After registration with the Zoning Enforcement Officer, one temporary sign, not exceeding 12 square feet, may be located on the lot, but not in the public right of way, or street easements. Such sign may be posted 365 days per calendar year. Temporary signs may not be illuminated or have balloons attached.

If more than one business occupies a lot, the 365 days must be divided among the interested parties and the application signed by the owner of the property. This registration expires on January 1st.
