

WEBVTT

1

00:00:01.319 --> 00:00:02.040  
iPad: tricia and I.

2

00:00:02.550 --> 00:00:04.140  
Kevin Magee: forgot to record our recording.

3

00:00:05.339 --> 00:00:05.850  
iPad: Okay.

4

00:00:07.109 --> 00:00:07.890  
iPad: The Minutes.

5

00:00:09.090 --> 00:00:10.050  
iPad: As recorded.

6

00:00:13.139 --> 00:00:15.089  
iPad: The lady of the day, we need.

7

00:00:17.100 --> 00:00:17.940  
Caroline Herrick: you're muted.

8

00:00:19.500 --> 00:00:20.760  
iPad: Keller she's on mute.

9

00:00:23.130 --> 00:00:24.930  
Caroline Herrick: you're muted we can't hear you.

10

00:00:27.000 --> 00:00:28.170  
Shavaun Towers: There we go Thank you.

11

00:00:30.450 --> 00:00:34.050  
iPad: We say carolyn save the day by getting all of you.

12

00:00:34.830 --> 00:00:35.220  
You did.

13

00:00:36.360 --> 00:00:41.070  
Shavaun Towers: I think it's just such a rainy day that everybody was completely off.

14

00:00:44.430 --> 00:00:54.180

iPad: Okay, shall we did the Minutes, can you comment on the scoring for anyone's planting because john what didn't have a chance to check.

15

00:00:55.230 --> 00:00:56.160

Shavaun Towers: Oh i'm.

16

00:00:58.020 --> 00:01:06.660

Shavaun Towers: Actually, did I check, I think I mean, in general terms, with what we talked about was fine I didn't check specific locations.

17

00:01:09.510 --> 00:01:10.770

iPad: Kevin do we need that.

18

00:01:11.400 --> 00:01:19.590

Kevin Magee: I can show you some stuff I took pictures up today, you can comment on, yes or no on certain areas bone can comment back here.

19

00:01:20.610 --> 00:01:21.300

Just.

20

00:01:22.440 --> 00:01:24.120

Kevin Magee: Find where I saved my work.

21

00:01:28.680 --> 00:01:30.210

Caroline Herrick: i'll be right back, I just have to.

22

00:01:32.970 --> 00:01:41.340

iPad: Well he's doing that does anybody know the symbol for unmute so that, when we have future meetings, because I have a lot of meetings by soon.

23

00:01:41.850 --> 00:01:44.730

iPad: I don't know how I usually it looks a little bit.

24

00:01:44.820 --> 00:01:48.690

Shavaun Towers: like an oval microphone and there's a line through it.

25

00:01:49.170 --> 00:01:52.110

iPad: yeah but I mean, how do you tell people they need to unmute.

26

00:01:52.770 --> 00:01:59.340

Kevin Magee: Oh, I find hearing clicking that not sure if it POPS a message to a person by have a button I click.

27

00:02:01.260 --> 00:02:02.040

OK, but as.

28

00:02:03.780 --> 00:02:04.650

Shavaun Towers: Well, and then you just.

29

00:02:04.680 --> 00:02:05.310

told my.

30

00:02:06.690 --> 00:02:10.500

iPad: Sign line which would dottie by doing this, and this.

31

00:02:12.570 --> 00:02:15.780

Kevin Magee: Usually, if you hold the year means yeah you can't hear them  
hmm.

32

00:02:16.110 --> 00:02:16.830

Okay.

33

00:02:19.230 --> 00:02:21.300

iPad: Alright, so are you ready Kevin.

34

00:02:34.770 --> 00:02:37.440

Kevin Magee: Okay, you see the photos yeah.

35

00:02:38.400 --> 00:02:38.790

yeah.

36

00:02:43.530 --> 00:02:44.640

Kevin Magee: 1664.

37

00:02:46.110 --> 00:02:46.920

Kevin Magee: Fair street.

38

00:02:48.240 --> 00:02:49.890

Kevin Magee: As you see, there are wires.

39

00:02:50.340 --> 00:02:52.050

Kevin Magee: yeah on this side, the road.

40

00:02:53.370 --> 00:02:56.550

Kevin Magee: That had about a six foot wide planning strip in there.

41

00:02:58.170 --> 00:03:00.270

Shavaun Towers: Well, we should certainly plant in front.

42

00:03:01.620 --> 00:03:04.740

Kevin Magee: And I think rather stumps or two trees there.

43

00:03:05.250 --> 00:03:26.250

Shavaun Towers: yeah it would be, it would be a kindness to space, the trees relative to the front door, not just arbitrarily on the tree lawn I happen to have listened to somebody on lecture on on tree spacing.

44

00:03:28.050 --> 00:03:38.520

Shavaun Towers: relative to the buildings that were there, so they made sense and the street didn't operate independent from the building That said, it may not make sense to do that.

45

00:03:40.740 --> 00:03:41.790

Shavaun Towers: But to would be good.

46

00:03:42.660 --> 00:03:51.210

iPad: But what for what are the other, I know there are a lot of crab apples or fear street oh Where are you planting other types of trees there.

47

00:03:55.530 --> 00:03:56.940

Shavaun Towers: Kevin that's your question.

48

00:03:56.970 --> 00:04:04.170

Kevin Magee: You can do I mean you can probably if you want to keep a mixed in there, another some crap those have sometimes have their issues with them.

49

00:04:04.590 --> 00:04:05.010

Shavaun Towers: yeah.

50

00:04:05.910 --> 00:04:09.600

Kevin Magee: You want to add some cherries, a good mix look in there.

51

00:04:11.250 --> 00:04:12.420

iPad: What do you think sure.

52

00:04:13.140 --> 00:04:16.080

Shavaun Towers: um what crab is do you have out there.

53

00:04:18.000 --> 00:04:19.740

iPad: You know crab apple.

54

00:04:20.250 --> 00:04:21.030

Kevin Magee: Oh.

55

00:04:21.540 --> 00:04:22.170

What kind.

56

00:04:23.730 --> 00:04:24.720

Kevin Magee: No, no.

57

00:04:26.880 --> 00:04:28.770

Kevin Magee: No, I don't agree.

58

00:04:29.820 --> 00:04:39.180

Shavaun Towers: there's they're so diverse and form it probably doesn't matter if if it isn't a consistent variety, we could certainly mix in different species.

59

00:04:42.180 --> 00:04:46.470

Shavaun Towers: something other than white would probably be nice so a pink one.

60

00:04:47.880 --> 00:04:49.620

iPad: pink what up.

61

00:04:49.710 --> 00:04:54.750

Shavaun Towers: Well, either a pink pink of pale pink cherry or crab.

62

00:04:57.150 --> 00:04:58.140

With a six foot.

63

00:04:59.460 --> 00:05:02.940

Shavaun Towers: You could you could plant almost anything but obviously it has to be.

64

00:05:04.260 --> 00:05:06.570

Shavaun Towers: relative to the wires um.

65

00:05:06.990 --> 00:05:07.440

yeah.

66

00:05:09.180 --> 00:05:11.160

iPad: Is that hollingsworth spouse.

67

00:05:12.240 --> 00:05:13.830

Kevin Magee: I think it's their former yeah.

68

00:05:13.920 --> 00:05:14.400

yeah.

69

00:05:15.540 --> 00:05:16.710

iPad: They still live.

70

00:05:18.600 --> 00:05:19.350

Kathy: I think so.

71

00:05:19.890 --> 00:05:20.520

Okay.

72

00:05:21.840 --> 00:05:23.910

iPad: I haven't heard anything about out a long.

73

00:05:23.940 --> 00:05:24.330

Kathy: Time.

74

00:05:24.390 --> 00:05:28.620

Kathy: I don't even know if he's still alive he's 88 now.

75

00:05:29.880 --> 00:05:31.530

iPad: They are right behind it so.

76

00:05:32.460 --> 00:05:33.060

Be careful.

77

00:05:36.000 --> 00:05:38.280

iPad: I saw two carries of crabs.

78

00:05:38.820 --> 00:05:47.880

Shavaun Towers: yeah I as large I mean as something that's going to get as large as we can you don't want something that system is going to be 12 feet.

79

00:05:49.320 --> 00:05:52.290

Shavaun Towers: Ideally, something that's going to be more like 16.

80

00:05:53.880 --> 00:05:57.720

iPad: Can you check back with Kevin to check back with cheryl.

81

00:05:59.940 --> 00:06:01.740

iPad: Where they check the availability.

82

00:06:02.010 --> 00:06:03.450

Kevin Magee: yeah when we're looking at.

83

00:06:05.010 --> 00:06:08.310

Kevin Magee: doing a height of 16 feet well.

84

00:06:08.340 --> 00:06:10.290

Shavaun Towers: Something that's ultimately going to be.

85

00:06:10.740 --> 00:06:11.130

Oh.

86

00:06:12.300 --> 00:06:14.700

Shavaun Towers: yeah oh you're not going to get 16 feet now.

87

00:06:14.850 --> 00:06:16.920

Shavaun Towers: No, not within your budget.

88

00:06:19.140 --> 00:06:33.240

Shavaun Towers: But all i'm saying is we don't want a crab that's going to get to 10 to 12 feet, if we can get one that's going to get taller so a cherry might give us a little more height and still respect the wires.

89

00:06:34.770 --> 00:06:35.640

Shavaun Towers: aren't variety.

90

00:06:35.940 --> 00:06:41.850

Kevin Magee: You actually want something also that high enough to that you're not hitting your head down the sidewalk and the vehicles.

91

00:06:41.850 --> 00:06:42.930

Kevin Magee: are rubbing against it.

92

00:06:42.960 --> 00:06:47.460

Shavaun Towers: yeah yeah either that and or the form has to be more upright.

93

00:06:48.660 --> 00:06:50.700

Shavaun Towers: So, not a really wide spreading.

94

00:06:51.900 --> 00:06:54.870

Shavaun Towers: One, which would have issues with the sidewalk.

95

00:06:55.860 --> 00:06:57.240

iPad: What kind of cherries.

96

00:07:00.300 --> 00:07:05.070

Shavaun Towers: Why don't you see what you can get again there's so many different varieties.

97

00:07:07.680 --> 00:07:11.850

Shavaun Towers: Why don't you see what's available, and then we can narrow it down from there.

98

00:07:12.030 --> 00:07:14.820

Kevin Magee: Just like the stock and I can let you and john doe what's.

99

00:07:15.330 --> 00:07:17.250

Kevin Magee: OK out there, but at least we have.

100

00:07:18.600 --> 00:07:22.680

Kevin Magee: two choices of the crab or cherry least for availability yeah.

101

00:07:24.480 --> 00:07:26.400

iPad: Does anybody else have an opinion.

102

00:07:29.340 --> 00:07:30.870

iPad: Okay, the next one Kevin.

103

00:07:34.710 --> 00:07:36.000

Kevin Magee: So Nicole yeah.

104

00:07:36.510 --> 00:07:38.430

iPad: yeah that's up to you.

105

00:07:40.170 --> 00:07:42.240

Kevin Magee: So that's 47th street.

106

00:07:42.990 --> 00:07:44.280

iPad: As across the street.

107

00:07:44.370 --> 00:07:47.700

Kevin Magee: Okay move it down from from there um.

108

00:07:49.260 --> 00:07:50.310

Kevin Magee: We put in.

109

00:07:53.130 --> 00:07:55.620

Kevin Magee: White red or white red oak same year.

110

00:07:55.620 --> 00:07:57.540

Shavaun Towers: Before probably red oaks.

111

00:07:58.890 --> 00:08:11.160

Shavaun Towers: I know john really likes red rocks and then they're tough they do amazingly well, so it was and white oaks don't transplant as well, so it's unlikely that it was white.

112

00:08:13.470 --> 00:08:16.380

Kathy: know what the plan was for red oak something yeah.

113

00:08:16.770 --> 00:08:17.280

Shavaun Towers: Thank you.

114

00:08:18.390 --> 00:08:21.780

Shavaun Towers: yeah, so I think if, though with a red oak again.

115

00:08:22.440 --> 00:08:24.240

iPad: Emily spaces Kevin.

116

00:08:25.140 --> 00:08:28.860

Kevin Magee: I think only one pole because a trip on a driveway so.

117

00:08:29.700 --> 00:08:33.420

Shavaun Towers: yeah I think one is to would be dense.

118

00:08:34.470 --> 00:08:35.670

Shavaun Towers: So let's go with one.

119

00:08:42.570 --> 00:08:46.770

Kevin Magee: This is just showing that that 16 years three they actually pointed the two trees.

120

00:08:47.310 --> 00:08:47.940

Shavaun Towers: out okay.

121

00:08:48.450 --> 00:08:49.260

iPad: Well, they did.

122

00:08:49.530 --> 00:08:51.780

iPad: yeah what did they plant.

123

00:08:52.260 --> 00:08:53.340

and

124

00:08:59.730 --> 00:09:01.650

Kevin Magee: then tell me, trying to see.

125

00:09:05.070 --> 00:09:07.980

iPad: A look Nice is that a good size.

126

00:09:08.340 --> 00:09:08.820

yeah.

127

00:09:10.470 --> 00:09:12.660

Kevin Magee: Go smoother bark on it so.

128

00:09:18.240 --> 00:09:20.490

Kevin Magee: there's nothing blooming yet, but we'll find out.

129

00:09:21.120 --> 00:09:21.420

yeah.

130

00:09:23.130 --> 00:09:24.750

iPad: Okay, so we don't have to do that.

131

00:09:25.350 --> 00:09:31.860

Kevin Magee: nope Well he had the order for him to put the trees in there, because he took out that one tree, yes, so um.

132

00:09:33.960 --> 00:09:34.530

iPad: yeah.

133

00:09:34.860 --> 00:09:35.280

The garden.

134

00:09:38.760 --> 00:09:44.040

Shavaun Towers: That symmetrical to the House which, with a smaller tree actually helps.

135

00:09:47.340 --> 00:09:50.100

Kevin Magee: But it's one to the corner of the House sort of or.

136

00:09:50.730 --> 00:09:57.690

Shavaun Towers: Via well in this case, you can see it's equidistant from the Center line, which is that stepping block.

137

00:09:57.750 --> 00:09:58.380

Kevin Magee: Okay yeah.

138

00:10:02.790 --> 00:10:06.930

Kevin Magee: yeah sometimes these locations you shift have to shift a little bit because he had that gas line or waterline.

139

00:10:06.930 --> 00:10:08.250

Shavaun Towers: Cut right in your way.

140

00:10:09.900 --> 00:10:11.880

iPad: That broad street that's.

141

00:10:12.570 --> 00:10:14.250

Kevin Magee: 53 broad street.

142

00:10:16.200 --> 00:10:17.610

iPad: that's what my son lives.

143

00:10:18.480 --> 00:10:18.810

Oh.

144

00:10:21.000 --> 00:10:22.290

Kevin Magee: We took out a large.

145

00:10:23.880 --> 00:10:29.250

Kevin Magee: I believe it was a North maple that was growing by the driveway over here.

146

00:10:29.670 --> 00:10:31.770

Shavaun Towers: Right oh that was yeah.

147

00:10:32.100 --> 00:10:33.210

iPad: hello, the fence.

148

00:10:33.480 --> 00:10:39.300

Kevin Magee: yeah there he had the wires here is just phone the powers on the other side, the road.

149

00:10:39.780 --> 00:10:41.550

Shavaun Towers: Oh okay so.

150

00:10:42.210 --> 00:10:50.820

Kevin Magee: Tell me, can be kind of maybe tuck closer towards the fence there, and you probably be clear for growing up, it has to be trimmed away from the wires as a gross.

151

00:10:51.330 --> 00:10:51.720

uh huh.

152

00:10:53.760 --> 00:10:56.730

Shavaun Towers: Is, is there not a sidewalk on that so.

153

00:10:56.790 --> 00:10:59.640

Kevin Magee: there's no sidewalk on that side replay.

154

00:11:03.120 --> 00:11:08.310

Shavaun Towers: Of that's right, I guess, not all right um can we get two trees in there.

155

00:11:16.320 --> 00:11:18.120

iPad: Either wires I can see.

156

00:11:18.390 --> 00:11:18.810

The.

157

00:11:20.940 --> 00:11:22.440

Kevin Magee: Communication wires only.

158

00:11:24.450 --> 00:11:34.170

Kevin Magee: So it's not power, which is the more one concern that communications, they can grow closer to the power they had the distance requirements.

159

00:11:34.890 --> 00:11:35.460

Okay.

160

00:11:37.800 --> 00:11:39.870

Shavaun Towers: And what else is on that side of the street.

161

00:11:41.070 --> 00:11:42.600

Kevin Magee: That one has a bunch of.

162

00:11:43.530 --> 00:11:44.310

iPad: classes class.

163

00:11:48.780 --> 00:11:49.140

Shavaun Towers: Very.

164

00:11:49.470 --> 00:11:51.090

Kevin Magee: closer to their no i'm.

165

00:11:52.380 --> 00:11:53.790  
iPad: Actually right.

166  
00:11:58.560 --> 00:12:05.160  
dottie colonese: yeah the start of broad speed, it has a few I guess they're crabs surely said there's three or four of them.

167  
00:12:05.610 --> 00:12:06.900  
Shavaun Towers: yeah North side.

168  
00:12:08.130 --> 00:12:09.840  
iPad: Not you Lewis planet those.

169  
00:12:09.870 --> 00:12:11.820  
dottie colonese: river at river street side.

170  
00:12:12.870 --> 00:12:14.490  
iPad: Right really well.

171  
00:12:19.380 --> 00:12:31.920  
Shavaun Towers: Well, again, if we can get something that's going to get big enough, I mean was only the telephone line we could get a medium sized tree in here, and you wouldn't have heavy branches falling anyway.

172  
00:12:33.450 --> 00:12:35.880  
Kevin Magee: What would you consider a medium sized tree.

173  
00:12:37.980 --> 00:12:40.350  
Shavaun Towers: 30 to 40.

174  
00:12:40.650 --> 00:12:41.100  
Okay.

175  
00:12:42.360 --> 00:12:46.170  
Kevin Magee: Because it's I mean we have no sidewalk there too, so i'm not sure if you.

176  
00:12:48.450 --> 00:12:52.800  
Kevin Magee: Read maple or something different or since we have no sidewalk to worry about roots.

177  
00:12:54.630 --> 00:12:55.290

Shavaun Towers: that's a thought.

178

00:12:56.820 --> 00:12:57.540

Shavaun Towers: i'm.

179

00:12:59.100 --> 00:13:02.430

iPad: sure they just replace that fence.

180

00:13:07.440 --> 00:13:18.720

Shavaun Towers: Well, I mean it would be classic of the era, I mean people planted maples sugar maples a lot but red maples are much more tolerant.

181

00:13:20.340 --> 00:13:21.810

Shavaun Towers: i'd go for a red maple.

182

00:13:23.160 --> 00:13:25.080

iPad: Okay, very thankful to.

183

00:13:26.850 --> 00:13:27.180

Shavaun Towers: Do.

184

00:13:32.160 --> 00:13:36.240

Kevin Magee: Once we go through the list or he may have to narrow down our planning spots here release we can get some.

185

00:13:37.080 --> 00:13:38.700

Kevin Magee: Sure thoughts for him.

186

00:13:41.070 --> 00:13:45.090

Kevin Magee: But actually this will help finish this area, and then we can kind of work elsewhere sort of.

187

00:13:47.820 --> 00:13:56.760

Kevin Magee: This is showing looking up and we don't have to point you ever just kind of showing you the this can be shooter anyway so Barbara one at 138 state street.

188

00:13:57.090 --> 00:13:57.750

Shavaun Towers: Oh right.

189

00:13:58.620 --> 00:14:00.810

Kevin Magee: right behind the shopping Center there.

190

00:14:01.200 --> 00:14:02.460

Shavaun Towers: right we desperately needs.

191

00:14:02.610 --> 00:14:04.620

Kevin Magee: Reason there and then.

192

00:14:06.570 --> 00:14:11.250

Kevin Magee: Also, just north of that location at 158.

193

00:14:12.660 --> 00:14:17.940

Kevin Magee: And then possibly in front of 164 state street.

194

00:14:18.510 --> 00:14:18.930

Shavaun Towers: uh huh.

195

00:14:20.700 --> 00:14:35.970

Shavaun Towers: Okay yeah that those know why I mean it'd be great if we could get large street trees I don't know if you've got enough Roman there, but that would ultimately give you some arching over the road.

196

00:14:36.390 --> 00:14:41.610

Kevin Magee: yeah that had a believer not have about seven foot wide strip between the road that sidewalk there.

197

00:14:41.760 --> 00:14:44.700

Shavaun Towers: yeah yeah we've done enough room to do quite a bit then.

198

00:14:47.160 --> 00:14:47.610

Kevin Magee: So that.

199

00:14:48.720 --> 00:14:51.180

Kevin Magee: yeah future or potential.

200

00:14:52.860 --> 00:14:53.640

Kevin Magee: Does this is.

201

00:14:54.780 --> 00:14:56.100

Kevin Magee: Just South route one.

202

00:14:58.200 --> 00:14:58.710  
Kevin Magee: penn.

203  
00:15:00.870 --> 00:15:05.550  
Kevin Magee: State street looking up at a couple different angles here.

204  
00:15:06.750 --> 00:15:08.400  
Kevin Magee: Across the street looking at it here.

205  
00:15:08.850 --> 00:15:11.790  
Shavaun Towers: right that but that's a much narrower.

206  
00:15:12.240 --> 00:15:12.780  
Kevin Magee: It is.

207  
00:15:13.590 --> 00:15:14.850  
Kevin Magee: very narrow there.

208  
00:15:15.420 --> 00:15:15.660  
yeah.

209  
00:15:17.580 --> 00:15:18.810  
Kevin Magee: What did I have.

210  
00:15:22.530 --> 00:15:24.270  
Kevin Magee: About four and a half feet wide.

211  
00:15:25.290 --> 00:15:28.380  
Shavaun Towers: I mean it's something will live We just have to make sure that.

212  
00:15:31.620 --> 00:15:35.430  
Shavaun Towers: We can limit, it can be planted limbed up enough.

213  
00:15:37.770 --> 00:15:40.320  
Shavaun Towers: To not impair movement on the sidewalk.

214  
00:15:40.830 --> 00:15:41.400  
Kevin Magee: Right well.

215  
00:15:41.730 --> 00:15:49.860

Shavaun Towers: You know, extending into the parking area you can't have a u haul van pull up against something that's jutting out.

216

00:15:51.060 --> 00:15:51.570

Kevin Magee: So I.

217

00:15:52.380 --> 00:15:59.280

Shavaun Towers: would say another large tree, so you can get it limbed up and keep it high enough.

218

00:16:01.890 --> 00:16:04.170

Shavaun Towers: Because the only of the cross wires there you don't have.

219

00:16:06.840 --> 00:16:07.740

Shavaun Towers: So yeah.

220

00:16:08.430 --> 00:16:14.910

Kevin Magee: They couldn't we just did the I think we did we did this road with last year's planning, I think, was the pin oaks.

221

00:16:15.600 --> 00:16:15.990

yeah.

222

00:16:17.100 --> 00:16:20.610

Shavaun Towers: yeah let's I would I would go from our pin oaks up here.

223

00:16:22.770 --> 00:16:27.750

iPad: That finished the street, if you plan it is those spots that you just showed us.

224

00:16:27.960 --> 00:16:34.410

Kevin Magee: GM you have a point here in front of one there's probably clean up that area where there really isn't any.

225

00:16:36.720 --> 00:16:44.280

Kevin Magee: trees there because I think I had that one in state street let's see what else yep that would finish it up this is kind of rotates.

226

00:16:44.520 --> 00:16:46.500

Shavaun Towers: The other fast yeah.

227

00:16:46.710 --> 00:16:50.310

Kevin Magee: And just in front of my truck is where the tree recently planted.

228

00:16:50.640 --> 00:16:51.660

Shavaun Towers: Okay, three men.

229

00:16:52.560 --> 00:16:53.100

um.

230

00:16:54.300 --> 00:16:58.830

Shavaun Towers: Is there something right behind oh there's a sign behind the sign so um yeah.

231

00:16:59.130 --> 00:16:59.970

Kevin Magee: The sign here.

232

00:17:00.390 --> 00:17:14.250

Shavaun Towers: yeah no I was, I was trying to I thought it couldn't see what it was um yeah I know it'd be great to get one or two more trees there it's pretty bare in front of the just hatched too isn't it there's nothing.

233

00:17:15.390 --> 00:17:18.690

Kevin Magee: The other duck anything that gets in Europe from from.

234

00:17:18.720 --> 00:17:21.210

Shavaun Towers: Child at that hour okay forget it than.

235

00:17:22.620 --> 00:17:23.310

One button here.

236

00:17:25.200 --> 00:17:25.620

iPad: And I want.

237

00:17:25.770 --> 00:17:26.340

to feel.

238

00:17:29.640 --> 00:17:31.890

Kevin Magee: Like a cross through that every year.

239

00:17:32.820 --> 00:17:35.970

Shavaun Towers: Having said on the I think somewhere along the line on the.

240

00:17:38.070 --> 00:17:57.270

Shavaun Towers: Design review committee, we wanted the oh no it wasn't here, it was one other place, it would be nice if there were some trees there but you're you're not going to interfere with sightlines at the intersection what you've got is the turning into the judge just hatched driveway.

241

00:17:58.320 --> 00:17:59.130

iPad: Fuck it up.

242

00:17:59.550 --> 00:18:04.170

Shavaun Towers: yeah but it won't be a sightline issue, but it may be.

243

00:18:06.810 --> 00:18:08.640

Shavaun Towers: just maybe two now for tree.

244

00:18:12.150 --> 00:18:14.370

Kevin Magee: I can put a questionnaire, we can check.

245

00:18:15.000 --> 00:18:15.420

yeah.

246

00:18:19.980 --> 00:18:21.420

iPad: Continue the pills.

247

00:18:22.830 --> 00:18:23.490

Shavaun Towers: Yes.

248

00:18:25.380 --> 00:18:26.580

iPad: How many sites.

249

00:18:41.790 --> 00:18:45.540

Kevin Magee: not sure if you get one in front 110 here one up, on the other side of.

250

00:18:46.590 --> 00:18:46.860

By.

251

00:18:47.940 --> 00:18:49.080

Shavaun Towers: That would be great.

252

00:18:50.730 --> 00:18:55.020

Shavaun Towers: Because it's a ways down to where you just planted the other tree so.

253

00:18:55.140 --> 00:19:02.610

Shavaun Towers: Right, you know in that stretch I if you could plant fairly close to their driveway and then be able to get.

254

00:19:03.240 --> 00:19:22.680

Shavaun Towers: One, you can see, the two two cars is approximately 40 feet so you've got almost 80 feet stretch between the two driveways it's certainly enough room longitudinally for two trees I just don't have the width of the tree strip is enough.

255

00:19:23.190 --> 00:19:23.700

Right.

256

00:19:28.080 --> 00:19:30.510

Kevin Magee: Well i'll double check they didn't get that far just.

257

00:19:31.560 --> 00:19:37.020

Shavaun Towers: yeah, but you can see just looking in this shot if you had a tree between you and the.

258

00:19:39.210 --> 00:19:45.870

Shavaun Towers: shopping Center it would maintain the residential scale of lower state.

259

00:19:47.040 --> 00:19:47.520

Shavaun Towers: honor.

260

00:19:49.980 --> 00:19:51.180

Kevin Magee: have to here's looking up.

261

00:19:54.330 --> 00:19:56.760

Kevin Magee: was probably one here I think there's.

262

00:19:59.550 --> 00:20:00.810

Shavaun Towers: room for one there.

263

00:20:00.870 --> 00:20:02.160  
Kevin Magee: don't between here.

264  
00:20:02.610 --> 00:20:03.810  
Kevin Magee: yeah and then.

265  
00:20:05.280 --> 00:20:07.050  
Kevin Magee: there's just hi to his driveway.

266  
00:20:08.400 --> 00:20:08.820  
Shavaun Towers: yeah.

267  
00:20:09.540 --> 00:20:13.560  
Kevin Magee: I think we sent her probably in front of skies door not sure  
if that would work to our fun.

268  
00:20:14.880 --> 00:20:15.420  
yeah.

269  
00:20:17.400 --> 00:20:18.180  
Shavaun Towers: I.

270  
00:20:20.340 --> 00:20:22.020  
Shavaun Towers: See, I will go by.

271  
00:20:23.310 --> 00:20:24.480  
Shavaun Towers: And look at that one.

272  
00:20:26.580 --> 00:20:29.940  
iPad: How many potentially on state street in oaks.

273  
00:20:30.600 --> 00:20:32.190  
Kevin Magee: That looks like we have three here.

274  
00:20:33.030 --> 00:20:35.610  
dottie colonese: three oh where'd I.

275  
00:20:39.240 --> 00:20:39.990  
dottie colonese: Say oh.

276  
00:20:42.450 --> 00:20:49.080

iPad: we're up to eight trees in total, what do we have money for dottie  
10.

277

00:20:51.330 --> 00:20:54.270

dottie colonese: um I think we decided to keep it in a.

278

00:20:56.070 --> 00:21:01.740

dottie colonese: Brown and then it would be nine with the one the town is  
paying for.

279

00:21:03.450 --> 00:21:05.580

iPad: Okay, so we have a now.

280

00:21:08.340 --> 00:21:12.600

Kevin Magee: Design food your that's outside of your donations right for  
the memorials.

281

00:21:14.760 --> 00:21:16.230

dottie colonese: Excuse me, oh.

282

00:21:16.380 --> 00:21:19.500

Kevin Magee: yeah you're outside of that then the memorials.

283

00:21:20.340 --> 00:21:24.240

dottie colonese: um yes, we can cover a truth, besides.

284

00:21:26.010 --> 00:21:28.470

dottie colonese: Walter license wife.

285

00:21:28.650 --> 00:21:28.980

I said.

286

00:21:30.060 --> 00:21:31.140

dottie colonese: Why sin board.

287

00:21:31.290 --> 00:21:31.650

Okay.

288

00:21:34.530 --> 00:21:35.340

dottie colonese: So absolutely.

289

00:21:35.400 --> 00:21:43.410  
dottie colonese: Alright, so that's been put in our funds anyway so we'll be financing out of our treasure treasure 893.

290  
00:21:44.970 --> 00:21:45.570  
iPad: Okay.

291  
00:21:47.100 --> 00:21:52.410  
iPad: So I have to unfair street two cherries or crab.

292  
00:21:53.760 --> 00:21:58.530  
iPad: betting above the size, one is red ochre 47th there.

293  
00:21:59.880 --> 00:22:02.700  
iPad: And to renovables of 53 broad.

294  
00:22:03.120 --> 00:22:06.810  
iPad: Road and three pin oaks and state street.

295  
00:22:08.100 --> 00:22:11.880  
dottie colonese: We add 10 round the 10 state street.

296  
00:22:12.690 --> 00:22:13.560  
iPad: I don't know where.

297  
00:22:13.680 --> 00:22:14.400  
Kevin Magee: One time.

298  
00:22:15.630 --> 00:22:17.220  
Kevin Magee: A 110 yeah.

299  
00:22:19.920 --> 00:22:22.230  
dottie colonese: Okay, yes okay.

300  
00:22:27.150 --> 00:22:31.110  
dottie colonese: So then we're not doing anything i'm an upper state.

301  
00:22:36.360 --> 00:22:36.780  
Kevin Magee: The.

302  
00:22:37.800 --> 00:22:38.250

Kevin Magee: Future.

303

00:22:38.790 --> 00:22:39.420

Okay.

304

00:22:41.040 --> 00:22:43.650

dottie colonese: This one make sure i'm getting this all correct yeah.

305

00:22:46.020 --> 00:22:48.090

iPad: Does anybody else have any comments.

306

00:22:49.650 --> 00:22:57.900

Kevin Magee: I mean if there's an issue with planting in this area here with the oaks we can always then bouncing up further if there's some seems to be some utility conflicts or something like that.

307

00:22:58.230 --> 00:22:58.740

Okay.

308

00:22:59.850 --> 00:23:01.080

Shavaun Towers: Now that the.

309

00:23:02.430 --> 00:23:06.660

Shavaun Towers: In addition to walters we have a couple going on the green and those are.

310

00:23:07.590 --> 00:23:09.510

Shavaun Towers: Coming out of this so that's a different fund.

311

00:23:09.960 --> 00:23:12.660

Kevin Magee: i'm told them are coming over town fund.

312

00:23:13.050 --> 00:23:13.440

Okay.

313

00:23:14.490 --> 00:23:21.240

iPad: And walters covered with a donation to the government right and, in addition to that, the garden club will pay for it.

314

00:23:21.840 --> 00:23:22.260

Okay.

315

00:23:24.840 --> 00:23:26.460

Shavaun Towers: Well then, I think we're good.

316

00:23:26.880 --> 00:23:27.960

Kevin Magee: Okay yeah.

317

00:23:28.500 --> 00:23:30.510

iPad: i'm glad she took all these pictures.

318

00:23:31.140 --> 00:23:31.350

Shavaun Towers: yeah.

319

00:23:31.500 --> 00:23:32.730

Shavaun Towers: very helpful, thank you.

320

00:23:32.940 --> 00:23:37.650

Kevin Magee: yeah no help and then just kind of future future shots if I have them here.

321

00:23:38.760 --> 00:23:40.410

Kevin Magee: For thoughts, this is um.

322

00:23:41.670 --> 00:23:42.990

Kevin Magee: We feel street.

323

00:23:43.830 --> 00:23:44.310

Kevin Magee: One right.

324

00:23:44.370 --> 00:23:53.310

Kevin Magee: me for 128 somewhat narrow in there, we took a tree out to a couple trees out of here the past couple of years.

325

00:23:55.320 --> 00:23:57.990

Kevin Magee: One for 38 which hill street.

326

00:23:59.040 --> 00:24:01.950

Kevin Magee: There are about three and a half to four foot wide strips there.

327

00:24:05.670 --> 00:24:10.680

Kevin Magee: 142 so much situation.

328

00:24:12.540 --> 00:24:14.700

Kevin Magee: 158.

329

00:24:15.930 --> 00:24:17.160

Shavaun Towers: looks really now.

330

00:24:17.670 --> 00:24:23.280

Kevin Magee: yeah I want 58 was yeah it's about three foot wide and can really.

331

00:24:24.330 --> 00:24:24.570

Shavaun Towers: push.

332

00:24:25.800 --> 00:24:27.990

iPad: It took two big ones out there, I think.

333

00:24:28.560 --> 00:24:35.850

Shavaun Towers: I know, but they were expanded into the sidewalk I mean we'd be nice to put some back.

334

00:24:37.380 --> 00:24:38.640

Shavaun Towers: that's awfully narrow.

335

00:24:39.210 --> 00:24:39.510

down.

336

00:24:42.030 --> 00:24:44.700

Kevin Magee: Closer photos of the area here yeah.

337

00:24:50.580 --> 00:24:53.310

Kevin Magee: Next to this gets a little bit wider down here at.

338

00:24:54.750 --> 00:24:58.200

Kevin Magee: 186 year olds getting about five feet through.

339

00:24:58.740 --> 00:25:00.450

Kevin Magee: Okay here.

340

00:25:01.020 --> 00:25:03.600

Shavaun Towers: That would be very nice to add some more back in.

341

00:25:05.100 --> 00:25:09.120

Kevin Magee: Yes, this picture is about five feet wide district three here yeah.

342

00:25:09.780 --> 00:25:15.660

Shavaun Towers: I mean in we've all talked about trying to do the main or major.

343

00:25:17.130 --> 00:25:19.530

Shavaun Towers: A trophy green and certainly.

344

00:25:20.880 --> 00:25:23.970

Shavaun Towers: Whitfield straight on state street both qualify so.

345

00:25:25.680 --> 00:25:28.320

iPad: At least we're finishing fair and stay.

346

00:25:28.770 --> 00:25:29.220

yeah.

347

00:25:32.430 --> 00:25:35.340

iPad: So we have to keep in mind Whitfield next.

348

00:25:35.700 --> 00:25:36.630

Kevin Magee: Year right yep.

349

00:25:37.260 --> 00:25:41.370

Shavaun Towers: Well, and last year we planted quite a few on what feel bored with yeah.

350

00:25:42.420 --> 00:25:49.350

Shavaun Towers: I think if we go plant state street this time, when we come back and we do with more of Whitfield next.

351

00:25:50.370 --> 00:25:51.750

Shavaun Towers: That seems OK.

352

00:25:52.200 --> 00:25:56.400

Kevin Magee: ya know by next year hope I get somebody stumps ground do we can have some.

353

00:25:56.670 --> 00:25:58.740

Shavaun Towers: cloud that would be another reason for putting.

354

00:25:58.740 --> 00:25:59.700

Shavaun Towers: It off yeah.

355

00:26:00.810 --> 00:26:03.960

iPad: So, will you say this year, do you mean that's all.

356

00:26:06.270 --> 00:26:07.950

iPad: Or are you talking about exploring.

357

00:26:10.050 --> 00:26:16.110

Kevin Magee: It gets depends what you're looking for if you're looking for more or something like that those are only a spring dig and planting.

358

00:26:18.090 --> 00:26:19.350

Kevin Magee: Watch of the variety we're.

359

00:26:19.380 --> 00:26:20.340

Kevin Magee: Looking to use.

360

00:26:25.140 --> 00:26:27.090

iPad: What do you think should bode.

361

00:26:27.720 --> 00:26:28.110

well.

362

00:26:32.070 --> 00:26:43.230

Shavaun Towers: i'd be okay during state street this year and coming in getting the stumps ground out and then coming in and following up on that effort with more trees.

363

00:26:44.250 --> 00:26:44.850

Shavaun Towers: and doing it.

364

00:26:45.240 --> 00:26:45.450

and

365

00:26:46.650 --> 00:26:51.390

Shavaun Towers: It would probably have to be I forget what we what else we planted last year on Whitfield.

366

00:26:53.430 --> 00:26:54.240

iPad: They took.

367

00:26:54.990 --> 00:26:55.320

yeah.

368

00:26:56.460 --> 00:26:58.590

Shavaun Towers: Well that's because Kevin took care of them.

369

00:26:59.610 --> 00:27:03.480

iPad: Thank God this we had such a drought, I know.

370

00:27:04.050 --> 00:27:07.350

Kevin Magee: I know a year before last, I think we did a couple of London planes in there.

371

00:27:08.580 --> 00:27:09.540

Shavaun Towers: Oh fabulous.

372

00:27:11.250 --> 00:27:12.690

iPad: A spring or fall.

373

00:27:15.480 --> 00:27:18.960

Shavaun Towers: I don't remember, I think you can do either.

374

00:27:20.640 --> 00:27:24.000

iPad: yeah Daddy do you think the golden globe and add more money in the fall.

375

00:27:25.980 --> 00:27:35.610

dottie colonese: You know I never got a response from the Guilford foundation, I am at this point thinking we we haven't been accepted for the grant.

376

00:27:37.080 --> 00:27:38.880

iPad: it's early May they tell you.

377

00:27:39.330 --> 00:27:42.270

dottie colonese: Okay, so i'll keep my fingers crossed i'll let you know.

378

00:27:42.660 --> 00:27:46.290

iPad: Okay hurry for the science project either.

379

00:27:47.130 --> 00:27:47.730

Okay.

380

00:27:57.240 --> 00:27:58.740

iPad: Okay So where are we good.

381

00:28:00.000 --> 00:28:03.990

Kevin Magee: we're good here we'll just check the varieties and.

382

00:28:05.010 --> 00:28:06.000

Kevin Magee: To phone and.

383

00:28:08.100 --> 00:28:10.830

Kevin Magee: john I can meet out there and we can kind of.

384

00:28:11.940 --> 00:28:15.780

Kevin Magee: put some steaks or paint on the ground to where we want to place them.

385

00:28:16.260 --> 00:28:16.650

iPad: Okay.

386

00:28:17.160 --> 00:28:29.370

dottie colonese: Okay, one one thing that I was asked to bring up by one of the Guilford Garden Club members is that there was a tree on these long hill feel.

387

00:28:30.270 --> 00:28:45.060

dottie colonese: That has died, and they have two other trees there and then there's this gaping hole, and she was wondering she wanted to bring that to the tree advisory boards attention and to see if he can get the tree that died if it can get me.

388

00:28:47.280 --> 00:28:48.480

iPad: Where is this study.

389

00:28:49.320 --> 00:28:52.680

dottie colonese: On the field that they put in on long hill.

390

00:28:53.880 --> 00:28:54.540

dottie colonese: Road is it.

391

00:28:54.750 --> 00:28:55.740

won't kill yeah.

392

00:28:57.330 --> 00:28:57.720

iPad: So.

393

00:28:59.640 --> 00:29:02.100

Kevin Magee: yeah we did lose one of those trees.

394

00:29:02.220 --> 00:29:03.060

Unfortunately.

395

00:29:04.200 --> 00:29:05.670

Kevin Magee: No warranties I come with them.

396

00:29:06.150 --> 00:29:06.360

Thanks.

397

00:29:11.190 --> 00:29:12.450

iPad: who paid for those.

398

00:29:13.230 --> 00:29:14.910

Kevin Magee: I think they came from the.

399

00:29:16.170 --> 00:29:16.920

Kevin Magee: garden club.

400

00:29:22.500 --> 00:29:24.750

dottie colonese: Yes, that's what my understanding is.

401

00:29:29.070 --> 00:29:30.510

iPad: That there's no replacing.

402

00:29:32.670 --> 00:29:39.960

dottie colonese: It hasn't been replaced to know in terms of replacing it can do that, I guess, we would fund it again or.

403

00:29:41.670 --> 00:29:44.130

iPad: you'd have to replace the policy.

404

00:29:45.810 --> 00:29:48.600

Kevin Magee: And those are, I think, white oaks.

405

00:29:50.100 --> 00:29:50.430

Shavaun Towers: know.

406

00:29:52.710 --> 00:30:05.370

dottie colonese: If we can do that, in the spring, or if you wanted to if you thought it would be wise, because it's not in the same area as the other cheese, to put it off until the following planting season either way.

407

00:30:08.640 --> 00:30:12.270

Kevin Magee: If you have the funds where we can always throw it on the truck and have it delivered and we can.

408

00:30:13.830 --> 00:30:15.360

Kevin Magee: get it up here and be planting.

409

00:30:16.020 --> 00:30:26.070

dottie colonese: So how many trees, all together, we putting in on that day, because I remember you mentioning it, you don't want to get two minutes and eight nine.

410

00:30:26.130 --> 00:30:29.220

dottie colonese: If you're putting two that's 11 trees.

411

00:30:29.340 --> 00:30:31.890

Kevin Magee: yeah have to be tall trees are up to now.

412

00:30:32.040 --> 00:30:33.960

dottie colonese: yeah so that.

413

00:30:34.860 --> 00:30:36.000

Shavaun Towers: Is that even feasible.

414

00:30:36.270 --> 00:30:47.190

dottie colonese: yeah I don't maybe we should wait and put it in, I can tell this person in the garden club that it's in the works, and we will put it in the next plant, the.

415

00:30:47.190 --> 00:30:48.240  
iPad: Seed time.

416

00:30:49.140 --> 00:30:51.510  
Shavaun Towers: Yes, if they think it's a good idea, we should do it.

417

00:30:51.960 --> 00:30:53.040  
dottie colonese: Okay, thank you.

418

00:30:54.270 --> 00:30:57.060  
iPad: But, at the appropriate time, when we have the money.

419

00:30:57.960 --> 00:30:59.700  
dottie colonese: Okay okay.

420

00:31:00.750 --> 00:31:03.780  
iPad: Any questions from the Committee about the tree planting.

421

00:31:05.220 --> 00:31:07.320  
iPad: we'll move on to the tree policy.

422

00:31:10.440 --> 00:31:12.840  
iPad: Does everybody have a copy of the tree policy.

423

00:31:15.330 --> 00:31:16.650  
iPad: It was bound to us.

424

00:31:17.700 --> 00:31:29.550  
iPad: I printed it out, I don't know if everybody else did but shovel just for clarification we've never had a tree policy, we have a tree ordinance.

425

00:31:29.850 --> 00:31:34.350  
iPad: Right, so this policy you got basically from British.

426

00:31:34.650 --> 00:31:35.160  
Yes.

427

00:31:37.170 --> 00:31:44.880

Shavaun Towers: I did a fair amount of research came up, and it was based on Greenwich I expanded it somewhat.

428

00:31:45.900 --> 00:31:48.720

Shavaun Towers: By things that had been done by other places.

429

00:31:50.610 --> 00:31:54.030

Shavaun Towers: But it was primarily get Greenwich.

430

00:31:55.230 --> 00:32:00.570

iPad: And the red were the words in bread, with a additions that you made.

431

00:32:02.640 --> 00:32:04.020

Shavaun Towers: I didn't print out a copy.

432

00:32:05.070 --> 00:32:11.910

Shavaun Towers: I meant to I that's what I just dashed over I have one somewhere hidden on my desk good fight wait a minute, let me look once.

433

00:32:25.230 --> 00:32:28.830

Patricia: You know, you can tell me when I can approach it it's about.

434

00:32:29.850 --> 00:32:30.480

Patricia: The.

435

00:32:31.920 --> 00:32:36.060

Patricia: Three houses that are going in on peddlers rode up on a hill there.

436

00:32:37.140 --> 00:32:38.100

Patricia: And the.

437

00:32:39.540 --> 00:32:49.980

Patricia: The driveway that they took down a lot of trees and it looks as though they're going to do any replanting i'm not sure if there are any mandates for that.

438

00:32:51.180 --> 00:32:51.810

Kevin Magee: yeah.

439

00:32:53.520 --> 00:32:56.520

Kevin Magee: mandates for that part of their development plans.

440

00:32:58.860 --> 00:33:00.390

iPad: If you look at their plans.

441

00:33:01.560 --> 00:33:06.360

Kevin Magee: it's been a while, since I seen those when it came to wetlands and PNC.

442

00:33:06.990 --> 00:33:11.370

Patricia: Like it's right for erosion, though, you know because it's going up the hill.

443

00:33:13.500 --> 00:33:18.060

Kevin Magee: They should have a controls in the i'll take a drive by tomorrow, make sure they have the word controls are in place there.

444

00:33:21.990 --> 00:33:25.890

Kevin Magee: Because they have a whole training plan and everything else with the proposal.

445

00:33:30.090 --> 00:33:47.700

Shavaun Towers: Well i'm not finding where I neatly filed my copy, but as I remember the red were words that I changed in a first sent Kevin a draft, and then there were a few things that I amended, and so I had highlighted the changes from the first one, there you go.

446

00:33:49.800 --> 00:33:53.160

Shavaun Towers: yeah I mean so those were just minor adjustments.

447

00:33:54.180 --> 00:34:06.900

Shavaun Towers: That I had made a subsequent to my original submission to him so it's almost irrelevant in fact I, it would be easier if it weren't bread so i'd ignore them.

448

00:34:08.160 --> 00:34:12.330

iPad: Okay, so we can ignore that now your friends by the town engineer.

449

00:34:14.220 --> 00:34:17.610

Shavaun Towers: I don't know Kevin That was something I thought you were gonna do.

450

00:34:17.820 --> 00:34:20.250

Kevin Magee: No, I was gonna see how this group.

451

00:34:20.280 --> 00:34:20.940

feels like.

452

00:34:22.080 --> 00:34:24.450

Kevin Magee: work this out ourselves before we have her involved.

453

00:34:24.750 --> 00:34:25.620

Shavaun Towers: That makes sense.

454

00:34:26.040 --> 00:34:30.450

iPad: So Sharon, how would we go about this, do you want to read a paragraph by paragraph.

455

00:34:31.350 --> 00:34:32.220

Shavaun Towers: Ah um.

456

00:34:33.360 --> 00:34:35.640

Shavaun Towers: I can um.

457

00:34:37.530 --> 00:34:55.020

Shavaun Towers: let's see part of it was to justify and then you will make why don't we I go, yes, looking to establish a purpose for why this document exists and what it's trying to do it's also the way other policy ordinances are written in town.

458

00:34:56.460 --> 00:34:57.600

Shavaun Towers: So this is trying to.

459

00:34:58.950 --> 00:35:03.810

Shavaun Towers: explain the justification for the tree ordinance.

460

00:35:04.980 --> 00:35:11.220

Shavaun Towers: And then to outline who's responsible for what, so what the town does what.

461

00:35:13.110 --> 00:35:17.580

Shavaun Towers: Residents do what developers do going from there and then.

462

00:35:18.750 --> 00:35:33.360

Shavaun Towers: I think reading between the lines that the original brand which one was written as a way to make it defensible so that you that you Kevin could justify telling people yes.

463

00:35:34.440 --> 00:35:49.440

Shavaun Towers: We understand that would be important to do, but if it isn't our highest priority when somebody wants to you to go do some work so that you can just clearly determine that the priorities of the 10 are our safety.

464

00:35:51.300 --> 00:35:54.150

Shavaun Towers: And then things that, as you can see.

465

00:35:55.590 --> 00:35:58.530

Shavaun Towers: As you scroll down the second level of.

466

00:35:59.640 --> 00:36:01.590

Shavaun Towers: Priority there is.

467

00:36:03.060 --> 00:36:19.290

Shavaun Towers: Still, safety, but um you know access living up clearance for traffic and that sort of thing and then low priority, which is to say, you can tell somebody that no you're not going to come in and prune the crab apple in front of their house.

468

00:36:20.310 --> 00:36:21.960

Shavaun Towers: Just because of aesthetics.

469

00:36:23.100 --> 00:36:32.700

Shavaun Towers: You do, obviously, and this is obviously up for us to discuss watering of newly planted trees, I would actually put as a very high priority.

470

00:36:33.450 --> 00:36:43.320

Shavaun Towers: Because it's protecting your investment, this was what how Greenwich did it so all of this is up for grabs I don't think you do much in the way of fertilization.

471

00:36:44.880 --> 00:36:46.320

Shavaun Towers: or insect control but.

472

00:36:47.940 --> 00:36:52.740

Shavaun Towers: I think safe it the logic of safety and then.

473

00:36:54.330 --> 00:36:56.760

Shavaun Towers: The priority to, and then the.

474

00:36:58.650 --> 00:37:04.620

Shavaun Towers: aesthetics may made sense but that's up to the committee to decide.

475

00:37:08.550 --> 00:37:11.610

iPad: And then tree work by others yeah.

476

00:37:12.060 --> 00:37:17.070

Shavaun Towers: So others in this case, there are town trees that get done by.

477

00:37:18.510 --> 00:37:29.400

Shavaun Towers: Ever source they coordinate with the tree warden and with us, but it's non town work on town property or of town trees.

478

00:37:31.500 --> 00:37:36.330

Shavaun Towers: Some of this is fairly self evident but important to sort of lay out.

479

00:37:38.070 --> 00:37:43.680

Shavaun Towers: And then within the right of way on state roads obviously we're not responsible for they are.

480

00:37:45.090 --> 00:37:50.490

Shavaun Towers: And then we we don't do we, the town does not do work.

481

00:37:52.440 --> 00:37:54.180

Shavaun Towers: on private projects.

482

00:37:55.650 --> 00:38:16.650

Shavaun Towers: But the developer may wish to have to remove a tree or limit up or whatever, for whatever the proof plan is but town isn't even though it's TIM tree, the town is not going to do the that work the pruning and removal, if approved, with the tree permit has to be paid for by the developer.

483

00:38:17.640 --> 00:38:24.930

iPad: If number one yes nope if we're going to adopt this, you have to eliminate that note.

484

00:38:26.370 --> 00:38:26.850

iPad: Right.

485

00:38:28.050 --> 00:38:36.960

Shavaun Towers: Right yeah oh yes yeah anything in italics is my message to anybody within the committee reading it yeah no that's that's not part of it.

486

00:38:38.940 --> 00:38:41.880

Shavaun Towers: it's I just didn't think we needed.

487

00:38:43.590 --> 00:38:52.050

Shavaun Towers: We have a good relationship with ever source they're pretty straightforward about their methodology and they obviously respect our druthers.

488

00:38:53.220 --> 00:39:00.510

Shavaun Towers: That section could be expanded if we needed to sort of ensure ourselves for the future for.

489

00:39:01.530 --> 00:39:03.990

Shavaun Towers: Some future negotiations with them.

490

00:39:06.150 --> 00:39:12.270

Shavaun Towers: And I haven't seen included all of that, but we could expand that if everybody here thinks that's a good idea.

491

00:39:13.560 --> 00:39:14.130

iPad: Okay.

492

00:39:15.780 --> 00:39:17.250

iPad: Number four tree risk.

493

00:39:19.620 --> 00:39:21.990

Shavaun Towers: yeah again this is.

494

00:39:23.100 --> 00:39:32.250

Shavaun Towers: Some of this is just to cover the town in terms of what they do or do not do this is Granite almost says.

495

00:39:32.700 --> 00:39:47.760

Shavaun Towers: They actually they do say that they want remove a tree for doing what trees do, naturally, including dropping their leaves because obviously they've had problems with people saying you have to take the tree away because it's dropping leaves on my lawn.

496

00:39:49.290 --> 00:39:55.920

Shavaun Towers: So it's it's a just trying to give us leverage for doing what we want to do.

497

00:39:56.760 --> 00:40:01.020

iPad: So basically this policy is expanding on the tree ordinance.

498

00:40:01.350 --> 00:40:07.500

iPad: Correct give us more nitty gritty detail right okay.

499

00:40:08.670 --> 00:40:22.590

Shavaun Towers: And I, for instance, this is a red with was you know I went back after a few days and reread it and I realized it said resident, but the budding land owner might.

500

00:40:23.130 --> 00:40:32.730

Shavaun Towers: not be a resident that might be a commercial establish that I just wanted to clarify that it was a landowner not necessarily resident.

501

00:40:33.390 --> 00:40:34.050

iPad: that's good.

502

00:40:37.830 --> 00:40:43.020

Shavaun Towers: And then again some of this was reiteration like be is per the tree ordinance.

503

00:40:44.130 --> 00:40:52.560

Shavaun Towers: just trying to put all the information in one place but it's it's saying that this is all in accordance with what's already said in the tree ordinance.

504

00:40:57.510 --> 00:40:58.050

Shavaun Towers: We get the.

505

00:40:58.170 --> 00:41:02.220

iPad: holiday waiting is considered a qualifying disturbance where.

506

00:41:05.040 --> 00:41:05.790

iPad: Every year.

507

00:41:08.550 --> 00:41:15.510

Kevin Magee: This has been asking about lights on the trees and lots of state right away for a lot of these so we haven't really gotten baldwin but somebody said why to put.

508

00:41:17.310 --> 00:41:21.150

Kevin Magee: lights on a tree in front of the House, which is a town tree.

509

00:41:23.370 --> 00:41:31.080

Kevin Magee: Really, knowing the methodology, depending on their own, they could damage the tree so it's kind of the reason why I wrote this this is kind of written this way.

510

00:41:34.740 --> 00:41:36.060

Shavaun Towers: Well, and i'm.

511

00:41:37.380 --> 00:41:42.720

Shavaun Towers: A tree otherwise disturbing a tree USA don't want people nailing signs into the trees.

512

00:41:42.810 --> 00:41:44.640

Shavaun Towers: Your stuff like that.

513

00:41:48.210 --> 00:41:52.410

Shavaun Towers: I think this is quoted from the tree ordinance.

514

00:41:53.940 --> 00:41:54.510

iPad: Okay.

515

00:41:54.960 --> 00:41:59.490

Shavaun Towers: Well, I think the roots of it may be expanded slightly, but it's it's.

516

00:42:02.760 --> 00:42:04.350

Shavaun Towers: Effectively, what we already have.

517

00:42:07.140 --> 00:42:10.260

iPad: it's just this holiday, it seems like.

518

00:42:11.370 --> 00:42:14.370

iPad: It was just put it there, because they had no other place to put it.

519

00:42:15.480 --> 00:42:20.220

iPad: doesn't seem to relate, that the other things are disturbance.

520

00:42:21.090 --> 00:42:28.440

Shavaun Towers: Well, it does insofar as there are certainly people who put up holiday lights and then leave them and that definitely is.

521

00:42:29.820 --> 00:42:30.840

iPad: For very good.

522

00:42:33.210 --> 00:42:33.630

iPad: Okay.

523

00:42:36.510 --> 00:42:36.870

iPad: Right.

524

00:42:37.560 --> 00:42:42.300

Shavaun Towers: And then, this is sort of the meat of where we started with this of how we would.

525

00:42:44.850 --> 00:42:50.550

Shavaun Towers: require, I mean the entire tree policy is sort of built around this whole issue of.

526

00:42:51.630 --> 00:42:57.780

Shavaun Towers: replacement just just where we started, and this is more or less what we had discussed.

527

00:42:59.310 --> 00:43:09.450

Shavaun Towers: Before I think I mended it slightly based on precedents from other towns, but it's it is essentially what we talked about before.

528

00:43:10.110 --> 00:43:14.250

iPad: Is this true is see five see you're talking about.

529

00:43:14.910 --> 00:43:16.380

Shavaun Towers: A five.

530

00:43:19.650 --> 00:43:22.530

Shavaun Towers: At the 30 inch yeah at the 30 inch.

531

00:43:24.780 --> 00:43:25.380

Shavaun Towers: rate.

532

00:43:27.510 --> 00:43:30.300

iPad: What do you mean 30 inch three inch caliber.

533

00:43:31.380 --> 00:43:34.890

Shavaun Towers: yeah well, it says retreats of a caliber, of the one above.

534

00:43:36.780 --> 00:43:39.480

Shavaun Towers: Where it says six to 30.

535

00:43:40.800 --> 00:43:52.140

Shavaun Towers: And then we've basically said that at 30 inches at at a 3830 inch tree would require five trees and anything over a.

536

00:43:52.650 --> 00:43:54.300

iPad: 30 inch tree they.

537

00:43:55.170 --> 00:43:56.100

Shavaun Towers: require five.

538

00:43:56.700 --> 00:43:59.610

iPad: Okay, thanks for that clarification yeah.

539

00:44:00.330 --> 00:44:02.760

Shavaun Towers: What Maybe I should look at rewriting that.

540

00:44:05.880 --> 00:44:08.970

Caroline Herrick: Everybody i'm i'm an engineer by profession.

541

00:44:09.030 --> 00:44:10.800

Shavaun Towers: so good, well, you we need your help.

542

00:44:11.010 --> 00:44:18.150

Caroline Herrick: This really bothers me because permit is lower case in one place and it's uppercase someplace that I could go through, and just clean up.

543

00:44:18.420 --> 00:44:21.720

Caroline Herrick: Just that would be great cool things, if you like.

544

00:44:22.230 --> 00:44:22.710

Shavaun Towers: I would.

545

00:44:24.270 --> 00:44:25.200

iPad: Help Thank you.

546

00:44:26.820 --> 00:44:27.210

iPad: Okay.

547

00:44:27.420 --> 00:44:28.080

iPad: I should.

548

00:44:28.200 --> 00:44:32.130

Shavaun Towers: back that it's driving you crazy I tried to be pretty careful, but obviously.

549

00:44:33.660 --> 00:44:42.570

Shavaun Towers: uh yeah I see where I said i've referred to the permit in one place, and then I would also require a permit, yes, it should have been capitalized.

550

00:44:45.900 --> 00:44:56.130

iPad: hey what happened to meet does anybody have any trouble with this replace them because that was the meat of the whole problem doing this, the whole rationale for doing it, I should say.

551

00:44:59.160 --> 00:45:00.510

iPad: everybody's okay with it.

552

00:45:00.990 --> 00:45:09.360

Caroline Herrick: i'm i'm still unclear what see means for three free trees over 30 inches replacements will be at the 30 and treat.

553

00:45:09.990 --> 00:45:11.280

Shavaun Towers: Well up above.

554

00:45:11.520 --> 00:45:24.600

Shavaun Towers: It says trees, with the caliper six of between six and 30 inches shut one cal prefer every to introduce you to shoo shoo shoo yeah that's a suit.

555

00:45:24.630 --> 00:45:25.290

Caroline Herrick: So with that.

556

00:45:26.370 --> 00:45:29.670

Shavaun Towers: i'll go back and look at it and see if I can make that clear.

557

00:45:30.090 --> 00:45:33.510

Kevin Magee: Yes, a CCP for trees over 30 caliber.

558

00:45:34.170 --> 00:45:35.340

Shavaun Towers: caliber yeah the.

559

00:45:35.400 --> 00:45:39.210

Kevin Magee: replacement shall be at the 30 inch caliber rate so you're not going to.

560

00:45:40.920 --> 00:45:44.250

Kevin Magee: have somebody with a 48 inch tree now doing.

561

00:45:45.600 --> 00:45:50.670

Kevin Magee: A trees everything above 30 inches is gonna be five trees yeah.

562

00:45:51.390 --> 00:45:54.150

Shavaun Towers: um i'll i'll rewrite that.

563

00:45:56.130 --> 00:45:59.520

iPad: This, this is the key yeah okay.

564

00:46:04.020 --> 00:46:05.490

iPad: on to the next page.

565

00:46:08.280 --> 00:46:10.320

Shavaun Towers: yeah just added this.

566

00:46:10.380 --> 00:46:19.200

Shavaun Towers: Because I mean that's an industry standard and because the landowner the developer, whatever is.

567

00:46:20.610 --> 00:46:30.240

Shavaun Towers: may be planting that replacement on their land, I just want to make sure they get planted properly because we don't have any control, so this is just establishing.

568

00:46:31.500 --> 00:46:32.760

Shavaun Towers: proper procedures.

569

00:46:33.210 --> 00:46:33.840

Good.

570

00:46:39.510 --> 00:46:42.780

Shavaun Towers: And then, to clarify that they can just pay us instead.

571

00:46:45.480 --> 00:46:51.900

Kevin Magee: space for five trees for the 30 inch they can put yeah to on the ground and pay us for three.

572

00:46:52.440 --> 00:46:52.920

Correct.

573

00:46:58.560 --> 00:47:02.670

Shavaun Towers: And I added in that generally native trees will be preferred.

574

00:47:04.770 --> 00:47:09.450

Shavaun Towers: We seem to be headed in that direction, I don't know that it's been stated as such.

575

00:47:11.190 --> 00:47:15.540

Shavaun Towers: Elsewhere, that just gives you a little latitude Kevin.

576

00:47:15.870 --> 00:47:16.650

Kevin Magee: Right yep.

577

00:47:17.370 --> 00:47:27.360

iPad: I know this doesn't belong in our local tree pervading but the state, we have a synagogue committee week are packed with us to put a.

578

00:47:30.090 --> 00:47:48.090

iPad: law and legislation regarding illegal be booby of trees, on the state scenic highway that the replace that money would be given to the town for the tree fun is is it any is there any.

579

00:47:49.140 --> 00:47:51.690

iPad: sense to putting that in here.

580

00:47:54.180 --> 00:47:58.890

iPad: As a nuclear research that but I know we gotta do through do.

581

00:47:58.950 --> 00:48:07.800

Shavaun Towers: You have a copy of that report those requirements it'd be useful for me to be able to cross reference that I mean the scenic routes or state roads.

582

00:48:08.670 --> 00:48:14.190

Kevin Magee: The other scenic rose is part of that I think that's part of the back portion of our ordinance me see if I have a Hindu here.

583

00:48:14.970 --> 00:48:17.700

Shavaun Towers: yeah we do include something about it but.

584

00:48:18.060 --> 00:48:18.630

Kevin Magee: yeah.

585

00:48:19.530 --> 00:48:21.090

Shavaun Towers: I state road and I guess.

586

00:48:22.650 --> 00:48:25.350

iPad: I don't know if any fees i've ever been collected.

587

00:48:26.550 --> 00:48:28.140

iPad: But it's on the books.

588

00:48:28.740 --> 00:48:29.070

yeah.

589

00:48:33.690 --> 00:48:37.650

Kevin Magee: yeah most of work now happening in the state roads is the resource and.

590

00:48:38.700 --> 00:48:40.470

Kevin Magee: They doing a lot of clearing.

591

00:48:42.300 --> 00:48:46.740

iPad: So there are people really, really cutting down the trees on the state's amy rose.

592

00:48:48.480 --> 00:48:49.530

iPad: rose we have.

593

00:48:50.280 --> 00:49:00.270

Kevin Magee: Any problem or having to, as I see a lot of stuff being done, but there is also supposed to report to the town anything over 818 inches or 24 inches no.

594

00:49:00.900 --> 00:49:01.350

iPad: yeah I.

595

00:49:01.530 --> 00:49:03.930

Kevin Magee: think this is a been doing that to us.

596

00:49:04.680 --> 00:49:07.830

iPad: Is soon born so on the do it.

597

00:49:08.010 --> 00:49:12.810

Kevin Magee: I believe so, yes, are you another one about a week ago, so yes.

598

00:49:13.410 --> 00:49:19.290

iPad: You see, male be worried about trees having to be good, but I haven't heard from him in ages.

599

00:49:23.070 --> 00:49:28.710

Kevin Magee: yeah, it is a tree it's in the morning, we don't really need to put in the procedure sensitive it isn't the ordinance.

600

00:49:29.670 --> 00:49:30.780

iPad: What are the words.

601

00:49:31.170 --> 00:49:32.190

Kevin Magee: there's the.

602

00:49:33.960 --> 00:49:47.010

Kevin Magee: amount of detail citation the amount of each citations to be thousand dollars payable to the treasure, a town of Guilford no citation so come effective until after notice of opportunity for hearing of.

603

00:49:48.900 --> 00:49:52.410

Kevin Magee: Other contested tree there okay.

604

00:49:53.820 --> 00:49:55.260

iPad: thousand dollar hurts.

605

00:49:57.840 --> 00:50:02.010

Kevin Magee: Well hurts somewhat, but if you're looking at five trees, here they may be more than.

606

00:50:03.900 --> 00:50:06.150

Kevin Magee: let's their wholesale I mean you may be equal.

607

00:50:07.290 --> 00:50:10.680

Kevin Magee: But you're not going to wholesale thousand might be a little less.

608

00:50:13.260 --> 00:50:13.830

iPad: Okay.

609

00:50:13.980 --> 00:50:14.790

Kevin Magee: I feel hurt.

610

00:50:15.780 --> 00:50:18.090

iPad: For so long, this is referenced in our tree.

611

00:50:19.770 --> 00:50:20.220

iPad: Okay.

612

00:50:28.080 --> 00:50:34.380

Shavaun Towers: And then, again, this is Kevin for you to look at more carefully trying to.

613

00:50:36.480 --> 00:50:39.810

Shavaun Towers: qualify what the town's responsibilities are.

614

00:50:40.890 --> 00:50:42.150  
iPad: yeah That was the.

615  
00:50:44.820 --> 00:50:46.200  
iPad: That was the other conundrum.

616  
00:50:46.770 --> 00:50:48.810  
Kevin Magee: With the projects here, because at the time wants to.

617  
00:50:49.950 --> 00:50:58.020  
Kevin Magee: doesn't want to spend money on trees, but we want everybody else to do, which is a something we really kind of needed costly and hard on them a little bit for.

618  
00:50:58.950 --> 00:51:13.440  
iPad: Well, especially if they get grants from the state or the federal government, they could easily put in a tree budget, maybe this will budget like a molehill don't forget long hill the bottom of long hills like a desert they're.

619  
00:51:13.710 --> 00:51:14.010  
All.

620  
00:51:15.030 --> 00:51:16.560  
iPad: races bishops orchard.

621  
00:51:19.650 --> 00:51:21.930  
iPad: JEREMY Jimmy Bhutan many trees.

622  
00:51:22.560 --> 00:51:22.650  
I.

623  
00:51:24.390 --> 00:51:26.340  
Kevin Magee: think we had 20 or so come down a long tail.

624  
00:51:27.030 --> 00:51:33.120  
iPad: yeah and nobody placement and he had no plan no money for replacement.

625  
00:51:38.130 --> 00:51:42.840  
Shavaun Towers: But this, this is really just protecting the 10 from if it private tree falls.

626

00:51:43.380 --> 00:51:44.340

Kevin Magee: On the bottom part to.

627

00:51:44.730 --> 00:51:54.990

Shavaun Towers: take it away that's the landowner he but, but the town has the right to come clear the roads and the right of way so that they aren't blocking traffic.

628

00:51:58.050 --> 00:52:00.900

Kevin Magee: They love to talk with public works in the town regarding the.

629

00:52:02.280 --> 00:52:13.980

Kevin Magee: The tree falling into private property, sometimes we do the same as the as they do to the private persons that would cut up to the private line and they may be responsible for the portion on their property.

630

00:52:16.110 --> 00:52:19.620

Kevin Magee: Sometimes so leave that one maybe on a case by case basis.

631

00:52:19.650 --> 00:52:25.080

Shavaun Towers: basis well and we may need to reward, as I say, this was lifted wholesale.

632

00:52:26.280 --> 00:52:30.120

Shavaun Towers: I think, out of Greenwich but, as you say, I did look at a.

633

00:52:30.120 --> 00:52:31.950

Shavaun Towers: number of different.

634

00:52:36.630 --> 00:52:37.470

Shavaun Towers: ordinances.

635

00:52:37.920 --> 00:52:39.990

Kevin Magee: They have a bigger bank account down that way but.

636

00:52:40.320 --> 00:52:41.040

Shavaun Towers: yeah I know.

637

00:52:43.050 --> 00:52:48.750

Shavaun Towers: There are accustomed to being sensitive to liability issues.

638

00:52:49.230 --> 00:52:56.280

Kevin Magee: yeah I think there are sensitive to to their high tax tax payers to to clean up exactly exactly.

639

00:53:00.660 --> 00:53:02.160

Kevin Magee: But these are definitely good.

640

00:53:03.720 --> 00:53:05.250

Kevin Magee: information to the public.

641

00:53:06.660 --> 00:53:10.980

Kevin Magee: it's not something i'm writing because of the public's as well, where did this come from, why is it.

642

00:53:10.980 --> 00:53:11.130

That.

643

00:53:12.990 --> 00:53:14.490

Shavaun Towers: i'm sure I miss things.

644

00:53:15.510 --> 00:53:20.430

Shavaun Towers: So that's the other and and janice may have some experience with this and.

645

00:53:22.050 --> 00:53:27.600

Shavaun Towers: We it's not just taking stuff that we need there may well be call sections to add in.

646

00:53:27.930 --> 00:53:28.320

Right.

647

00:53:36.600 --> 00:53:47.160

dottie colonese: I have to leave I apologize, but there's something that's come up and I have to take a phone call so i'm going to excuse myself from this meeting, if.

648

00:53:48.480 --> 00:53:48.960

Shavaun Towers: You.

649

00:53:51.030 --> 00:53:51.570  
Kevin Magee: Okay.

650  
00:53:56.100 --> 00:53:57.750  
Shavaun Towers: To do send them on.

651  
00:53:58.440 --> 00:54:01.950  
dottie colonese: OK, I will do that Thank you yep.

652  
00:54:03.810 --> 00:54:06.360  
iPad: We add new tree planting slavery.

653  
00:54:11.220 --> 00:54:18.270  
Shavaun Towers: And again, this was taken out of well, you can see, for the US forest service, I did look at a number of different places, trying to.

654  
00:54:19.500 --> 00:54:25.590  
Shavaun Towers: give you a little ammunition when we want to plant in front of somebody who says, why do I want a tree in front of my house.

655  
00:54:26.760 --> 00:54:29.700  
Shavaun Towers: Why should the tan be spending money on trees, this is why.

656  
00:54:31.980 --> 00:54:34.710  
Kevin Magee: No Sir purpose statement and affection there.

657  
00:54:34.920 --> 00:54:35.250  
yeah.

658  
00:54:43.530 --> 00:54:47.550  
Shavaun Towers: And again trying to say that we actually have a strategy.

659  
00:54:48.630 --> 00:54:54.750  
Shavaun Towers: The reason we're not going to be planting a tree up in North Guilford is that it has more public benefit down here.

660  
00:54:56.460 --> 00:54:57.900  
iPad: They have a lot of trees.

661  
00:54:58.320 --> 00:54:59.580

Shavaun Towers: Here Oh yes, I know, but.

662

00:54:59.760 --> 00:55:03.420

Shavaun Towers: Again, a lot of this is just trying to give.

663

00:55:05.190 --> 00:55:11.940

Shavaun Towers: Kevin and the US ammunition for justification from what what we're trying to do here.

664

00:55:13.020 --> 00:55:13.650

iPad: Okay.

665

00:55:13.950 --> 00:55:23.250

Kevin Magee: We may have to be careful we stayed there, because then, if we want them to said replant road tree is a long haul road, and then we think we just concerned about the Center of town and may draw some sort of.

666

00:55:24.000 --> 00:55:27.690

Shavaun Towers: Well, I think that's true, it says.

667

00:55:30.900 --> 00:55:31.980

Shavaun Towers: The tree is maybe low.

668

00:55:31.980 --> 00:55:35.010

Shavaun Towers: Located and other 10 properties, especially parks.

669

00:55:35.220 --> 00:55:36.870

Kevin Magee: yeah so that.

670

00:55:36.930 --> 00:55:37.890

Shavaun Towers: Is the exception.

671

00:55:40.740 --> 00:55:44.220

iPad: Say major approaches to the Center of the town that's long hell.

672

00:55:45.180 --> 00:55:45.900

yeah.

673

00:55:47.280 --> 00:55:47.730

Kevin Magee: You can.

674

00:55:48.570 --> 00:55:52.320

Shavaun Towers: enjoy this also a Park, so it off.

675

00:56:01.320 --> 00:56:01.560

Shavaun Towers: But.

676

00:56:02.430 --> 00:56:04.770

iPad: I the funds in the tree fun.

677

00:56:05.880 --> 00:56:09.420

iPad: A memory, they were a couple thousand more than you thought you had chicken.

678

00:56:10.410 --> 00:56:14.700

Kevin Magee: yeah there's um I haven't looked at it lately but yeah I think we did have.

679

00:56:17.190 --> 00:56:18.930

Kevin Magee: Funds that we discovered there.

680

00:56:19.740 --> 00:56:22.350

iPad: So you could use those stuffy google's.

681

00:56:22.890 --> 00:56:26.640

Kevin Magee: eyes are going to if I asked you what how about my budget this year, our major sneak some of men.

682

00:56:28.200 --> 00:56:29.670

Kevin Magee: With my regular removal budget.

683

00:56:30.150 --> 00:56:30.900

Shavaun Towers: That would be good.

684

00:56:31.980 --> 00:56:33.330

Shavaun Towers: We can always plant more trees.

685

00:56:33.570 --> 00:56:35.250

Kevin Magee: yeah see what I can save.

686

00:56:36.120 --> 00:56:41.430

Shavaun Towers: I mean, I think you should maintain a buffer just because, if we have a terrible storm.

687

00:56:42.960 --> 00:56:53.460

Shavaun Towers: And we lose a lot of public trees they're going to be places where we should we should have the funds to replace a few on the green if we had a tornado come through or whatever.

688

00:56:55.380 --> 00:56:57.330

Shavaun Towers: But it's nice to know there's money in my fund.

689

00:56:58.320 --> 00:57:05.640

iPad: This is a good job, Sharon Thank you to remember 70 questions or clarification or.

690

00:57:08.340 --> 00:57:10.470

Shavaun Towers: yeah planting trees near prob.

691

00:57:11.490 --> 00:57:13.950

Shavaun Towers: Again, and anything in italics his.

692

00:57:14.220 --> 00:57:14.910

writings.

693

00:57:16.080 --> 00:57:28.440

Shavaun Towers: and public property in some towns, they do include policies and planning at school properties usually historically here I think any plantings have been.

694

00:57:29.940 --> 00:57:42.480

Shavaun Towers: done as part of the budget of a school expansion, but conceivably you know you'd lose trees up on a on a school property and we would want to plant them replaced them.

695

00:57:48.300 --> 00:58:01.020

Kevin Magee: Call with them Omar memorials money that they have from some some issue or some fundraising that they do, where we coordinate with them on that, and then we do plant within sort of our right away in front of the schools there, so we do some.

696

00:58:02.340 --> 00:58:09.240

Kevin Magee: I would say we do anything with town schools, we can price a cooperation with the schools facilities.

697

00:58:12.750 --> 00:58:15.390

Kevin Magee: department in school principal or something like that.

698

00:58:16.290 --> 00:58:16.710

Okay.

699

00:58:18.120 --> 00:58:20.400

Shavaun Towers: Well, I can add something about that.

700

00:58:23.040 --> 00:58:27.540

Shavaun Towers: And I didn't know if we wanted to dress the whole issue of.

701

00:58:29.880 --> 00:58:33.090

Shavaun Towers: donations and fundings from other groups.

702

00:58:36.690 --> 00:58:42.780

Kevin Magee: i'm good question are we just follow above with the planting policy itself.

703

00:58:43.320 --> 00:58:44.850

yeah um.

704

00:58:46.950 --> 00:58:57.030

Shavaun Towers: Again I didn't know whether it was going to just muddy the waters or whether somebody might think Oh, you know I belong to some civic organization that could fund tree.

705

00:58:59.160 --> 00:59:12.480

iPad: So on it also meant that the budget process by saying well if the garden club is good if we mentioned the garden club spider all these years they'll say, well, we don't need to allocate.

706

00:59:12.510 --> 00:59:14.010

Shavaun Towers: yeah, no, no, I don't want to do that.

707

00:59:15.600 --> 00:59:16.620

iPad: that's what i'm worried that's.

708

00:59:16.620 --> 00:59:19.230

Shavaun Towers: Why it's in italics for us to discuss.

709

00:59:20.040 --> 00:59:20.640

Kevin Magee: I mean.

710

00:59:20.910 --> 00:59:28.230

Caroline Herrick: It doesn't come into the policy how something is I mean if if a private organization wants to.

711

00:59:29.790 --> 00:59:30.810

Caroline Herrick: fund a tree will.

712

00:59:32.040 --> 00:59:36.810

Caroline Herrick: I I don't know why that would have to do with the policy but.

713

00:59:37.770 --> 00:59:47.370

Shavaun Towers: uh well it's a policy insofar as the town is happy to coordinate with other organizations.

714

00:59:48.420 --> 00:59:51.000

Shavaun Towers: For donations of trees.

715

00:59:52.380 --> 00:59:55.290

Caroline Herrick: You can say other organizations or individuals.

716

00:59:55.380 --> 00:59:56.550

Shavaun Towers: or individuals.

717

00:59:56.610 --> 00:59:57.150

Shavaun Towers: yeah I think.

718

00:59:57.270 --> 01:00:00.600

Kevin Magee: I think we have a nine area just maybe just move it up to your.

719

01:00:01.440 --> 01:00:02.190

number nine.

720

01:00:03.210 --> 01:00:03.780

Shavaun Towers: i'm.

721

01:00:04.020 --> 01:00:05.220

Kevin Magee: Your new paintings by.

722

01:00:05.730 --> 01:00:07.230

Shavaun Towers: roll back up, so I can look.

723

01:00:07.230 --> 01:00:09.210

Kevin Magee: Look thanks i'm looking at my hand my paper or her.

724

01:00:09.300 --> 01:00:11.520

Shavaun Towers: There we go there, we go play enhanced by others.

725

01:00:15.750 --> 01:00:19.350

Shavaun Towers: May trisha I could add a sentence in there.

726

01:00:20.940 --> 01:00:21.990

Kevin Magee: bear this.

727

01:00:22.020 --> 01:00:22.470

or.

728

01:00:24.180 --> 01:00:25.710

Kevin Magee: Are up here as part of a.

729

01:00:27.030 --> 01:00:27.450

Kevin Magee: profit.

730

01:00:27.510 --> 01:00:29.820

Kevin Magee: target part of town projects that are.

731

01:00:29.940 --> 01:00:33.240

Shavaun Towers: Okay, all look at leaving it in.

732

01:00:33.330 --> 01:00:35.910

Kevin Magee: depth probably nine navy weave it in nine.

733

01:00:36.360 --> 01:00:36.780

yeah.

734

01:00:38.760 --> 01:00:40.080

iPad: Yes, yeah.

735

01:00:47.700 --> 01:00:49.740  
iPad: nonprofits or individuals.

736

01:00:49.890 --> 01:00:50.760  
Shavaun Towers: yep yep.

737

01:00:53.220 --> 01:00:55.920  
Shavaun Towers: Sorry i'm writing my own nope yep.

738

01:01:00.180 --> 01:01:00.570  
Shavaun Towers: Okay.

739

01:01:02.790 --> 01:01:17.100  
Shavaun Towers: Well, why don't I make some of the amendments changes that we've all even capitalized permit will this done, and then I can I don't know what that sent out whether it was a word Doc or PDF.

740

01:01:18.120 --> 01:01:19.710  
Shavaun Towers: But I can send out a word Doc.

741

01:01:20.820 --> 01:01:22.470  
iPad: After carolyn edits.

742

01:01:22.860 --> 01:01:26.550  
Shavaun Towers: Well, I was going to make sure carolyn had a word Doc not a PDF.

743

01:01:26.580 --> 01:01:30.900  
Caroline Herrick: So that she could use a word Doc, but let me see.

744

01:01:44.910 --> 01:01:46.110  
Caroline Herrick: yeah i'm pretty sure it's.

745

01:01:52.290 --> 01:01:54.930  
Caroline Herrick: yeah, it is a word Doc okay.

746

01:01:55.170 --> 01:02:00.000  
Shavaun Towers: Well, why don't I add this extra line in and then you can do your magic.

747

01:02:01.050 --> 01:02:01.260

Shavaun Towers: and

748

01:02:02.100 --> 01:02:06.270

Caroline Herrick: i'll send it back to you, because if you boil something or change the meaning you're.

749

01:02:06.270 --> 01:02:09.270

Shavaun Towers: Not likely, but I do appreciate it.

750

01:02:12.900 --> 01:02:15.000

iPad: Okay, great Finally, we got here.

751

01:02:15.510 --> 01:02:15.810

Shavaun Towers: yeah.

752

01:02:16.800 --> 01:02:18.150

iPad: Thank you so much.

753

01:02:18.450 --> 01:02:34.140

Shavaun Towers: Well, I think, why don't we do this, one more round dizzy edited and then we can get it to janice and she can look at it, because she'll have hesitations about what's implied for can responsibility.

754

01:02:35.430 --> 01:02:38.130

Shavaun Towers: And then i'm sure it has to go to the town council.

755

01:02:39.330 --> 01:02:43.140

Shavaun Towers: And I don't know what the final approval process is.

756

01:02:43.530 --> 01:02:47.340

iPad: We have an in house counsel you get to a place to I.

757

01:02:47.520 --> 01:02:52.980

Kevin Magee: Oh yeah we accounts via we have a new case Health Council Peter Barrett which is really good.

758

01:02:53.550 --> 01:02:53.970

How good.

759

01:02:55.020 --> 01:03:00.000

iPad: Does he actually, for instance, of all work like before our town council did.

760

01:03:00.420 --> 01:03:02.400

Kevin Magee: didn't even two days a week.

761

01:03:03.000 --> 01:03:08.400

iPad: Oh okay that's good so he's accessible yeah.

762

01:03:10.320 --> 01:03:10.980

iPad: All right.

763

01:03:15.540 --> 01:03:20.100

iPad: i'll be finished with the tree policy down any other questions or concerns.

764

01:03:22.170 --> 01:03:27.090

iPad: me forever street rates are it's done isn't it Kevin refurbish true greats.

765

01:03:27.810 --> 01:03:29.400

Kevin Magee: were set, there may have to.

766

01:03:30.480 --> 01:03:35.100

Kevin Magee: Do I take a look i'm here for let's see if we still need to have them steam cleaned or not, but.

767

01:03:37.080 --> 01:03:37.500

iPad: Okay.

768

01:03:37.560 --> 01:03:38.640

Kevin Magee: Look at that part there.

769

01:03:38.640 --> 01:03:39.000

Is.

770

01:03:40.050 --> 01:03:40.860

Kevin Magee: there's one.

771

01:03:42.150 --> 01:03:49.110

Kevin Magee: there's one great I need to have pulled off of the tree, which is great grew into a trace I need to have that one, taking care of.

772

01:03:51.390 --> 01:03:52.650  
iPad: we'll take care of that.

773

01:03:52.950 --> 01:03:57.090  
Kevin Magee: Public Works on come up with a SAR torch or something like that.

774

01:04:00.210 --> 01:04:00.510  
Shavaun Towers: yeah.

775

01:04:02.010 --> 01:04:03.300  
iPad: Well, that killed a tree.

776

01:04:03.660 --> 01:04:04.200  
Shavaun Towers: Oh no.

777

01:04:04.290 --> 01:04:10.800  
Shavaun Towers: they're not signed to so that those openings can be widened it at specific intervals.

778

01:04:11.970 --> 01:04:18.930  
Shavaun Towers: Just because you need to be fairly close when you install them, but obviously the tree grows over time, which is why.

779

01:04:20.070 --> 01:04:25.320  
Shavaun Towers: tree rates are almost always concentric rings and it just means you can cut to the next ring.

780

01:04:26.940 --> 01:04:29.880  
iPad: Kathy, how do you think those two grades are funny.

781

01:04:32.850 --> 01:04:33.840  
Kathy: On time ago.

782

01:04:34.920 --> 01:04:36.390  
iPad: yeah you think 20.

783

01:04:36.780 --> 01:04:37.980  
Kathy: I would think at least.

784

01:04:39.270 --> 01:04:40.770  
iPad: I have to get out my record.

785

01:04:41.370 --> 01:04:53.100

iPad: yeah we created a booklet to for all the business people to learn about the tree grades, and the trees and the containers were trashed the containers for planters.

786

01:04:54.420 --> 01:04:58.290

iPad: But it seems to me like it's at least 20 years ago I did that.

787

01:05:00.270 --> 01:05:00.660

Kathy: yeah.

788

01:05:02.400 --> 01:05:04.740

iPad: that's a long time they've lasted pretty well.

789

01:05:05.340 --> 01:05:06.300

Kevin Magee: I think you're ready.

790

01:05:06.540 --> 01:05:09.000

Kevin Magee: To get put in about the same time I joined the town here.

791

01:05:10.470 --> 01:05:12.150

iPad: wow remember that.

792

01:05:13.290 --> 01:05:17.340

iPad: Okay there's no public forum right there's nobody here.

793

01:05:19.380 --> 01:05:20.550

iPad: provable the bills.

794

01:05:25.380 --> 01:05:26.280

iPad: Is there a bill.

795

01:05:26.670 --> 01:05:34.050

Kevin Magee: Just we have a bill for Kathy for \$115 and 38 cents for services from the March meeting.

796

01:05:34.920 --> 01:05:37.560

iPad: Okay motion to move the bills.

797

01:05:37.830 --> 01:05:39.570

iPad: To move second.

798

01:05:40.320 --> 01:05:42.600

iPad: Second, all in favor.

799

01:05:43.020 --> 01:05:44.190

iPad: Aye Aye.

800

01:05:45.240 --> 01:05:47.400

iPad: Okay, thank you, thank you Kathy.

801

01:05:48.450 --> 01:05:49.740

iPad: A motion to adjourn.

802

01:05:50.160 --> 01:05:52.590

Kathy: Do we want to set a date for next meeting or.

803

01:05:52.650 --> 01:05:53.790

Kathy: just leave it or not.

804

01:05:54.600 --> 01:05:58.080

iPad: Okay carolyn when do you think it'd be finished and maybe.

805

01:06:00.540 --> 01:06:04.680

Caroline Herrick: It won't take me that long, I mean it depends on when I get it, but I mean I can do it in a.

806

01:06:05.700 --> 01:06:11.190

Caroline Herrick: Day, or so I mean assuming it's a day that I get it that I think that it won't take that long so doesn't matter.

807

01:06:12.120 --> 01:06:18.780

iPad: If my memory serves me my recent memory right now there aren't really any substantial changes right shovel.

808

01:06:19.500 --> 01:06:31.350

Shavaun Towers: I don't think so, I mean, I think I I will go back and look at it fresh again and I will make those couple of minor change yeah that's it's not a huge.

809

01:06:32.190 --> 01:06:38.880

iPad: Oh, then to research, should you show it to the town engineer first before we ever meeting.

810

01:06:39.540 --> 01:06:42.240

iPad: Yes, I made some changes.

811

01:06:42.900 --> 01:06:45.060

Shavaun Towers: I think it would be wise.

812

01:06:46.290 --> 01:06:47.160

iPad: OK so.

813

01:06:47.490 --> 01:06:49.710

Kathy: Maybe just leave the next meeting for now.

814

01:06:51.480 --> 01:06:52.140

Shavaun Towers: Kevin well.

815

01:06:52.290 --> 01:06:56.520

Shavaun Towers: that's no way we would normally meet when.

816

01:06:57.840 --> 01:06:59.190

Kathy: every three months.

817

01:06:59.250 --> 01:06:59.670

yeah.

818

01:07:00.750 --> 01:07:02.190

iPad: we've been meeting every was.

819

01:07:02.610 --> 01:07:03.750

Shavaun Towers: yeah cuz we've been working.

820

01:07:03.750 --> 01:07:04.920

Kathy: On the planting plan.

821

01:07:07.770 --> 01:07:08.760

Shavaun Towers: yeah I can't even.

822

01:07:09.300 --> 01:07:12.240

iPad: I like to have a date, because then that propels people.

823

01:07:14.100 --> 01:07:14.700

iPad: yeah yeah.

824

01:07:15.420 --> 01:07:17.520

Shavaun Towers: we're in the middle of summer, but in.

825

01:07:19.590 --> 01:07:27.210

iPad: order to Jan and she had duffing really substantial change and she could change bring it back to the talent journey.

826

01:07:27.690 --> 01:07:27.990

yeah.

827

01:07:29.160 --> 01:07:34.770

iPad: As we wouldn't really be doing anything to change it if there's just some since.

828

01:07:36.240 --> 01:07:36.540

iPad: Some.

829

01:07:36.960 --> 01:07:39.480

iPad: Change, what do you think everybody.

830

01:07:41.550 --> 01:07:49.260

Kevin Magee: The question is, do you want to meet and maybe we can be ready in May and then be able to take the summer period off do you want to meet in June good.

831

01:07:50.640 --> 01:07:54.660

Kevin Magee: A good month or so, to work through Council and.

832

01:07:55.770 --> 01:07:56.490

Kevin Magee: engineering.

833

01:07:57.210 --> 01:07:57.360

I.

834

01:07:58.530 --> 01:08:00.030

Kathy: am still doesn't move fast.

835

01:08:00.720 --> 01:08:01.350  
iPad: They don't.

836  
01:08:02.100 --> 01:08:06.540  
Kathy: know they started district commission's been waiting over a year  
for him to.

837  
01:08:07.320 --> 01:08:07.590  
hear.

838  
01:08:09.270 --> 01:08:10.020  
iPad: My God.

839  
01:08:14.430 --> 01:08:15.330  
Kevin Magee: depends how.

840  
01:08:20.490 --> 01:08:21.510  
iPad: This June suit.

841  
01:08:22.830 --> 01:08:24.120  
Shavaun Towers: jim's fine by me.

842  
01:08:24.630 --> 01:08:25.650  
Caroline Herrick: fine by me.

843  
01:08:25.980 --> 01:08:29.460  
Kathy: Maybe we can always change it if we need to, but we can you know  
set the date.

844  
01:08:30.210 --> 01:08:32.160  
iPad: yeah we can always bring it forward.

845  
01:08:32.580 --> 01:08:35.610  
iPad: yeah for chance, he moves fast on it.

846  
01:08:38.520 --> 01:08:40.470  
Kathy: So you want to go with like the third Thursday.

847  
01:08:42.060 --> 01:08:43.560  
iPad: And I don't care everybody.

848

01:08:44.520 --> 01:08:45.300  
Kevin Magee: that'd be the.

849  
01:08:46.080 --> 01:08:47.280  
Kathy: 17th of June.

850  
01:08:48.480 --> 01:08:50.580  
Kathy: You got anything ah this plan Kevin.

851  
01:08:50.790 --> 01:08:53.490  
Kevin Magee: i'm working on scheduling vacation so.

852  
01:08:56.940 --> 01:08:57.540  
Kevin Magee: i'm.

853  
01:09:02.310 --> 01:09:02.700  
Kathy: Go with.

854  
01:09:03.540 --> 01:09:08.400  
Kevin Magee: darla one now by me, I may have to advise change that once I figure out my vacation schedule.

855  
01:09:10.170 --> 01:09:10.650  
iPad: been just.

856  
01:09:12.480 --> 01:09:17.340  
iPad: An aside but there's still Guilford fair parade Does that mean this don't kill fruits bear.

857  
01:09:18.390 --> 01:09:22.560  
Kevin Magee: I heard they're trying to look to move forward with that, I think I heard something.

858  
01:09:23.190 --> 01:09:23.700  
Okay.

859  
01:09:26.520 --> 01:09:31.920  
iPad: let's just the side, so I said Okay, the 17th of June everybody.

860  
01:09:32.160 --> 01:09:36.600  
Kevin Magee: Do you actually do you want to split it and go for the the 10th of June.

861

01:09:37.710 --> 01:09:38.280

iPad: Okay.

862

01:09:40.770 --> 01:09:43.740

Kevin Magee: I think I might be closer vacation period, towards the end of the month there.

863

01:09:44.670 --> 01:09:45.240

Okay.

864

01:09:46.710 --> 01:09:47.280

iPad: All right.

865

01:09:49.650 --> 01:09:51.000

iPad: motion to adjourn.

866

01:09:54.390 --> 01:09:56.610

iPad: Second, all in favor.

867

01:09:56.940 --> 01:09:58.500

iPad: Second hi.

868

01:10:00.420 --> 01:10:03.630

iPad: Well, hope everybody's vaccinated.

869

01:10:05.430 --> 01:10:05.790

Kathy: yeah.

870

01:10:06.030 --> 01:10:08.340

iPad: This is such a sense of relief.

871

01:10:09.270 --> 01:10:12.810

Kathy: Huge yes, she Yvonne.

872

01:10:12.990 --> 01:10:16.770

Kathy: Can you give the name of the tree that the last.

873

01:10:16.890 --> 01:10:29.970

Shavaun Towers: I saw that sorry i've had one of those days, where i've been back to back meetings it's have to cody them I can't imagine why you

didn't get that I will I will type it out for you and send you a response.

874

01:10:30.270 --> 01:10:31.950

Kathy: Okay, so I need the spelling.

875

01:10:32.640 --> 01:10:34.860

Shavaun Towers: yeah no it's it's not a normal tree.

876

01:10:35.580 --> 01:10:37.350

Kathy: yeah okay great thanks shovel.

877

01:10:37.710 --> 01:10:38.820

Shavaun Towers: yep not a problem.

878

01:10:39.660 --> 01:10:41.520

Shavaun Towers: Okay, good to see everyone.
