

WEBVTT

1

00:00:02.159 --> 00:00:03.360

Kevin Magee: Okay, we're good to start

2

00:00:04.080 --> 00:00:10.380

Shirley's iPad: A before we start, we have an item to add to the agenda will somebody make a motion to approve the addition to the agenda.

3

00:00:12.870 --> 00:00:13.559

Shavaun Towers: So move

4

00:00:14.370 --> 00:00:14.969

Shirley's iPad: That can

5

00:00:15.900 --> 00:00:16.560

john cunningham: Snack in it.

6

00:00:17.010 --> 00:00:18.840

Shirley's iPad: Okay. All in favor. Aye.

7

00:00:19.109 --> 00:00:21.450

Shirley's iPad: Aye, I, I'm

8

00:00:22.470 --> 00:00:30.180

Shirley's iPad: So the first thing on the agenda, you have to keep queuing ME. Kevin, because I don't have. I can't. I thought I could go back and forth with my iPad.

9

00:00:30.570 --> 00:00:42.810

Shirley's iPad: To the agenda to this. That's not going to work. So anyhow, the minutes from the last meeting. Does anybody have any additions or correction or. Well, first of all, we need to put them on the table. Motion to

10

00:00:44.700 --> 00:00:46.050

Shirley's iPad: Add the Minutes.

11

00:00:47.790 --> 00:00:48.060

Shirley's iPad: On the

12

00:00:48.630 --> 00:00:50.550

john cunningham: Motion to approve the minutes is presented.

13

00:00:51.210 --> 00:00:52.560

Shirley's iPad: Okay, second

14

00:00:55.980 --> 00:00:56.430

Shirley's iPad: Stovall. Second,

15

00:00:57.390 --> 00:00:58.620

Shirley's iPad: Okay, any additions and

16

00:00:58.620 --> 00:00:59.220

Correcting

17

00:01:01.980 --> 00:01:04.260

Shirley's iPad: Any additions or corrections to the business.

18

00:01:07.500 --> 00:01:11.370

Shirley's iPad: Now all of our other minutes is written.

19

00:01:12.690 --> 00:01:14.880

Kathy: All right, now apply

20

00:01:15.420 --> 00:01:18.390

Kathy: A special meeting minutes self October, the first

21

00:01:18.960 --> 00:01:19.380

Kathy: Where will

22

00:01:19.650 --> 00:01:21.150

Shavaun Towers: The green. Oh, yeah.

23

00:01:21.960 --> 00:01:26.010

Shirley's iPad: Do we have the name of the person who complained. Yes.

24

00:01:26.670 --> 00:01:33.840

Kevin Magee: Yes. Oh, actually, I'm receiving a pop it up. So actually approve the minutes and I'll pop it up on the screen for you in a second.

25

00:01:34.020 --> 00:01:34.530

Shirley's iPad: Okay.

26

00:01:34.740 --> 00:01:36.300

Kevin Magee: Or while you're doing, I'll get it up on the screen.

27

00:01:37.470 --> 00:01:41.520

Shirley's iPad: Any, any addition. So corrections to the special meeting minutes

28

00:01:43.650 --> 00:01:45.150

Shirley's iPad: No, no.

29

00:01:45.960 --> 00:01:49.020

Shirley's iPad: No, then the motion to approve them is written.

30

00:01:51.990 --> 00:01:52.680

Shirley's iPad: Second,

31

00:01:55.650 --> 00:01:56.520

Shirley's iPad: All in favor.

32

00:01:57.630 --> 00:01:58.050

Shirley's iPad: Aye.

33

00:01:58.740 --> 00:02:07.380

Shirley's iPad: Okay, now's the time to well i Fisher Keegan of the Conservation Commission to our committee, she's replacing Paul may

34

00:02:08.460 --> 00:02:10.800

Shirley's iPad: I don't see you Patricia. Are you there.

35

00:02:15.270 --> 00:02:16.770

Shirley's iPad: Kevin is Patricia there.

36

00:02:17.610 --> 00:02:20.880

Kevin Magee: A SEC. I'm in a different screen here.

37

00:02:27.180 --> 00:02:30.810

Kevin Magee: Do I have you asked here. Did I lose you all a sec. Hold on.

38

00:02:30.990 --> 00:02:31.710

Patricia Keegan: Can you hear me.

39

00:02:32.310 --> 00:02:32.640

Kevin Magee: Yep.

40

00:02:32.670 --> 00:02:33.420

Shavaun Towers: Got yes

41

00:02:34.410 --> 00:02:38.310

Patricia Keegan: All right, the lighting here is not good. That's why you can't see me, but I'm

42

00:02:38.640 --> 00:02:40.380

Shirley's iPad: I see your eyes, Patricia

43

00:02:42.720 --> 00:02:43.200

Patricia Keegan: Thank you.

44

00:02:44.790 --> 00:02:45.270

Kathy: Teacher.

45

00:02:47.610 --> 00:02:48.960

Shirley's iPad: Welcome to the committee.

46

00:02:50.760 --> 00:02:54.000

Shirley's iPad: And do you know everybody on the committee Patricia

47

00:02:55.110 --> 00:02:56.490

Patricia Keegan: Not really, no.

48

00:02:57.180 --> 00:02:57.840

Okay.

49

00:02:59.370 --> 00:03:00.810

Patricia Keegan: I know, I know, Kevin.

50

00:03:01.590 --> 00:03:05.220

Shirley's iPad: Okay and John Cunningham, our landscape architect.

51

00:03:05.970 --> 00:03:07.290

John Cunningham: John here, we might Patricia

52

00:03:07.650 --> 00:03:09.630

Patricia Keegan: Have we met before. JOHN. I'm not sure.

53

00:03:10.800 --> 00:03:14.760

john cunningham: We might have met at the last meeting we had a town hall. Okay.

54

00:03:15.810 --> 00:03:18.210

Shavaun Towers: And did you come to this special meeting.

55

00:03:20.220 --> 00:03:22.650

Shirley's iPad: No, that was the Thailand representative

56

00:03:22.890 --> 00:03:24.030

Shavaun Towers: Oh, OK.

57

00:03:24.720 --> 00:03:32.100

Shirley's iPad: And then this is Chabot towers and other landscape architect on our committee and then

58

00:03:32.250 --> 00:03:34.590

Shirley's iPad: Welcome, we have member

59

00:03:35.160 --> 00:03:38.430

Shirley's iPad: Representing leads island garden club that she here today.

60

00:03:38.610 --> 00:03:39.810

Caroline Herrick: Yes that's me.

61

00:03:40.380 --> 00:03:41.040

Caroline Herrick: I know

62

00:03:41.100 --> 00:03:43.230

Caroline Herrick: Patricia from Gordon Clark.

63

00:03:44.040 --> 00:03:46.200

Shirley's iPad: Oh, you're both at least silent Garden Club.

64

00:03:46.230 --> 00:03:49.770

Shirley's iPad: Yeah, right. I'm in Guilford Garden Club.

65

00:03:51.240 --> 00:03:53.040

Shirley's iPad: Okay, so you know each other. That's great.

66

00:03:54.150 --> 00:03:56.880

Patricia Keegan: To know where we have a joint meeting. So, yeah.

67

00:03:58.110 --> 00:03:58.680

Shirley's iPad: Barbie.

68

00:03:58.860 --> 00:04:01.380

Patricia Keegan: Every once in a while, we have a joint meeting.

69

00:04:01.680 --> 00:04:07.590

Shirley's iPad: Yes, we had one in October. Yeah, that was very successful and Jake his speech.

70

00:04:07.680 --> 00:04:09.240

Patricia Keegan: Yes, I loved it. Yeah.

71

00:04:09.360 --> 00:04:17.040

Shirley's iPad: That worked out really well. Okay. Kevin cubias to the agenda because as I said I can't get a printed copy of my hands.

72

00:04:17.790 --> 00:04:23.190

Kevin Magee: Okay, you asked for the information on our gentleman, the green there.

73

00:04:24.390 --> 00:04:25.110

Kevin Magee: They just lose it.

74

00:04:26.610 --> 00:04:27.540

Kevin Magee: On the screen is

75

00:04:28.440 --> 00:04:29.400

Shirley's iPad: Oh yes, can you

76

00:04:30.720 --> 00:04:32.100

Shirley's iPad: And you send that to be

77

00:04:32.370 --> 00:04:34.950

Kevin Magee: Y'all all email this out to everybody. But that's his

78

00:04:36.510 --> 00:04:37.020

Kevin Magee: Long

79

00:04:38.520 --> 00:04:40.620

Shirley's iPad: That's his full name. It was very

80

00:04:40.800 --> 00:04:41.760

Kevin Magee: Sad. He created

81

00:04:42.570 --> 00:04:44.250

Shirley's iPad: Yeah, that was

82

00:04:44.280 --> 00:04:46.320

Kevin Magee: Very comes to audio into the meeting.

83

00:04:47.160 --> 00:04:48.420

Shirley's iPad: Okay, thank

84

00:04:50.940 --> 00:04:51.450

dottie colonese: Hello.

85

00:04:52.470 --> 00:04:52.830

dottie colonese: There.

86

00:04:55.050 --> 00:04:55.620

dottie colonese: Hi.

87

00:04:56.160 --> 00:05:06.330

Shirley's iPad: I got a. Did you meet that Patricia Kagan. She's in the lead silent Garden Club, but she's representing Conservation Commission or RT on our group.

88

00:05:07.050 --> 00:05:08.520

dottie colonese: No, I haven't met her.

89

00:05:08.820 --> 00:05:17.760

Shirley's iPad: Okay, well, Patricia. This is daddy colonies, who's the liaison to the Guilford Garden Club because they have a tree planting program.

90

00:05:19.050 --> 00:05:25.560

Shirley's iPad: That's jointly beneficial to the town and the tree and the garden, the call.

91

00:05:26.940 --> 00:05:28.230

Shirley's iPad: Is Vivian coming

92

00:05:29.100 --> 00:05:35.220

dottie colonese: I don't know, I just realized we were meeting virtually I went over to town hall.

93

00:05:36.180 --> 00:05:36.750

Oh,

94

00:05:37.920 --> 00:05:39.030

Shirley's iPad: But you're back now.

95

00:05:39.840 --> 00:05:47.190

dottie colonese: I'm yeah I'm back now and I also wasn't informed on the meeting on the 11th, was it

96

00:05:48.450 --> 00:05:50.550

dottie colonese: The emergency special meeting.

97

00:05:51.870 --> 00:05:54.090

Shirley's iPad: Oh, okay. We'll just

98

00:05:54.360 --> 00:05:57.900

Kevin Magee: Be advisory board my computer froze up here. Second,

99

00:05:59.970 --> 00:06:00.840

Shirley's iPad: That was really

100

00:06:01.620 --> 00:06:03.120

dottie colonese: But Carolyn was there.

101

00:06:03.630 --> 00:06:04.380

Caroline Herrick: I was

102

00:06:04.770 --> 00:06:12.240

Shirley's iPad: Ireland, so the official representative of lead silent.
Yes, he's a member of the Board tree board. Your liaison.

103

00:06:12.690 --> 00:06:13.140

Shirley's iPad: Oh,

104

00:06:13.590 --> 00:06:14.430

dottie colonese: Ireland in real

105

00:06:15.510 --> 00:06:16.080

Shirley's iPad: Self.

106

00:06:17.220 --> 00:06:19.080

Shirley's iPad: Kevin not Kevin

107

00:06:20.190 --> 00:06:33.840

Shirley's iPad: He's tree morning john and shovel and our official
members of the advisory your liaison to keep us informed as to what
you're the Garden Club is doing retreat plan.

108

00:06:34.440 --> 00:06:34.830

Okay.

109

00:06:35.970 --> 00:06:36.720

Shirley's iPad: I'll never episode.

110

00:06:37.260 --> 00:06:38.340

dottie colonese: From the early. Okay.

111

00:06:38.460 --> 00:06:39.570

Shirley's iPad: Feel free Garden Club.

112

00:06:40.260 --> 00:06:40.920

dottie colonese: Very good.

113

00:06:41.520 --> 00:06:42.000

Shirley's iPad: Okay.

114

00:06:42.210 --> 00:06:44.550

Shirley's iPad: I heard oh we clarified that

115

00:06:44.970 --> 00:06:46.710

Shirley's iPad: All right, what's the next I didn't, Kevin.

116

00:06:47.430 --> 00:06:48.960

Kathy: Current tree plantings.

117

00:06:49.830 --> 00:06:51.060

Shirley's iPad: Which tree planting.

118

00:06:51.270 --> 00:06:55.170

Shirley's iPad: Upcoming upcoming. Okay, Kevin. You want to talk about that.

119

00:06:55.620 --> 00:06:58.470

Kevin Magee: Yes, we have for upcoming tree plantings, we have

120

00:07:02.340 --> 00:07:06.000

Kevin Magee: To at least two trees on the time green being planted.

121

00:07:09.090 --> 00:07:18.300

Kevin Magee: Most likely in the upper portion of the green where we took down that one tree. I know John made a suggestion of to replacing that one new arm April, I came down

122

00:07:19.950 --> 00:07:27.690

Kevin Magee: So we had sort of Memorial donations for those two there are conditions for planting memory, somebody will come from memorials.

123

00:07:30.030 --> 00:07:37.110

Kevin Magee: And we also there's also now another position on the green for any other potential donation.

124

00:07:39.930 --> 00:07:41.580

Kevin Magee: For the others one tree that

125

00:07:42.270 --> 00:07:46.410

Kevin Magee: Had emergency removal, calm down in front of St George's Church.

126

00:07:47.940 --> 00:07:50.790

Shirley's iPad: So are you saying there's one more place now.

127

00:07:51.060 --> 00:07:52.590
Kevin Magee: There's one more place now.

128
00:07:53.850 --> 00:07:56.490
Shirley's iPad: Okay, this down by St George's Church. Right.

129
00:07:56.550 --> 00:08:07.320
Shirley's iPad: Yeah okay, Walter. Why isn't born, who was a member of the design review team died from coven so in the last two months.

130
00:08:07.920 --> 00:08:26.760
Shirley's iPad: And yesterday we had a Design Review Committee meeting and it was decided suggested by Kathy that we planted a tree in his memory, and all the members, agreed and so Dottie you'll be getting a \$500 check from will Thompson for the design review team.

131
00:08:27.180 --> 00:08:28.710
Kathy: Know you're getting the check.

132
00:08:29.880 --> 00:08:30.480
Shirley's iPad: Well,

133
00:08:30.960 --> 00:08:38.730
Shirley's iPad: Town. I know, but I'm just merely the mailer it will spreading out the \$500 though.

134
00:08:40.800 --> 00:08:57.780
Shirley's iPad: Walters office. He was an architect was that the Christian Science Building. So maybe right there across from St. George near where his office was would be a great location, a plant that tree, which would be done in the spring. Right.

135
00:08:58.650 --> 00:09:01.740
Kevin Magee: Yes, I'd be this maisano spring planting there.

136
00:09:02.070 --> 00:09:11.970
Shirley's iPad: Okay, so we can try to say, well, you can tell us what you and Sharon and john come up with for a tree and then we can inform the Design Review Committee.

137
00:09:12.600 --> 00:09:14.520
Kevin Magee: Yeah i said before the next um

138

00:09:16.050 --> 00:09:21.600

Kevin Magee: I think before the planting will have another meeting. So we should be able to iron out what type of trees are gonna be putting out there.

139

00:09:21.690 --> 00:09:23.700

Shirley's iPad: Okay. Okay, great.

140

00:09:25.260 --> 00:09:25.920

Kevin Magee: Something tall.

141

00:09:26.670 --> 00:09:30.750

Shirley's iPad: The garden will be getting the \$500 check

142

00:09:31.530 --> 00:09:33.840

dottie colonese: And who is who's sending the check. Did you

143

00:09:33.840 --> 00:09:34.140

dottie colonese: Say oh

144

00:09:35.280 --> 00:09:35.520

Shirley's iPad: Well,

145

00:09:36.750 --> 00:09:36.930

Shirley's iPad: Oh,

146

00:09:37.770 --> 00:09:40.140

Kathy: Well, will send you the check last night.

147

00:09:40.440 --> 00:09:41.010

Surely,

148

00:09:42.150 --> 00:09:42.960

Shirley's iPad: Oh, he did.

149

00:09:43.050 --> 00:09:46.080

Shirley's iPad: Yeah, okay. I'm just forwarding the check.

150

00:09:48.000 --> 00:09:53.160

Kathy: Because you're in the Garden Club, you're a good person to give it to Dottie, I guess.

151

00:09:53.370 --> 00:09:55.110

Shirley's iPad: Yeah, I'll forward it to you Dottie

152

00:09:55.260 --> 00:09:59.010

dottie colonese: Well, why don't you send it right into Jane.

153

00:09:59.640 --> 00:10:00.780

dottie colonese: To capture

154

00:10:00.900 --> 00:10:01.170

As

155

00:10:02.820 --> 00:10:04.380

Shirley's iPad: Long as you know about it. I'll said

156

00:10:05.550 --> 00:10:06.030

Shirley's iPad: Okay.

157

00:10:06.360 --> 00:10:07.590

dottie colonese: That's great. Thank you.

158

00:10:08.220 --> 00:10:14.460

Shirley's iPad: Alright. So Kevin, the tree that was taken down was the one we had the public hearing about

159

00:10:14.850 --> 00:10:15.660

Kevin Magee: Correct. Yep.

160

00:10:16.260 --> 00:10:17.610

Shirley's iPad: And who took down

161

00:10:18.330 --> 00:10:27.840

Kevin Magee: That we actually the Lucas tree, who is an ever source subcontractor took it down for me because of the proximity of the wires there and growing over the wires and stuff.

162

00:10:28.140 --> 00:10:35.310

Shirley's iPad: Is ever source to seal the cost, yo. Wow, that was. Thank you, Kevin.

163

00:10:35.640 --> 00:10:40.110

Kevin Magee: They I told them, let them wouldn't even come back and picked up the woods. So that was great.

164

00:10:40.650 --> 00:10:44.160

Shirley's iPad: Well, that's great. Okay.

165

00:10:46.260 --> 00:10:47.610

Kevin Magee: So yeah, that that tree Canada.

166

00:10:56.760 --> 00:10:59.430

Kevin Magee: Dominant leader that I'm split off.

167

00:11:03.300 --> 00:11:04.530

Kevin Magee: You got me. I'm sorry.

168

00:11:06.030 --> 00:11:07.710

Shirley's iPad: You said the leader fell off.

169

00:11:08.820 --> 00:11:10.050

Shirley's iPad: Will you answer the somebody

170

00:11:10.080 --> 00:11:12.420

Kevin Magee: Quite a large section of the leader broke off.

171

00:11:13.830 --> 00:11:14.790

Shirley's iPad: That was a hazard.

172

00:11:16.530 --> 00:11:22.290

Shirley's iPad: Okay, other any other trees be planted or planned for

173

00:11:24.600 --> 00:11:27.420

Kevin Magee: Blacks, what are wrong discussion.

174

00:11:33.720 --> 00:11:35.220

Shirley's iPad: Kevin, you're coming in and out.

175

00:11:36.600 --> 00:11:37.920

Caroline Herrick: Hey, keep freezing

176

00:11:38.550 --> 00:11:42.180

Kevin Magee: I just have my door the office. Here are some reason my computer is not

177

00:11:43.980 --> 00:11:45.000

Kevin Magee: Behaving on this meeting.

178

00:11:47.250 --> 00:11:48.390

Kevin Magee: But we day of

179

00:11:49.800 --> 00:12:01.920

Kevin Magee: The depth of the group here who are planting locations that we want to look at for next year. I know there's some talk of Whitfield Street and some of the trees in front of the stores are

180

00:12:03.180 --> 00:12:07.650

Kevin Magee: Not looking too good either along with feel straight from the shop. I'm not sure if that's an area.

181

00:12:08.220 --> 00:12:21.330

Kevin Magee: But we're going to need to remove trees and stumps and stuff for that one to make that one happen. So I'm not sure if that's feasible for this coming year versus more of a project. So that might be more

182

00:12:23.640 --> 00:12:25.050

Kevin Magee: That's something we want to look at

183

00:12:29.610 --> 00:12:30.300

Shirley's iPad: Okay.

184

00:12:30.780 --> 00:12:36.090

Kevin Magee: So it's up to the group in terms of thoughts of where you think we need more additional trees.

185

00:12:36.840 --> 00:12:40.380

Shirley's iPad: Of all or john. Do you have any ideas about that.

186

00:12:44.610 --> 00:12:54.210

john cunningham: Make us. Surely I did think of something the other day, but for the life of me I can't think of where I drove by something that is in our area where we like to plant and notice that

187

00:12:56.820 --> 00:12:58.620

john cunningham: I think a lot of trees have been taken down.

188

00:12:59.970 --> 00:13:01.830

john cunningham: Let me make some notes I made some notes.

189

00:13:04.200 --> 00:13:10.860

john cunningham: I made some notes on High Street. Also, which I do not have with me and I'll for them to everyone on the board.

190

00:13:11.640 --> 00:13:12.150

Okay.

191

00:13:13.830 --> 00:13:25.950

Shavaun Towers: Hey, okay. We also talked at one. We'd also talked at one earlier meeting about doing some planting on RIVER STREET lower RIVER STREET.

192

00:13:29.550 --> 00:13:31.110

Shirley's iPad: You say low you hear me.

193

00:13:31.950 --> 00:13:33.810

Shirley's iPad: Yes. When you swim. I mean, it's

194

00:13:35.340 --> 00:13:36.900

Shavaun Towers: I mean, South fruit one

195

00:13:38.730 --> 00:13:41.820

Shirley's iPad: Oh, okay. Not North RIVER STREET OKAY.

196

00:13:44.010 --> 00:13:50.250

Shavaun Towers: Yeah, I mean, across from solvents that whole first stretch has almost no trees.

197

00:13:51.360 --> 00:13:51.930

Shirley's iPad: Okay.

198

00:13:54.360 --> 00:13:57.420

Shirley's iPad: We're getting along. We're filling in slowly, aren't we

199

00:13:57.510 --> 00:13:59.160

Shavaun Towers: Yeah, we are. We're making progress.

200

00:13:59.460 --> 00:14:00.840
Shirley's iPad: Yeah. Isn't

201
00:14:01.890 --> 00:14:07.020
Shirley's iPad: Okay, so I any. Do you need any other ideas, Kevin.

202
00:14:08.460 --> 00:14:10.710
Kevin Magee: I'll keep looking out of the roads there and mold.

203
00:14:11.760 --> 00:14:19.680
Kevin Magee: I'll send an email to the group for for next meeting to for people to drive by and kind of figure out what you want to want to have a trees. You want to plant in those locations there.

204
00:14:20.190 --> 00:14:23.610
Shirley's iPad: Mate, and john will remember with this site. He was talking. Thank you.

205
00:14:24.900 --> 00:14:25.410
Shirley's iPad: Okay.

206
00:14:25.620 --> 00:14:29.550
Kevin Magee: Just let me know. You can email me and I'll put on the list to send out to everybody.

207
00:14:33.120 --> 00:14:33.600
Shavaun Towers: This is

208
00:14:34.770 --> 00:14:49.950
Shavaun Towers: Just to this is actually not within our purview, but I happen to drive by route one and the Connecticut do T service yard, there seems to have removed a lot of trees.

209
00:14:50.190 --> 00:14:51.600
Shirley's iPad: Oh yeah. Is there any way we can get

210
00:14:51.630 --> 00:14:55.500
Shavaun Towers: That Patrice back. I'm in route one is an hour's but

211
00:14:56.370 --> 00:15:07.050
Shirley's iPad: No, I was that route. One is that part certainly isn't ours. Although the Garden Club 20 some almost 30 years ago we planted hundred trees on Route one Guilford

212

00:15:07.770 --> 00:15:10.560

Shavaun Towers: It's just, it's, it's a big gap down

213

00:15:10.950 --> 00:15:25.260

Shirley's iPad: By I keep thinking I'm going to call or contact Sean Scanlon to see if he can affect some kind of vegetative barrier, because those are gas boxes and they're going to stay above the ground.

214

00:15:25.710 --> 00:15:26.070

Shavaun Towers: I'm

215

00:15:26.250 --> 00:15:40.350

Shirley's iPad: Going to be quite ugly and intrusive unless they screen them somehow or other, and Sean I used to be on the Transportation Committee, I know he's doing something with the economics and budget.

216

00:15:41.460 --> 00:15:48.720

Shirley's iPad: But I'll email him and ask him to find out what they plan to do to screen all that because it's horrendous.

217

00:15:48.990 --> 00:15:50.280

Shavaun Towers: It's pretty bad.

218

00:15:50.850 --> 00:15:53.550

Shirley's iPad: Yeah. Thanks for reminding me. Yep.

219

00:15:55.680 --> 00:15:57.420

john cunningham: I don't know. I remember where it was now.

220

00:15:57.900 --> 00:15:58.530

Okay.

221

00:15:59.910 --> 00:16:01.740

john cunningham: You know where the water tank used to be.

222

00:16:02.310 --> 00:16:03.120

Yeah.

223

00:16:04.230 --> 00:16:05.910

john cunningham: That needs something on that corner.

224

00:16:06.720 --> 00:16:07.560

Shavaun Towers: That's true.

225

00:16:08.730 --> 00:16:14.700

Shavaun Towers: Again, it's right one, but I and the water company must own that corner.

226

00:16:15.180 --> 00:16:25.350

john cunningham: They probably on that corner sure bomb but I'm just going to guess, if it's not state property state property, the state's probably not going to allow us to plant trees on their property.

227

00:16:25.800 --> 00:16:26.520

Details.

228

00:16:28.830 --> 00:16:34.410

john cunningham: But at the town on the corner or the water company does, I believe they would probably allow us to plan on that. Cool.

229

00:16:35.160 --> 00:16:39.120

Shirley's iPad: Kevin, could you go, that was, that's a great idea.

230

00:16:39.450 --> 00:16:45.960

Kevin Magee: The town owns it, but they have long term leases there. So I don't know what we're allowed to do within the leases.

231

00:16:46.890 --> 00:16:50.310

Shirley's iPad: Long term leases to want to the water company.

232

00:16:51.240 --> 00:16:52.320

Kevin Magee: Yep, and the

233

00:16:53.400 --> 00:16:56.700

Kevin Magee: Power car and the cell phone companies and everything there.

234

00:16:57.210 --> 00:16:59.580

Shirley's iPad: Oh yeah, because they're the communication towers.

235

00:16:59.820 --> 00:17:00.150

Yeah.

236

00:17:01.380 --> 00:17:03.840

Shirley's iPad: But they still in the land. The

237

00:17:04.410 --> 00:17:05.430

Kevin Magee: Land towns.

238

00:17:06.510 --> 00:17:10.920

Shirley's iPad: They could give us permission and put trees and john you could get a

239

00:17:14.040 --> 00:17:21.150

Shirley's iPad: Permission on the right away or the state right away to plant trees. We did that years ago and planting trees on Route one

240

00:17:21.870 --> 00:17:26.340

john cunningham: Yeah. Surely I think the State still working for you. They called my office the other day trying to find your

241

00:17:26.340 --> 00:17:28.050

john cunningham: Name because

242

00:17:28.650 --> 00:17:42.210

john cunningham: The right now. It's extremely difficult to plant anything on state property. I'm on seven different projects where state land backs up to our property line. The state has said no on all

243

00:17:42.960 --> 00:17:44.340

Shirley's iPad: Oh boy, they

244

00:17:44.580 --> 00:17:48.690

john cunningham: That's the problem. So it's much different now than it was 20 years ago.

245

00:17:50.010 --> 00:17:53.670

john cunningham: I think I asked you where you live now because I'm going to give them your address.

246

00:17:53.670 --> 00:17:54.180

Tomorrow,

247

00:17:55.230 --> 00:17:55.560

Shirley's iPad: Thinking

248

00:17:56.820 --> 00:17:58.260

Shirley's iPad: And three

249

00:17:59.280 --> 00:17:59.880

Shirley's iPad: Oh boy.

250

00:18:00.330 --> 00:18:01.830

Kevin Magee: Oh, it was sorry

251

00:18:02.130 --> 00:18:06.990

Kevin Magee: Now and again for the trees. Coming back at at the state is, I guess, becoming a household for them.

252

00:18:07.260 --> 00:18:11.580

Shirley's iPad: Yep. Okay. So we have a couple great possibilities.

253

00:18:13.470 --> 00:18:20.400

Shirley's iPad: And then we have a tree for the for cross from St George's hopefully closer to this Christian Science Building

254

00:18:21.510 --> 00:18:21.960

john cunningham: Mm hmm.

255

00:18:22.620 --> 00:18:23.730

Kevin Magee: Because on the

256

00:18:24.180 --> 00:18:26.940

Shirley's iPad: A JOHN What do you think of that idea for Water Street.

257

00:18:27.990 --> 00:18:31.530

john cunningham: I think it might. I didn't realize his office was in that building, surely.

258

00:18:32.010 --> 00:18:33.150

john cunningham: It was we could

259

00:18:34.020 --> 00:18:46.260

john cunningham: Yeah, we could do this. We could look at the grain and see if it works on the green, then we'd have to go back to the green committee to see if they would allow us to plant the tree there, then maybe it's over by the building.

260

00:18:47.070 --> 00:18:53.040

john cunningham: Yeah, no, there's a lot of sidewalk there, maybe it's a smaller ornamental tree and something on that side of the street. Okay.

261

00:18:54.270 --> 00:18:59.670

Shirley's iPad: They don't have to go to the green committee, do we, Kevin. We're not going to name it as a memorial tree.

262

00:19:00.450 --> 00:19:07.770

Kevin Magee: That we did were as long as we play next to our tree comes down, they haven't given us a problem, but we're in a new location where a tree has some fan, we

263

00:19:08.820 --> 00:19:12.060

Kevin Magee: Talk with him I update them on things there. But the tree.

264

00:19:13.290 --> 00:19:15.090

Shirley's iPad: I don't think that's insurmountable.

265

00:19:15.540 --> 00:19:22.290

Kevin Magee: The tree that came down was located on the triangle heading from St George's

266

00:19:23.670 --> 00:19:24.240

Church.

267

00:19:25.500 --> 00:19:28.980

Kevin Magee: Driveway area heading north easterly

268

00:19:29.610 --> 00:19:32.940

Shirley's iPad: Well, that's very close to the Christian Science Building mean

269

00:19:33.000 --> 00:19:35.280

Kevin Magee: That one or one of the ones on the top of the green

270

00:19:36.360 --> 00:19:41.760

Kevin Magee: Could also be close enough there to there's they're both in sort of proximity to that.

271

00:19:42.720 --> 00:19:45.150

Shirley's iPad: Okay, this is very rare Petty's idea john

272

00:19:45.420 --> 00:19:47.400

Shirley's iPad: She emailed me last night about it.

273

00:19:48.270 --> 00:19:48.660

john cunningham: Okay.

274

00:19:48.990 --> 00:19:54.600

Shirley's iPad: It's office okay i Next on the agenda, Kevin. I'm sorry, gigantic

275

00:19:55.860 --> 00:19:57.090

Kevin Magee: High Street trees.

276

00:19:58.440 --> 00:20:02.820

Kevin Magee: There, I got a call from the niche and again I told them that it's

277

00:20:04.440 --> 00:20:11.070

Kevin Magee: What your project that we're gonna be potentially trimming. Some of the trees up there and this group is still evaluating that road.

278

00:20:13.170 --> 00:20:15.120

Shirley's iPad: Gandhi when they give you evaluation.

279

00:20:15.510 --> 00:20:27.960

john cunningham: Yeah, I've been I go back and forth down to 66 hi quite a bit lately that tree is over planted someone 20 years ago planning way too many trees on High Street.

280

00:20:28.560 --> 00:20:31.560

Shirley's iPad: I won't mention any names. I wonder

281

00:20:32.730 --> 00:20:42.570

john cunningham: Now, okay, but the one thing I will say is that on the side of the road where the wires are, they're all they're almost all Norway maples.

282

00:20:42.900 --> 00:20:47.760

john cunningham: Oh, there they are only going to be problematic later on. Okay.

283

00:20:48.240 --> 00:20:49.980
john cunningham: I am. I'm not say yeah

284

00:20:50.100 --> 00:21:08.340
john cunningham: I'm not saying to take down all the trees, but the Norway Maple is a very big grower and some of the trees are 20 feet on center which which really is a bad spacing for that variety. So we're gonna do

285

00:21:09.330 --> 00:21:11.280
Shirley's iPad: We did not plant Norway maples.

286

00:21:13.110 --> 00:21:13.860
john cunningham: Someone did

287

00:21:15.840 --> 00:21:16.200
Shirley's iPad: I

288

00:21:16.620 --> 00:21:22.560
john cunningham: Know what I would, what I would really suggest is from a long term standpoint is go down the road.

289

00:21:22.920 --> 00:21:35.040
john cunningham: Check the trees that are in good health. Okay, if they're underneath the wires. Make sure there's a space where ever source can prune the tree correctly to leave the tree on the other side of the street.

290

00:21:36.480 --> 00:21:51.690
john cunningham: Where the branch structure could go over the road I would try to leave the trees in that location. But it's the problem with the road is it's very dark in the middle of the day, that is, that to me is not good plant street tree planting.

291

00:21:53.550 --> 00:21:55.740
john cunningham: It's just too dark. Siobhan. Have you been down there.

292

00:21:56.430 --> 00:22:02.760
Shavaun Towers: I'm not looking at it specifically. But yes, I know where have you speak, and it is very dense.

293

00:22:03.090 --> 00:22:15.420

john cunningham: It's very is too dense. So, you know, Siobhan. And I can both look at it and come up with suggestions. It's not something that has to be done. It's not a

294

00:22:16.350 --> 00:22:25.680

john cunningham: It's not a hazard to anyone walking on the street, but I think long term for the town of Guilford, I think would be much better if it was lightened up a little bit and the trees were removed.

295

00:22:26.340 --> 00:22:27.900

john cunningham: But not all, but some

296

00:22:28.470 --> 00:22:32.670

Shirley's iPad: What would happen if you believe that one tree that the resident is complaining about

297

00:22:32.670 --> 00:22:34.320

john cunningham: Which take it out.

298

00:22:36.240 --> 00:22:38.010

john cunningham: I take both of them out in front of her house.

299

00:22:39.810 --> 00:22:40.410

Shirley's iPad: Okay.

300

00:22:41.610 --> 00:22:42.060

john cunningham: Though

301

00:22:42.750 --> 00:22:44.370

Shirley's iPad: Is that what he wants, Kevin.

302

00:22:44.970 --> 00:22:53.760

Kevin Magee: He basically wants grass in front of his house. He doesn't want these people, they don't want trees anymore type of thing. I'm while I'm slipping off the sidewalk there, so

303

00:22:54.270 --> 00:23:03.570

Kevin Magee: And it has a I think I just saw a bad spot in the one of the branches there. So don't see an issue with the further Westerly tree in front of his property there.

304

00:23:04.710 --> 00:23:09.150

john cunningham: What do they get Kevin I drove by there. I made a know what are the what are the, what's the variety again.

305

00:23:10.380 --> 00:23:11.130

Kevin Magee: Um,

306

00:23:12.150 --> 00:23:18.030

Kevin Magee: It takes years I've been quickly driving through they're not really paying close attention to species there and those

307

00:23:20.130 --> 00:23:20.430

And they

308

00:23:21.600 --> 00:23:24.300

Kevin Magee: Know up further or sonic engines, I'm

309

00:23:25.650 --> 00:23:27.900

Kevin Magee: Not sure what his were

310

00:23:28.530 --> 00:23:33.030

john cunningham: That his, his are not made his or his or not maples, they are

311

00:23:35.520 --> 00:23:36.930

john cunningham: They might be treeline luck.

312

00:23:38.010 --> 00:23:38.580

Shirley's iPad: Oh,

313

00:23:39.780 --> 00:23:41.760

Shirley's iPad: That's what the Garden Club planted.

314

00:23:43.320 --> 00:23:44.880

john cunningham: There two clusters close together, surely.

315

00:23:46.830 --> 00:23:52.200

Shirley's iPad: Know wasn't big enough that the tree in front of his house was much bigger than the tree Laila.

316

00:23:53.460 --> 00:23:54.090

Shirley's iPad: Much, much

317

00:23:55.560 --> 00:24:03.240

john cunningham: I'll take a look at it again. Unfortunately, my notes are in my other car. And I'm just going by memory. I will print up something

318

00:24:04.530 --> 00:24:10.350

john cunningham: There are some trees on high street right now that I think could come down. They're not in great shape.

319

00:24:10.740 --> 00:24:16.710

john cunningham: They've been proven by ever source. There's not a lot of brand structure up in the air. They're not doing anything.

320

00:24:17.250 --> 00:24:35.520

john cunningham: So from a professional opinion, you could probably take 12 trees plus or minus down on that road, and it would look a lot better and the street would function much better not putting anything new in just allow the trees that are there. So then establish itself.

321

00:24:36.450 --> 00:24:47.640

Kevin Magee: The other one least dead one I have scheduled for removal in there. The other side of the road with the wires are I mean I'm trying to get every source out to work with them because they're all entangled there. So they might be

322

00:24:47.640 --> 00:24:56.640

Kevin Magee: Up. Um, let's see if I can get them to do a removal. Some of those. I mean there and I would consider major hazard for them.

323

00:24:58.080 --> 00:24:58.920

Kevin Magee: The wires are

324

00:25:00.840 --> 00:25:01.170

john cunningham: On

325

00:25:01.500 --> 00:25:05.130

Shirley's iPad: Franklin, he ends up Whitfield on high.

326

00:25:06.360 --> 00:25:08.790

Shirley's iPad: They should face Whitfield her on the left side.

327

00:25:10.830 --> 00:25:17.640

Shirley's iPad: Last time I looked, they were doing. Okay, so are you saying, remove the tree lilacs. It just, we will some of the big trees.

328

00:25:18.360 --> 00:25:27.330

john cunningham: Know, surely I think on the on the wire side of the street. Unfortunately, the Norway maples. We're almost directly under the wires. They're not set

329

00:25:28.290 --> 00:25:42.060

john cunningham: Which is really, if the tree is offset and they can prune on one side, it makes it a lot easier. These are almost directly underneath the wires which makes it very problematic Frank linear tree while I would not be any problem with the wires, if they were on that side.

330

00:25:42.300 --> 00:25:43.620

Shirley's iPad: Why they were planted there.

331

00:25:44.790 --> 00:25:45.000

Shirley's iPad: Yeah.

332

00:25:45.120 --> 00:25:47.250

john cunningham: There wouldn't be any problem at all. They're never going to get up into the worst.

333

00:25:47.910 --> 00:25:51.120

Shirley's iPad: Okay, so you're saying remove some of the Norway maples.

334

00:25:51.270 --> 00:25:54.240

Shirley's iPad: Yes twelvetrees at once.

335

00:25:54.930 --> 00:25:55.320

john cunningham: We

336

00:25:55.350 --> 00:25:56.640

Kevin Magee: Want, I have to know

337

00:25:57.240 --> 00:25:57.660

Yeah.

338

00:25:58.980 --> 00:25:59.250

john cunningham: Yep.

339

00:25:59.730 --> 00:26:06.900

Kevin Magee: I may have to work. I may have to join up with john and move on up there to maybe walk it in like some of the ones that were

340

00:26:08.640 --> 00:26:16.920

Shirley's iPad: I think you'll need to send letters to the residents and explain what's happening, because I think there'll be enough or 12 trees get chopped down

341

00:26:18.180 --> 00:26:21.330

Kevin Magee: We can do. I mean it on paper and approach things

342

00:26:21.960 --> 00:26:31.590

Shavaun Towers: Yeah I if we want to do it incrementally. We could certainly look at taking out every other one replanting with a smaller tree.

343

00:26:32.850 --> 00:26:46.260

Shavaun Towers: As a sort of nurse tree. Wait until they start to occur. Then cut the other the alternate one Stam and so that they were not dramatically change at all at once.

344

00:26:46.980 --> 00:26:56.100

Shirley's iPad: Okay, yeah, but the residents will have to be thoroughly informed as to what's happening. So we don't have a risk of resurrection.

345

00:26:57.630 --> 00:26:58.050

Kevin Magee: I think

346

00:26:58.110 --> 00:27:05.190

Kevin Magee: I think some of the trends are changing road there. So I'm not sure if they'll be a day as big of an issue as years ago may have been

347

00:27:06.360 --> 00:27:08.700

Shirley's iPad: I met insurrection knob resurrection.

348

00:27:09.870 --> 00:27:10.560

Shirley's iPad: Please don't we

349

00:27:12.840 --> 00:27:13.590

john cunningham: Just not let

350

00:27:13.770 --> 00:27:17.400

john cunningham: LET'S JUST NOT LET THE GUY THAT SHOWED UP ON THE GREEN.
Now we're taking them down. Okay.

351

00:27:19.980 --> 00:27:23.040

Kevin Magee: The children, the one to one. He's working his way back so

352

00:27:23.760 --> 00:27:24.270

john cunningham: I thought

353

00:27:24.360 --> 00:27:26.250

Shirley's iPad: I thought that went really well.

354

00:27:29.160 --> 00:27:32.430

Shirley's iPad: And we'll see you around with the tree got chopped down,
Kevin.

355

00:27:32.760 --> 00:27:41.970

Kevin Magee: I, I didn't see him around there at all. I thought he he
left town but a day or so afterwards I saw him wandering around town with
this cart and his flag, so I'm

356

00:27:42.330 --> 00:27:44.640

Kevin Magee: Yeah, we must have time to just right and

357

00:27:46.860 --> 00:27:56.460

Kevin Magee: He was going to go and make an appeal to the courts there
and I'm not sure if he ended up getting self into New Haven or figured
out the process correctly, how to do it.

358

00:27:57.090 --> 00:28:01.740

Shirley's iPad: And had the money to do it too. But I think it went well.
So

359

00:28:02.100 --> 00:28:02.310

Shirley's iPad: Yeah.

360

00:28:02.970 --> 00:28:05.310

john cunningham: He's got surely he's got plenty of money.

361

00:28:07.530 --> 00:28:08.160

Shirley's iPad: He does.

362

00:28:09.090 --> 00:28:09.360

Yep.

363

00:28:10.380 --> 00:28:18.180

Shirley's iPad: Okay well hope he can sue us. Let's hope he does it. So as I was on the agenda.

364

00:28:18.510 --> 00:28:22.380

Kevin Magee: Um, I think you want to add in the community center right now.

365

00:28:23.610 --> 00:28:24.150

Shirley's iPad: Okay.

366

00:28:24.810 --> 00:28:32.070

Kevin Magee: Um, we have we have Rick, I think, is on here and also Todd from the community side of their

367

00:28:33.450 --> 00:28:35.850

Kevin Magee: Let you know what they like to see out there.

368

00:28:38.430 --> 00:28:39.210

Kevin Magee: Perform there.

369

00:28:39.570 --> 00:28:41.460

terry buckley: And then Terry Buckley is also here.

370

00:28:42.570 --> 00:28:42.750

terry buckley: So,

371

00:28:43.110 --> 00:28:43.890

Shirley's iPad: I guys

372

00:28:45.300 --> 00:28:47.340

Kevin Magee: I believe they have a donation. They're starting off with

373

00:28:48.060 --> 00:28:54.330

maynardr: We have some some some money, but we we've lost several trees with a different storms over the years.

374

00:28:55.830 --> 00:28:59.340

maynardr: John or Kevin, you get tells there's, I don't know, some kind of pear tree or Decker

375

00:28:59.550 --> 00:29:02.790

maynardr: Or whatever, but they're, they're very brittle. Not a good tree. I don't think but

376

00:29:03.690 --> 00:29:07.860

maynardr: We've lost at least three or four that were, you know, around the perimeter of the courtyard.

377

00:29:08.280 --> 00:29:17.790

maynardr: At the very least you'd like to replace those with something, but we have seven more that are still there that I think at some point, we should think about taking down and putting something else up

378

00:29:18.660 --> 00:29:26.730

maynardr: Either we take him down our terms that are going to come down with a storm at some point. Anyway, they're just they're very brittle. I think again john and Kevin you guys would know better, but

379

00:29:28.470 --> 00:29:34.080

maynardr: So Terry a series on with Secretary Buckley, so that's Todd rake right there.

380

00:29:34.110 --> 00:29:39.930

maynardr: Are building a maintenance guy material in that same office with him, she has some funds that were donated that

381

00:29:41.520 --> 00:29:45.450

maynardr: Are available. So we could do some something you know as soon as it's approved to do it.

382

00:29:46.530 --> 00:29:56.250

maynardr: So like I said at the very least, I think we'd like to at least replace three that are no longer there, you know, just provide some shade around the around the courtyard.

383

00:29:57.300 --> 00:30:12.030

maynardr: And so all we're looking for anything. I don't know. We're looking at the on the perimeter. The outside parking lot perimeter just just around the corner. Basically, the trees it we've lost and then maybe taking down the other ones before we do lose them and doing something else.

384

00:30:12.690 --> 00:30:16.920

Shirley's iPad: So it's the courtyard, the grassy area with a picnic table is

385

00:30:16.980 --> 00:30:18.450

Shirley's iPad: Yes. Okay.

386

00:30:18.780 --> 00:30:26.250

maynardr: Not in the courtyard. But, you know, between the park. Now there were some trees there. There are some and there are three that we've we lost

387

00:30:27.000 --> 00:30:28.980

Shirley's iPad: Well, you don't know what the last year.

388

00:30:31.500 --> 00:30:33.480

john cunningham: They were bred for their Bradford pair surely

389

00:30:33.840 --> 00:30:34.530

Okay.

390

00:30:35.610 --> 00:30:39.360

Shirley's iPad: All right. Well john and shovels. Do you have ideas.

391

00:30:42.480 --> 00:30:44.040

john cunningham: Should only can I start, I

392

00:30:44.490 --> 00:30:45.810

john cunningham: Have walked that property with

393

00:30:45.900 --> 00:30:54.630

john cunningham: I've walked that property with Rick before I'm with Rick, the remaining Bradford pair of not doing anything. Half of them are split

394

00:30:55.380 --> 00:31:02.340

john cunningham: Just myself. That was a nice design when it, when it first one in Arthur selbourne I believe was a landscape architect on that property.

395

00:31:03.060 --> 00:31:10.770

john cunningham: The big sale cove out front are in good shape. The magnolias are in good shape on either side of the front door. I would take all the Bradford pair out

396

00:31:11.550 --> 00:31:22.350

john cunningham: Rick. If you are not going to remove the stump of the Bradford pair you cannot plan, a new tree where that Bradford pair was the root mass in the ground would would wouldn't allow that.

397

00:31:22.770 --> 00:31:33.270

john cunningham: So maybe it's cleaning up the community center removing the Bradford pair, leaving the rest of the trees and then picking a variety that will give you some shade for that courtyard area.

398

00:31:36.420 --> 00:31:37.080

maynardr: Yeah. JOHN

399

00:31:37.260 --> 00:31:46.980

maynardr: Sounds you're talking about to it's, you know, send that you're talking about the one in the the island there and it's starting to pop up the, the company is coming up because of the roots and

400

00:31:48.120 --> 00:31:53.190

maynardr: I used to just taken them out or just let that stay for now and eventually it's gonna die out anyway.

401

00:31:54.030 --> 00:32:01.260

john cunningham: Here's the problem. They're not going to be there for long, Rick. They're going to break apart in the next couple storms and next couple winters, I would take them all down, be proactive.

402

00:32:01.560 --> 00:32:02.490

john cunningham: Take them all down.

403

00:32:02.730 --> 00:32:12.930

john cunningham: In that particular Island. I would have the town crew. Take the root mass out. Yeah, and leave a fresh area of soil. So you could plant something new in that area. If you wanted to

404

00:32:14.580 --> 00:32:17.550

maynardr: Okay, so. So you're suggesting, just take them all out.

405

00:32:18.150 --> 00:32:18.810

maynardr: And then, yeah.

406

00:32:20.490 --> 00:32:30.120

maynardr: Terry, would you say we have two or \$3,000 that was donated for for trees. I don't know how far that goes, depending what we get on the caliper and stuff but

407

00:32:31.350 --> 00:32:31.860

maynardr: You know,

408

00:32:33.210 --> 00:32:39.360

maynardr: I guess the question is, how far can we go with that money to replace these trees.

409

00:32:41.520 --> 00:32:42.780

Shirley's iPad: 500 a tree.

410

00:32:43.980 --> 00:32:46.890

Shirley's iPad: So you can order to six trees.

411

00:32:49.080 --> 00:33:05.970

Kevin Magee: And your friends, whatever that cause of printing costs if you just purchased the trees out right I'm looking at 250 to \$300 a tree and have parking ran have public works plant them you'll save a couple hundred dollars per tree being planted, but you have a contractor come in.

412

00:33:07.800 --> 00:33:13.860

Kevin Magee: To take part later, whatever. It's another \$200 per tree for planting costs there.

413

00:33:15.420 --> 00:33:15.930

maynardr: Okay.

414

00:33:18.300 --> 00:33:27.870

Kevin Magee: We're near the sidewalk there, I mean, I'm sure john can weigh in. There is have the trees put plates on the backside, the head, so anything new is a little bit further away from the sidewalk.

415

00:33:28.470 --> 00:33:41.310

Kevin Magee: And yellow macula to give a little bit further distance. So instead of having any have to worry about the routes that are the stuff that's currently or you do it on the back side to hedge, they'll give you some more essentially the sidewalk for buckling.

416

00:33:44.250 --> 00:33:44.640

Shirley's iPad: It was

417

00:33:44.670 --> 00:33:58.740

john cunningham: I think if you if you flush content Bradford pair Rick around that taxes hedge. You could leave the root mass in the ground. I think the island. Probably should should have the root mass eliminated, because I think that's an important Island to have a trend.

418

00:33:59.190 --> 00:34:12.750

john cunningham: But any new trees. If you have two to \$3,000 for just new tree plantings plenty of money for inside the courtyard that money that two to 3000 wouldn't be used for removal. Is that correct,

419

00:34:14.370 --> 00:34:17.070

maynardr: No, I think for planting we I think we can take them out.

420

00:34:17.730 --> 00:34:26.940

john cunningham: Okay, I think you're in good shape. That's plenty of money for trees in the courtyard. It's a small courtyard, at the most, you might have three trees in there.

421

00:34:28.440 --> 00:34:36.510

Shavaun Towers: Yeah, my suggestion would be the courtyard trees or medium scale trees and the one on the island should be a bigger

422

00:34:36.810 --> 00:34:38.940

john cunningham: Shade Yuri. Yep.

423

00:34:39.810 --> 00:34:54.960

Shirley's iPad: There was a star Magnolia on the to the left of the little walk from the parking lot into the building that got really damaged less bring. I don't know what happened to that because I've only been there once.

424

00:34:56.880 --> 00:34:57.660

Shirley's iPad: Do you know what I'm talking

425

00:34:58.560 --> 00:35:02.040

maynardr: Two branches broke off of that, it's, it's not it's not in great shape.

426

00:35:03.090 --> 00:35:05.100

maynardr: It was a nice one was flowering. That was a beautiful

427

00:35:05.400 --> 00:35:06.810

Shirley's iPad: Beautiful. Yeah.

428

00:35:07.980 --> 00:35:09.840

Shirley's iPad: Maybe you could look at that.

429

00:35:11.100 --> 00:35:11.520

Shavaun Towers: Yeah.

430

00:35:12.510 --> 00:35:12.900

Shirley's iPad: That's that's

431

00:35:13.560 --> 00:35:20.100

Shirley's iPad: A very obvious spot for a tree and the storm and knowing it did beautifully there for years.

432

00:35:20.760 --> 00:35:32.310

maynardr: So a question john you. I think he said if we just cut the trees flush with the ground but then we'll well I guess that stuff will be there. We won't be able to plant grassy it over to them or anything. Right. I mean,

433

00:35:32.640 --> 00:35:36.930

john cunningham: Is it isn't there still a taxes hedge around the courtyard, Rick.

434

00:35:36.960 --> 00:35:42.540

john cunningham: This. Yeah. And isn't there some IV that grows at the base of the base of the taxes.

435

00:35:42.570 --> 00:35:45.000

maynardr: Know we took it all out. We plan to grassy there.

436

00:35:46.020 --> 00:35:47.400

john cunningham: Wow okay so

437

00:35:47.910 --> 00:35:49.650

john cunningham: Anyway, that's it.

438

00:35:50.400 --> 00:35:54.420

terry buckley: It's starting to grow back. Unfortunately, so many IV, but it's something we got a

439

00:35:54.930 --> 00:35:55.590

terry buckley: maintenance item.

440

00:35:56.010 --> 00:35:56.370

Yeah.

441

00:35:57.810 --> 00:36:10.620

john cunningham: Rick then you could grind the stumps by the taxes because if you can grind the stumps that at a, at a depth of six to eight inches. That's plenty of new soil for lawn to germinate in

442

00:36:10.830 --> 00:36:16.980

john cunningham: What you can see that the roof message on the ground, you can dig into the ground to actually put a new route master the tree in there.

443

00:36:19.140 --> 00:36:24.180

Kevin Magee: John and Joe You looking at probably for trees, one in the island and then three around the courtyard.

444

00:36:25.140 --> 00:36:26.550

Shavaun Towers: Yep. Yeah.

445

00:36:27.900 --> 00:36:31.980

john cunningham: That's what I think. I think you I think Rick still wants to court. Your to be grass right, Rick.

446

00:36:32.250 --> 00:36:32.820

We do.

447

00:36:34.290 --> 00:36:36.060

john cunningham: So that I think that is then going to

448

00:36:36.450 --> 00:36:45.420

john cunningham: I think someone made a good point. I don't think they should be big trees in the courtyard and the reason being, they're going to share it out the lawn. So I think the courtyard probably has a smaller scale tree.

449

00:36:45.720 --> 00:36:54.210

john cunningham: Where that island that could have some size in it. I think the island. Let's say it's 10 by 10 or 10 by 12 or 10 by 15 is

450

00:36:55.350 --> 00:36:57.510

john cunningham: A big tree. Yeah, yeah, yeah.

451

00:36:58.320 --> 00:37:02.040

maynardr: Yeah, in the courtyard. If you remember when this building was built there were, I think,

452

00:37:02.700 --> 00:37:08.490

maynardr: I think 12 trees in that courtyard. They are small trees, most of them died out. And to your point john they were

453

00:37:08.790 --> 00:37:20.310

maynardr: If they got big. They're going to shave their grass. Anyway, and we have that space for for players for you know preschool kids that we have in our summer camp here and stuff. And it's just better not having trees.

454

00:37:20.910 --> 00:37:28.020

maynardr: You know, a for lack of a better word clogging up the courtyard. And then since then we built a little patio that it wasn't originally

455

00:37:29.310 --> 00:37:41.850

maynardr: And people do use it sit out there and read or have a coffee or something. So if they're Lonnie edge of, you know, the perimeter by the hedges, it doesn't interrupt the open spaces there.

456

00:37:42.690 --> 00:37:43.590

john cunningham: Correct, yeah.

457

00:37:44.640 --> 00:37:50.430

maynardr: So we're talking about three there and then take out the one in the island. That's not going to do well and then plan. Oh.

458

00:37:51.030 --> 00:37:54.510

maynardr: Yeah, so we'll look for you guys for your advice on what to do, what reason

459

00:37:56.400 --> 00:38:02.700

maynardr: I mean, it's probably too late. I don't think we're gonna get to it. Now I know springs, not the best time but I don't know that it's going to happen this fall.

460

00:38:04.500 --> 00:38:05.880

maynardr: It will look for your advice on that.

461

00:38:06.630 --> 00:38:15.300

Kevin Magee: Oh gosh, are a couple other empty islands that were trees can't come out. I'm not sure if you want to take a look to john and see if they was should be planted with a larger type of tree or not.

462

00:38:16.500 --> 00:38:19.260

john cunningham: Kevin, a couple of the islands have septic tanks underneath them.

463

00:38:19.710 --> 00:38:22.830

Kevin Magee: Okay, that's right. I think I saw something famous looking at the

464

00:38:23.190 --> 00:38:23.820

Southern yellow

465

00:38:25.860 --> 00:38:33.090

maynardr: It, you know, our guys needed a place to put some push us know when you're plowing here in the winter in those islands may end up being good places to do that.

466

00:38:34.260 --> 00:38:34.590

john cunningham: Okay.

467

00:38:36.120 --> 00:38:38.670

Shirley's iPad: So Jonathan shovel on your work on this.

468

00:38:39.300 --> 00:38:40.560

Shirley's iPad: Yeah, fake

469

00:38:41.100 --> 00:38:42.210

maynardr: There. Sounds good.

470

00:38:43.080 --> 00:38:48.180

Shirley's iPad: So great. You came with money. That doesn't happen to us often

471

00:38:49.230 --> 00:38:52.710

maynardr: Going to be for that. Somebody, somebody made a donation. They didn't want us to go to trees.

472

00:38:53.250 --> 00:39:01.410

Shirley's iPad: That's great. Yeah, I love that. Okay, I'm finished. Do you think you've got enough information.

473

00:39:01.890 --> 00:39:09.210

maynardr: I think so, if you will, just you know john or somebody whenever you get a chance to stop by and give us some suggestions. Well, we'll go from there.

474

00:39:10.290 --> 00:39:11.280

john cunningham: Okay. Sounds good.

475

00:39:11.970 --> 00:39:13.200

maynardr: Thank you. Hey,

476

00:39:14.310 --> 00:39:15.330

Shirley's iPad: Thanks a lot, everyone.

477

00:39:15.630 --> 00:39:16.950

maynardr: Have a good Thanksgiving, everybody.

478

00:39:19.290 --> 00:39:20.070

terry buckley: Have a great day.

479

00:39:21.720 --> 00:39:22.470

Shirley's iPad: Bye bye.

480

00:39:22.590 --> 00:39:24.000

Patricia Keegan: Bye. All right.

481

00:39:24.720 --> 00:39:26.520

Shirley's iPad: Okay. Next on the agenda, Kevin.

482

00:39:27.510 --> 00:39:28.740

Kevin Magee: Ever source tree work.

483

00:39:29.520 --> 00:39:31.620

Kevin Magee: Oh boy, um,

484

00:39:32.220 --> 00:39:32.730

Shirley's iPad: Well, they did.

485

00:39:33.690 --> 00:39:39.660

Shirley's iPad: They did a good fee deed by taking down that Norway maple, that would have been an \$8,000 job.

486

00:39:40.260 --> 00:39:46.230

Kevin Magee: That would have been a fun one, especially, it's a lot of handwork with the wires and stuff there. It's really

487

00:39:46.230 --> 00:39:50.160

Kevin Magee: Hard to control their, um, but they're currently doing.

488

00:39:51.450 --> 00:39:54.900

Kevin Magee: Work on 77 and route.

489

00:39:57.570 --> 00:39:58.260

Kevin Magee: Route one

490

00:40:00.810 --> 00:40:02.760

Kevin Magee: Which are outside of my area there but

491

00:40:03.960 --> 00:40:09.270

Kevin Magee: They are also doing minor trimming and stuff of the basic maintenance trimming.

492

00:40:10.500 --> 00:40:11.460

Kevin Magee: Along on

493

00:40:12.600 --> 00:40:16.950

Kevin Magee: Goose lane. I'm spirit drive

494

00:40:20.100 --> 00:40:26.820

Kevin Magee: Some local smaller local roads downtown around the center of town. But there's no heavy rumbles on

495

00:40:27.840 --> 00:40:40.350

Kevin Magee: The tree work that they're currently proposing my just take off a call. I just got off a call with them two o'clock call with them going over note proposed work for next year and they want to do.

496

00:40:41.700 --> 00:40:55.440

Kevin Magee: Some more heavier maintenance trimming and heavy removals on on select roads, they can be coming up with the list of those for us. And I asked the arborist to join us at an upcoming meeting.

497

00:40:56.700 --> 00:41:00.720

Kevin Magee: To go over their programs and what they're looking to do because they want to cut back further than

498

00:41:01.920 --> 00:41:05.670

Kevin Magee: We've been allowing them to do the new recommending them to do their

499

00:41:07.440 --> 00:41:15.600

Kevin Magee: Want to do more of the TT work. I'm not really happy that I'm like us, leaving the overhang over the road where possible.

500

00:41:18.360 --> 00:41:21.060

Kevin Magee: So I invited them to upcoming meeting. I'm

501

00:41:22.110 --> 00:41:24.030

Kevin Magee: Away and I told him, probably meeting.

502

00:41:25.710 --> 00:41:32.340

Kevin Magee: Mostly most likely in January. You can set up with them to go over there tree trimming proposals.

503

00:41:33.120 --> 00:41:33.720

Okay.

504

00:41:34.860 --> 00:41:40.620

Shirley's iPad: That's good. Do you think the allergies are a bunch let are far fewer than before.

505

00:41:41.430 --> 00:41:45.150

Kevin Magee: I think they might you're saying there what I saw, I think we're

506

00:41:46.680 --> 00:42:01.830

Kevin Magee: less damage. I'm not sure about the outages, because one tree can take down thousands of customers, the way their grid set up there, but I think I saw less damages during the storms there especially branches and stuff. I'm getting caught on the wires.

507

00:42:02.520 --> 00:42:07.950

Kevin Magee: But as I was telling them and sort of my pitch now is

508

00:42:10.020 --> 00:42:19.350

Kevin Magee: Why the trees that I see coming down a good portion of them are trees on private property falling on the wires into the road and stuff. They're

509

00:42:20.400 --> 00:42:34.650

Kevin Magee: Not really in the town right away every it but outside of it, causing damage and trying to see if there's some sort of can campaign that can be set up for residents to kind of respect their trees and take care of their trees on their property. So it doesn't affect the

510

00:42:35.910 --> 00:42:37.830

Kevin Magee: The wires and the town and stuff like that.

511

00:42:39.840 --> 00:42:40.500

So that's

512

00:42:41.670 --> 00:42:48.480

Kevin Magee: A conversation, starting with them. And anybody tried to regarding storms and stuff like that. And also, indicating that is

513

00:42:49.650 --> 00:42:57.390

Kevin Magee: Not just never source issue. It's a whole town issue and each homeowner needs to take their part, whether it

514

00:42:57.720 --> 00:43:00.330

Shirley's iPad: Be responsible about cutting branches.

515

00:43:02.100 --> 00:43:04.350

Kevin Magee: And monitoring their own trees on their properties.

516

00:43:06.180 --> 00:43:10.770

Kevin Magee: They see damage tree to remove it or see if they can get a resource to remove it.

517

00:43:12.210 --> 00:43:13.530
Kevin Magee: On their on their property.

518
00:43:14.940 --> 00:43:17.070
Kevin Magee: If it affects the system.

519
00:43:18.720 --> 00:43:20.970
Shirley's iPad: Any what's next on the agenda.

520
00:43:22.770 --> 00:43:29.190
Kevin Magee: Of the tree policy. I haven't got a chance to really do anything more with them on the show. Sure bones like

521
00:43:29.700 --> 00:43:31.410
Shavaun Towers: It's on my list and

522
00:43:32.460 --> 00:43:34.110
Shavaun Towers: By January, I'll have something

523
00:43:34.680 --> 00:43:40.080
Shirley's iPad: Oh, good. Well, we won't be meeting till January, hopefully in person, but I don't think so.

524
00:43:41.040 --> 00:43:42.120
Kevin Magee: I don't see as many

525
00:43:42.120 --> 00:43:46.320
Kevin Magee: So maybe next year. And I don't know, I'll be happy if it's earlier.

526
00:43:46.950 --> 00:43:48.600
Shirley's iPad: Yeah, let's pray for earlier.

527
00:43:51.060 --> 00:43:52.770
Shirley's iPad: Anything else on the agenda.

528
00:43:52.890 --> 00:43:57.720
Kevin Magee: Dom died noted here from planning zoning regulation updates.

529
00:43:58.740 --> 00:43:59.490
Kevin Magee: They are

530

00:44:00.720 --> 00:44:05.700

Kevin Magee: Have this consultant in looking at planning zoning in open space regulations.

531

00:44:07.440 --> 00:44:15.690

Kevin Magee: They asked me provisions regarding trees. One of the questions I had is, do we want to

532

00:44:16.830 --> 00:44:23.430

Kevin Magee: Have in the regulations, a list of trees allow trays or

533

00:44:24.780 --> 00:44:26.790

Kevin Magee: Priority trees, I would like to see planted.

534

00:44:27.870 --> 00:44:29.820

Kevin Magee: Within the regulations or

535

00:44:30.840 --> 00:44:38.400

Kevin Magee: leave it open, or do we want to leave it open for the landscape consultants to provide a plan which then gets reviewed.

536

00:44:40.170 --> 00:44:46.050

Shirley's iPad: What do you think shovel. I think it'd be beneficial for us to provide preferred streets, but

537

00:44:46.860 --> 00:44:51.690

Shavaun Towers: Is this for on private property or on the public right away.

538

00:44:52.950 --> 00:45:01.140

Kevin Magee: Be this one here with open space and I'm looking at would be like if a new row goes in, what type of trees would be planted along the road.

539

00:45:03.840 --> 00:45:06.480

Kevin Magee: Somebody could be on to private property also

540

00:45:07.650 --> 00:45:15.000

Shirley's iPad: You know, when there's new construction for commercial or industrial you want to have a good list of recommended trees.

541

00:45:20.460 --> 00:45:21.180

Shirley's iPad: What do you think

542

00:45:21.780 --> 00:45:22.320

John

543

00:45:24.600 --> 00:45:25.320

john cunningham: It's just my

544

00:45:26.370 --> 00:45:37.380

john cunningham: I think i think that's over managing it a little bit. If the different people have a right or the right landscape consultant landscape architect whoever's doing the plans.

545

00:45:37.620 --> 00:45:51.120

john cunningham: They should be selecting the right trees, if they're knowledgeable. I think a review of their plantings would be helpful, we could come up with the list, you know, if you if you wanted to, but I don't think it's necessary.

546

00:45:52.260 --> 00:45:55.380

john cunningham: But I would like to review and if it was a large I'm inclined to

547

00:45:58.800 --> 00:46:09.000

Shavaun Towers: Do I don't. Well, we'd have we'd be if it were a large project, it would come to. Well, no, not necessarily. I was going to say design review, but not necessarily um

548

00:46:10.200 --> 00:46:17.910

Shavaun Towers: I think we could say we had a preference for natives, but that would be about as far as I wanted

549

00:46:19.080 --> 00:46:20.490

john cunningham: Okay, it's

550

00:46:20.640 --> 00:46:23.520

john cunningham: You know, the one thing to consider that.

551

00:46:25.080 --> 00:46:32.010

john cunningham: You know my company does a lot of purchasing of plant material through the year. It's what you can find. Also, everyone.

552

00:46:32.490 --> 00:46:44.700

john cunningham: Just going to use an example. Everyone might want a red oak to be planted there might not be a red oak in the State of Connecticut. The you could find. You got to then move to a son. So I always come up with, with

553

00:46:45.060 --> 00:46:48.930

john cunningham: A number of different alternatives for clients, which I think is important also. Okay.

554

00:46:51.270 --> 00:47:05.040

Shirley's iPad: Kevin, there was a Greg done about 30 years ago mandating that when there's new construction or rehabbing of a build commercial or industrial building that trees must be planted.

555

00:47:05.820 --> 00:47:09.570

Kevin Magee: Yes, I was in there are so many trees per number parking spots.

556

00:47:10.230 --> 00:47:10.620

Yeah.

557

00:47:11.820 --> 00:47:13.260

Shirley's iPad: That stays in there.

558

00:47:13.950 --> 00:47:22.260

Kevin Magee: Um, so, I mean, my recommendation was them was just make sure that the planting plan designed by a licensed landscape architect is

559

00:47:22.290 --> 00:47:24.300

Shirley's iPad: The yes yeah that's smart.

560

00:47:24.300 --> 00:47:25.020

Kevin Magee: Key that I

561

00:47:27.540 --> 00:47:30.090

Shirley's iPad: Patricia. Do you have any ideas on this.

562

00:47:30.720 --> 00:47:31.410

Patricia Keegan: Not really.

563

00:47:32.100 --> 00:47:36.960

Kevin Magee: Okay, like this is a really, really early draft thing here. So once the

564

00:47:38.070 --> 00:47:43.680

Kevin Magee: More formal draft document goods put together all circulate that out with everybody.

565

00:47:44.040 --> 00:47:45.690

Kevin Magee: Oh section of the plan.

566

00:47:45.900 --> 00:47:48.570

Patricia Keegan: I think the preference for natives is a good idea.

567

00:47:50.310 --> 00:47:50.700

john cunningham: Mm hmm.

568

00:47:51.510 --> 00:47:53.580

Shirley's iPad: Arlen. Do you have any ideas.

569

00:47:54.780 --> 00:48:00.930

Caroline Herrick: Not really. I tend to agree with what john said about having a review, who may be, but I

570

00:48:03.450 --> 00:48:07.920

Caroline Herrick: Have a preference for natives. Makes sense to me that I have. I don't really

571

00:48:10.020 --> 00:48:10.650

Shirley's iPad: Thank you.

572

00:48:12.570 --> 00:48:13.740

Shirley's iPad: Anything else, Kevin.

573

00:48:15.360 --> 00:48:19.440

Kevin Magee: I'm just an update on the

574

00:48:20.490 --> 00:48:20.910

Kevin Magee: The

575

00:48:22.920 --> 00:48:26.820

Kevin Magee: The trees and on the sidewalk and Wakefield street there I was talking with Bartlett today.

576

00:48:27.420 --> 00:48:29.130

Kevin Magee: They should be out in the next couple weeks to

577

00:48:29.130 --> 00:48:31.320

Kevin Magee: Do the soil amendments there.

578

00:48:31.920 --> 00:48:33.690

Shirley's iPad: Oh finally good

579

00:48:33.960 --> 00:48:42.000

Kevin Magee: Yeah, I'm been pushing on they've been caught up on trees from the storm, but things are coming down there so I'm finally getting them to do that and

580

00:48:42.690 --> 00:48:51.120

Kevin Magee: I think now is probably a good time since the trees are starting to go more than dormant phase, hopefully won't be as a shock to them with the with the work

581

00:48:51.750 --> 00:48:55.170

Shirley's iPad: Okay, how about the greats anything

582

00:48:56.760 --> 00:48:58.320

Shirley's iPad: Any update on the grades.

583

00:48:59.430 --> 00:49:09.540

Kevin Magee: Have nothing new. On the great parts related. Well, we're going to the soil amendments, no, I don't have any additional funding for any grades or anything like that. It's have the money for the amendments.

584

00:49:10.320 --> 00:49:10.860

Okay.

585

00:49:13.620 --> 00:49:15.480

Shirley's iPad: Johnny john, do you have anything to add to the

586

00:49:17.010 --> 00:49:19.140

john cunningham: Nothing. Surely, okay.

587

00:49:19.350 --> 00:49:19.980

Shirley's iPad: Uh huh.

588

00:49:21.150 --> 00:49:22.950
Shirley's iPad: Perennial item on the agenda.

589
00:49:25.620 --> 00:49:26.580
Shirley's iPad: someday we'll

590
00:49:26.640 --> 00:49:34.860
Kevin Magee: Be able to hopefully at least I can get the amendments in there. I can go letter to the foundation let her know it's this part of the projects been completed.

591
00:49:35.400 --> 00:49:36.060
Shirley's iPad: Oh, good.

592
00:49:36.390 --> 00:49:40.050
Kevin Magee: Good. Thank you, everyone. I get that taken care of before the year ends.

593
00:49:42.210 --> 00:49:42.660
Shirley's iPad: Okay.

594
00:49:43.860 --> 00:49:50.400
Shirley's iPad: You know, I forgot. Daddy, do you have anything to add about the trees for like the Garden Club are planning or

595
00:49:51.570 --> 00:50:12.780
dottie colonese: I'm nothing except that in the minutes at our last meeting I said we had 15,000 in our tree funding that's not correct. There was a bill that came in afterwards. So our balances down to 12,939
49

596
00:50:13.380 --> 00:50:15.390
Shirley's iPad: On this corrected.

597
00:50:17.100 --> 00:50:17.880
dottie colonese: Excuse me.

598
00:50:18.720 --> 00:50:20.820
Shirley's iPad: It was corrected the time you said it.

599
00:50:21.240 --> 00:50:22.110
dottie colonese: No, it wasn't.

600
00:50:22.710 --> 00:50:25.470
dottie colonese: Oh, I was misinformed.

601
00:50:26.910 --> 00:50:27.360
Shirley's iPad: Okay.

602
00:50:28.350 --> 00:50:28.950
Um,

603
00:50:30.090 --> 00:50:32.910
dottie colonese: But we still have the 5000 for planting in the spring.

604
00:50:33.810 --> 00:50:34.140
Okay.

605
00:50:35.280 --> 00:50:35.730
Shirley's iPad: Good.

606
00:50:37.680 --> 00:50:39.420
Shirley's iPad: And next item, Kevin.

607
00:50:40.710 --> 00:50:52.290
Kevin Magee: I'm tree budget for the 2021 2022 fiscal year. Um, is there anything I try put another big increase in my tree removal budget, but

608
00:50:54.330 --> 00:51:01.590
Kevin Magee: Should I also try this in the increase also to see if I get money for maintenance that they allowing

609
00:51:02.100 --> 00:51:02.730
Shavaun Towers: Yes.

610
00:51:03.450 --> 00:51:03.870
And always

611
00:51:06.450 --> 00:51:07.710
Always give it a try.

612
00:51:13.230 --> 00:51:15.870
Shirley's iPad: Does anybody else have any other ideas.

613

00:51:18.660 --> 00:51:27.000

Patricia Keegan: In that budget, it's not only the removal but addition, when it's required right of trees.

614

00:51:27.840 --> 00:51:29.700

Kevin Magee: That's just a removal

615

00:51:29.820 --> 00:51:33.900

Kevin Magee: By down, we end up getting donations to help us with the replanting

616

00:51:33.900 --> 00:51:37.800

Shirley's iPad: Unfortunately, they ever budget money for planting.

617

00:51:39.000 --> 00:51:41.070

Shirley's iPad: Only for hazardous removal

618

00:51:41.460 --> 00:51:42.450

Shavaun Towers: Go. Yeah.

619

00:51:44.910 --> 00:51:45.420

Shirley's iPad: So,

620

00:51:47.790 --> 00:51:49.560

Shirley's iPad: Any other ideas for Kevin

621

00:51:52.680 --> 00:51:54.720

Shirley's iPad: John. Do you have any other ideas.

622

00:51:55.650 --> 00:52:09.870

john cunningham: Know, but I you know I would go in and try to get as much money as you can. I would make it sound like the trees and the town of Guilford are all falling apart, and we need maintenance. We need new trees we need stumps ground we need all kinds of stuff.

623

00:52:10.260 --> 00:52:13.110

john cunningham: make it sound terrible and see how much they'll give us

624

00:52:14.640 --> 00:52:17.730

Shirley's iPad: Yes, I agree. Go for it, Kevin.

625

00:52:18.810 --> 00:52:22.560

Shirley's iPad: Emphasize the grinding to the stumps, there's

626

00:52:24.000 --> 00:52:28.350

Kevin Magee: No special never sidewalks that that the tripping hazards is another thing is created.

627

00:52:28.500 --> 00:52:28.740

Shavaun Towers: Yeah.

628

00:52:28.770 --> 00:52:29.970

It's a public safety.

629

00:52:32.100 --> 00:52:34.140

Shirley's iPad: To say is public safety, they jump.

630

00:52:34.770 --> 00:52:35.280

Right.

631

00:52:37.260 --> 00:52:38.880

Shirley's iPad: Oh my god. We can't have that.

632

00:52:41.160 --> 00:52:41.850

Shirley's iPad: Hopefully,

633

00:52:43.380 --> 00:52:44.490

Shirley's iPad: Anything else

634

00:52:45.270 --> 00:52:48.660

Kevin Magee: I'm public forum for anybody on for public

635

00:52:50.130 --> 00:52:51.540

Shirley's iPad: I don't think we have any public

636

00:52:53.670 --> 00:52:57.450

john cunningham: Parallel let's pay Kathy good let's pay Cathy and close it up, Shirley.

637

00:52:58.500 --> 00:52:59.040

Shirley's iPad: Uh huh.

638

00:53:00.060 --> 00:53:03.780

Shirley's iPad: Well, I just wanted to see if Patricia Carolyn had anything to add.

639

00:53:04.350 --> 00:53:07.740

Shirley's iPad: No, that maybe we should be considering or thinking about

640

00:53:08.790 --> 00:53:13.770

Shirley's iPad: The insert a new new to this process, they may have some fresh ideas.

641

00:53:14.250 --> 00:53:17.370

Patricia Keegan: It will. Thanks for asking, and I will certainly

642

00:53:18.390 --> 00:53:19.440

Patricia Keegan: Be thinking about

643

00:53:20.610 --> 00:53:23.730

Patricia Keegan: Some long initiative. Thank you.

644

00:53:24.270 --> 00:53:26.160

Shirley's iPad: I hope we meet in person soon.

645

00:53:26.340 --> 00:53:26.790

Yeah.

646

00:53:27.840 --> 00:53:28.470

Patricia Keegan: Me true

647

00:53:29.970 --> 00:53:31.620

Shirley's iPad: Carolyn any other

648

00:53:32.100 --> 00:53:34.650

Caroline Herrick: I don't have anything. Okay.

649

00:53:34.860 --> 00:53:35.460

Caroline Herrick: All right now.

650

00:53:35.940 --> 00:53:36.930

Shirley's iPad: Just speak up.

651

00:53:38.040 --> 00:53:39.810
Shirley's iPad: Very friendly and informal here.

652
00:53:41.190 --> 00:53:41.640
Caroline Herrick: Right.

653
00:53:42.510 --> 00:53:44.160
Shirley's iPad: Okay, what's the bill.

654
00:53:48.660 --> 00:53:51.240
Shirley's iPad: Okay. Motion to pay the secretary is bill.

655
00:53:51.870 --> 00:53:52.680
Shavaun Towers: To move

656
00:53:53.250 --> 00:53:53.850
Shirley's iPad: That can

657
00:53:54.570 --> 00:53:56.970
Shirley's iPad: Second. All in favor.

658
00:53:58.020 --> 00:53:58.770
john cunningham: I

659
00:53:59.850 --> 00:54:04.980
Shirley's iPad: Thank you. I hope everybody has a blessing and safe Thanksgiving.

660
00:54:05.610 --> 00:54:06.120
Shirley's iPad: At least

661
00:54:07.110 --> 00:54:08.910
Shavaun Towers: Same thing be you.

662
00:54:10.050 --> 00:54:10.410
Kevin Magee: Know,

663
00:54:10.890 --> 00:54:12.570
Kevin Magee: What for January.

664
00:54:14.250 --> 00:54:15.870

Shirley's iPad: What's the date Kathy.

665

00:54:16.590 --> 00:54:18.690

Kathy: The Third Thursday in January.

666

00:54:19.530 --> 00:54:21.420

Kathy: Okay. That's right.

667

00:54:22.290 --> 00:54:23.850

Kevin Magee: Yeah, sounds good.

668

00:54:24.810 --> 00:54:25.290

Shirley's iPad: Is that

669

00:54:26.340 --> 00:54:27.840

Shavaun Towers: 20 21st

670

00:54:29.070 --> 00:54:32.370

Shirley's iPad: January the 21st, is that agreeable to everybody right now.

671

00:54:32.940 --> 00:54:34.530

Caroline Herrick: Yeah, sounds good.

672

00:54:36.330 --> 00:54:38.940

Shirley's iPad: All right. We'll see you then.

673

00:54:39.420 --> 00:54:40.170

Patricia Keegan: Thank you.

674

00:54:40.380 --> 00:54:42.840

Shavaun Towers: Okay, thank you, everyone.

675

00:54:43.710 --> 00:54:44.820

dottie colonese: Have a good holiday.

676

00:54:45.150 --> 00:54:46.830

Caroline Herrick: Thank you. Happy Thanksgiving.

677

00:54:47.340 --> 00:54:47.730

Shirley's iPad: Thank you.

678

00:54:50.220 --> 00:54:51.390

Shirley's iPad: For setting this up.

679

00:54:52.290 --> 00:54:54.750

Kevin Magee: Now problems prize. My computer's acting up today.

680

00:54:56.220 --> 00:54:57.270

Shirley's iPad: Worked out. Okay.

681

00:54:57.600 --> 00:54:57.900

Yeah.

682

00:54:59.910 --> 00:55:00.600

Shirley's iPad: Bye bye.
