

WEBVTT

1

00:00:00.989 --> 00:00:02.280

iPad: Anybody just raise your hand.

2

00:00:03.990 --> 00:00:08.790

iPad: Okay, any additions or corrections to the minutes is recorded know.

3

00:00:11.040 --> 00:00:14.219

iPad: they're being non the motion to approve the Minutes as recorded.

4

00:00:15.900 --> 00:00:17.130

iPad: Somebody say yes.

5

00:00:17.400 --> 00:00:19.530

iPad: Yes, second.

6

00:00:20.310 --> 00:00:23.280

iPad: Second okay all in favor.

7

00:00:23.850 --> 00:00:24.990

Caroline Herrick: Aye Aye.

8

00:00:25.710 --> 00:00:29.760

iPad: You have a question I find with zoom meetings it's just easy to raise your hand.

9

00:00:31.650 --> 00:00:35.850

iPad: The first side, about the agenda was 2021 spring planting.

10

00:00:37.110 --> 00:00:38.610

iPad: Kevin to want to talk about that.

11

00:00:39.300 --> 00:00:40.170

Kevin Magee: So we're.

12

00:00:41.580 --> 00:00:46.620

Kevin Magee: believe the last meeting we signed, we can probably do up to eight trees, or something like that.

13

00:00:47.700 --> 00:00:49.830

Kevin Magee: Plus we have three trees, which are.

14

00:00:52.290 --> 00:00:55.650

Kevin Magee: I guess of those I think there's three tree is going on, town green.

15

00:00:57.840 --> 00:00:58.740

Kevin Magee: To are.

16

00:01:00.270 --> 00:01:06.960

Kevin Magee: Actually donations on the talent side so one's going to be a donation from the I guess the garden club side for one of your Members there.

17

00:01:08.550 --> 00:01:11.460

iPad: Is that the water is that the one for Walter wizened board.

18

00:01:11.610 --> 00:01:12.480

Kevin Magee: Correct yep.

19

00:01:12.720 --> 00:01:17.310

iPad: Okay, that was she wasn't a member of the club, but we sent the money to the club.

20

00:01:18.300 --> 00:01:21.660

Kevin Magee: yeah okay there's one under his name they're going on the green.

21

00:01:23.010 --> 00:01:24.420

Kevin Magee: And then we have.

22

00:01:25.650 --> 00:01:26.190

Kevin Magee: one.

23

00:01:27.210 --> 00:01:48.330

Kevin Magee: For that mixed up planting, shall we say, being replanted on the top of the green and the other one for marine kingdom of us name, which was two nations we received from a former account employee so there's basically two coming from the town accounts for trees on the green.

24

00:01:49.620 --> 00:01:53.040

Kevin Magee: One other one covered from the garden club side there so.

25

00:01:53.580 --> 00:01:55.080

iPad: It like types of threes.

26

00:01:55.320 --> 00:01:59.100

Kevin Magee: Well that's that's where the question is right now, or go over right now.

27

00:02:00.150 --> 00:02:01.440

Kevin Magee: I believe we're discussing.

28

00:02:02.850 --> 00:02:06.750

Kevin Magee: One or two up for that maple came down from the top of the green.

29

00:02:09.720 --> 00:02:10.650

iPad: tree hearing.

30

00:02:11.070 --> 00:02:18.300

Kevin Magee: yup and then we also have a spot i'm saying one or two because we also have the spot, where cross from the Catholic Church.

31

00:02:19.560 --> 00:02:28.890

Kevin Magee: we've lost a tree over the winter and then the tree that we planted last year, which was postponed the memorial.

32

00:02:29.970 --> 00:02:34.470

Kevin Magee: One where we didn't invite the guy for the tree planting and then work so we're doing the other tree for him.

33

00:02:35.220 --> 00:02:36.540

Kevin Magee: Somebody ran over that tree in.

34

00:02:36.540 --> 00:02:37.320

Kevin Magee: front of town hall.

35

00:02:38.310 --> 00:02:38.730

Oh.

36

00:02:40.050 --> 00:02:42.570

Kevin Magee: Back in January, February.

37

00:02:43.260 --> 00:02:44.040
iPad: How they do it.

38

00:02:45.630 --> 00:02:46.680
Kevin Magee: We don't know.

39

00:02:46.710 --> 00:02:47.760
john cunningham: Anything was a gar.

40

00:02:48.330 --> 00:03:01.920
Kevin Magee: A vehicle drove it over I found it on one day I found on Monday afternoon on a holiday drive back around the green seeing this thing snap and nothing, nothing left to the tree so email park and REC.

41

00:03:03.600 --> 00:03:04.410
Kevin Magee: Here comes your phone.

42

00:03:05.550 --> 00:03:18.750
Kevin Magee: email them park and REC guys saying hey did you know anything about this tree, because if something gets run our easily the parts of the tree is still there i'm missing the person must have ran over grab then took it with them.

43

00:03:19.440 --> 00:03:20.550
iPad: Oh wow.

44

00:03:21.330 --> 00:03:21.750
iPad: Because there's.

45

00:03:22.500 --> 00:03:25.590
iPad: Nothing left out, who did it so we could collect insurance.

46

00:03:25.800 --> 00:03:35.100
Kevin Magee: nothing happening replace report for, but nothing, nobody thought anything there's tire tracks, you know across the green yes and somebody went for a drive right and kind of put the thing out.

47

00:03:36.210 --> 00:03:36.810
iPad: Oh boy.

48

00:03:37.860 --> 00:03:38.370
iPad: Okay.

49

00:03:38.610 --> 00:03:39.840

Kevin Magee: So he said, we have three.

50

00:03:40.860 --> 00:03:42.480

Kevin Magee: Three trees to go on the green there.

51

00:03:43.650 --> 00:03:51.900

Kevin Magee: So any thoughts what you guys would think would be appropriate for definitely tall trees shade trees for the Green there.

52

00:03:53.130 --> 00:03:53.460

Kevin Magee: I know it.

53

00:03:54.540 --> 00:03:57.780

Kevin Magee: works um I think we did.

54

00:03:59.340 --> 00:04:02.850

Kevin Magee: Oh, she was that last one I know we talked about a.

55

00:04:06.180 --> 00:04:11.610

Kevin Magee: Sick more type tree yeah i'm going on the green there.

56

00:04:13.200 --> 00:04:15.420

Kevin Magee: and potentially.

57

00:04:18.210 --> 00:04:22.560

Kevin Magee: tulip do we ever discuss those and those are fading species also.

58

00:04:24.240 --> 00:04:25.470

Kevin Magee: Their softer window.

59

00:04:26.070 --> 00:04:26.790

iPad: can hear you.

60

00:04:30.150 --> 00:04:31.080

Caroline Herrick: you're muted.

61

00:04:31.530 --> 00:04:33.870

Kevin Magee: No she's not muted, but somehow our volume is not on.

62

00:04:34.170 --> 00:04:35.280
Caroline Herrick: No she's muted.

63

00:04:37.200 --> 00:04:37.680
Dottie: yeah.

64

00:04:40.350 --> 00:04:41.400
Caroline Herrick: Your shadows there.

65

00:04:41.460 --> 00:04:41.910
alright.

66

00:04:43.620 --> 00:04:44.160
iPad: got all the.

67

00:04:44.640 --> 00:04:46.170
Shavaun: Technology sort of.

68

00:04:48.450 --> 00:04:54.300
iPad: Devon was asking what kind of tree should go on the green the possibilities for three trees.

69

00:04:55.200 --> 00:04:55.530
yeah.

70

00:04:57.060 --> 00:04:58.740
john cunningham: football, what do you think about London plane.

71

00:04:59.670 --> 00:05:00.750
Shavaun: Love London plane.

72

00:05:01.020 --> 00:05:12.210
john cunningham: So i'm i'm digging six inch copper Rhode island right now and i'm sure they have anywhere from three to four inch depending on what they have so it's it is available.

73

00:05:13.170 --> 00:05:15.000
iPad: Is that another name for sycamore.

74

00:05:15.870 --> 00:05:21.510

john cunningham: sycamores aren't used any longer surely there's two different varieties there's sycamore which.

75

00:05:23.580 --> 00:05:38.190

john cunningham: I can't remember the botanical because it's not really producing the trade London plan is politeness, and the London plan is what's used now they both looked the same sycamore has a lot of diseases and problems with it so they've moved to flatness.

76

00:05:38.850 --> 00:05:40.380

iPad: Does it have that Nice bark.

77

00:05:40.440 --> 00:05:41.340

iPad: yep modeling.

78

00:05:41.370 --> 00:05:42.240

john cunningham: same bark.

79

00:05:42.720 --> 00:05:44.460

iPad: Oh good okay.

80

00:05:44.490 --> 00:05:47.190

john cunningham: One seed pod as opposed to two right travon.

81

00:05:48.030 --> 00:05:49.860

Shavaun: i'll take your word for that one.

82

00:05:52.560 --> 00:05:55.650

iPad: Does anybody else on the committee have any other ideas.

83

00:05:57.180 --> 00:05:59.370

iPad: Are you saying three London planes.

84

00:06:00.120 --> 00:06:03.270

Shavaun: Oh, I think that's too much I just I love them.

85

00:06:03.660 --> 00:06:11.220

john cunningham: yeah if you could do this if you wanted to you could make it if you wanted to put a London plane on broad street up where we took that big maple down.

86

00:06:12.900 --> 00:06:13.260

Kevin Magee: yeah.

87

00:06:13.770 --> 00:06:17.640

john cunningham: Then we took a great big pen oak down on Whitfield.

88

00:06:18.720 --> 00:06:26.970

john cunningham: You could probably make the point of maybe having those just to London plans on which travon London plans a big grower it's one of the biggest shade trees.

89

00:06:27.480 --> 00:06:33.330

john cunningham: So wherever the third area is, I think the third tree that we're going to plant for.

90

00:06:34.710 --> 00:06:35.460

john cunningham: Surely help me out.

91

00:06:36.150 --> 00:06:41.250

john cunningham: Well, Walter is not going to be a shade tree I think it's going to be an ornamental tree.

92

00:06:42.180 --> 00:06:45.330

iPad: that's the one on what we feel straight across the dissolve often.

93

00:06:45.330 --> 00:06:47.370

john cunningham: yeah, but I think that's an ornamental tree.

94

00:06:47.700 --> 00:06:54.180

Kevin Magee: We really don't do ornamentals on the green that we used to do color trees, they like closest thing we do aren't about those where they.

95

00:06:55.170 --> 00:06:56.310

iPad: Get the fourth one.

96

00:06:56.880 --> 00:06:57.390

Kevin Magee: With that.

97

00:06:57.870 --> 00:07:01.140

iPad: didn't you do this flowering not worth on chestnuts.

98

00:07:01.200 --> 00:07:03.120

Kevin Magee: yeah that's the closest we get to.

99

00:07:06.180 --> 00:07:06.690

Kevin Magee: That so.

100

00:07:07.350 --> 00:07:09.870

iPad: there's some written rule we can't do it.

101

00:07:10.350 --> 00:07:14.220

Kevin Magee: Well, you want something that grows top because we use on the green you don't want the law.

102

00:07:14.250 --> 00:07:15.000

Shavaun: yeah you need to be.

103

00:07:17.040 --> 00:07:17.550

iPad: Okay.

104

00:07:17.640 --> 00:07:19.200

Kevin Magee: With the operation out there, so we.

105

00:07:19.410 --> 00:07:21.090

Kevin Magee: already know.

106

00:07:21.150 --> 00:07:21.480

color.

107

00:07:22.560 --> 00:07:26.160

john cunningham: There was a there's a big shadow on the green that's been there for years.

108

00:07:27.210 --> 00:07:27.960

iPad: chat below.

109

00:07:28.110 --> 00:07:30.810

Shavaun: yep well, we could do a tulip.

110

00:07:30.990 --> 00:07:33.450

Shavaun: I have no one to lips, no does.

111

00:07:33.660 --> 00:07:39.150

Shavaun: yeah but it's certainly ornamental when it's younger and and blooming where you can see.

112

00:07:40.500 --> 00:07:41.910

Shavaun: they're messy theories, though.

113

00:07:43.200 --> 00:07:47.520

Caroline Herrick: I thought so that really up rooted in in storms and things I.

114

00:07:48.600 --> 00:07:49.140

Shavaun: Have.

115

00:07:49.470 --> 00:07:54.240

Caroline Herrick: houses in one fell on my house and we were told it had shallow roots and it.

116

00:07:55.800 --> 00:07:57.690

Caroline Herrick: would happen, I don't know but.

117

00:07:57.720 --> 00:08:08.700

john cunningham: My past experience to to have tree i'm not quite sure what the root growth is, but it has stood the test of time on some big properties down by the water with a lot of wind.

118

00:08:09.150 --> 00:08:12.690

john cunningham: know it is weak wooded so there.

119

00:08:13.080 --> 00:08:23.970

john cunningham: It is messages that might come off, but I don't think up routing is is really a problem and I don't think that's really a problem on the green that that one storm, we had there was a was a one.

120

00:08:24.030 --> 00:08:25.530

john cunningham: In 100 year or 200.

121

00:08:26.610 --> 00:08:31.230

Shavaun: You know what I mean and its native I mean it could easily have been there, originally.

122

00:08:31.860 --> 00:08:35.490

iPad: yep so a tool of tree and to.

123

00:08:37.980 --> 00:08:43.200

john cunningham: show the big thing is, if you have room for the trees you got to look to where you're going to plant them and make sure there's enough.

124

00:08:43.800 --> 00:08:45.420

iPad: Yes, that's a given.

125

00:08:47.700 --> 00:08:48.960

iPad: situation so.

126

00:08:48.990 --> 00:08:52.230

Kevin Magee: till a tribute across on like the Catholic Church, where we lost that.

127

00:08:53.280 --> 00:08:56.700

Kevin Magee: Young people on that you know that lower triangle there.

128

00:08:56.820 --> 00:08:57.210

john cunningham: yeah.

129

00:08:57.840 --> 00:08:58.830

That piece there.

130

00:09:00.090 --> 00:09:09.150

Kevin Magee: So London plan on the top of the green there where we lost we took down that normally maple and then the other location would be across from the town hall.

131

00:09:10.680 --> 00:09:14.190

Kevin Magee: kind of a year back behind where the stage and stuff is.

132

00:09:15.870 --> 00:09:16.380

iPad: Yes.

133

00:09:17.220 --> 00:09:19.620

Shavaun: So that could certainly take a sycamore over there.

134

00:09:19.890 --> 00:09:22.920

john cunningham: yeah I was gonna say maybe we go maybe we go to.

135

00:09:24.060 --> 00:09:28.980

john cunningham: London playing in the last two locations and put the tool of free across the street from the Catholic Church.

136

00:09:29.250 --> 00:09:29.940

Kevin Magee: Yes, thank.

137

00:09:31.170 --> 00:09:32.580

Kevin Magee: You for that person.

138

00:09:33.120 --> 00:09:33.420

yeah.

139

00:09:34.470 --> 00:09:34.950

iPad: Okay.

140

00:09:36.030 --> 00:09:38.910

iPad: Now don't forget you go to call him Kevin.

141

00:09:39.990 --> 00:09:42.480

iPad: When you plant, the tree right.

142

00:09:43.080 --> 00:09:44.850

iPad: Yes, okay.

143

00:09:44.940 --> 00:09:47.850

Dottie: yeah fairly surely what is his name again.

144

00:09:48.780 --> 00:09:51.360

iPad: Walter lies the Board was.

145

00:09:51.390 --> 00:09:52.860

Dottie: born or.

146

00:09:53.340 --> 00:09:57.540

iPad: On I know who died from covert it was awful he was in the hospital for a month.

147

00:09:58.620 --> 00:10:01.530

iPad: And he was coming home and he died in asleep.

148

00:10:02.730 --> 00:10:06.510

iPad: move the night before he was supposed to come home and it's only 67.

149

00:10:08.910 --> 00:10:14.610

Kevin Magee: there's ever a bike called pearly he's the one that we had the the one we invite last time.

150

00:10:16.470 --> 00:10:17.670

Dottie: Okay, please.

151

00:10:19.110 --> 00:10:27.360

iPad: I would like to know when walters trees being planted so I can invite the design review Committee who chipped in the \$500.

152

00:10:28.980 --> 00:10:30.090

Kevin Magee: Do you notice me.

153

00:10:30.450 --> 00:10:32.790

john cunningham: Oh, I still I still owe some money for that surely.

154

00:10:34.950 --> 00:10:36.060

iPad: done you for bill.

155

00:10:38.310 --> 00:10:45.120

Kevin Magee: I mean usually we do those probably first thing in the morning, that way you're not losing track of the time period there so.

156

00:10:45.810 --> 00:10:47.460

Kevin Magee: Okay, those are you.

157

00:10:47.850 --> 00:10:53.610

iPad: know a day or two ahead of time, you know email Kathy who can notify the design review people.

158

00:10:53.850 --> 00:10:55.890

iPad: Okay, so okay Kathy.

159

00:10:56.190 --> 00:10:56.970

Kathy: yeah that's fine.

160

00:10:57.390 --> 00:11:09.840

Kevin Magee: i've been trying to depending on the ship who i'm getting them from I may try to get the trees deliver the night before because we end up problems with our pointing times, sometimes for the transportation of the trees.

161

00:11:10.890 --> 00:11:12.090

Kevin Magee: not arriving wide.

162

00:11:12.210 --> 00:11:15.330

Kevin Magee: Open our delays on a couple times before we track.

163

00:11:15.690 --> 00:11:16.380

Flexible.

164

00:11:17.730 --> 00:11:22.470

iPad: Now we have five other other trees monies for father, the trees, is that right Daddy.

165

00:11:23.550 --> 00:11:24.060

Dottie: Yes.

166

00:11:24.810 --> 00:11:26.850

Kevin Magee: Well what's the value we have available data, you have.

167

00:11:26.910 --> 00:11:28.380

Kevin Magee: available, so we.

168

00:11:30.150 --> 00:11:31.110

Kevin Magee: Set up the last meeting we.

169

00:11:31.350 --> 00:11:32.250

Dottie: Have about.

170

00:11:32.460 --> 00:11:33.540

13,000.

171

00:11:38.220 --> 00:11:41.310

Kevin Magee: Whatever we find it from that we're doing eight street trees, I believe, right.

172

00:11:42.450 --> 00:11:43.680

Dottie: Yes.

173

00:11:44.010 --> 00:11:45.000

iPad: That enough money.

174

00:11:46.110 --> 00:11:48.510

Dottie: Wait a minute yeah well that's a good question.

175

00:11:49.500 --> 00:11:52.170

iPad: Because I thought they were four or 500 apiece.

176

00:11:52.230 --> 00:11:57.540

Shavaun: yeah I would have said, we have 4000 I made, we need 4000 to do a.

177

00:11:58.290 --> 00:11:58.680

Shavaun: True so.

178

00:11:58.710 --> 00:11:59.040

Dottie: yeah.

179

00:11:59.070 --> 00:12:02.040

Shavaun: No, we have 13 13,000 hours yeah.

180

00:12:02.460 --> 00:12:05.130

iPad: yeah okay yeah we have we loaded.

181

00:12:05.640 --> 00:12:05.970

well.

182

00:12:08.730 --> 00:12:12.300

Dottie: It goes fast if you're not getting money coming in, so we'll see what happens.

183

00:12:14.190 --> 00:12:16.440

iPad: Okay, so Kevin, what are the locations.

184

00:12:17.730 --> 00:12:18.600

Kevin Magee: um.

185

00:12:19.650 --> 00:12:25.410

Kevin Magee: I looked at so locations on fair street some state street and some down a Whitfield straight there i'm not sure.

186

00:12:26.490 --> 00:12:28.890

Kevin Magee: josh of own or anybody else got chance to try.

187

00:12:30.720 --> 00:12:31.860

Kevin Magee: To look at locations.

188

00:12:31.860 --> 00:12:34.170

john cunningham: There, the one thing I will say.

189

00:12:35.580 --> 00:12:42.420

john cunningham: clients of mine, at the end of fair there across the street from microsoft's back house they had a street tree that died.

190

00:12:43.440 --> 00:12:48.900

john cunningham: And there's no trees in front of their house I can't think of their their number right off the BAT I can let you know Kevin okay.

191

00:12:48.930 --> 00:12:50.580

Kevin Magee: With what you said, fair straight there.

192

00:12:50.790 --> 00:12:52.080

john cunningham: That octagon house.

193

00:12:52.410 --> 00:12:55.800

iPad: yep and cyber cyber it's windy and.

194

00:12:56.940 --> 00:12:57.240

john cunningham: No.

195

00:12:59.010 --> 00:12:59.460

john cunningham: No it's.

196

00:13:00.210 --> 00:13:03.780

john cunningham: it's the youngs it's a genuine.

197

00:13:04.800 --> 00:13:10.650

Kevin Magee: If they went down fair street notice least 64 fear street and also potentially 47th street.

198

00:13:13.470 --> 00:13:28.290

Kevin Magee: COP something some space retreat 64 may know, probably one to two trees, but on the side of the wires that's going to require probably more of an ornamental by 64 47th street was the opposite side, the road.

199

00:13:29.580 --> 00:13:34.740

Kevin Magee: which could be any type of tree and then I also we also removed a tree.

200

00:13:36.060 --> 00:13:41.100

Kevin Magee: This past year in front of 53 broad street, which is just as it come out of fair street.

201

00:13:42.660 --> 00:13:43.290

Kevin Magee: too broad.

202

00:13:44.520 --> 00:13:57.540

Kevin Magee: there's low wires there but there could be a potential if we train a tree rate and push it back closer to the fence line there you might be able to get a little bit taller tree, as long as we trim it.

203

00:13:57.840 --> 00:14:06.120

Kevin Magee: Around the wires as it grows but i'm not sure how I think those are our phone lines that power lines on that side, the road so anything you have problems with a resource.

204

00:14:10.470 --> 00:14:22.200

john cunningham: I think it just may I think one of the the wires I think are probably the most important thing to look at, but also the the spacing from the edge of the sidewalk to the road.

205

00:14:22.710 --> 00:14:32.610

john cunningham: I think if that if that tree lawn area is under 30 inches wide it's going to it's extremely difficult to plant in that bed.

206

00:14:33.630 --> 00:14:44.190

john cunningham: So I also i've been driving around I noticed some open areas, but when there's only 18 inches of grass to plant, the tree and it's almost impossible to get it into that area.

207

00:14:44.910 --> 00:14:53.550

john cunningham: So I delete that i've been driving around a couple of days, but then I delete that from what where the tree should go, so I think we really want to look to see a.

208

00:14:54.060 --> 00:15:10.260

john cunningham: If it's not under the wires and be the size of that tree law okay and and if you'd like I apologize it's just been busy I can try to go out Sunday, and I can send the whole Board of list of some donations i'm sure we can find spots, for if we have a tree is coming.

209

00:15:10.500 --> 00:15:11.910

john cunningham: We have five international trips.

210

00:15:11.970 --> 00:15:13.680

iPad: That would be really helpful yeah.

211

00:15:14.940 --> 00:15:15.960

iPad: 30 inches.

212

00:15:17.520 --> 00:15:17.940

Kevin Magee: Mostly.

213

00:15:18.900 --> 00:15:20.370

Kevin Magee: At least 30 inches I believe.

214

00:15:20.400 --> 00:15:21.660

john cunningham: it's tight for.

215

00:15:23.100 --> 00:15:32.730

john cunningham: You know if you buy a tree, surely, and these are going to be b&b so it's balding burlap you know, even if it's just two inch caliper that ball is.

216

00:15:33.090 --> 00:15:35.490

john cunningham: A 20 or 28 inch wall.

217

00:15:35.670 --> 00:15:48.150

john cunningham: And you can that just barely fits into that area and you start digging next to the sidewalks and you're compromising the basis iraq's would much rather have a wider area of grass to plant, the trees.

218

00:15:50.310 --> 00:15:52.020

iPad: Okay, so we'll check that out.

219

00:15:52.170 --> 00:15:58.620

john cunningham: yeah Kevin did you ever look at the word a cell towers apply to the diner whose land is that.

220

00:15:58.830 --> 00:16:02.730

Kevin Magee: that's town land by believe there's.

221

00:16:05.520 --> 00:16:13.170

Kevin Magee: Potential easements or something for the use by other I mean, I think the work on the stuff I think I still has our long term.

222

00:16:14.550 --> 00:16:16.020

john cunningham: Do we know if we can plan up there.

223

00:16:17.010 --> 00:16:18.600

Kevin Magee: I have to do some research into that.

224

00:16:19.650 --> 00:16:19.830

john cunningham: Because.

225

00:16:20.460 --> 00:16:21.090

Kevin Magee: There is a big.

226

00:16:22.260 --> 00:16:26.310

Kevin Magee: there's a big stretch for you go north or route, one on state street there there's some.

227

00:16:28.080 --> 00:16:32.250

Kevin Magee: open areas there on the left hand side, having North on state street.

228

00:16:35.010 --> 00:16:35.640

Kevin Magee: This is.

229

00:16:36.120 --> 00:16:39.690

iPad: Huge tree trunk still on Whitfield at one woodfield.

230

00:16:40.470 --> 00:16:45.570

Kevin Magee: yeah I forgot call state again on that i've been actually trying to convince our public works department, just to drop it.

231

00:16:47.460 --> 00:16:54.150

iPad: that'd be the easiest job john and shovel do you think it's possible to put a tree there.

232

00:16:54.960 --> 00:17:00.030

john cunningham: That were that stump is surely you gotta grind that stuff, but we can look at the area.

233

00:17:00.030 --> 00:17:00.600

Shavaun: Again, look at.

234

00:17:01.140 --> 00:17:03.090

Shavaun: how close we can get yep.

235

00:17:03.180 --> 00:17:05.010

Shavaun: you've also got sideline issues.

236

00:17:05.130 --> 00:17:10.350

Kevin Magee: There might not be this year thinks that I have to sign, instead of making a statement that the State run our town road.

237

00:17:11.820 --> 00:17:21.660

Dottie: There buddy did anybody see that's three ginormous trees that they took out at the end of Boston street.

238

00:17:22.020 --> 00:17:25.320

iPad: Yes, I saw that the SAP to do them coming well.

239

00:17:25.950 --> 00:17:26.670

Dottie: Why is that.

240

00:17:27.240 --> 00:17:40.170

Dottie: I have no idea and those trees were on their sales were I think pine trees that were probably splitting and dying and and you know old white pine trees, I think.

241

00:17:40.620 --> 00:17:42.270

john cunningham: we're at the end up I sound you.

242

00:17:43.110 --> 00:17:46.740

iPad: Yes, yes, just next to the crayons to create or.

243

00:17:46.800 --> 00:17:48.420

Shavaun: No okay.

244

00:17:49.080 --> 00:17:49.830

Shavaun: I know where you think.

245

00:17:49.860 --> 00:17:50.760

Kevin Magee: Is maples yeah.

246

00:17:51.030 --> 00:17:52.200

john cunningham: They were Norway maple.

247

00:17:52.890 --> 00:17:54.120

Dottie: or they were yep.

248

00:17:55.770 --> 00:17:56.700

iPad: So bear.

249

00:17:57.150 --> 00:18:03.570

john cunningham: It does look bear I bet i'm going to get surely that person's property probably almost runs to the curb.

250

00:18:04.260 --> 00:18:13.770

john cunningham: yeah and they took the trees down because they wanted light on the property probably so for us to go in and say we're going to put a new tree on their property I don't know if that's the best course of action.

251

00:18:14.760 --> 00:18:16.560

Shavaun: I mean yeah.

252

00:18:18.630 --> 00:18:19.200

john cunningham: You know what I mean.

253

00:18:19.350 --> 00:18:21.450

Shavaun: that's a State route anyway isn't it.

254

00:18:21.810 --> 00:18:24.240

iPad: Correct yeah 146.

255

00:18:24.690 --> 00:18:26.820

Shavaun: yeah so I don't know that we.

256

00:18:26.850 --> 00:18:30.840

Shavaun: Well we'd have to get that would be likely other one we'd have to get the State involved.

257

00:18:31.860 --> 00:18:32.280

john cunningham: yep.

258

00:18:38.010 --> 00:18:56.760

iPad: about the state i'm hoping to state property itself or one would they put that gigantic gas storage unit on the surface of the ground, instead of burying it and cut down every bit of vegetation, do you know what i'm talking about.

259

00:18:57.150 --> 00:18:57.480

Kevin Magee: yeah.

260

00:18:57.510 --> 00:18:58.230

iPad: The steak do.

261

00:18:58.350 --> 00:18:59.130

Kevin Magee: It right there yeah.

262

00:18:59.370 --> 00:19:03.180

iPad: International buildings, it looks horrendous.

263

00:19:04.650 --> 00:19:12.930

iPad: i'm not say we should plant trees that the state should be able to plan, but we need to put some pressure on them to fix that up.

264

00:19:13.320 --> 00:19:16.590

john cunningham: Really, that would be a terrific project for you to get involved, and why don't you.

265

00:19:16.590 --> 00:19:18.030

john cunningham: like to state a letter.

266

00:19:18.450 --> 00:19:18.630

john cunningham: and

267

00:19:19.590 --> 00:19:21.420

john cunningham: You would like to have that softens.

268

00:19:21.540 --> 00:19:23.430

iPad: It I already started it.

269

00:19:23.670 --> 00:19:26.010

Kevin Magee: Okay, you talked to Sean or Christine.

270

00:19:26.430 --> 00:19:26.970

iPad: so on.

271

00:19:27.630 --> 00:19:27.930

Okay.

272

00:19:29.190 --> 00:19:32.490

iPad: Because he didn't know anything about it, I said, well, could you please find out.

273

00:19:32.790 --> 00:19:33.450

Kevin Magee: figure it.

274

00:19:35.520 --> 00:19:41.040

iPad: It looks so redness where we're trying to upgrade route one, and then the state does that oh my God.

275

00:19:44.610 --> 00:19:47.160

Kevin Magee: Do you want to come up with species that we want, and then we can.

276

00:19:48.960 --> 00:19:52.890

Shavaun: Well, why don't Jon and I both independently, Dr.

277

00:19:53.280 --> 00:19:55.230

Shavaun: Think about and we can discuss it.

278

00:19:55.770 --> 00:20:01.350

Shavaun: From there but yes, I think we'd make more progress if we came with a specific suggestion.

279

00:20:02.070 --> 00:20:10.710

john cunningham: Kevin I think I think the best way to do it is to if we if we go down a bunch of siobhan and I can touch base, we go down these down whatever road RON.

280

00:20:11.040 --> 00:20:23.190

john cunningham: see what varieties are on the street already and I think that will help us make decisions and whatnot right, we might want to use their it just may you know if you if you have a bunch of folks on the street or something else.

281

00:20:23.760 --> 00:20:32.790

Shavaun: There, a case in point, there are a lot of oaks further closer into town, but if you want something that's going to be that scale.

282

00:20:33.510 --> 00:20:49.200

john cunningham: yeah and and I just like to kind of I like to try to keep the streets, you know not that not that every trend on the street has to be the exact same variety, but pick a primary variety and maybe a secondary variety, as opposed to having 20 different varieties.

283

00:20:49.260 --> 00:20:50.670

john cunningham: Oh absolutely hard to look at.

284

00:20:51.180 --> 00:20:52.770

john cunningham: yeah yeah all right.

285

00:20:54.090 --> 00:20:55.950

iPad: what's happening with high street.

286

00:20:57.570 --> 00:21:07.350

Kevin Magee: high street is i'm waiting to hear back with the barbarous when they plan to do they're they're trimming through there that we talked about the last meal you weren't the last.

287

00:21:07.350 --> 00:21:07.770

john cunningham: Meeting.

288

00:21:08.280 --> 00:21:10.500

Kevin Magee: We met with represent the last meeting.

289

00:21:10.530 --> 00:21:11.820

john cunningham: She was asleep Kevin.

290

00:21:12.240 --> 00:21:12.840

Kevin Magee: Yes, I.

291

00:21:15.750 --> 00:21:17.640

Kevin Magee: Get that valuable shot in the arm so.

292

00:21:17.640 --> 00:21:18.750

john cunningham: yeah OK.

293

00:21:22.830 --> 00:21:26.820

Kevin Magee: So that might think what made me feeling a little tired and stuff like that.

294

00:21:26.850 --> 00:21:30.960

john cunningham: Really week I think we can cross high street off a plant.

295

00:21:31.410 --> 00:21:32.760

Kevin Magee: For your destination.

296

00:21:33.300 --> 00:21:34.230

john cunningham: For quite a while.

297

00:21:34.890 --> 00:21:35.550

iPad: Okay, just.

298

00:21:37.440 --> 00:21:38.850

Kevin Magee: Directly doing mobile first.

299

00:21:39.570 --> 00:21:40.950

Kevin Magee: Mining whatever so.

300

00:21:41.310 --> 00:21:43.410

Kevin Magee: That might be another year out, but.

301

00:21:43.890 --> 00:21:52.170

Kevin Magee: They are going to remove I think about five trees for us on high street through ever source cut some other ones back from the wires i'm.

302

00:21:52.860 --> 00:22:06.870

Kevin Magee: i'm gonna have to start coordinating actually get the one two trees that we talked about on the North north, south side, the road removed and either saving a public works or get a subcontractor.

303

00:22:06.900 --> 00:22:13.350

Kevin Magee: To kind of elevate the branches above the road there since they're growing into the traffic and stuff there.

304

00:22:14.190 --> 00:22:15.450

Kevin Magee: Okay follow up.

305

00:22:16.080 --> 00:22:16.980

Kevin Magee: On that one there.

306

00:22:18.300 --> 00:22:24.990

iPad: I want to backtrack to Daddy, why are we spending just money on a trees, if you have all that money.

307

00:22:26.190 --> 00:22:34.080

Dottie: um you know we could get 10 trees, I think the last time we spoke, I I okayed it pretend trees and then I don't know.

308

00:22:34.650 --> 00:22:37.920

iPad: Sadly, be \$5,000 it could be 10 yeah.

309

00:22:39.120 --> 00:22:46.290

Kevin Magee: Because that 10 count the one of the green so you have nine or is that separate that are like donation not count in that 10.

310

00:22:47.250 --> 00:22:51.690

iPad: um I didn't take it that I was counting it in the 10.

311

00:22:51.960 --> 00:22:53.940

Kevin Magee: We can we do nine straight cheese and.

312

00:22:57.180 --> 00:23:00.390

iPad: Well we've got 501 tree on the green.

313

00:23:01.740 --> 00:23:04.260

Shavaun: Was the gift for Walter doesn't come out of.

314

00:23:04.920 --> 00:23:06.540

Dottie: The car.

315

00:23:07.350 --> 00:23:07.800

Dottie: Yes, it.

316

00:23:08.280 --> 00:23:09.450

iPad: It doesn't matter that are.

317

00:23:09.450 --> 00:23:09.870

Dottie: In class.

318

00:23:09.930 --> 00:23:12.540

Shavaun: Oh, because we've given you the money, so you can give it.

319

00:23:12.540 --> 00:23:12.960

Shavaun: back.

320

00:23:13.050 --> 00:23:13.980

Shavaun: got it you're right.

321

00:23:14.280 --> 00:23:15.990

iPad: right they pay for the tree.

322

00:23:17.130 --> 00:23:17.520

iPad: yeah.

323

00:23:17.850 --> 00:23:18.480

So.

324

00:23:20.040 --> 00:23:23.100

iPad: So the other two are from the town, the if it doesn't come out.

325

00:23:23.820 --> 00:23:24.900

Dottie: Oh so.

326

00:23:25.500 --> 00:23:28.890

iPad: Seven more that you're you and john will determine where.

327

00:23:30.630 --> 00:23:32.880

Kevin Magee: To the trees and the Green are not coming out of the.

328

00:23:33.990 --> 00:23:34.620

Dottie: garden club.

329

00:23:34.680 --> 00:23:35.760

Kevin Magee: garden clubs funding.

330

00:23:36.060 --> 00:23:37.620

iPad: yeah Oh, the other two are not.

331

00:23:37.950 --> 00:23:38.760

Kevin Magee: Other two are not.

332

00:23:39.210 --> 00:23:41.850

john cunningham: Okay, those are either all donations to the town.

333

00:23:42.180 --> 00:23:44.190

john cunningham: Those will be the six inch cal Patrice.

334

00:23:45.690 --> 00:23:47.670

iPad: Well then, we could do 12 chase.

335

00:23:48.930 --> 00:23:49.830

john cunningham: Surely let's just.

336

00:23:49.890 --> 00:23:50.400

iPad: I think.

337

00:23:50.490 --> 00:23:54.660

john cunningham: I think will be fully scaled with 10 let's just leave it at 10 yeah.

338

00:23:54.750 --> 00:23:55.920

Kevin Magee: i'm looking at what takes like to.

339

00:23:55.920 --> 00:23:56.070

Kevin Magee: Do.

340

00:23:56.880 --> 00:23:58.860

Kevin Magee: The trick if you.

341

00:23:59.100 --> 00:24:02.310

iPad: If you ever cross paths for 12 know this money for it.

342

00:24:02.730 --> 00:24:03.300

Shavaun: OK OK.

343

00:24:04.380 --> 00:24:06.600

Kevin Magee: I think like eight to 10 is probably.

344

00:24:06.690 --> 00:24:09.360

Kevin Magee: Enough you're like the tree companies days worth of work.

345

00:24:10.770 --> 00:24:11.280

Shavaun: Well, that.

346

00:24:11.310 --> 00:24:11.760

Shavaun: that's.

347

00:24:12.060 --> 00:24:13.230

Shavaun: A real consideration.

348

00:24:14.250 --> 00:24:14.760

iPad: Okay.

349

00:24:16.020 --> 00:24:19.230

iPad: I want to read, but it's doing in front of the Church.

350

00:24:19.620 --> 00:24:22.770

Kevin Magee: i'm find out a month or so, but they look okay look and go.

351

00:24:24.090 --> 00:24:26.040

iPad: Okay, I love those.

352

00:24:27.630 --> 00:24:31.470

iPad: I anything else about screen planting.

353

00:24:32.730 --> 00:24:37.080

Kevin Magee: know, I think we currently have Jonathan i'll take a look, we come up with them some.

354

00:24:38.790 --> 00:24:39.360

Kevin Magee: nine.

355

00:24:41.070 --> 00:24:42.450

Kevin Magee: street locations our belief.

356

00:24:44.490 --> 00:24:45.060

iPad: Okay.

357

00:24:48.060 --> 00:24:51.420

iPad: Then, the next item, you put on the agenda was the tree policy.

358

00:24:53.430 --> 00:24:56.490

iPad: Anything moving any movement on a shovel.

359

00:24:56.850 --> 00:24:58.710

Kevin Magee: shovel on Sunday thing I believe uh huh.

360

00:24:59.010 --> 00:25:09.150

Shavaun: yeah I figured it out yeah the week after we met I did a first draft that I sent to Kevin, but I think he and.

361

00:25:10.620 --> 00:25:15.630

Shavaun: The town engineer should bless it before we start messing with it.

362

00:25:15.900 --> 00:25:16.230

Kevin Magee: Okay.

363

00:25:16.470 --> 00:25:18.390

Kevin Magee: Barely have chance to go through it all.

364

00:25:18.960 --> 00:25:19.350

Okay.

365

00:25:21.420 --> 00:25:21.780

Shavaun: let's.

366

00:25:21.870 --> 00:25:26.430

Shavaun: send it to Cathy and she could send everybody it out to everybody could look at it before you hear.

367

00:25:27.420 --> 00:25:29.400

Kevin Magee: me there we go look at the graph that's fine.

368

00:25:29.400 --> 00:25:33.360

Shavaun: yeah okay Kathy i'll send it to you after the meeting.

369

00:25:33.660 --> 00:25:34.530

Kathy: Okay, great.

370

00:25:35.010 --> 00:25:38.670

Kevin Magee: that'd be good Commission, knowing that things could potentially change.

371

00:25:39.780 --> 00:25:41.130

Kevin Magee: But we start on it.

372

00:25:41.640 --> 00:25:44.130

iPad: This must be our fastest meeting ever.

373

00:25:45.180 --> 00:25:46.770

iPad: I could have gotten a quick nap in.

374

00:25:52.440 --> 00:25:55.500

iPad: Is there any other business and anybody else knows about or.

375

00:25:56.700 --> 00:26:02.310

Kevin Magee: refurbishment day we cleaned up all those I just have to do, the report on that and kind of figure out how much.

376

00:26:04.230 --> 00:26:06.000

Kevin Magee: They gave us versus what we spent.

377

00:26:08.100 --> 00:26:16.590

Kevin Magee: feeling that the dice we still have some money more to do they're trying to figure out how to use the regular grant appropriately in accordance to their guidelines there.

378

00:26:16.590 --> 00:26:17.970

iPad: How many did they clean up.

379

00:26:18.810 --> 00:26:21.990

Kevin Magee: We cleaned up all but I think one which.

380

00:26:24.300 --> 00:26:26.040

Kevin Magee: The great itself actually.

381

00:26:27.270 --> 00:26:29.430

Kevin Magee: Actually, a public works out there is grown into the tree.

382

00:26:30.600 --> 00:26:31.290

iPad: wow.

383

00:26:33.840 --> 00:26:34.650

iPad: Actually, you.

384

00:26:34.680 --> 00:26:35.340

john cunningham: Kevin did we.

385

00:26:35.370 --> 00:26:37.710

iPad: See actually here to self, to the great.

386

00:26:37.890 --> 00:26:38.280

Kevin Magee: yeah.

387

00:26:38.430 --> 00:26:39.510

john cunningham: Correct what happened, surely.

388

00:26:39.600 --> 00:26:40.380

Kevin Magee: Correct yes.

389

00:26:41.370 --> 00:26:45.180

john cunningham: Did we get to be bought a new great there's one great missing correct.

390

00:26:46.020 --> 00:26:55.110

Kevin Magee: No, but they didn't fund us enough money for the my mind, they gave us would be there, clean out the things or get a great they only gave us to think was like 1200 or something like that to go check the.

391

00:26:55.890 --> 00:26:57.990

john cunningham: We can get we i'm sure we can put the pull.

392

00:26:57.990 --> 00:27:00.000
john cunningham: Together, the money, I would just order to the great.

393
00:27:01.980 --> 00:27:02.010
iPad: Oh.

394
00:27:04.050 --> 00:27:05.250
iPad: My God i'm losing it.

395
00:27:05.580 --> 00:27:06.060
john cunningham: Surely.

396
00:27:06.510 --> 00:27:08.760
iPad: Surely, I will split the cost.

397
00:27:12.510 --> 00:27:12.990
john cunningham: it's really I.

398
00:27:13.650 --> 00:27:16.590
john cunningham: mean you will split the cost of the new great.

399
00:27:17.790 --> 00:27:18.240
Kevin Magee: gave us.

400
00:27:18.330 --> 00:27:20.820
Kevin Magee: They gave us they gave us 2000 so often.

401
00:27:21.570 --> 00:27:23.070
iPad: So you have enough money.

402
00:27:23.550 --> 00:27:26.670
Kevin Magee: Other see what our funding is right now, I want to see.

403
00:27:27.180 --> 00:27:30.090
iPad: If you need a donation john and i'll help.

404
00:27:30.270 --> 00:27:32.850
john cunningham: yep the grades gonna probably be about 500 bucks.

405
00:27:33.630 --> 00:27:35.820
iPad: it'll be in john's honor.

406

00:27:36.990 --> 00:27:37.500

iPad: find it.

407

00:27:39.810 --> 00:27:44.760

john cunningham: I just I just think if you're gonna have great on that side of the green it'd be really nice if you had them all match.

408

00:27:45.660 --> 00:27:48.300

john cunningham: rate is missing so let's let's just get it done.

409

00:27:48.930 --> 00:27:51.360

iPad: The Green paint were often the ones that.

410

00:27:52.230 --> 00:27:54.270

john cunningham: You can you can send that down and get rid of it.

411

00:27:54.450 --> 00:27:56.940

Kevin Magee: they're slightly there but they're feeding off their.

412

00:27:58.890 --> 00:28:04.500

iPad: chairs all night, you know that not not realize you had an ankle bracelet for the police Department on the cycle.

413

00:28:05.790 --> 00:28:10.290

Kevin Magee: And on the verify of the the pricing on the greats there yeah.

414

00:28:11.190 --> 00:28:17.160

iPad: Okay um Sundays thought they were his great to the started painting them away.

415

00:28:17.850 --> 00:28:23.070

Kevin Magee: everybody thinks anything from between their building in the road and their property to the road, no matter where they are think that their.

416

00:28:23.070 --> 00:28:23.610

john cunningham: property.

417

00:28:23.700 --> 00:28:25.080

Kevin Magee: If something goes wrong, and then one.

418

00:28:26.520 --> 00:28:27.210

Kevin Magee: year or something.

419

00:28:28.470 --> 00:28:29.160

Kevin Magee: it's the.

420

00:28:29.340 --> 00:28:34.230

Kevin Magee: Okay, one thing I was looking at it was just turned out with field services for future.

421

00:28:35.940 --> 00:28:47.910

Kevin Magee: plantings and stuff like that is between the pages lane heading towards a train station heading South on which field street the town owns I forget how many feet behind the road there behind the sidewalk there.

422

00:28:49.590 --> 00:28:52.830

Kevin Magee: was looking at potentially that needs a lot of Norway through there.

423

00:28:54.060 --> 00:29:04.590

Kevin Magee: Is product pi work with public works, you can maybe cut some of those back and maybe sometime we can get a nice planting in there are more appropriate street trees than the norway's which are kind of growing all kinds of.

424

00:29:06.060 --> 00:29:07.080

Kevin Magee: Wild, shall we say.

425

00:29:07.830 --> 00:29:09.840

iPad: And pages lane itself or you.

426

00:29:10.080 --> 00:29:12.990

Kevin Magee: know from pages line cell.

427

00:29:14.220 --> 00:29:18.600

Kevin Magee: So from pages line heading South towards the train station it's heading South towards the docks.

428

00:29:19.050 --> 00:29:19.410

and

429

00:29:20.670 --> 00:29:21.720

iPad: Oh okay.

430

00:29:22.080 --> 00:29:23.340

Kevin Magee: Along the sidewalk there.

431

00:29:23.700 --> 00:29:24.090

hmm.

432

00:29:25.230 --> 00:29:29.850

Kevin Magee: After verifying from the street right away maps of what we have for wrong.

433

00:29:30.030 --> 00:29:31.380

iPad: As a good possibility.

434

00:29:31.440 --> 00:29:41.070

Kevin Magee: Based there because I mean Australia they're looking just looks really wild and not really attracted through their to who want to make a nice entrance towards our.

435

00:29:41.430 --> 00:29:42.720

docs and beaches.

436

00:29:45.120 --> 00:29:50.070

iPad: There was an apart small apartment complex across some arrow paving.

437

00:29:51.870 --> 00:29:55.170

iPad: They planted trees there, do you know what kind they planted.

438

00:29:55.440 --> 00:29:56.310

Kevin Magee: No, I don't.

439

00:29:57.480 --> 00:30:05.400

Kevin Magee: And i'm hoping they they're go Okay, so I think I drove by before I think they just dropped from the ground and pointed down without.

440

00:30:05.640 --> 00:30:06.660

Kevin Magee: With a drought.

441

00:30:07.050 --> 00:30:09.240

Kevin Magee: Without the burlap or anything else, taking off.

442

00:30:10.350 --> 00:30:12.360

john cunningham: The bra is fine, on the trees Kevin.

443

00:30:12.540 --> 00:30:13.650

john cunningham: You keep on saying that.

444

00:30:13.740 --> 00:30:15.330

john cunningham: it's a biodegradable product.

445

00:30:15.720 --> 00:30:17.250

iPad: yeah it'll rot away yeah.

446

00:30:18.390 --> 00:30:20.010

Shavaun: it's real burlap well.

447

00:30:20.070 --> 00:30:29.460

john cunningham: I mean you have to know the difference between that you've been my company is spect out leaving all biodegradable burlap and all biodegradable twine on large trees.

448

00:30:29.880 --> 00:30:40.560

john cunningham: All the trees have come from New Jersey Chad aka Marty they're all left all tied up because you cannot have a separation from the tree to the root mass okay.

449

00:30:40.830 --> 00:30:41.520

john cunningham: So after.

450

00:30:41.760 --> 00:30:56.580

john cunningham: So, after that, after that burlap and rope fades away to nothing, they are hoping that the primary root structure is started to leave the root ball, but it right burlap in the rope if it is all biodegradable can all be left on the trees.

451

00:30:56.670 --> 00:30:56.880

yeah.

452

00:30:58.770 --> 00:30:59.160

john cunningham: yeah.

453

00:30:59.670 --> 00:31:02.820

Shavaun: it's just that there are an awful lot of things that come out of nurseries that.

454

00:31:03.060 --> 00:31:12.510

john cunningham: That same degree that's the one problem you have to have a really a you know landscape company that knows the difference between those things, and how.

455

00:31:13.380 --> 00:31:23.070

john cunningham: We don't want throw up going up a trunk, but we do want burlap from one side of a root ball to the other side of the root ball forming a root mass that will almost.

456

00:31:23.580 --> 00:31:25.050

john cunningham: counterweight to totally agree.

457

00:31:25.200 --> 00:31:26.820

Shavaun: yeah totally agree yeah.

458

00:31:27.810 --> 00:31:31.350

iPad: it's it's amazing there isn't an industry wide standard.

459

00:31:32.220 --> 00:31:35.520

john cunningham: Surely you know what the big you know the big problem with with planting trees are.

460

00:31:36.720 --> 00:31:38.220

john cunningham: Water okay.

461

00:31:38.520 --> 00:31:45.060

john cunningham: So we have planted at least who knows 5000 trees for the lead company in the last 10 years.

462

00:31:46.080 --> 00:31:50.010

john cunningham: You know how many have died, none none, you know why.

463

00:31:50.280 --> 00:31:58.950

john cunningham: Water yes, we have an independent company that goes around on waters everything new, you have to do, I do all my residential projects, I have to.

464

00:31:59.220 --> 00:32:10.410

john cunningham: retired horticulturist that water constantly through July and August, which is the big time springs, not a problem for us, not a problem it's the middle of summer it's a real problem.

465

00:32:11.070 --> 00:32:30.030

iPad: yeah 25 or so years ago when we planted 500 downtown in the borough the 22 the borough I, but then I forgot, who was chair was the director than a pocket REX to get the fire truck what every week, you know and all survived.

466

00:32:30.660 --> 00:32:31.230

john cunningham: yeah I mean.

467

00:32:31.500 --> 00:32:32.550

john cunningham: it's just it.

468

00:32:32.760 --> 00:32:41.850

john cunningham: It sounds really odd you can do all these things to trees, when you plant them, and you can add fertilizers, water, if the tree has an adequate water went.

469

00:32:42.990 --> 00:32:48.870

john cunningham: Through it's an end the end the end the the really important time, is the first two summers so.

470

00:32:48.930 --> 00:32:50.250

john cunningham: Those first two summers those.

471

00:32:50.250 --> 00:32:56.640

john cunningham: trees get water and they've acclimated by the third summer that tree really should be fine through the summer months the third year.

472

00:32:57.780 --> 00:32:57.990

Dottie: yeah.

473

00:32:59.490 --> 00:33:00.960

john cunningham: So just something to think about so.

474

00:33:01.110 --> 00:33:12.000

john cunningham: When we do plant these trees, they have to be able to either contain water on top of the roof there's a couple different ways, you could do that you can form an earth saucer that gets filled.

475

00:33:12.300 --> 00:33:19.170

john cunningham: You can put a bag on top i'm not a big fan of the bags, because I think they look like crap but what you know that's that's an independent where.

476

00:33:19.740 --> 00:33:24.480

iPad: Are they have adequate water supply the bags well the.

477

00:33:24.510 --> 00:33:29.700

john cunningham: bags hold the same amount of water, surely, as if there was an earth saucer around the tree.

478

00:33:30.240 --> 00:33:39.150

john cunningham: Oh fat earth saucer was filled up and that is what i'm just going to use example let's say that's 50 gallons of water inside that earth saucer.

479

00:33:39.510 --> 00:33:47.850

john cunningham: That that surcharges into the root mass directly it's the same as putting a bag, on top of the tree and filling it with water they're both the same thing.

480

00:33:48.450 --> 00:33:55.110

Kevin Magee: yeah the badger about 1015 don't believe there, and if it's a bigger tree put we put two of them around it.

481

00:33:55.140 --> 00:33:55.830

Kevin Magee: yeah do you like.

482

00:33:56.970 --> 00:33:58.350

Kevin Magee: Larger we police to.

483

00:33:58.650 --> 00:33:59.550

iPad: And then you phil.

484

00:33:59.880 --> 00:34:01.860

iPad: phil phil's those bags of water Kevin.

485

00:34:02.160 --> 00:34:02.760

iPad: i'm.

486

00:34:02.820 --> 00:34:07.980

Kevin Magee: Michael and Stewart's do once a week and then Bartlett DASA does another day during the week so they're.

487

00:34:07.980 --> 00:34:08.220

hitting.

488

00:34:09.450 --> 00:34:10.200

Kevin Magee: We have a say.

489

00:34:12.300 --> 00:34:18.510

Kevin Magee: Yes, I have a truck with my with my one of my trucks, here we have a 250 gallon tank.

490

00:34:19.560 --> 00:34:22.560

Kevin Magee: That we feel the water, and we have a pump which we do the bags with.

491

00:34:24.120 --> 00:34:26.460

iPad: Well that's good so it's reliable yep.

492

00:34:26.550 --> 00:34:30.330

Dottie: yep and you replenish your bags Kevin.

493

00:34:30.900 --> 00:34:36.510

Kevin Magee: No, I need to get more bags, because a couple and rip this past year and stuff so i'm gonna.

494

00:34:37.740 --> 00:34:39.630

Kevin Magee: Post make a couple of the budget this year.

495

00:34:40.590 --> 00:34:40.980

Dottie: Oh good.

496

00:34:41.550 --> 00:34:42.870

Kevin Magee: On my PIC i'll try to order another.

497

00:34:42.960 --> 00:34:44.280

Kevin Magee: pie 20 this year just.

498

00:34:45.270 --> 00:34:46.410
iPad: worth the investment.

499

00:34:46.770 --> 00:34:47.400
john cunningham: Oh yeah.

500

00:34:48.000 --> 00:34:52.020
iPad: yeah yeah okay does anybody else have any other business.

501

00:34:53.580 --> 00:34:56.850
iPad: If not we'll take a motion to adjourn.

502

00:34:57.240 --> 00:34:59.220
Dottie: patricia's trying to say something.

503

00:34:59.550 --> 00:35:00.480
Dottie: Put your you're muted.

504

00:35:01.710 --> 00:35:02.730
Caroline Herrick: We can't hear you.

505

00:35:03.270 --> 00:35:04.410
Dottie: Put your sound on.

506

00:35:07.140 --> 00:35:07.830
Dottie: she's doing it.

507

00:35:11.670 --> 00:35:12.480
Dottie: automatically.

508

00:35:12.780 --> 00:35:15.060
Caroline Herrick: back there I know.

509

00:35:17.610 --> 00:35:20.310
Dottie: What does that say Oh, there you are okay.

510

00:35:20.940 --> 00:35:21.900
iPad: We couldn't hear you.

511

00:35:22.320 --> 00:35:27.570

Patricia: Okay Kevin across her me i'm peddlers road that development that's going in.

512

00:35:30.330 --> 00:35:35.490

Patricia: kind of one mile a mile you know a little bit more than a mile and from route one.

513

00:35:35.670 --> 00:35:38.820

Kevin Magee: you're on the left or the right side is the left or the right side.

514

00:35:39.300 --> 00:35:40.110

Patricia: right hand side.

515

00:35:40.230 --> 00:35:44.100

Kevin Magee: it's okay i'm up near pen public parking denison drive.

516

00:35:45.120 --> 00:35:46.770

Kevin Magee: For now yeah yeah.

517

00:35:48.030 --> 00:35:54.210

Patricia: Okay, they put in a road, and you know up to apparently they're going to be three houses up there.

518

00:35:55.500 --> 00:35:56.040

Patricia: and

519

00:35:58.830 --> 00:36:03.180

Patricia: They clear the whole section and it's now treeless.

520

00:36:05.130 --> 00:36:07.320

Patricia: I don't know if you're familiar with the.

521

00:36:08.550 --> 00:36:14.640

Kevin Magee: The the plan to that property yes there's I think there's two house lights up on the Hill and other way around.

522

00:36:15.720 --> 00:36:17.190

Kevin Magee: A further up the street, I believe.

523

00:36:18.540 --> 00:36:22.470

Patricia: But the road that they put in going up to those houses.

524

00:36:23.880 --> 00:36:32.460

Patricia: They did they did a huge clearing and there are no trees there and I just wondered what the plans were to replenish the trees in that section.

525

00:36:33.600 --> 00:36:38.010

Kevin Magee: I don't recall if they had tree planting there are not enough, they just have ground.

526

00:36:40.320 --> 00:36:40.830

Kevin Magee: cover.

527

00:36:43.410 --> 00:36:44.700

Patricia: Quite a large area.

528

00:36:44.970 --> 00:36:48.840

iPad: Of dnc to to put treason street trees.

529

00:36:49.290 --> 00:36:51.870

Kevin Magee: With is a private driveway not along the road.

530

00:36:52.710 --> 00:37:01.770

Patricia: yeah it's a driveway, but when i'm concerned about is erosion, because it's on a hill like that you know and there's nothing to hold it back you know with we get.

531

00:37:04.050 --> 00:37:08.250

Patricia: You know the trees serve a purpose and i'm not sure who's responsible for that.

532

00:37:09.840 --> 00:37:14.100

Kevin Magee: yeah that was reviewed by the weapons commission to all the plans for that.

533

00:37:16.920 --> 00:37:19.710

iPad: Well, they wouldn't want emotions.

534

00:37:19.920 --> 00:37:20.640

Kevin Magee: Right and.

535

00:37:20.970 --> 00:37:24.150

iPad: They would have done a remediation thing.

536

00:37:24.750 --> 00:37:35.670

Kevin Magee: I believe the upper portion the driveway at least proportions electro is going to be paved and then the dry and the waters, then slipped into detention basins along the driveway.

537

00:37:36.660 --> 00:37:40.800

iPad: Patricia you could go to planning and zoning office and asks look at the plans.

538

00:37:43.470 --> 00:37:46.470

iPad: And then register complained if there's no replanting.

539

00:37:48.330 --> 00:37:48.900

iPad: But I.

540

00:37:50.130 --> 00:37:53.130

iPad: Caught it between PNC and wetlands.

541

00:37:53.190 --> 00:37:56.550

Patricia: If you've been by the or Kevin, but if you do go by, take a look.

542

00:37:57.030 --> 00:37:59.190

Kevin Magee: they'll take a look, I haven't been done that way in.

543

00:38:00.930 --> 00:38:03.000

Kevin Magee: A couple weeks there so i'll take a look.

544

00:38:06.720 --> 00:38:08.130

iPad: At Kathy did you have a bill.

545

00:38:08.520 --> 00:38:09.900

Kathy: yeah I sent it to Kevin.

546

00:38:10.290 --> 00:38:12.510

Kevin Magee: Yes, Kevin has a bell, thank you for the.

547

00:38:14.220 --> 00:38:16.470

Kevin Magee: reminder there click.

548

00:38:18.780 --> 00:38:20.040
Kevin Magee: on my desk here.

549

00:38:26.220 --> 00:38:29.520
Kevin Magee: For me \$142.

550

00:38:30.360 --> 00:38:31.560
iPad: Okay motion to pay this.

551

00:38:31.710 --> 00:38:34.290
iPad: Much area reveal \$143.

552

00:38:34.830 --> 00:38:35.370
Shavaun: Back end.

553

00:38:36.630 --> 00:38:38.790
iPad: Nobody who first who made the motion.

554

00:38:39.900 --> 00:38:41.820
Shavaun: Who you made the motion seconded.

555

00:38:42.630 --> 00:38:43.620
iPad: who made the motion.

556

00:38:43.680 --> 00:38:44.310
john cunningham: You did.

557

00:38:44.340 --> 00:38:45.720
iPad: Surely, I can't.

558

00:38:45.960 --> 00:38:46.830
iPad: Okay, fine.

559

00:38:47.760 --> 00:38:49.260
john cunningham: i'll make a motion to approve the intro.

560

00:38:50.010 --> 00:38:51.330
iPad: And Sharon is second.

561

00:38:51.630 --> 00:38:54.420

iPad: Second, all in favor of paying the bill.

562

00:38:55.170 --> 00:38:55.680

iPad: All right.

563

00:38:55.770 --> 00:38:56.220

Shavaun: All right.

564

00:38:56.400 --> 00:38:56.940

Thank you.

565

00:38:57.960 --> 00:38:58.950

iPad: Okay Kathy.

566

00:39:00.630 --> 00:39:02.160

iPad: how's it going to get signed.

567

00:39:03.120 --> 00:39:05.790

Kathy: Kevin signs it and then he drops it off at the.

568

00:39:06.300 --> 00:39:06.780

Kathy: Fine.

569

00:39:06.840 --> 00:39:09.870

iPad: Finance department okay all right.

570

00:39:10.110 --> 00:39:12.960

Kathy: let's say we want to set a date for our next meeting.

571

00:39:14.970 --> 00:39:17.040

iPad: When do you think you'll do the planting Kevin.

572

00:39:18.030 --> 00:39:23.940

Kevin Magee: i'm hoping do since we're actually making a decision now hopefully I can get stuff order and get it planting in and May.

573

00:39:24.810 --> 00:39:25.050

Kevin Magee: cuz.

574

00:39:25.290 --> 00:39:27.540

Kevin Magee: Like I said June we're getting we're not June.

575

00:39:27.570 --> 00:39:28.260

Kevin Magee: Because it gets stirred.

576

00:39:28.470 --> 00:39:31.350

Kevin Magee: dry there yeah April end of.

577

00:39:32.520 --> 00:39:35.550

Kevin Magee: April now so probably sometime in may try it the painting it.

578

00:39:36.090 --> 00:39:37.440

john cunningham: So do you want to go the.

579

00:39:38.010 --> 00:39:38.520

john cunningham: Week of.

580

00:39:39.120 --> 00:39:40.290

john cunningham: April or something.

581

00:39:41.730 --> 00:39:42.270

Second, when.

582

00:39:43.470 --> 00:39:45.030

Kevin Magee: The final report yeah.

583

00:39:46.440 --> 00:39:48.630

iPad: third week of April so feasible kevin's.

584

00:39:50.910 --> 00:39:54.870

Kevin Magee: yeah that's the 15th and looks like.

585

00:39:57.810 --> 00:39:59.880

iPad: The subtext day they extended to the month.

586

00:40:00.270 --> 00:40:01.200

Shavaun: They extended it.

587

00:40:01.680 --> 00:40:03.930

john cunningham: yeah right, thank God, OK.

588

00:40:03.960 --> 00:40:05.640

Kevin Magee: So in our minds going in.

589

00:40:07.050 --> 00:40:08.280

iPad: Mind sorry paid.

590

00:40:08.670 --> 00:40:10.290

john cunningham: yeah why don't we say the fairly funny.

591

00:40:12.900 --> 00:40:13.920

john cunningham: How about the 15th.

592

00:40:14.550 --> 00:40:15.960

iPad: Okay April 15.

593

00:40:16.200 --> 00:40:18.510

iPad: For you okay with everybody yeah.

594

00:40:18.600 --> 00:40:18.900

yeah.

595

00:40:20.130 --> 00:40:22.050

Kevin Magee: We can then order the trees, right after that.

596

00:40:22.110 --> 00:40:22.590

yeah.

597

00:40:23.910 --> 00:40:27.450

iPad: Okay perfect okay motion to adjourn.

598

00:40:29.130 --> 00:40:30.480

john cunningham: emotional journey up.

599

00:40:30.780 --> 00:40:31.680

iPad: To a second.

600

00:40:32.160 --> 00:40:32.730

john cunningham: or second.

601

00:40:33.450 --> 00:40:34.260

iPad: All in favor.

602

00:40:34.950 --> 00:40:35.370

Shavaun: All right.

603

00:40:35.430 --> 00:40:39.660

iPad: All right, Thank you everyone enjoy the gorgeous spring weather.

604

00:40:39.720 --> 00:40:39.990

Shavaun: yeah.

605

00:40:40.200 --> 00:40:41.220

Happy spring every.
