much my only other question.

83

00:06:29.610 --> 00:06:29.910

Chuck Mandel: Yeah.

84

00:06:30.120 --> 00:06:32.580

Carrie Clark: So what are you doing with with the gutters.

85

00:06:32.970 --> 00:06:37.710

Chuck Mandel: The roof leaders, as you can see on the right. We're going to daylight them into the catch basin.

86

00:06:38.400 --> 00:06:39.990

Carrie Clark: Okay. All right.

87

00:06:40.440 --> 00:06:43.440

Chuck Mandel: Which will go into the minute they have the entire drainage structure.

88

00:06:47.520 --> 00:06:53.910

Chuck Mandel: Yeah, I'm sorry, and most of most of the houses, putting drains and roof leaders will be going into the detention basins.

89

00:06:55.260 --> 00:06:56.880

Carrie Clark: You're talking about for the entire subdivision.

90

00:06:56.880 --> 00:06:57.900

Carrie Clark: Correct. Okay.

91

00:06:58.380 --> 00:07:00.210

Carrie Clark: So just moving it for forward.

92

00:07:01.170 --> 00:07:02.610

Chuck Mandel: Moving forward, exactly.

93

00:07:03.000 --> 00:07:03.510

Carrie Clark: Um,

94

00:07:03.540 --> 00:07:04.380

Chuck Mandel: When, when we can

95

00:07:04.770 --> 00:07:05.100

Right.

96

00:07:07.530 --> 00:07:20.610

Carrie Clark: Do we do anything for signage, as far as future homeowners me wanting to clear closer to the wetlands, we'd ever really address that to my takeaway, it was

97

00:07:20.670 --> 00:07:24.600

Chuck Mandel: It was really Kevin, we're really gonna we're marking the open space. Yeah.

98

00:07:24.840 --> 00:07:27.510

Chuck Mandel: There was really nothing for the wetlands themselves.

99

00:07:29.010 --> 00:07:32.580

Carrie Clark: On this lot to prevent the future homeowner from clearing. I know.

100

00:07:32.730 --> 00:07:37.920

Carrie Clark: I know your for your building purposes. You're staying 33.8 feet away.

101

00:07:38.820 --> 00:07:39.750

Chuck Mandel: Correct for

102

00:07:39.780 --> 00:07:40.410

Chuck Mandel: Any player.

103

00:07:40.560 --> 00:07:47.370

Carrie Clark: Yes, but for future future homeowners just nothing to prevent them from clearing closer to that. Well, and they're

104

00:07:48.540 --> 00:07:53.310

Carrie Clark: Going to do a conservation easement or any kind of sign it by tree markings on trees.

105

00:07:54.060 --> 00:08:03.480

Chuck Mandel: Well, one of my thoughts was what we have done in the past, Kevin was we have put about 25 feet in parallel to the edge of the weapons we have posted signs.

106

00:08:04.650 --> 00:08:09.630

Chuck Mandel: Conservation Area. I don't know if we've ever done it, I believe we made that Guilford many years ago.

107

00:08:09.930 --> 00:08:11.190

Chuck Mandel: But I know we do it in Branford

108

00:08:11.190 --> 00:08:12.540

Chuck Mandel: Routinely okay

109

00:08:14.010 --> 00:08:15.930

Kevin Magee: Yeah, there's no formal conservation easement.

110

00:08:15.960 --> 00:08:18.450

Kevin Magee: Area on this property because we have the open space.

111

00:08:18.810 --> 00:08:19.230

Carrie Clark: Right.

112

00:08:19.380 --> 00:08:23.880

Kevin Magee: I mean, if they're doing major clearing it would be a violation and system matter of

113

00:08:25.380 --> 00:08:27.000

Kevin Magee: catching up with them if they do it.

114

00:08:28.110 --> 00:08:30.300

Carrie Clark: The issue. Okay. I was just curious.

115

00:08:31.890 --> 00:08:37.950

Kevin Magee: I can show you, since he did send us the house plans, since that's the important piece there let me

116

00:08:39.120 --> 00:08:40.440

Kevin Magee: pull those up so we can

117

00:08:43.260 --> 00:08:45.420

Kevin Magee: Visualize those also

118

00:08:51.480 --> 00:08:52.680

New share

119

00:08:56.280 --> 00:08:57.090

Kevin Magee: Does. Come on.

120

00:08:57.780 --> 00:09:00.840

Chuck Mandel: Yes. So on the second sheet, I believe.

121

00:09:04.860 --> 00:09:05.670

Kevin Magee: There's the

122

00:09:11.730 --> 00:09:12.720

Carrie Clark: So for the most part.

123

00:09:14.430 --> 00:09:17.400

Kevin Magee: And then the next page also I think Chuck. There was a

124

00:09:18.990 --> 00:09:23.610

Kevin Magee: There. Another detail which I noticed I came on.

125

00:09:25.770 --> 00:09:40.530

Chuck Mandel: That is the that's the second one I sent you another email. This one shows okay this is rated grade. So we'll hold on a second. This one shows this was the plan with the basement I SENT YOU ANOTHER ONE. Kevin without a basement.

126

00:09:40.980 --> 00:09:47.070

Kevin Magee: And let me pull that one up the other ones also started showed something down here to me go and grab that one out of the other

127

00:09:47.610 --> 00:09:52.170

Chuck Mandel: Yeah we modified one of this of this House plan.

128

00:09:59.670 --> 00:10:03.210

Kevin Magee: You got the other one but didn't look right I stuck it with the other lot 26

129

00:10:04.890 --> 00:10:05.460

Chuck Mandel: Okay.

130

00:10:06.630 --> 00:10:07.860

Kevin Magee: So,

131

00:10:09.360 --> 00:10:12.480

Carrie Clark: What's, what would the significance between my well and standpoint.

132

00:10:13.410 --> 00:10:18.180

Chuck Mandel: Know, putting your drains, really. I was really unless disturb and subsurface

133

00:10:20.430 --> 00:10:23.340

Chuck Mandel: Less excavation, I believe, that one's it Kevin. Yes.

134

00:10:24.930 --> 00:10:34.230

Chuck Mandel: So if you can zoom in on the cross section. So you can see it's just a typical frost wall. And you can see grade is right at the floor level.

135

00:10:34.680 --> 00:10:39.540

Kevin Magee: They may need to modify this because they're showing it for is perforated PVC.

136

00:10:39.570 --> 00:10:41.910

Chuck Mandel: Pipe right here. Okay. No, that's

137

00:10:41.970 --> 00:10:43.380

Chuck Mandel: That's not, that's not going to be in there.

138

00:10:44.550 --> 00:10:45.240

Chuck Mandel: That comes out.

139

00:10:45.990 --> 00:10:49.140

Kevin Magee: That claim needs to be revised before it goes to building

140

00:10:49.470 --> 00:10:53.220

Chuck Mandel: Right, exactly. That's putting drain will not be will not be there.

141

00:10:53.910 --> 00:10:56.700

Carrie Clark: Nothing that's going to slow us down tonight, right, Kevin.

142

00:10:57.150 --> 00:10:57.570

It's no

143

00:10:59.340 --> 00:11:01.320

Kevin Magee: There's no footing drains allowed around the

144

00:11:03.090 --> 00:11:03.780

Kevin Magee: Foundation.

145

00:11:04.410 --> 00:11:13.980

Carrie Clark: So just for kind of a visual chuck these this House and the rest of the houses are going to pretty much mimic what was built across the street. Previously, for the most part.

146

00:11:14.820 --> 00:11:19.740

Chuck Mandel: Um, they may or may not. I think they're more of a and I believe

147

00:11:20.940 --> 00:11:34.140

Chuck Mandel: Maybe it's really going to be based on the customer, but they will look similar but they might be like small colonials they're all three bedroom. Nothing large um and I think Frank can weigh in on this. If you can unmute yourself right

148

00:11:35.400 --> 00:11:36.030

Frank Vigliotti: Yep, I'm here.

149

00:11:36.300 --> 00:11:36.990

Chuck Mandel: Yeah, so

150

00:11:37.500 --> 00:11:39.960

Chuck Mandel: Frank. What were you envisioning from the rest of the houses.

151

00:11:40.170 --> 00:11:56.040

Frank Vigliotti: Yeah, so for the the rays ranch is the plan for whenever we need to with no basements. That's where, that's where we're going to use or somebody wants to raise ranch. Other than that, we have three

152

00:11:57.330 --> 00:12:15.450

Frank Vigliotti: Small colonial relatively small. The first one being just over 1700 square feet. All three bedrooms and then just over 2000 and then just over 20 just about 2200. So those are the, the, the, the styles, we're offering

153

00:12:18.180 --> 00:12:19.710

Carrie Clark: As a frame of reference, Frank.

154

00:12:19.770 --> 00:12:20.220

Carrie Clark: What are the

155

00:12:20.730 --> 00:12:23.670

Carrie Clark: Three houses that you've already bought the cross the street. What, what are those

156

00:12:24.270 --> 00:12:25.170

Frank Vigliotti: So the two that

157

00:12:26.040 --> 00:12:29.100

Frank Vigliotti: The last three and a lot to which is

158

00:12:30.270 --> 00:12:40.110

Frank Vigliotti: On either side of the middle one is the one that I believe that has shown that you have the blueprint and then the other one to one in the middle is just a little bit different.

159

00:12:41.790 --> 00:12:46.500

Frank Vigliotti: The layout and the depth and the width, but within a couple feet of each other. There's

160

00:12:49.350 --> 00:12:49.980

Frank Vigliotti: No, no.

161

00:12:50.040 --> 00:12:50.550

None of those

162

00:12:52.050 --> 00:12:52.710

Chuck Mandel: walkouts

163

00:12:53.010 --> 00:12:54.180

Frank Vigliotti: Oh yeah, those are all walk. Yeah.

164

00:12:54.450 --> 00:12:54.750

Okay.

165

00:12:56.160 --> 00:12:56.430

All right.

166

00:13:01.830 --> 00:13:06.120

Carrie Clark: Okay, I don't have any other questions on this lot

167

00:13:07.440 --> 00:13:09.660

18608103679: Of a question. Can you hear me this address. Go ahead.

168

00:13:11.280 --> 00:13:20.220

18608103679: Trophy is the drainage basin and existing condition. By the time the house goes to construction or is that work part of the work on this property this parcel.

169

00:13:20.790 --> 00:13:25.710

Chuck Mandel: Know, ideally, all these drainage basin are going to be temporary sentiment faces during construction.

170

00:13:26.040 --> 00:13:29.130

Chuck Mandel: So all these basins are going to be put in prior to construction.

171

00:13:30.510 --> 00:13:31.920

Chuck Mandel: So okay, so

172

00:13:31.980 --> 00:13:34.260

Chuck Mandel: These things are going to be put in prior to the road. Bingo.

173

00:13:36.210 --> 00:13:45.570

18608103679: Okay. And that was part of the original approval, the just the sentiment controls and those types of things around the grading for the patients that was all part of the

174

00:13:46.710 --> 00:13:49.830

18608103679: Correct, yeah. Part of the these temporary seventh basins.

175

00:13:49.830 --> 00:14:00.900

Chuck Mandel: Are always put in prior to construction. So the storm water has some place to go. And then after post construction. They're all cleaned out and then built to spec for depth and influence

176

00:14:02.730 --> 00:14:09.420

Kevin Magee: Yeah, then major storm water structures are approved as part of the Southern one as part of cell division approval.

177

00:14:10.980 --> 00:14:12.480

Kevin Magee: Along with I think the driveways.

178

00:14:12.480 --> 00:14:13.200

Kevin Magee: For the other

179

00:14:14.190 --> 00:14:16.290

Kevin Magee: Lot that we looked at, I'm looking at

180

00:14:18.060 --> 00:14:23.130

18608103679: So there was no change to that layout of the drain innovation since everything's identical

181

00:14:23.160 --> 00:14:24.150

Chuck Mandel: For the original approval.

182

00:14:27.750 --> 00:14:28.110

18608103679: Thank you.

183

00:14:31.470 --> 00:14:32.250

Carrie Clark: Anybody else

184

00:14:37.080 --> 00:14:37.530

Carrie Clark: Okay.

185

00:14:38.730 --> 00:14:42.960

Carrie Clark: That being said, I will make a motion to

186

00:14:50.820 --> 00:15:00.600

Carrie Clark: Go to that the girlfriend limitless Commission approved activity for big liana construction long hill estates long no roadmap 57 lot 205

187

00:15:01.140 --> 00:15:06.480

Carrie Clark: Lot or 19 for regulated activity construction our residential three bedroom home and septic system.

188

00:15:07.110 --> 00:15:27.000

Carrie Clark: Install utilities and driveway with 100 foot jurisdictional review zone as shown on site plan long hill state East LA dated March 31 2020 and revise to August 12 2020 prepared by Thomas A. Stevens and associates with the following conditions you can one keeping, two, three.

189

00:15:28.590 --> 00:15:32.940

Carrie Clark: We're doing a stone rip rap for each house, Kevin.

190

00:15:33.360 --> 00:15:35.010

Kevin Magee: Yeah, because it could be

191

00:15:36.480 --> 00:15:38.520

Kevin Magee: Done after the Rogue is putting you don't know

192

00:15:38.850 --> 00:15:39.270

Okay.

193

00:15:40.380 --> 00:15:44.640

Carrie Clark: Four days, five days, six days, seven stays

194

00:15:47.850 --> 00:15:56.820

Carrie Clark: Eight days nine days no planting plan for this 111 stays

195

00:15:58.560 --> 00:16:04.500

Carrie Clark: cold days 30 days 14 any changes to the pro plan must be submitted to the in the weapons commission for approval.

196

00:16:05.730 --> 00:16:18.390

Carrie Clark: Then, unless the extension is green production must begin within one year approval is permit expires, five years from the date of approval distributed activities approved based on the find that there's no feasible or proven alternative and completion of this project.

197

00:16:19.560 --> 00:16:24.660

Kevin Magee: And before you get a second on that you want to add no footing drains around the foundation

198

00:16:25.950 --> 00:16:30.030

Carrie Clark: Yes, I was going to do that with the. Okay. Yep. So we'll add that

199

00:16:32.190 --> 00:16:32.730

Wendy's iPad: Second,

200

00:16:40.080 --> 00:16:41.010

Carrie Clark: Any discussion.

201

00:16:43.980 --> 00:16:45.210

Carrie Clark: All those in favor,

202

00:16:46.530 --> 00:16:47.010

Carrie Clark: Aye.

203

00:16:47.250 --> 00:16:47.580

Aye.

204

00:16:48.810 --> 00:16:49.410

Carrie Clark: Against

205

00:16:49.470 --> 00:16:50.250

Abstain.

206

00:16:52.350 --> 00:16:55.110

Carrie Clark: And you're good one down.

207

00:16:55.770 --> 00:16:56.550

Chuck Mandel: Thank you very much.

208

00:16:56.790 --> 00:17:13.020

Carrie Clark: Yep. Number four big liana construction long hill states East long whoa roadmap at the seven lot to five bringing the activity lot 26 construction of a residential three bedroom home and septic system install utilities and driveway within 100 foot upland reviews on

209

00:17:15.450 --> 00:17:25.320

Chuck Mandel: Good evening, Chuck. Mandela agent for the applicant um during the field walk the most significant change on this plan for what you would see in originally

210

00:17:25.740 --> 00:17:35.310

Chuck Mandel: I believe we were about 39 feet from the wetlands was going to be the structure itself Frank gave us a new revised plan we shrunk that down.

211

00:17:35.790 --> 00:17:45.600

Chuck Mandel: Considerably. So right now this House will still have no basement and the closest point of the house is going to be 61.4 feet.

212

00:17:46.230 --> 00:17:57.480

Chuck Mandel: From the edge of the wetlands and the clearing will actually be a little bit greater than the one that was previously approved the silt fence clearing will be the 43.8 feet.

213

00:17:58.260 --> 00:18:12.120

Chuck Mandel: On this may or may not have footing drains depending on the soil conditions, but we have postured the footing drains and the roof leaders to go into this catch basin, which will ultimately go into the drainage system. Okay.

214

00:18:13.590 --> 00:18:16.740

Chuck Mandel: And this House, I believe, will look like the one of the ones across the street can

215

00:18:17.460 --> 00:18:18.390

Carrie Clark: Okay, thank you.

216

00:18:19.950 --> 00:18:24.000

Carrie Clark: So the 43.8 what formerly was

217

00:18:26.130 --> 00:18:27.810

Carrie Clark: Would you say we move farther away.

218

00:18:28.050 --> 00:18:32.580

Chuck Mandel: Well, I believe the House itself was our house was 35 feet from the edge.

219

00:18:32.580 --> 00:18:33.150

Chuck Mandel: Of the weapons.

220

00:18:33.360 --> 00:18:34.860

Chuck Mandel: We had a completely different plan.

221

00:18:35.340 --> 00:18:35.790

Okay.

222

00:18:37.980 --> 00:18:43.830

Chuck Mandel: But we had asked Frank to come up with a different design where we can make this box here, as opposed to a rectangle

223

00:18:44.070 --> 00:18:45.390

Chuck Mandel: And that's what we have now.

224

00:18:45.510 --> 00:18:47.610

Carrie Clark: We gained approximately 26 feet, which is

225

00:18:47.640 --> 00:18:49.770

Carrie Clark: Correct beautiful thing. Okay.

226

00:18:57.180 --> 00:19:00.900

Carrie Clark: How close is the septic where's the septic on this slide down here more Kevin

227

00:19:03.060 --> 00:19:03.480

Carrie Clark: Okay.

228

00:19:03.570 --> 00:19:06.960

Chuck Mandel: Yeah, the septic is sale scale that it's

229

00:19:12.390 --> 00:19:14.310

Chuck Mandel: About 90 feet or so Kevin That's for the

230

00:19:14.310 --> 00:19:15.030

Chuck Mandel: Primary

231

00:19:15.420 --> 00:19:19.620

Chuck Mandel: And the reserved is about 75 which we don't intend on using

232

00:19:20.220 --> 00:19:20.640

Okay.

233

00:19:26.070 --> 00:19:35.160

Carrie Clark: In the reserve. I think you mentioned, I think we talked about the reserve nowadays when we did the wanting to get aren't even necessarily put those in anymore. We just have to show

234

00:19:36.570 --> 00:19:41.130

Chuck Mandel: Correct, yeah. So part of the health code, you have to, you have to prove 100% reserve.

235

00:19:41.640 --> 00:19:50.910

Chuck Mandel: Um, sometimes on commercial properties. You have to actually prepare the reserve, especially if it's under a parking lot. They don't want to have to rip up the whole thing and bring them to fill

236

00:19:51.240 --> 00:20:07.800

Chuck Mandel: So, and most repairs are actually done with inside the existing system either they strip out all the unsuitable unsuitable material and they'll replace the actual structure the pieces themselves or, you know, they may go halfway to the reserve.

237

00:20:08.160 --> 00:20:16.620

Chuck Mandel: Right. It's really a question of the field conditions at the time. But like I said, typically. Once you have your CEO, the reserve just disappears.

238

00:20:17.010 --> 00:20:20.100

Carrie Clark: Okay, I think that's what you mentioned on the wall. I just wanted to bring it up.

239

00:20:20.100 --> 00:20:20.700

Chuck Mandel: Yeah, like

240

00:20:21.330 --> 00:20:27.300

Carrie Clark: Anybody anymore. I just tried to repair the existing septic in its in its existing footprint.

241

00:20:27.510 --> 00:20:33.480

Chuck Mandel: Correct. Place a commercial sometimes they'll have to prepare the reserve or industrial but not for residential

242

00:20:33.540 --> 00:20:34.950

Carrie Clark: Okay, thank you.

243

00:20:36.810 --> 00:20:42.690

Carrie Clark: I, I, they addressed our concern on the on the walk. So I think

244

00:20:43.710 --> 00:20:46.170

Carrie Clark: On good anybody else.

245

00:20:47.730 --> 00:20:49.110

Kevin Magee: Talk to chapter eight.

246

00:20:49.290 --> 00:20:52.560

Kevin Magee: Driveway is slopes, everything goes into that base in there.

247

00:20:53.400 --> 00:20:59.910

Chuck Mandel: It either goes into the basin and that we do have a provision for a level spreader. But this is all approved during the original. This was the original

248

00:21:03.150 --> 00:21:05.640

Kevin Magee: To need for upgrades while while we have in front of us.

249

00:21:06.120 --> 00:21:06.390

Yeah.

250

00:21:10.620 --> 00:21:13.770

18608103679: Yeah, like I had a question two is my question was on the driveway as well.

251

00:21:16.500 --> 00:21:19.470

18608103679: Because I don't I don't recall the details of it came, though, right.

252

00:21:20.670 --> 00:21:21.330

Chuck Mandel: I'm sorry, Jeff.

253

00:21:22.140 --> 00:21:23.190

18608103679: It doesn't need to be paid.

254

00:21:24.750 --> 00:21:26.430

Chuck Mandel: Yes, this will be paid. Yes.

255

00:21:27.420 --> 00:21:36.060

18608103679: Okay, that'll probably be mostly after considered to be like the final stage of construction of this House, or is that going to be done to the driveway gets constructed before the houses. Oh.

256

00:21:36.930 --> 00:21:38.250

Chuck Mandel: Yeah, that's pretty much after all the

257

00:21:38.250 --> 00:21:42.450

Chuck Mandel: equipment's gone after it's approved it might even be contingent on sale.

258

00:21:44.250 --> 00:21:45.390

Chuck Mandel: Otherwise it'll be okay.

259

00:21:48.390 --> 00:21:54.630

18608103679: Okay, so there is a regiment erosion control for that catch basin somewhere here on the plan.

260

00:21:55.440 --> 00:22:04.860

18608103679: That you're gonna have wash out and things coming down that swale right into the basin and it goes by the bases and it's going into the house to stockpile area before the closing the wetland.

261

00:22:05.250 --> 00:22:10.020

Chuck Mandel: That yeah that's actually on the on the details for the original subdivision sheet, Jeff.

262

00:22:10.290 --> 00:22:11.220

Chuck Mandel: During construction.

263

00:22:12.240 --> 00:22:14.010

Chuck Mandel: hay bales around the base and

264

00:22:14.220 --> 00:22:15.660

Chuck Mandel: And that was during construction.

265

00:22:16.680 --> 00:22:23.910

Chuck Mandel: But at what this base and goes in before this House gets done before the house gets built. That's part that's going to be part of the original

266

00:22:25.110 --> 00:22:29.040

Chuck Mandel: For the original detention basis for sediment erosion control. So, this

267

00:22:29.400 --> 00:22:32.280

Chuck Mandel: That would that basically I'm places a temporary basis.

268

00:22:33.390 --> 00:22:33.750

18608103679: Okay.

269

00:22:37.620 --> 00:22:40.170

Carrie Clark: Where's your stockpiling on this site or there.

270

00:22:40.590 --> 00:22:41.130

Chuck Mandel: Right there. Right.

271

00:22:42.270 --> 00:22:44.310

Carrie Clark: Above the riprep level spreader. I see it.

272

00:22:44.430 --> 00:22:44.670

Yeah.

273

00:22:47.700 --> 00:22:48.750

Carrie Clark: Anyone else

274

00:22:53.010 --> 00:22:53.910

Carrie Clark: Geez. That's too bad.

275

00:22:57.660 --> 00:22:59.610

Kevin Magee: Just admitted in. I'm not sure who that was.

276

00:23:07.170 --> 00:23:09.120

Carrie Clark: Mike My god.

277

00:23:11.400 --> 00:23:12.810

Kevin Magee: Yeah, to four or five three number

278

00:23:15.900 --> 00:23:23.220

Carrie Clark: One of the Guilford in the weapons Commission approves of radioactivity for degree audit construction long real estate falling Hill Road Map 57

279

00:23:23.730 --> 00:23:31.890

Wendy's iPad: Second,

285

00:24:23.430 --> 00:24:23.700

But

286

00:24:27.390 --> 00:24:32.910

Carrie Clark: Anything else anybody wants to discuss this isn't, this isn't a lot that all that brush. Was it

287

00:24:34.020 --> 00:24:35.790

Chuck Mandel: I think they all felt a lot of breath counting

288

00:24:36.660 --> 00:24:39.720

Chuck Mandel: Yeah, I think the next one was had a lot of blush.

289

00:24:39.810 --> 00:24:40.890

Carrie Clark: Okay, that's probably the one I was

290

00:24:41.610 --> 00:24:42.750

Kevin Magee: Over the debris pile.

291

00:24:42.750 --> 00:24:43.740

Carrie Clark: There. Yeah.

292

00:24:44.640 --> 00:24:46.290

Chuck Mandel: Yes, I believe this one. This

293

00:24:47.010 --> 00:24:49.110

Carrie Clark: That is 2727 okay

294

00:24:52.860 --> 00:24:53.040

All

295

00:24:55.110 --> 00:24:55.920

18608103679: Right. All right.

296

00:24:56.790 --> 00:24:58.230

Carrie Clark: Against abstain.

297

00:24:59.970 --> 00:25:01.680

Carrie Clark: To down, one to go

299

00:25:20.610 --> 00:25:29.160

Chuck Mandel: Good evening, gentlemen, once again, vaguely it construction. This is almost the this lot is like the flip side of the one you adjust seen

300

00:25:29.610 --> 00:25:38.820

Chuck Mandel: That they run. They both run parallel to the weapons. This is another case where we took the house and shrunk it down as much as we can, we're able to get it.

301

Carrie Clark: Thank you. Did we specify a certain time of the year that this get done.

454

00:38:41.730 --> 00:38:51.450

Kevin Magee: Yes, this was, um, we didn't specify, and they're working within that period between May 1 October 31 we specify

455

00:38:51.660 --> 00:38:58.290

Carrie Clark: A stinking thing right now. How you pretty good time to do something like this. Yeah, okay.

456

00:39:00.660 --> 00:39:01.470

Carrie Clark: All those in favor,

457

00:39:02.610 --> 00:39:03.090

Scott's iPad: Aye.

458

00:39:03.600 --> 00:39:03.900

Aye.

459

00:39:05.340 --> 00:39:06.000

Carrie Clark: Saying

460

00:39:08.280 --> 00:39:10.800

Carrie Clark: Okay, moving on. Yeah, enforcement.

461

00:39:12.000 --> 00:39:21.480

Carrie Clark: Kowalski 1187 moose Hill Road excavation of watercourse installation of piping and regurgitating upside. It's everybody

462

00:39:22.770 --> 00:39:24.480

Carrie Clark: See the pictures from this

463

00:39:25.500 --> 00:39:33.090

Kevin Magee: Oh yeah, let me download them 7020 the email that well I'll see if I can pop them up here.

464

00:39:36.480 --> 00:39:37.890

Carrie Clark: I see if I still have the

465

00:40:03.900 --> 00:40:04.770

Kevin Magee: There's the

466

00:40:06.900 --> 00:40:08.100

Kevin Magee: Can you see that or not.

467

00:40:08.430 --> 00:40:10.620

Carrie Clark: Yeah, I'm looking at who's hell.

468

00:40:11.340 --> 00:40:11.700

Yeah.

469

00:40:13.980 --> 00:40:24.510

Kevin Magee: That's that going up that way they pre well met met great through here. That was before you can see some green in there that's actually existing seedbed that was in the

470

00:40:25.890 --> 00:40:27.810

Kevin Magee: Um, the woodland soils.

471

00:40:28.830 --> 00:40:29.910

Kevin Magee: Coming back through

472

00:40:33.360 --> 00:40:34.800

Carrie Clark: She looks pretty darn good.

473

00:40:36.360 --> 00:40:37.380

Carrie Clark: All things considered.

474

00:40:38.100 --> 00:40:39.120

Scott's iPad: Sorry, and

475

00:40:39.180 --> 00:40:40.680

Kevin Magee: Not where I want to be here to

476

00:40:43.140 --> 00:40:44.400

Kevin Magee: Hit but anyways. Good.

477

00:40:44.820 --> 00:40:46.110

Carrie Clark: Got your picture of a beer.

478

00:40:46.860 --> 00:40:49.230

Kevin Magee: There's my picture a beer. I'm

479

00:40:50.100 --> 00:40:52.290

Kevin Magee: From last year about Alaska, they're

480

00:40:53.040 --> 00:40:55.560

Kevin Magee: Pretty nice Alaska pictures here.

481

00:40:55.740 --> 00:40:56.340

Sorry.

482

00:41:07.980 --> 00:41:13.980

Kevin Magee: From the top, looking down, you started to see some green there, we had some hay bales put in place there.

483

00:41:16.680 --> 00:41:22.380

Carrie Clark: It looks pretty good to me. The only thing I would say that I don't think the channel is deep. Now is it previously was

484

00:41:23.520 --> 00:41:25.560

Carrie Clark: I don't know if it's really going to matter too much, but

485

00:41:25.920 --> 00:41:27.210

Kevin Magee: I think it's gonna be

486

00:41:27.510 --> 00:41:32.070

Kevin Magee: Good thing Frank's i think i'm threads on the thing Fred's on here. If he wants to

487

00:41:35.250 --> 00:41:36.390

Kevin Magee: Guess what he did here.

488

00:41:51.150 --> 00:41:51.690

Carrie Clark: Or not.

489

00:41:52.170 --> 00:41:53.550

Kevin Magee: Okay. And this is the

490

00:41:55.320 --> 00:41:56.070

Kevin Magee: Upper

491

00:41:57.420 --> 00:42:01.380

Kevin Magee: That's a row. Yeah, so this is the upper base and I'll stoned in up there.

492

00:42:02.580 --> 00:42:04.020

Carrie Clark: See this is this is the area where

493

00:42:04.050 --> 00:42:05.730

Carrie Clark: This is going to make all the difference.

494

00:42:11.850 --> 00:42:16.740

Carrie Clark: That water is going to be a lot less destructive as it moves down the swale towards the pond.

495

00:42:19.050 --> 00:42:21.600

Kevin Magee: And then you can see the pipes that removed.

496

00:42:24.990 --> 00:42:25.290

Carrie Clark: Oh,

497

00:42:31.740 --> 00:42:34.500

Kevin Magee: Yeah, we also got a letter me see if this is the letter and

498

00:42:36.270 --> 00:42:37.710

Kevin Magee: We also have the letter from

499

00:42:47.970 --> 00:42:49.200

12034530111: My iPad.

500

00:42:57.690 --> 00:43:00.660

12034530111: Bit snarky did look at it. Yeah, but we will let her here saying we

501

00:43:01.860 --> 00:43:06.060

Kevin Magee: View the restored intimate and water course 1187 Lucille road and Guilford

502

00:43:06.570 --> 00:43:08.430

Kevin Magee: The pipe has been removed from the

503

00:43:08.850 --> 00:43:13.050

Kevin Magee: Water course channel and has been restored with gentle size.

504

00:43:13.050 --> 00:43:16.710

Kevin Magee: Clubs studies have already been terminated from the seed bank.

505

00:43:17.070 --> 00:43:18.450

Kevin Magee: In the intimate and waterway.

506

00:43:20.160 --> 00:43:29.130

Kevin Magee: Final following items need to be conducted to complete the restoration of the intimate and watercourse see the channel inside slips through the grass mixture containing red fescue

507

00:43:29.820 --> 00:43:30.840

Kevin Magee: Applied multi to

508

00:43:30.840 --> 00:43:32.610

Kevin Magee: expose some little areas install rip

509

00:43:32.610 --> 00:43:33.510

Kevin Magee: Rapid moves over a

510

00:43:33.540 --> 00:43:36.030

Kevin Magee: Pipe out fall and the end of the intimate

511

00:43:36.030 --> 00:43:37.410

Kevin Magee: And watercourse there so

512

00:43:38.820 --> 00:43:40.290

Kevin Magee: Those little dots here.

513

00:43:40.320 --> 00:43:41.550

Kevin Magee: He has completed that

514

00:43:42.570 --> 00:43:45.090

Kevin Magee: I just recommend that we kind of just make sure the

515

00:43:45.360 --> 00:43:46.560

Kevin Magee: Grass and stuff come in love.

516

00:43:46.560 --> 00:43:48.270

Kevin Magee: Is stronger before we actually

517

00:43:48.840 --> 00:43:49.890

Kevin Magee: Close out the case all the

518

00:43:49.890 --> 00:43:50.130

Way.

519

00:43:52.350 --> 00:43:54.060

12034530111: I mean some rain would be nice to help

520

00:43:56.220 --> 00:43:56.790

Carrie Clark: Out to

521

00:43:57.780 --> 00:43:58.140

Kevin

522

00:44:00.090 --> 00:44:02.040

12034530111: Last week come in quite a bit.

523

00:44:03.510 --> 00:44:05.010

12034530111: I can see that from the photos you just

524

00:44:05.010 --> 00:44:05.880

Kevin Magee: Sent me yesterday.

525

00:44:06.540 --> 00:44:09.930

12034530111: Yeah, and even it's even more green from photo.

526

00:44:13.170 --> 00:44:16.800

12034530111: That's pretty impressive. Can we haven't had rain in about a month.

527

00:44:18.450 --> 00:44:21.990

Carrie Clark: I guess it goes to show you how how weather is over there still

528

00:44:23.610 --> 00:44:25.320

Carrie Clark: Yeah, it looks good, Fred.

529

00:44:26.310 --> 00:44:26.850

12034530111: Thank you.

530

00:44:32.430 --> 00:44:34.440

12034530111: I think you're gonna find that

531

00:44:34.710 --> 00:44:34.920
12034530111: With

532

00:44:34.980 --> 00:44:36.540
Carrie Clark: All that rip rack, you have

533

00:44:39.000 --> 00:44:42.210
12034530111: That whole setup. I think you're gonna find that works better for you.

534

00:44:55.440 --> 00:44:59.190
12034530111: Take Kevin's recommendation of give another month or so to kind of

535

00:44:59.730 --> 00:45:00.120
Growing

536

00:45:01.980 --> 00:45:04.080
Carrie Clark: Like, and then hopefully take this off the docket for

537

00:45:04.080 --> 00:45:04.350
Good.

538

00:45:09.750 --> 00:45:11.550
12034530111: You can give me another month

539

00:45:15.210 --> 00:45:18.150
12034530111: Yeah, I think, given another month and make sure

540

00:45:18.150 --> 00:45:20.070
Carrie Clark: That I mean there's still three objects.

541

00:45:20.130 --> 00:45:26.790
Carrie Clark: Three items on there that need to be kind of checked off that we can't quite check off yet. I don't think

542

00:45:26.820 --> 00:45:27.900
Carrie Clark: waiting another month

543

00:45:28.200 --> 00:45:28.980
Carrie Clark: really hurts me

544

00:45:30.330 --> 00:45:31.590

Carrie Clark: An expense for you.

545

00:45:32.280 --> 00:45:36.000

Carrie Clark: Um, I think it's just a matter of waiting on that mother nature take its

546

00:45:36.090 --> 00:45:36.630

Course

547

00:45:39.120 --> 00:45:39.900

Carrie Clark: Probably get rid of it.

548

00:45:41.190 --> 00:45:41.520

12034530111: Okay.

549

00:45:43.170 --> 00:45:44.730

Carrie Clark: I'm just anxious to wrap this up.

550

00:45:48.990 --> 00:45:50.760

Carrie Clark: Just to wrap this up as you trust me.

551

00:45:56.520 --> 00:45:59.370

12034530111: An emotional roller coaster, right, Kevin.

552

00:46:00.210 --> 00:46:01.560

Kevin Magee: Yep, or else I was just more

553

00:46:01.590 --> 00:46:02.550

Kevin Magee: Presentation there.

554

00:46:03.120 --> 00:46:03.510

Okay.

555

00:46:04.860 --> 00:46:06.510

Carrie Clark: Thanks for joining. Appreciate it.

556

00:46:07.020 --> 00:46:07.380

Yeah.

557

00:46:08.490 --> 00:46:11.460

12034530111: I don't know what happened to my iPad. I couldn't microphone.

558

00:46:14.190 --> 00:46:14.670

12034530111: Okay.

559

00:46:16.680 --> 00:46:17.160

12034530111: Thank you.

560

00:46:24.600 --> 00:46:28.320

Carrie Clark: Number 200 force in Matthew Durkin to tailor lane.

561

00:46:28.620 --> 00:46:31.950

Carrie Clark: Potential violation filling within 100 foot of wellens

562

00:46:33.090 --> 00:46:43.980

Kevin Magee: Okay, Aaron. I talked to their in this afternoon before we left the office. We're just waiting for them to drop off an application for an active after the fact activity.

563

00:46:45.390 --> 00:46:49.590

Kevin Magee: To finish to the content receiving the yard and everything else there was really no

564

00:46:50.610 --> 00:46:54.210

Kevin Magee: Impact to volunteer is just work within the up lines so

565

00:46:56.430 --> 00:47:01.830

Kevin Magee: Felt the best way to carry it out now to completion would be just to get an application for what they've done.

566

00:47:02.430 --> 00:47:04.920

Carrie Clark: They're pretty much done with what they had to do.

567

00:47:05.550 --> 00:47:08.070

Kevin Magee: At this, my understanding is, yeah, okay.

568

00:47:11.670 --> 00:47:13.680

Carrie Clark: Okay, so we'll wait for that comes in.

569

00:47:14.670 --> 00:47:14.970

Okay.

570

00:47:18.960 --> 00:47:22.620

Carrie Clark: Okay, moving on to G applications to be received.

571

00:47:24.000 --> 00:47:27.840

Carrie Clark: For a walk on August 22 11 days from now.

572

00:47:29.070 --> 00:47:30.840

Carrie Clark: Or 10 days from now.

573

00:47:32.730 --> 00:47:33.150

Kevin Magee: Yep.

574

00:47:35.490 --> 00:47:36.840

Kevin Magee: And the first one there.

575

00:47:39.480 --> 00:47:39.690

Kevin Magee: To

576

00:47:40.830 --> 00:47:41.730

Kevin Magee: Toronto. I'm

577

00:47:42.930 --> 00:47:47.910

Kevin Magee: Looking to try to do a special meeting to

578

00:47:49.950 --> 00:47:51.330

Kevin Magee: Review that one for her.

579

00:47:52.800 --> 00:48:10.200

Kevin Magee: Has to be 15 days after the after tonight that we can act on it. That's where a swimming pool is a special needs child which kind of needs it for exercise and stuff really can't get to the YMCA doesn't feel safe going the YMCA and stuff right now.

580

00:48:11.340 --> 00:48:17.550

Kevin Magee: So I guess she has contractors were lined up, ready to start as soon as we can review this for her.

581

00:48:17.910 --> 00:48:18.300

Carrie Clark: Okay.

582

00:48:18.660 --> 00:48:27.570

Kevin Magee: So, especially if we walk in and then maybe set up a quick zoom meeting after that 15 day period, which puts us probably into roughly the first week of

583

00:48:29.460 --> 00:48:30.210

Kevin Magee: September.

584

00:48:30.510 --> 00:48:39.720

Carrie Clark: Okay. Um, I got a possible suggestion. Nobody has to like jump on me, in case you know this is outrageous. But is this the

585

00:48:40.920 --> 00:48:52.560

Carrie Clark: Situation Room. Can we do an agent approval here to speed things up because of the situation that we're under or is it. Is there too much going on here, relative to the ones

586

00:48:53.520 --> 00:48:58.650

Kevin Magee: That's up to the Commission, how comfortable you would be with this one.

587

00:49:04.080 --> 00:49:04.650

Fred K: Kevin

588

00:49:05.250 --> 00:49:06.810

Kevin Magee: Other received files with me so

589

00:49:08.520 --> 00:49:11.520

Fred K: Kevin, this is. This is Fred. Could you hear me.

590

00:49:12.240 --> 00:49:12.810

Kevin Magee: Yeah, Fred.

591

00:49:13.710 --> 00:49:17.760

Fred K: I just wanted to make sure I got this right for next time. That's all. Okay, thank you.

592

00:49:18.390 --> 00:49:19.830

Kevin Magee: Okay, good.

593

00:49:20.790 --> 00:49:21.870

Fred K: Okay, thanks. Bye bye.

594

00:49:22.080 --> 00:49:24.360

Carrie Clark: Bye much clearer Fred

595

00:49:24.660 --> 00:49:25.350

Yes.

596

00:49:27.570 --> 00:49:35.190

Kevin Magee: But it's up to the Commission, you can authorize a sentence, not work within the wilds you can authorize this one for us to do a Asian if you'd like to

597

00:49:36.960 --> 00:49:39.780

Wendy's iPad: Kevin, this is Wendy, I'd be comfortable with that.

598

00:49:41.940 --> 00:49:51.000

Carrie Clark: Yeah, I don't want to break precedence of what we were doing, we, you know, we've had a lot of discussions about this, but I do think it sounds like there is a special considerations here.

599

00:49:54.810 --> 00:49:55.890

Carrie Clark: To be getting some

600

00:49:56.910 --> 00:49:58.260

Carrie Clark: everybody comfortable with that.

601

00:49:59.310 --> 00:50:00.030

Scott's iPad: Yes.

602

00:50:02.250 --> 00:50:13.560

Carrie Clark: And by no means is this being that we're going to allow pools of any kind of construction to be Asian approvals from from here on out. This is just this isn't that is an exception to the rule.

603

00:50:14.430 --> 00:50:18.960

Wendy's iPad: Right under, under pandemic and power outage and school

604

00:50:18.960 --> 00:50:19.860

Closing

605

00:50:21.060 --> 00:50:21.720

Carrie Clark: Actually

606

00:50:22.260 --> 00:50:25.110

Wendy's iPad: Exactly what all the caveats in there.

607

00:50:27.600 --> 00:50:28.440

Carrie Clark: Jeff, you good

608

00:50:30.960 --> 00:50:33.960

18608103679: Good. Okay, Jennifer.

609

00:50:36.360 --> 00:50:37.770

Jennifer Newton Blackwell: Yes, absolutely.

610

00:50:38.070 --> 00:50:39.360

Carrie Clark: Okay, so

611

00:50:41.790 --> 00:50:43.440

Carrie Clark: Let's do this under agent approval cab.

612

634

00:52:15.930 --> 00:52:23.670

Chuck Mandel: Well, we can wait for the walk. But this is a lot that had been approved. I believe in the 60s. It was a lot split

635

00:52:24.150 --> 00:52:35.190

Chuck Mandel: On wetlands, of course, at this point, it would have been a tough lot to get approved due to the what the wetlands itself. It's a, it's a very large lock, but we're actually forced

636

00:52:35.640 --> 00:52:43.830

Chuck Mandel: To put the house and septic very close to the road and next to the Jason law. But other than that, you know, it's just a tight lot

637

00:52:45.210 --> 00:52:51.240

Chuck Mandel: previously approved it might not have gotten approved prior, you know, during what ones, but

638

00:52:52.350 --> 00:52:56.280

Chuck Mandel: You know, we'll take it will take out the septic and the house and it will take just take a look

639

00:52:56.670 --> 00:52:59.250

Carrie Clark: Was this was this approved, but I can was a 50 foot upland

640

00:53:00.540 --> 00:53:01.470

Chuck Mandel: Oh, yes. Oh,

641

00:53:01.740 --> 00:53:02.730

Kevin Magee: Well, and it sounds like

642

00:53:03.060 --> 00:53:05.400

Scott's iPad: I don't think before this is before wet, wet.

643

00:53:05.730 --> 00:53:07.800

Chuck Mandel: wet, wet ones were never flagged on this, Kevin.

644

00:53:07.860 --> 00:53:09.750

Carrie Clark: They just did the law. Okay, here we go.

645

00:53:09.960 --> 00:53:11.730

Carrie Clark: Jerry silbert invented. Well, that's okay.

646

00:53:11.910 --> 00:53:16.080

Chuck Mandel: Yeah, we had, we had Bob Bruce So go out there and flag them for us.

647

00:53:16.170 --> 00:53:19.290

Carrie Clark: Okay that long ago. All right, it should be interesting.

648

00:53:20.310 --> 00:53:20.850

It is

649

00:53:24.270 --> 00:53:26.640

655

00:53:50.580 --> 00:53:56.910

656

00:53:57.540 --> 00:54:01.800

Carrie Clark: So is that the only reason that it's coming before us is because it's an after the fact, or

657

00:54:02.520 --> 00:54:12.510

Kevin Magee: It's basically edition. Yeah. Typical edition within the view area I guess was set up on Sana tubes and then the other work going on there with tracking and stuff there. So,
