Dredging Permit Preparation for Town Marina
July 19, 2019
ADDENDUM #1

Information Request: The following information was requested:

1. Do you have a copy of the dredge footprint plan from the last permit?

Response: A copy of the last dredge footprint plan is attached (see Exhibit A). The areas circled in RED are the only areas that may need dredging under the next permit.

2. Do you have an acreage estimate of the limits of disturbance (LOD), an approximate volume of dredge material, and a map depicting the LOD?

Response: The attached drawings are to scale so approximate acreage can be calculated. Only the areas circled in RED may need dredging based on a pre-dredge survey. The volume to be dredged would be determined by the pre-dredge survey.

- NOTES:
